*Notes:*

- 'Requests' refers to system transactions. An individual may submit more than one request.
- Travel exemption data cannot be disaggregated by visa subclass and current location prior to 1 August 2020, when processing of travel exemption requests moved to the Travel Exemption Portal.
- It is not possible to accurately disaggregate visa holders from visa applicants in travel exemption data. Prior to 3 December 2020 visa information was only collected for the main traveller in a request.
- Visa status and location data is based on client declared information provided in the submitted travel exemption request form
- Received and approved numbers cannot be used to extrapolate approval rates. Individual requests may not be received and finalised during the same period.
