Chairman's Foreword

This report presents the Joint Committee of Public Accounts and Audit's review of an exposure draft of the Financial Framework Legislation Amendment Bill. The review commenced following a proposal from the Minister for Finance and Administration.

The Committee has had an ongoing interest in the Commonwealth's financial framework, having recommended in 1995 that the Government introduce accrual budgeting. Most recently the Committee reviewed the accrual budget documentation in 2002. The Committee believes that the review of the draft Bill will identify at an early stage any changes that are needed and will expedite passage of the Bill when it is introduced in Parliament.

The Committee notes that the Bill is very long. It proposes amendments to 108 Acts and the repeal of 28 Acts. Some of the amendments in the Bill cover technical matters, such as the replacement of references to amounts paid to the Consolidated Revenue Fund with references to amounts paid to the Commonwealth; and replacement of references to components of the Reserved Money Fund with references to Special Accounts.

The Committee has concluded that the Bill will make an important contribution to improving the financial framework. It will do so by aligning references, in many Acts, to financial management with the *Financial Management and Accountability Act 1997* (FMA Act); by updating provisions to reflect good practice; and by clarifying other provisions.

However, the Committee has recommended some changes to the draft Bill with a view to further improving the financial framework legislation. These include:

- enhanced information to be included in determinations of the Finance Minister, made under the FMA Act, to establish a Special Account; and
- a change of the name 'Special Account' to 'Designated Purpose Account'.

The Committee also considered whether reporting in the Commonwealth will be improved by the Bill. In relation to Special Accounts the Committee has noted the improvements in reporting to Parliament for 2003-04. However, it will keep a watching brief on actual improvements to ensure that greater transparency and accountability to Parliament is achieved.

The Committee is of the firm belief that the Commonwealth's financial framework legislation is important to underpin the efficient and effective management of the Commonwealth's resources, and for promoting good practice. The Bill, with the changes recommended by the Committee, will bring this framework up to date. Consequently, the Bill should be introduced into Parliament as soon as is feasible.
