Question on notice no. 74

Portfolio question number: 75

2019-20 Supplementary budget estimates

Foreign Affairs, Defence and Trade Committee, Foreign Affairs and Trade Portfolio

**Senator the Hon. Penny Wong**: asked the Department of Foreign Affairs and Trade on 24 October 2019—

Provide a table showing, for each year from 2014-15 to 2022-23, total Australian Official Development Assistance by country and region of benefit with a breakdown by the following investment priorities for each country and region of benefit: infrastructure, trade facilitation and international competitiveness; agriculture, fisheries and water; effective governance (policies, institutions and functioning economies); education; health; building resilience (humanitarian assistance, disaster risk reduction and social protection); and general development support. For the years 2014-15 to 2017-18 provide actual amounts. For the years 2018-19 to 2022-23, provide 2019-20 Budget estimates. Please include in the table core contributions to multilateral organisations and other ODA not attributable to countries or regions. **Answer**—

The attached table provides total Official Development Assistance (ODA) investment flows by country and region, disaggregated by Investment Priority for 2014-15 to 2019-20. The 2018-19 and 2019-20 figures are estimates.

DFAT is unable to provide total ODA investment flows by country, disaggregated by Investment Priority and region, for financial years beyond 2019-20. This is because complete investment-level information or estimates are not available for forward years.

The 'Actuals' figures in the attached table are extracted from a live dataset held by DFAT for internal management purposes. This information has not previously been publicly released in the format requested by country, region and investment priority in time series. This data will differ from information published in Australian Aid Budget Summaries and Statistical Summaries as those publications present information at a point-in-time and in a different format.
