Portfolio question number: SQ18-000105

2017-18 Additional estimates

Finance and Public Administration Committee, Cross Portfolio Indigenous matters

Senator Jenny McAllister: asked the Department of Health on 2 March 2018—

Senator McALLISTER: Would you be able to give us a total number of how many family partnership workers and nurses have been employed through the program? Are they the two main categories of staff?

Ms Wallace: Rather than Aboriginal workers, it is a nurse-led home visiting service, so they are all nurses and then there is the Aboriginal family partnership worker. They would all be Indigenous employees, but I would certainly be able to provide you with the breakdown.

Senator McALLISTER: I'm interested in understanding really the total number of staff involved in the program and how many of those are nurses and how many are family partnership workers.

Ms Wallace: Certainly.

Senator McALLISTER: How many New Directions: Mothers and Babies Services sites are there?

Ms Wallace: There are currently 124 sites, and we are, as I mentioned, currently finalising a process to identify the remaining sites.

Senator McALLISTER: Sorry, you did mention that.

Ms Wallace: At the height of the expansion, we will be at 136 sites.

Senator McALLISTER: Would you be able to provide on notice that list of 124 locations?

Ms Wallace: Certainly.

Senator McALLISTER: In doing that, as per my earlier request around the ANFP sites, can you also provide a list of the funding allocated to each service?

Ms Wallace: I will take that on notice, certainly.

Answer:

Australian Nurse-Family Partnership Program

There are three main staff positions in the Australian Nurse-Family Partnership Program (ANFPP): the Nurse Supervisor, the Nurse Home Visitor, and the Family Partnership Worker.

The following table provides the total number of staff in each position across the ANFPP, as at 8 March 2017.

Position	Number
Nurse Supervisors	11
Nurse Home Visitors	47
Family Partnership Workers	36
