CSIRO consists of eleven National Research Flagships, 13 research divisions and a number of other research and support units at over 54 sites across Australia. The responsibility for purchasing and supply of printing is administered locally at each site. Additionally CSIRO's expenditure on printing is included with other miscellaneous items that cannot be attributed to any identifiable codes in expenditure transactions under CSIRO's miscellaneous materials

supplies and services code. It would require a manual check of the financial records of all of CSIRO's sites for the specified period to identify transactions relevant to the items in question. This manual check would involve an unreasonable diversion of resources.

Details on documents printed for the period **1 July 2012 to 31 May 2013** by ASQA are as follows:
