**Senator Bridget McKenzie:** asked the Airservices Australia on 2 November 2023—

From June 2022 La Perouse has been reporting ongoing curfew noise due to not being able to use the main N/S runway due to runway repairs, taxiways, the Gateway project etc. etc It appears that this will be ongoing until 2025 i.e. for 3 years but Airservices just give updates every six months with extensions. This is debilitating for the community who hang out for the end of the curfew period only to find another 6 month extension. How can Airservices and Sydney Airport not forecast in advance for how long this will last?

**Answer:**

The Department of Infrastructure, Transport, Regional Development, Communications and the Arts are the delegated authority to grant dispensations for runway maintenance and other critical works at Sydney Airport. Questions relating the works should be directed to the department or Sydney Airport.
