Aspects of the Government's current policy in relation to asylum seekers and refugees, including, but not limited to:

- (b) the processes and criteria being used to assess the asylum seekers who have been transferred to Papua New Guinea (PNG) and Nauru;
- (c) the level of access to legal advice for people on PNG and Nauru;
- (d) the nature of the facilities which asylum seekers are detained in;
- (e) the placement options for those people on PNG and Nauru who are found to be refugees;
- (f) whether any asylum seekers who are not found to be refugees will be unable to return to their country of origin and what will be done in such an event;
- (g) the extent and nature of Australia's international involvement in facilitating an orderly worldwide system for movement and settlement of refugees;
- (h) likely future worldwide trends on the movement of refugees;
- (i) the impact and operation of the seven bills amending the Immigration Act which were passed by the Senate on 26 September 2001; and
- (j) reviewing all reports, proposals and recommendations in relation to activities and facilities at the Woomera Immigration Detention Centre, including whether or not the centre should be closed down or its operations scaled back.

Notice given 14 March 2002

- *2 **Chair of the Economics References Committee (Senator Collins):** To move—That the following matter be referred to the Economics References Committee for inquiry and report by 27 August 2002:

The impact of public liability insurance for small business and community and sporting organisations, with particular reference to:

- (a) the cost of public liability insurance;
- (b) reasons for the increase in public liability premiums; and
- (c) schemes, arrangements or reforms that can reduce the cost of public liability insurance and/or better calculate and pool risk.

- *3 **Leader of the Australian Democrats (Senator Stott Despoja):** To move—

- (a) notes that:
 - (i) on 13 March 2002 the Deputy President ruled that Senator Heffernan's speech on the address-in-reply debate on 12 March 2002 was in breach of standing order 193, in that it contained

- offensive words, imputations of improper motives and personal reflections on a judicial officer,
- (ii) the ruling noted that Senator Heffernan's speech was so structured that it was impossible for the Chair to detect that the speech was in breach of the standing orders until the very end of the speech,
 - (iii) the nature of that speech strongly suggests that this breach of the standing orders was premeditated and deliberate,
 - (iv) resolution 9 of the Senate's Privilege Resolutions enjoins senators to take the following matters into account in speaking in the Senate:
 - (A) the need to exercise their valuable right of freedom of speech in a responsible manner,
 - (B) the damage that may be done by allegations made in Parliament to those who are the subject of such allegations and to the standing of Parliament,
 - (C) the limited opportunities for persons other than members of Parliament to respond to allegations made in Parliament,
 - (D) the need for senators, while fearlessly performing their duties, to have regard to the rights of others, and
 - (E) the desirability of ensuring that statements reflecting adversely on persons are soundly based,
 - (v) the content and nature of Senator Heffernan's speech strongly suggests that the speech was made in premeditated and deliberate disregard of the matters set out in that resolution, and
 - (vi) these circumstances raise the question whether Senator Heffernan has been guilty of a contempt of the Senate by committing a premeditated and deliberate breach of the rules of the Senate compounded by wilful disregard of those rules; and
- (b) refers the following matter to the Committee of Privileges:
Whether Senator Heffernan committed a contempt of the Senate in making his speech on 12 March 2002 in the address-in-reply debate.

- (2) Requests the President of the Senate to transmit this resolution to President Musharraf, Prime Minister Vajpayee, the foreign and defence ministers of India and Pakistan, and their high commissions in Canberra.
- (3) Urges the Australian Government to make further representations to the above effect.

30 **Senator Brown:** To move—That the Senate—

- (2) Does the Government intend to remove discrimination against homosexual couples with regard to superannuation entitlements for surviving partners of members of the Commonwealth Superannuation Scheme; if so, when.

80 **Senator Harris:** To ask the Minister representing the Minister for Immigration and Multicultural and Indigenous Affairs—

- (4) Was the price paid by the Indigenous Land Corporation for Roebuck Plains within commercial valuation at the time.
- (5) Was a commercial valuation of Roebuck Plains undertaken prior to its purchase by the Indigenous Land Corporation.
- (6) Why did the Indigenous Land Corporation purchase Roebuck Plains when there was no registration of a land need or application by proponents.
- (7) Was there an assessment of Roebuck Plains against National Indigenous Land Strategy criteria before the Indigenous Land Corporation Board considered a purchase proposal.
- (8) Who negotiated the purchase price of Roebuck Plains.
- (9) Why did the Indigenous Land Corporation not utilise its usual service provider, KFPW, in negotiating a purchase price.
- (10) Was a cattle muster conducted prior to the Indigenous Land Corporation’s purchase of Roebuck Plains.

- (11) Why did the Indigenous Land Corporation enter into a 15-year management agreement with the vendors of Roebuck Plains that effectively locked Aboriginal people out of the arrangement.
 - (12) What capital investment did the vendors of Roebuck Plains (Great Northern Pastoral Company) make to entitle their retaining about 50 per cent of all profits for the 15-year period of the management agreement.
 - (13) Why did the Indigenous Land Corporation pay the Great Northern Pastoral Company \$1 million to extricate itself from the 15-year management agreement that still had 14 years to run.
 - (14) Who negotiated the 15-year management agreement.
 - (15) Was a commission paid to the person or persons who negotiated the purchase price and management agreement.

 - (24) Did two directors and the Chief Executive Officer of the Indigenous Land Corporation enter into negotiations with the former owners of Roebuck Plains (Great Northern Pastoral Company) to strip the station of its stock without the knowledge or consent of other directors of the corporation.
 - (25) Was the price proposed by the Great Northern Pastoral Company for the purchase of the entire cattle herd of Roebuck Plains in accord with then current market prices.
- 81 **Senator Harris:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to documents relating to heavy truck specifications tabled pursuant to orders of the Senate:
- (1) In the middle of 1999 was a data disc deliberately corrupted by Mr Scott McFarlane of Roaduser International before being sent to the owner of F1, so that it would be unusable and thus prevent others from analysing the data, and that an uncorrupted disc was not sent until 2 to 3 months later.
 - (2) Were the air fare and related accommodation costs for the Melbourne to Brisbane return trip on 13 May 1999 that were listed in the external supplier expense document (K99-917, 024-026) relating to the Roaduser Report used solely for that purpose and not used to subsidise the costs of Roaduser personnel attending other functions at the Brisbane Truck Show, unrelated to the report.

- (3) Was the second testing of F4, a Mack CH Fleetliner prime mover, undertaken at the request of the manufacturer; if so, was the expense of this additional test costed to the report or to the manufacturer.
- (4) (a) Did the manufacturer of the Australian-designed and tested Hendrickson WD2 460 suspension that was fitted to the worst performing vehicle, F6, withdraw that suspension from the market early in 2001 after claiming there was nothing wrong with it; and (b) is it a fact that the manufacturer has no substitute available until a new suspension is introduced in 2002; if so: (i) why was the suspension withdrawn, and (ii) if it was due to its poor performance, why has there not been a recall or other action taken in relation to other vehicles similar in style to F6 fitted with that suspension.
- (5) (a) Was Roaduser International's tender for this investigation \$79 400, compared with the losing bidder's quote of about \$120 000; and (b) was the final payment to Roaduser International close to \$580 000.
- (6) With reference to documents T1112- 121-138 and K99-804—126-132, did Roaduser International tender to undertake publicity and problem definition for \$8 000, inspect-and-drive appraisals of 6 vehicles for \$14 850 (\$2 470 each), instrumented testing of 4 vehicles for \$33 050 (\$8 250 each), computer simulation and analysis relating to 4 instrumented tests for \$21 000, assessment of vehicles against industry standards for \$5 000, risk amelioration and problem scoping for \$3 000 and a report of the investigation for \$5 000.
- (7) Did Roaduser charge about \$80 000 to appraise 13 vehicles (\$6 200 each, or 2.5 times the quoted cost per vehicle) even though it did not undertake analysis of each vehicle using Roaduser's in-house, computer-based performance assessment and did not undertake a lane-change manoeuvre.
- (8) Did Roaduser charge about \$340 000 for 8 instrumented tests and drives (\$42 500 each, or 5 times the quoted cost per vehicle) even though the number of channels of data quoted to be collected was a minimum of 28 compared with only 3 more collected, and evaluation of the vehicle negotiating a standard bump and a steady turn and under severe braking were not carried out.
- (9) In relation to the investigation: (a) was Roaduser allowed to charge, for graduate engineers with about 2-years experience on \$40 000 per year (or \$30 per chargeable hour), a rate around \$150 per hour, or more than twice the rate generally charged by consultants for such engineers; (b) were the charge-out rates for the Chief Engineer and Manager Accident Mitigation \$250 per hour, and the rate for Dr Peter Sweatman \$350 per hour; and (c) have there been any other consultants in the road transport field for which the Australian Transport Safety Bureau has paid similar charge-out rates; if not, can the Minister advise why these rates were paid for this investigation.
- (10) Can the Minister confirm that: (a) while the Federal Office of Road Safety tender suggested the use of subcontracted, experienced and qualified organisations to conduct the vibration related tests of the investigation, Roaduser, which was not an experienced or qualified organisation in this field, undertook this work itself; (b) Roaduser quoted on, and undertook measuring of, driver's seat vibration in the vertical and fore-aft directions only, even though the relevant international standard (ISO 2631-1) required measurements in the side-to-side direction as well, and rates this vibration as being more important than the vertical direction; (c) in order to undertake this work, the Chief Engineer purchased a text on vibration

around August 1999; (d) much of the analysis of ‘vibration’ and other data was undertaken by a PhD student with no specific skills in either heavy vehicles or vibration; and (e) Roaduser charged the same hourly rate for this work even though it was not expert in the field.

- (11) Given the above, what action is being taken to recover excess monies paid to Roaduser under this contract.

82 **Senator Harris:** To ask the Minister for Communications, Information Technology and the Arts—

- (1) Why did the Minister’s office take from 14 June 2000 until 14 November 2000 to initially respond to a freedom of information (FOI) request by Kenneth Ivory, in relation to ‘Casualties of Telstra’ (COT) related matters.
- (2) What action is the Minister going to take to rectify the fact that the department’s delay has, whether intentionally or inadvertently, resulted in Mr Ivory not having FOI documents and not being in a position to present his case in January 2001 to the Supreme Court of Queensland.
- (3) Is the Minister aware that this FOI delay potentially had the same effect as in the five COT cases listed in Schedule A and Schedule B of the Senate working paper of 1997, whose matters also related to breaches of FOI by Telstra.
- (4) What action will the Minister take to have Telstra, or the relevant department, settle Mr Ivory’s damages immediately.
- (5) Why were Mr Ivory’s (Solar-Mesh) COT-related matters not settled prior to the Telstra ‘T2’ float, under the same terms and conditions as the five COT cases listed in Schedule A of the Senate committee’s working paper of 1997.
- (6) Will Mr Ivory’s damages claim immediately be resolved, under no less than the same terms and conditions as the five resolved COT cases listed in Schedule A that were settled just before the T2 float; if not, why not.
- (7) (a) How many people with COT-related issues has Telstra had arrested, or attempted to have arrested, under a mental health warrant, peace and good behaviour warrant or criminal warrant.
- (8) Was the purpose of that action to assist Telstra to assassinate the character of the COTs and to conceal the truth about systemic faults, to comply with Freehill, Hollingdale and Page’s ‘COT case strategy’, dated 10 September 1993.
- (9) How many of these COT-related matters have already been settled.
- (10) Against how many people with COT-related issues has Telstra and/or its lawyers prevailed on federal or state police to falsify police records to assassinate those people’s character and reputation to assist in concealing the truth about Telstra’s defective network, by use of corporate thuggery and neglect of duty of care.
- (11) Were any Telstra employees (and/or their agents) involved in having police records and/or mental health reports falsified to cause injury to COT-related people; if so, who were they.
- (12) What are the names of the police officers, medical practitioners, or others (and/or their agents) involved in having COTs defamed, intimidated, harassed or wrongfully arrested and who have been obtaining either mental health warrants, bogus psychiatric reports or bogus psychologists assessments made, based solely on information from Telstra or its agents,

- or who were involved in apprehension warrants being wrongfully obtained against COTs.
- (13) (a) Were any persons from within or associated with the Minister's office involved in the actions described in (12); if so, who were they; and (b) were any of these warrants ever condoned by the Minister.
 - (14) Were any Telstra employees (and/or their agents) involved in wrongfully obtaining warrants; if so, who were they.
 - (15) Did Telstra's former chairman, Mr David Hoare, have any conflict of interest.
 - (16) What other directorships has Mr David Hoare held from 1990 to date.
 - (17) Did any conflict of interest occur when Mr Stephen Mead, while seconded from Mallesons Stephen Jacques to Telstra, became in January 1996 a partner in Mallesons Stephen Jacques, while remaining on secondment to Telstra.
 - (18) On what specific date did Mr Stephen Mead cease being a seconded employee of Telstra.
 - (19) Is there any outstanding Telstra documentation that has not been provided under FOI and discovery processes; if so: (a) why has there been a delay in providing that information; and (b) when can Mr Ivory expect to receive that outstanding information, whether professional legal privilege has previously been claimed or not.
 - (20) Are there any outstanding documents under FOI and non-party disclosure in the Minister's offices; if so, when can Mr Ivory expect to receive this outstanding information, whether professional legal privilege has been previously claimed or not.
 - (21) Did Telstra employee, Mr Armstrong, attempt to have Mr Ivory sign a Telstra deed of settlement in January or February 2001, to walk away from his claims against Telstra and Mr Mead.
 - (22) Was the Minister aware that Telstra was attempting to have Mr Ivory commit illegal and unauthorised acts had he signed the settlement deed.
 - (23) Has the Minister condoned unconscionable conduct by Telstra's authorised officer in his attempt to silence Mr Ivory's claims while Mr Ivory was unrepresented.
 - (24) Why did Telstra refuse to pay for Mr Ivory to seek independent legal representation to advise Mr Ivory of Telstra's proposed settlement deed terms that Telstra tried to force Mr Ivory into signing without time or money to seek advice before Telstra withdrew the settlement offer.
 - (25) What action will be taken under administrative law to prevent such mismanagement of Telstra continuing to unjustly sabotage Mr Ivory's life and livelihood.
 - (26) (a) Why did Telstra take from 11 May 1994 until 1 June 1994 to test Mr Ivory's 1800 prefix complaint.
 - (27) (a) Is it Telstra's policy that, when any line/number fault is reported it is logged into Telstra's fault reporting system; (b) is it correct that a standard set of remote tests are immediately conducted in the first instance; and (c) if the fault cannot be rectified or found remotely, is a field technician dispatched to attend the premises; if so, why was this process not followed with Mr Ivory's 1800 fault complaint.

- (28) Why did Telstra only test the 1800 fault reported by Mr Ivory after the fault had been rectified at the exchange on the 31 May 1994.
 - (29) Did Telstra fabricate and falsify its records and documentation to conceal the 1800 prefix systemic fault.
 - (30) How many 1800 subscribers did Telstra have in September 1993.
 - (31) Why has Telstra withheld 'as obviously irrelevant' information consistent with the possibility of proving innocence.
- 83 **Senator Harris:** To ask the Minister representing the Attorney-General—With reference to the Family Court of Australia:

 - (2) Would the Minister please confirm or deny the accuracy of the following statistics: That children from fatherless homes account for: (a) 60 per cent of youth suicides; (b) 65 per cent of teenage pregnancies; (c) 65 per cent of adolescent drug abusers; and (d) 75 per cent of all homeless or run away children.
 - (3) What are the liaison procedures between the Family Court and state government agencies that ensure that no Family Court litigant can manipulate differing jurisdictions in ways that can result in functional abuses of process.
 - (4) How many convictions for perjury have there been in the Family Court since its inception.
 - (5) Is section 121 of the Family Law Act in need of revision or repeal.
 - (6) Would the Minister please confirm or deny that three men in Australia commit suicide every day whilst involved in Family Court proceedings or following such proceedings.
 - (7) What is the Government's position with regard to the concept that 'joint parenting' should be the Family Court's first and favoured residential presumption (as was the objective of the amendments of 1995).
- 84 **Senator Harris:** To ask the Minister for Communications, Information Technology and the Arts—
- (1) Is it correct that the Minister and/or his department claimed that the terms of reference for the Senate Working Party investigating the 'Casualties of Telstra' (COT) allegations in 1997 had to be changed on the basis that the previously settled terms, which included all the 21 COT group members would impede upon and prevent the further privatisation of Telstra (ie the 'T2' float).
 - (2) Can the Minister explain how the amended terms of reference did not impede upon the T2 float and how, by omitting the other 16 members of the COT group, this would do so.
- 85 **Senator Murray:** To ask the Special Minister of State—With reference to members' and senators' entitlements:
- (1) Which entitlements are not separately identified in management reports.
 - (2) Which entitlements are not audited.

- (3) Which entitlements are not benchmarked (assuming 'benchmarking' means that members and senators that incur abnormal expenditures would be asked to explain significant deviances).
- (4) Which entitlements are not the subject of public reports.

- (2) With reference to the revelation in the Australian National Audit Office's report *Parliamentarians' Entitlements: 1999-2000* that a number of parliamentarians had used entitlements that significantly exceeded the average, could the Minister please indicate (with respect to those that did significantly exceed the average): (a) whether the use of these entitlements by those parliamentarians has been investigated to determine if it is proper; and (b) what action is being taken with regard to the use of these entitlements that significantly exceeded the average.
- (3) Without limiting the scope of the questions above, which apply to all relevant entitlements, could the Minister please address the questions outlined in (2) (a) and (2) (b) with respect to the following entitlements: (a) personalised stationery, newsletters and other printing; (b) photographic services; (c) photocopy paper; and (d) flags for presentation to constituents.

Notice given 15 February 2002

107 **Senator Harris:** To ask the Minister for Communications, Information Technology and the Arts—

- (1) Why did the testing procedures fail to detect inherent data faults with the Telstra 1800 prefix 'conditioning' from and/or prior to 1 September 1993.
- (2) Why have the '008 – 1800' subscribers still not been advised of the conditioning faults.
- (3) Is it a fact that the above conditioning faults were the result of exchanges not being conditioned by 1 September 1993, and one of those not conditioned was Salisbury ARE in Brisbane (Mr Ivory's 1800 prefix exchange) thus preventing incoming 1800 calls to all Telstra subscribers who were reliant on the Salisbury exchange.
- (4) Is it a fact that exchanges that were not conditioned by 1 September 1993 and/or by 20 September 1993 would have then not been conditioned except in response to a customer complaint that callers could not get through; if not, can evidence to the contrary be provided.

- (5) Please advise, with documented evidence, the specific date of the initial complaint that was lodged by Mr Ivory, on 11 May 1994, in relation to the Solar-Mesh 1800 777 592 service, and what date it was finally conditioned to rectify the initial 1800 prefix fault.
- (6) From 1 September 1993, was there also a problem with the DMS accepting 1800 numbers for trunking in some exchanges.
- (7) If the above referred to 'DMS 1800 accepting faults' existed, could it have adversely affected incoming (Australia Wide) Telstra subscribers' calls after the initial conditioning fault had been rectified, and/or from day one for the few 1800 services that were lucky enough not to have suffered damage from a conditioning fault.
- (8) Did 10-digit number faults occur pertaining to numbers beginning with '1'.
- (9) If 10-digit number faults occurred on numbers beginning with '1', would Telstra subscribers' customers have been prevented from receiving calls when 1800 prefixes were dialled.
- (10) During the 10-digit number faults and during the conditioning fault periods, could Telstra subscriber's freecall customers still have received incoming 008 dialled calls if customers knew to dial 008 in front of the number instead of dialling the new 1800 prefix.
- (11) (a) Is it correct that Telstra 'number length difficulties' caused further faults with 1800 numbers from 1 September 1993 in relation to the CPE problems; (b) did these faults still exist on 16 March 1995; and (c) would the ANP have escalated these systemic fault difficulties.
- (12) (a) Is it a fact that Telstra has 1800 'cyclic storage problems' with ARF common register and KS failure that prevented proper digit transfer (eg. 1800 123 456 will be changed to 1800 123 418, i.e. The first two digits will be reinserted after the 8th digit);
(b) was this cyclic storage problem another 1800 prefix systemic fault; if so, did Telstra have difficulties with having sufficient maintenance staff trained to be able to attend the faulty exchanges for rectification;
(c) would this fault have occurred not just when dialling 1800 code prefix numbers but also where more than 8 digits are dialled (eg. 100, 1800, ANP 1818 etc.); and
(d) was this another very major fault covered up by Telstra.
- (13) If the cyclic storage fault existed, could it have adversely affected incoming Australia Wide 1800 customer calls.
- (14) Is it a fact that Telstra also had another 1800 prefix systemic fault called a 'no progress fault' whereby the switching of 1800 calls takes a longer switching time than 008 calls, leaving customers to believe that their calls had failed.
- (15) If the above referred to 'no progress fault' existed, would it have adversely affected incoming Australia Wide 1800 customer calls.
- (16) Is it a fact that Telstra also had another 1800 prefix fault, called a 'congestion tone fault' route fault for 18 codes not graded to sufficient capacity, causing 1800 customers to have insufficient answering capacity to receive incoming 1800 code prefix calls.
- (17) If the 'congestion tone fault' existed, could it have also adversely affected incoming Australia Wide 1800 customer calls.

- (18) Between 1 December 1994 and 31 December 1994, over its entire 008 - 1800 network, did Telstra calls received total 27 565 289; if so, how many of those calls were 008 dialled calls and how many were 1800 dialled calls.
- (19) How many total Telstra network 008 / 1800 dialled calls were recorded between and including 1 August 1993 and 31 August 1993.
- (20) How many total Telstra network 008 / 1800 dialled calls were recorded between and including 1 September 1993 and 30 September 1993.
- (21) How many total Telstra network 008 / 1800 dialled calls were recorded between and including 1 October 1993 and 31 October 1993.
- (22) How many total Telstra network 008 / 1800 dialled calls were recorded between and including 1 November 1993 and 30 November 1993.
- (23) How many total Telstra network 008 / 1800 dialled calls were recorded between and including 1 December 1993 and 31 December 1993.
- (24) (a) How many total Telstra network 008 / 1800 dialled calls were recorded between and including 1 January 1994 and 31 May 1994; and (b) how many total Telstra network 008 / 1800 dialled calls were recorded between and including 1 June 1994 and 21 December 1994.
- (25) (a) Did Telecom/Telstra do any print, radio or television advertising to advise its 008 – 1800 subscribers and to also advise its 1800 subscribers customers and/or to advise the general public of the defective limitations adversely affecting 1800 prefix subscribers' businesses;
- (b) if no such advertising was published nationally to the public by Telstra, could it have adversely restricted nationally the number of incoming 1800 customer calls being received by Telstra's subscribers from their potential customers and/or from the general public who were not informed by Telstra (the then trusted fully Commonwealth-owned carrier), which was still promoting the use of 1800 prefix numbers nationally;
- (c) did Telstra keep concealing from its 1800 subscribers and from the public that Telstra's 1800 prefix network was not fit for use from the 1 September 1993 change-over commencement date; if so, why was a large pool of Telstra's subscribers not informed of their daily accruing potential damage; if not, why not; and
- (d) were these potential liabilities fully disclosed in the T1 and T2 public offer documents; if not, why not.
- (26) (a) What action will the Commonwealth be taking to ensure that the Telstra Board informs all of its investor/shareholders of their right to pursue Telstra for any failure to disclose all of its potential liabilities from the T1 and T2 public offer documents;
- (b) (i) was Mr David Hoare, then Chairman of Telstra, also the chairman of Telstra's share sale legal advisory law firm, (ii) was Mr Stephen Mead, a partner of the law firm also a Telstra employee, and (iii) did this represent a conflict of interest;
- (c) was the above conflict of interest revealed in Telstra's public offer documents; if not, why not; and
- (d) were the above systemic faults in Telstra's 1800 network and computer software disclosed in the Telstra public offer documents; if not, why not.
- (27) (a) As the Minister responsible for the T1 and T2 share sell-off by the Commonwealth, why did the Minister not ensure to have disclosed in the

T1 and T2 offer documents the fact that Telstra's then Chairman, Mr David Hoare, was at the same time Chairman of Telstra's legal advisory firm, Mallesons Stephen Jaques;

(b) as the Minister responsible for the T1 and T2 share sell-off by the Commonwealth, why did the Minister not ensure to have disclosed in the T1 and T2 offer documents the fact that Telstra's then in-house Counsel, Mr Stephen Mead, was at the same time a partner of Telstra's legal advisory firm, Mallesons Stephen Jaques; and

(c) as the Minister responsible for the T1 and T2 share sell-off by the Commonwealth, why did the Minister not ensure to have disclosed in the T1 and T2 offer documents the fact that the Commonwealth's legal advisory firm, Freehill Hollingdale and Page, was also on a Telstra retainer in relation to the concealment of the potential liabilities to the COTs (Casualties of Telecom/Telstra) in other COT related matters, including the few COT cases settled just before the T2 sale.

(28) (a) Is the Minister aware that Mr Stephen Mead was a good friend of a Mr Simon Dudley Williams who, along with the firm (Spruson and Ferguson), were, since before Mr Ivory's 11 May 1994 1800 conditioning fault complaint to Telstra, being sued by Mr Ivory's company for professional negligence; and

(b) was the Minister aware that Mr Mead and Mr Hoare's law firm partnership of Mallesons Stephen Jaques was acting for Mr Ivory's multinational competitors, Boral Cyclone – Azon Cyclone Hardware, at the same time Mr Mead's friend (Mr Williams) of Spruson and Ferguson was acting for Boral Cyclone.

(29) (a) Is it a fact that the 1800 universal exchanges could have only been conditioned in blocks of 10 000 number ranges;

(b) was it possible for any single 10 000 lot 1800 number ranges to have been missed completely in the 1 September 1993 conditioning;

(c) is it a fact that the 1800 universal exchange conditioning defects could have accidentally allowed a single number to have been completely missed in the 1 September 1993 conditioning of the 1800 prefixes; and

(d) is it a fact that Telstra would have been reliant on receiving a customer complaint to enable it to rectify any numbers that were not conditioned.

(30) (a) Is the Minister aware:

(i) that the Solar-Mesh 1800 777 592 code conditioning fault occurred from 1 September 1993, but was not initially uncovered and reported until 11 May 1994, when it was first reported to Telstra's faults department by Telstra's Miss Hatton and also by Mr Ivory, and

(ii) it was then not rectified until the 31 May 1994 when Miss Hatton, witnessed by Mr Ivory over the telephone in a three-way conversation, bypassed Telstra's faults department and went straight to Telstra's exchange;

(b) is the Minister aware that the phantom fault testing done on 1 June 1994, by Telstra's Mr Adam Sears, was done the day after the conditioning fault had been rectified; and

(c) Given that these matters could be proven to the Minister if he were to instigate an internal investigation into Telstra and/or have a face-to-face meeting with Mr Ivory, is the Minister prepared to do so.

- (31) (a) Is it a fact that Telstra's Operational Processes Support People, Network Operations Manager and Product Integration Management, during October 1993, each became aware of many major 1800 code implementation fault problems that had resulted in no access to a large number of 1800 services right across Australia, not just in country areas but also in metropolitan areas;
- (b) did these problems stem from system failures, equipment failures, planning failures and/or managerial neglect prior to and from 1 September 1993;
- (c) is it also a fact that, by 8 October 1993, Telstra knew that some of these implementation faults and network faults existed and were likely to worsen unless some rationale and co-ordination was introduced at high level to the product introduction process; and
- (d) is it a fact that Telstra has concealed these faults and defects.
- (32) How many Australia Wide 1800 customers did Telecom/Telstra have as 008 – 1800 prefix subscribers as at 31 August 1993 at the Salisbury Queensland exchange.
- (33) How many Australia Wide 1800 customers did Telecom/Telstra have as 008 – 1800 prefix subscribers as at 31 May 1994 at the Salisbury Queensland exchange.
- (34) How many Australia Wide 1800 customers did Telecom/Telstra have as 008 - 1800 prefix subscribers as at 31 August 1993 at the Valley Queensland exchange.
- (35) How many Australia Wide 1800 customers did Telecom/Telstra have as 008 – 1800 prefix subscribers as at 31 May 1994 at the Valley Queensland exchange.
- (36) How many Australia Wide 1800 prefix exchanges did OPTUS have as at 1 September 1993.
- (37) How many Australia Wide customers did OPTUS have as 008 – 1800 prefix subscribers as at 1 September 1993 in their Queensland exchanges.
- (38) How many Australia Wide customers did OPTUS have as 008 – 1800 prefix subscribers as at 1 September 1993 in their New South Wales exchanges.
- (39) How many Australia Wide customers did OPTUS have as 008 – 1800 prefix subscribers as at 1 September 1993 in their Victorian exchanges.
- (40) How many Australia Wide customers did OPTUS have as 008 – 1800 prefix subscribers as at 1 September 1993 in their South Australia exchanges.
- (41) How many Australia Wide customers did OPTUS have as 008 – 1800 prefix subscribers as at 1 September 1993 in their Western Australia exchanges.
- (42) How many Australia Wide customers did OPTUS have as 008 – 1800 prefix subscribers as at 1 September 1993 in their Tasmanian exchanges.
- (43) How many Australia Wide customers did OPTUS have as 008 – 1800 prefix subscribers as at 1 September 1993 in their Northern Territory exchanges.
- (44) How many Australia Wide customers did OPTUS have as 008 – 1800 prefix subscribers as at 1 September 1993 in their Australian Capital Territory exchanges.

- (45) In which, if any, states or territories were OPTUS's 1800 prefix exchanges, as listed above, fully working and/or fully compatible with Telstra's exchange equipment as at 1 September 1993.
- (46) (a) Is it also a fact that, despite Telstra key staff knowing about the above 1800 code implementation and network faults and the possibility of the faults being likely to worsen, Telstra still failed to put in place an exchange by exchange, 1800 number by 1800 number, process of testing and sending staff out to each 1800 exchange across Australia to locate and rectify the systemic 1800 code implementation faults and network failures;
- (b) is it a fact that Telstra elected to wait and fix individual faults in response to individual customer complaints being made that callers could not get through when dialling 1800 code numbers; and
- (c) what does the Minister intend to do to have the appropriate department, or Telstra, immediately recompense subscribers for damage and injury.
- (47) Is it a fact that it is a policy of Telstra that, since at least the 1995-96 financial year, its employees have not been allowed to obtain outside employment, and must keep their outside activities separate from Telstra Company work.
- (48) Is it a fact that Telstra employees since at least the 1995-96 financial year have not been allowed to take outside employment without first obtaining written approval from their Telstra Manager; if so, can copies be provided of the signed approval for Mr David Hoare to become the dual hat Chairman of Mallesons Stephen Jaques and the signed authorisation for Stephen John Mead to become a partner in Mallesons Stephen Jaques while Mallesons Stephen Jaques was on a Telstra retainer and while Mr Mead was still employed by Telstra.
- (49) If these signed authorities cannot be produced, what action will the Minister immediately be taking against Mr Hoare and Mr Mead, and against Mallesons Stephen Jaques and against Telstra's negligent directors responsible for bringing Telstra into such disrepute in breach of Telstra's own Code of Conduct.
- (50) (a) Is it a fact that Telecom Australia/Telstra has, and has always had, a strict duty of care to keep secure and confidential its customers' records, unless specifically authorised to do otherwise; and (b) does the Commonwealth ensure that such procedures and policies are in place within Telecom/Telstra and that they are at all times adhered to, even in the case of Casualties of Telecom complainants' matters; if not, why not.
- (51) (a) Is it a fact that Telecom Australia/Telstra employees are not allowed to be involved in bribes, pay-offs or kickbacks or in other considerations that are either paid or received directly or indirectly; and
- (b) did the Minister know of Telstra's potential liabilities pertaining to the 1800 network being sold and promoted from 1 September 1993 while the 1800 network of Telstra was not fit for use; if so, why did this occur.
- (52) (a) With reference to Freehill Hollingdale and Page, the Telstra-retained COT claimants law firm from at least 1993: why did the 1994-95 financial year revenue received by Freehill Hollingdale and Page from Telstra fall below the amount that Mallesons Stephen Jaques received from Telstra in relation to COT claimant's matters; and
- (b) was the Minister aware of the conflicting loyalties of partnerships which occurred while both David Hoare and Stephen John Mead were Telstra employees.

- (53) Can a detailed breakdown be provided, including claimants names, of which 'Casualties of Telstra' related matters Mallesons Stephen Jaques was specifically retained by Telstra to handle in exchange for the \$1 129 767 00 paid by Telstra to Malleson Stephen Jaques from the 1993-94 financial year up to and including the 1996-97 financial year.
- (54) Can a fully itemised detailed statement be provided of how much money, financial year by financial year, has been specifically paid by Telstra to Mallesons Stephen Jaques since the 1993-94 financial year up to and including the 2000-01 financial year with each individual matter separately itemised.

- 115 **Senator Harris:** To ask the Minister for Communications, Information Technology and the Arts—

183 **Senator Harris:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to documents relating to heavy truck specifications tabled pursuant to orders of the Senate:

- (1) In the middle of 1999 was a data disc deliberately corrupted by Mr Scott McFarlane of Roaduser International before being sent to the owner of F1, so that it would be unusable and thus prevent others from analysing the data, and that an uncorrupted disc was not sent until 2 to 3 months later.
- (2) Were the air fare and related accommodation costs for the Melbourne to Brisbane return trip on 13 May 1999 that were listed in the external supplier expense document (K99-917, 024-026) relating to the Roaduser Report used solely for that purpose and not used to subsidise the costs of Roaduser personnel attending other functions at the Brisbane Truck Show, unrelated to the report.
- (3) Was the second testing of F4, a Mack CH Fleetliner prime mover, undertaken at the request of the manufacturer; if so, was the expense of this additional test costed to the report or to the manufacturer.
- (4) (a) Did the manufacturer of the Australian-designed and tested Hendrickson WD2 460 suspension that was fitted to the worst performing vehicle, F6, withdraw that suspension from the market early in 2001 after claiming there was nothing wrong with it; and (b) is it a fact that the manufacturer has no substitute available until a new suspension is introduced in 2002; if so: (i) why was the suspension withdrawn, and (ii) if it was due to its poor performance, why has there not been a recall or other action taken in relation to other vehicles similar in style to F6 fitted with that suspension.
- (5) (a) Was Roaduser International's tender for this investigation \$79 400, compared with the losing bidder's quote of about \$120 000; and (b) was the final payment to Roaduser International close to \$580 000.
- (6) With reference to documents T1112- 121-138 and K99-804—126-132, did Roaduser International tender to undertake publicity and problem definition for \$8 000, inspect-and-drive appraisals of 6 vehicles for \$14 850 (\$2 470 each), instrumented testing of 4 vehicles for \$33 050 (\$8 250 each), computer simulation and analysis relating to 4 instrumented tests for \$21 000, assessment of vehicles against industry standards for \$5 000, risk amelioration and problem scoping for \$3 000 and a report of the investigation for \$5 000.
- (7) Did Roaduser charge about \$80 000 to appraise 13 vehicles (\$6 200 each, or 2.5 times the quoted cost per vehicle) even though it did not undertake analysis of each vehicle using Roaduser's in-house, computer-based performance assessment and did not undertake a lane-change manoeuvre.
- (8) Did Roaduser charge about \$340 000 for 8 instrumented tests and drives (\$42 500 each, or 5 times the quoted cost per vehicle) even though the number of channels of data quoted to be collected was a minimum of 28 compared with only 3 more collected, and evaluation of the vehicle negotiating a standard bump and a steady turn and under severe braking were not carried out.
- (9) In relation to the investigation: (a) was Roaduser allowed to charge, for graduate engineers with about 2-years experience on \$40 000 per year (or \$30 per chargeable hour), a rate around \$150 per hour, or more than twice the rate generally charged by consultants for such engineers; (b) were the

charge-out rates for the Chief Engineer and Manager Accident Mitigation \$250 per hour, and the rate for Dr Peter Sweatman \$350 per hour; and (c) have there been any other consultants in the road transport field for which the Australian Transport Safety Bureau has paid similar charge-out rates; if not, can the Minister advise why these rates were paid for this investigation.

- (10) Can the Minister confirm that: (a) while the Federal Office of Road Safety tender suggested the use of subcontracted, experienced and qualified organisations to conduct the vibration related tests of the investigation, Roaduser, which was not an experienced or qualified organisation in this field, undertook this work itself; (b) Roaduser quoted on, and undertook measuring of, driver's seat vibration in the vertical and fore-aft directions only, even though the relevant international standard (ISO 2631-1) required measurements in the side-to-side direction as well, and rates this vibration as being more important than the vertical direction; (c) in order to undertake this work, the Chief Engineer purchased a text on vibration around August 1999; (d) much of the analysis of 'vibration' and other data was undertaken by a PhD student with no specific skills in either heavy vehicles or vibration; and (e) Roaduser charged the same hourly rate for this work even though it was not expert in the field.
- (11) Given the above, what action is being taken to recover excess monies paid to Roaduser under this contract.

A GUIDE TO THE DAILY NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees: is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees: is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees: a daily list of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.
