Chairman's foreword

This report presents the Joint Committee of Public Accounts and Audit's review of aviation security in Australia. The review arose from the Committee's statutory obligation to review reports of the Auditor-General, namely *Audit Report No. 26, 2002–2003, Aviation Security in Australia* which was tabled in January 2003.

Australia's aviation industry services approximately 50 million international and domestic passenger movements each year and involves some 70 000 employees who contribute in one way or another to aviation security. The industry is regulated by the Department of Transport and Regional Services.

The Committee has reviewed the current threat environment within which Australia's aviation industry operates, the opportunities and costs of security enhancements, the aviation security framework, and the human aspects of security, including the culture of security.

In summary, the security measures under which aviation security operates in Australia are appropriate to the current level of threat, there is flexibility to adjust the framework to meet changing threats, and the culture of security is positive.

The Committee has identified the security culture as being one of the more important aspects of security and is pleased with the attitude of employees at the interface between the aviation industry and the travelling public. The Committee has drawn on its own experiences of airline travel in Australia and overseas and notes the friendly, yet firm and professional attitude of the personnel involved in aviation security.

This security attitude in Australia contrasts markedly with the attitudes of security personnel, particularly screeners, in some other countries. The alternative belligerence, heavy handedness, and arrogance—will not engage the public and will hinder security outcomes. The Committee has made five recommendations aimed at:

- clarifying the interaction between the newly created Australian Government airport security committees and existing airport security committees;
- strengthening the regulations by the inclusion in them of the nonnegotiable aspects of the security framework;
- improving the procedures for the return of expired aviation security identification cards;
- broadening security awareness training to cover everyone who has access to security-controlled areas at airports; and
- maintaining the positive security culture through the introduction of educational measures aimed at promoting a robust security culture.

Overall, the Committee is satisfied that the standard of security at Australia's airports and on aircraft is sufficient to meet the current threat environment. From time to time there will be security incidents triggered by circumstances at various layers in the system. Sometimes an incident which may appear trivial to the casual observer will cause major disruption. The Committee believes this shows aviation participants are taking their security responsibilities seriously.

I regard this report as being a positive report card for aviation security in Australia at this point in time.

Duties of the Committee

The Joint Committee of Public Accounts and Audit is a statutory committee of the Australian Parliament, established by the *Public Accounts and Audit Committee Act 1951*.

Section 8(1) of the Act describes the Committee's duties as being to:

- (a) examine the accounts of the receipts and expenditure of the Commonwealth, including the financial statements given to the Auditor-General under subsections 49(1) and 55(2) of the *Financial Management and Accountability Act 1997*;
- (b) examine the financial affairs of authorities of the Commonwealth to which this Act applies and of intergovernmental bodies to which this Act applies;
- (c) examine all reports of the Auditor-General (including reports of the results of performance audits) that are tabled in each House of the Parliament;
- (d) report to both Houses of the Parliament, with any comment it thinks fit, on any items or matters in those accounts, statements and reports, or any circumstances connected with them, that the Committee thinks should be drawn to the attention of the Parliament;
- (e) report to both Houses of the Parliament any alteration that the Committee thinks desirable in:
 - (i) the form of the public accounts or in the method of keeping them; or
 - (ii) the mode of receipt, control, issue or payment of public moneys;

- (f) inquire into any question connected with the public accounts which is referred to the Committee by either House of the Parliament, and to report to that House on that question;
- (g) consider:
 - (i) the operations of the Audit Office;
 - (ii) the resources of the Audit Office, including funding, staff and information technology;
 - (iii) reports of the Independent Auditor on operations of the Audit Office;
- (h) report to both Houses of the Parliament on any matter arising out of the Committee's consideration of the matters listed in paragraph (g), or on any other matter relating to the Auditor-General's functions and powers, that the Committee considers should be drawn to the attention of the Parliament;
- (i) report to both Houses of the Parliament on the performance of the Audit Office at any time;
- (j) consider draft estimates for the Audit Office submitted under section 53 of the *Auditor-General Act 1997*;
- (k) consider the level of fees determined by the Auditor-General under subsection 14(1) of the *Auditor-General Act 1997*;
- (l) make recommendations to both Houses of Parliament, and to the Minister who administers the *Auditor-General Act 1997*, on draft estimates referred to in paragraph (j);
- (m) determine the audit priorities of the Parliament and to advise the Auditor-General of those priorities;
- (n) determine the audit priorities of the Parliament for audits of the Audit Office and to advise the Independent Auditor of those priorities; and
- (o) undertake any other duties given to the Committee by this Act, by any other law or by Joint Standing Orders approved by both Houses of the Parliament.

Terms of reference

As part of its statutory responsibility to examine reports from the Auditor-General, the Joint Committee of Public Accounts and Audit is expanding its review of *Audit Report No. 26, 2002-2003, Aviation Security in Australia, Department of Transport and Regional Services* to inquire and report on:

- a) regulation of aviation security by the Commonwealth Department of Transport and Regional Services;
- b) compliance with Commonwealth security requirements by airport operators at major and regional airports;
- c) compliance with Commonwealth security requirements by airlines;
- d) the impact of overseas security requirements on Australian aviation security;
- e) cost imposts of security upgrades, particularly for regional airports;
- f) privacy implications of greater security measures; and
- g) opportunities to enhance security measures presented by current and emerging technologies.

List of recommendations

Recommendation 1

5.63 When an Australian Government security agency committee is established at a particular airport, the Department of Transport and Regional Services should be responsible for establishing a memorandum of understanding between the Government security agency committee and the corresponding airport security committee.

Recommendation 2

6.15 The requirement for airport security committees and other essential requirements for aviation security programs should be defined in the Aviation Transport Security Regulations 2004.

Recommendation 3

6.33 The Department of Transport and Regional Services should set a performance standard for the return of expired aviation security identification cards (ASICs) for each card issuing body. If this standard is not met, the department should review the mechanisms for ASIC return in the issuing body's ASIC program and require change if considered necessary.

Recommendation 4

7.41 The Department of Transport and Regional Services should require aviation participants to include in their transport security programs compulsory initial and ongoing security awareness training for airport security identification card holders who have not received security training as part of their normal duties.

Recommendation 5

9.51 The Department of Transport and Regional Services should ensure that the security programs of aviation industry participants include educational instruments designed to promote an appropriate attitude to security and, through this, a robust security culture.
