

Question on notice no. 10

Portfolio question number: F010

2020-21 Additional estimates

Finance and Public Administration Committee, Finance Portfolio

Senator Rex Patrick: asked the Australian Naval Infrastructure Pty Ltd on 23 March 2021—

Senator PATRICK: ...Moving to the Osborne South shipyard, you previously advised the yard was being built to the functional requirements specified to it by the Commonwealth. That's correct, isn't it?

Mr Seaton: That's right.

Senator PATRICK: When was that functional specification finalised?

Mr Seaton: ANI was given a design in October 2017.

Senator PATRICK: It is possible to provide the committee with that functional specification?

Mr Seaton: I'll take that on notice.

Answer —

This question should be referred to the Department of Defence as the owner of the high level functional requirements document for the Osborne South shipyard.
