**Senator Bridget McKenzie:** asked the Department of Infrastructure, Transport, Regional Development, Communications and the Arts on 12 February 2024—

Senator McKENZIE: ... The reality is that right now we have two air traffic controllers go sick and the whole country stops. That's what's happening. You can talk about the white and green paper process as much as you like, but right now businesses and families are all struggling with the fact that Airservices Australia, as an agency, can't get its act together. My question, Minister, is: why has it taken the Senate to instigate an investigation into this agency? Why hasn't Minister King herself reviewed the behaviour and the functionality of Airservices Australia? You might want to take that on notice.

**Answer:**

The Minister of Infrastructure, Transport, Regional Development and Local Government, the Hon Catherine King MP's Statement of Expectations for Airservices Australia clearly sets the minister's expectations around Airservices' organisational capability, culture, staffing and service levels and updates on these matters are provided on a regular basis.
