 - (1) condemns the Government for:
 - (a) failing to deliver urgently needed funding for Indigenous students by insisting on complex and bureaucratic administrative arrangements that prevent many schools and communities from benefiting from education programs;
 - (b) causing a \$126 million underspend in Indigenous Education Strategic Initiatives expenditure in 2004-05 through bureaucratic bungling;

 - (2) also removes rights, entitlements, conditions and protections afforded to Australians in the workplace, whether employees or independent contractors;
 - (3) does this by allowing employees to be treated as ‘independent contractors’, thereby removing employee protections and entitlements and placing superannuation, tax, and workers’ compensation burdens on them;
 - (4) does this by removing protections from independent contractors who are in a dependent contract position and as a consequence in an unequal bargaining position;
 - (5) effects this by:
 - (a) continuing to use the common law definition of independent contractor as the basis of law without the guidance of statutory criteria;
 - (b) allowing employees to be treated as independent contractors in a sham way by ineffective anti-sham provisions;
 - (c) overriding State laws with employee deeming provisions;
 - (d) overriding State unfair contracts provisions which provide protection to employees, contractors and small business;
 - (e) overriding any future State and Territory owner-driver transport laws and putting existing State owner-driver transport laws at risk; and
 - (f) failing to provide any genuine protections for outworkers through ineffective outworker provisions, significantly weakening outworker entitlements;
 - (6) introduces even more complexity and confusion into Australia’s workplace laws; and
 - (7) treats the Senate Employment and Workplace Relations Committee reporting on these matters with contempt by dealing with the legislation prior to consideration of its report”.

Notices—*continued*

- *1 **MR CADMAN:** To move—That the House acknowledges that:
- (1) the cost of housing in Australia is often more than double what it should be;
 - (2) the high cost is mainly due to the huge increase in the price of land and, as a result, land affordability is a problem in Australia, and especially in Sydney;
 - (3) Sydney is the most penalised city in the country, with affordability being worse than in London or New York;
 - (4) the main causes are State and local government planning restrictions and taxes; and
 - (5) State and local governments must play their part to reduce the cost of housing so the great Australian dream remains a reality, especially for future generations. (*Notice given 17 August 2006.*)

7 MR MCCLELLAND: To move—That this House:

- (1) note:
 - (a) the Parliament's and the Government's support for the international ban on victim-activated anti-personnel landmines but that no corresponding ban exists on vehicle-activated anti-vehicle mines;
 - (b) that anti-vehicle mines contaminate at least 56 countries around the world with severe impacts from anti-vehicle mines occurring in Afghanistan, Angola, Eritrea, Ethiopia and Sudan;
 - (c) that, like anti-personnel landmines, anti-vehicle mines:
 - (i) are indiscriminant, failing to distinguish between civilian and military vehicles;
 - (ii) kill many more civilians, humanitarian aid workers and peace-keepers than soldiers, killing hundreds each year;
 - (iii) leave behind a deadly legacy that lasts for decades after conflicts finish;
 - (iv) disrupt the movement of essential goods and humanitarian aid in impoverished post-conflict countries, resulting in thousands of lives being put at risk; and

 - (g) that publicly available information suggests that Australian Defence Force personnel have not used anti-vehicle mines in any conflict since the Second World War;

- (h) that Australia's stock of anti-vehicle mines is obsolete and used only for training purposes; and
 - (i) that the dominance of air power on the modern battlefield and the development of modern anti-tank weapons means that anti-vehicle mines are becoming more and more irrelevant to modern armed forces; and
- (2) call on the Government to:
- (a) introduce legislation to prevent the production, trade and use of anti-vehicle mines that are not command detonated, except for training in mine clearance by ADF personnel, effectively extending legislation that already exists for victim-activated anti-personnel landmines; and
 - (b) request that the Joint Standing Committee on Treaties conduct an inquiry into the best path forward for developing international consensus on an international instrument banning the use of, stockpiling of, trade in, and manufacture of, anti-vehicle mines that are not command detonated having regard to the:
 - (i) humanitarian impacts of anti-vehicle mines;
 - (ii) risks posed by anti-vehicle mines to ADF personnel in operations around the world;
 - (iii) evidence of the declining military utility of anti-vehicle mines on modern battlefields;
 - (iv) existing restrictions placed on anti-vehicle mines by Amended Protocol II of the Convention on Prohibitions or Restrictions on Use of Certain Conventional Weapons Which May be Excessively Injurious or To Have Indiscriminate Effects (CCW) and the effectiveness of these existing measures; and
 - (v) current discussion within the CCW with regard to a new Protocol to place restrictions on the design of, trade in, and use of, Mines Other Than Anti-Personnel Mines. (*Notice given 1 December 2005. Notice will be removed from the Notice Paper unless called on on 4 September 2006.*)

- (3) recognise that the Melbourne Cup has become a national event and is observed by the majority of Australians in some form and the fact that a large number of Australians take time during the day to observe and celebrate this event means it is highly appropriate that this annual event be made available to all Australians as it is observed in Melbourne.  - (a) ageing parents and carers of disabled children face a crisis of lack of accommodation options for disabled children;
 - (b) any ageing parents and carers of disabled children are in need of aged care accommodation for themselves;
 - (c) due to limited available accommodation options for disabled people, many aged carers of disabled people are significantly disadvantaged;
 - (d) there is an urgent need to assist ageing parents and carers of disabled children to access quality accommodation and care for disabled people;
 - (e) in October 2005 the Prime Minister announced a \$200 million package to assist parents to establish private trusts for the future care of their disabled children; and
 - (f) there is an expert advisory group established to advise on the implementation of the package; and

(*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 4 sitting Mondays after 4 September 2006.*)

(*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 4 sitting Mondays after 4 September 2006.*)

- (1) recognises Taiwan's:
- (a) world class health care system;
- (b) strong commitment to improved international health standards and international health security; and
- (c) proud record of medical assistance to developing countries;
- (2) notes that:
- (a) as emphasised by Dr Jong-wook Lee, Director-General of the World Health Organisation (WHO), the experience of SARS in 2003, and the ongoing threat of Avian Influenza, show the imperative of an internationally coordinated approach to international health emergencies;
- (b) in the same way that Taiwan's containment and management efforts during the SARS epidemic in 2003 were hampered by its inability to access the expertise of the WHO, its capacity to meet the

challenges of a global Avian Influenza epidemic would be similarly constrained if it continues to be denied the right to participate in the operation of the WHO;

- (c) the World Health Assembly's (WHA) Rules of Procedure formally allow for the participation of observers in the activities of the organisation, without reference to questions of sovereignty;
 - (d) the participation of observers in WHO activities is consistent with the principle of 'universal application', given expression in the WHO's constitutional mandate to "advance the health of all peoples";
 - (e) there are currently six semi-permanent WHA observers, including a sovereign state (the Holy See), a quasi-state (Palestine), a political entity (the Order of Malta), and three international organisations, and thus the granting to Taiwan of observer status should not be construed as a form of political recognition;
 - (f) private Members' bills in support of Taiwan's bid for observer status with the WHO were tabled in this House in both 2003 and 2004;
 - (g) support for Taiwan's previous bids has also come from many other governments, including the US Government, the EU, Japan and Canada at the May 2003 and 2004 Summits of the World Health Assembly in Geneva; and
 - (h) there is considerable public support for Taiwan's participation in the WHO from professional medical organisations; and
- (3) supports the participation of Taiwan in the WHA as an observer, given that such participation would allow Taiwan to more effectively contribute to international health coordination, and to better protect its 23 million people from possible trans-national health emergencies, including Avian Influenza. (*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 5 sitting Mondays after 4 September 2006.*)

 - (2) acknowledges that a similar problem confronts those whose livelihood is threatened by government imposed changes in the use of forest resources;
 - (3) acknowledges that compensation is being made in recognition of the loss of property rights caused by such policies;
 - (4) recognises that any benefit such compensation confers will be substantially negated unless the government changes its stated policy of treating such compensation as income and taxing it accordingly; and
 - (5) calls for the introduction and passage without delay of amendments to the Income Tax Assessment Act to correct this anomaly. (*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 6 sitting Mondays after 4 September 2006.*)
- 27 AVOIDING DANGEROUS CLIMATE CHANGE (KYOTO PROTOCOL RATIFICATION) BILL 2006** (*Mr Albanese*): Second reading (*from 29 May 2006*). (*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 6 sitting Mondays after 4 September 2006.*)

Jim Short, and their contribution towards improving relationships between the Turkish Cypriot and Greek Cypriot communities to bring about the reunification of the island of Cyprus;
 - (3) requests the Government of the Republic of Turkey, as it moves towards joining the European Union as a full member, to:
 - (a) return private property to minority groups of all religious backgrounds and to allow the freedoms of settlement and property throughout Cyprus;
 - (b) permit the re-opening of the Greek Orthodox Theological College on the island of Halke; and
 - (c) permit Christian denominations to operate seminaries of their own, whether Greek, Armenian or Syriac; and

- (4) encourages all parties, including the Turkish Government and the Government of the Republic of Cyprus, to work together with the United Nations and the European Union to ensure a lasting solution in which all Cypriots enjoy the economic, political and security benefits of the EU in a united, democratic, just Cyprus. (*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 6 sitting Mondays after 4 September 2006.*)

 - (3) acknowledges residents' concerns about price gouging within the petroleum refining and distribution industry and their desire for some action to be taken by the Howard Government to reduce fuel prices; and

- (1) notes the statement made on 20 March 2006 by the United Nations Special Rapporteur on Freedom of Religion or Belief expressing concern about the treatment of followers of the Baha'i faith in Iran;
 - (2) expresses its grave concern that instructions have been issued to collect information and monitor activities of members of the Baha'i faith in Iran;
 - (3) regards such action as an unacceptable interference with the rights of members of religious minorities;
 - (4) fears that such monitoring could be used as the basis for persecution and discrimination against members of the Baha'i faith; and
 - (5) urges the Government to pursue these concerns with our Embassy and with representatives of the Iranian Government. (*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 6 sitting Mondays after 4 September 2006.*)
- 31 **UNITED NATIONS AND DARFUR:** Resumption of debate (*from 29 May 2006—Mr L. D. T. Ferguson, in continuation*) on the motion of Mr Baird—That this House:

 - (2) call upon member nations to provide peacekeeping forces to quell the civil war currently taking place in the country;

- (1) notes the growing public outrage at the majority decision of this parliament on March 30th to dispose of the Commonwealth shareholding in Snowy Hydro;
 - (2) notes legal advice suggesting the parliamentary motion to sell Snowy Hydro is constitutionally inadequate in the absence of specific legislation passed by parliament;
 - (3) recognises that the Murray Darling Association is gravely concerned that there are no guarantees that licensed irrigators will be protected in the future and that power generation will take precedent over water supplies;
 - (4) notes proposals to cap shareholdings by any one group either temporarily or permanently cannot be protected in legislation from future change;

- (5) notes the remaining 72 years of existing licence agreement conditions will not be., included in any sale agreement;
- (6) notes in its February 2005 submission to the National Competition Council relating to the application of Lakes R Us to undertake water storage and release services, Snowy Hydro stated: "To allow the release of water to be subject to the arbitrary decisions of private individuals-would be contrary to the public interest of protecting the environment";
- (7) notes the crucial role the Snowy Scheme plays in alternative energy, environmental management and water supply strategies that don't necessarily coincide with the exploitation of these resources for private gain; and
- (8) appalled that this motion and debate is about to be gagged, calls on the Australian Government to give notice it will rescind the March 30 motion approving the sale of its Snowy Hydro shareholding in the public interest and use its corporations powers under s51 (xx) of the Constitution to prevent the sale of any shares in Snowy Hydro Pty Ltd pending a full and independently chaired public inquiry to be conducted into the actual capital requirements of Snowy Hydro, the 46 operational agreements between the three current shareholders and the impact of the proposed sale on all relevant parties (*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 6 sitting Mondays after 4 September 2006.*)

- (1) recalls and records the solemn commitment given by the Prime Minister to Alan Jones on Radio 2GB on 4 August 2005 that "I mean some people are going to have to work public holidays...it would be absurd and unfair and unreasonable if somebody has to work on a public holiday that that person isn't compensated by being paid whatever it is, the double time or the time and a half...those arrangements are going to continue...";
- (2) notes that appropriate compensation includes things like penalty rates and public holiday leave loadings;
- (3) notes that since the Government's extreme industrial relations changes commenced on 27 March 2006, a single sentence in an Agreement can remove all entitlements to public holiday pay, penalty rates and overtime pay, and that the Government's own statistics show:
- (a) 64 per cent of assessed AWAs have removed penalty rates;
- (b) 63 per cent have removed leave loadings;
- (c) 52 per cent have removed shiftwork loadings; and
- (d) 41 per cent did not contain gazetted public holidays, and
- (4) affirms its support for the Prime Minister's August 2005 commitment that employees should receive adequate compensation for working on public holidays; and

 - (a) work with the Government of Papua New Guinea to protect the natural environment and the historical integrity of the Kokoda Track;

 - (c) strong competition on the freight rail network is encouraged and that competition between different transport industries is maintained. (*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 8 sitting Mondays after 4 September 2006.*)
