Topic: Initiative 40 of the Airports Act 1996

Senator Bridget McKenzie asked:

The announcement of initiative 40 to review the Airports Act 1996 by 2030 via a comprehensive review is welcomed.

Are there any decisions that could occur in the interim prior to 2030 when the review is to be finalised, that could undermine our federally leased airports across Australia?

Answer:

Leased federal airports will continue to be regulated in line with the *Airports Act 1996* and supporting regulations ahead of the review.
