Interpreting school financial information

The following table and charts summarise the recurrent and other income of the selected school together with its capital expenditure for the calendar year. Where data are available for a minimum of three consecutive calendar years, total cumulative capital expenditure for those years will be displayed. Caution should be taken in using the information presented below when making direct funding comparisons between schools. The financial resources available to schools are directly influenced by the nature of the school (including its location and profile), its programs and its operations. Further information on the methods used and on the comparability of the data is available in the [financial limitations](#). Further information is also available about [financial reporting for non-government multi-campus schools](#).
