GENERAL BUSINESS

Notices of Motion

Notice given 14 February 2002

17 Senator Tierney: To move—That the Senate—

- (a) notes the serious problem of overcrowding in New South Wales public
schools, especially when compared with other states across the country;

- (b) acknowledges the shameful results of a New South Wales Teachers Federation survey showing 20 per cent of all classes in each of the first 3 years of primary school being over the Carr Government's own limit, and 32 per cent of all kindergarten classes exceeding suggested class sizes during 2001;
- (c) condemns the Carr Government for putting New South Wales children's education at risk by increasing class numbers and not reducing them as other states are now doing;
- (d) congratulates the Howard Government for increasing funding to New South Wales government schools by 5.2 per cent in 2001, as opposed to Premier Carr's paltry 2.6 per cent; and
- (e) recognises the low priority given to education by the Carr Government, as evidenced by the fact that the amount spent on education as a percentage of total state budget has dropped from 25.5 per cent to 22 per cent in the 7 years since Labor came to power in New South Wales.

Notice given 11 March 2002

23 **Senator McGauran:** To move—That the Senate—

- (a) notes that:
 - (i) it is the 100th anniversary of the execution of Harry 'Breaker' Morant and Peter Handcock, killed by firing squad during the Boer War for following the orders, take no prisoners,
 - (ii) the court case held for Morant and Handcock was a sham, set up by Lord Kitchener, the giver of the orders Morant and Handcock followed,
 - (iii) the injustice to Breaker and Handcock has plagued Australia's conscience since their execution on 27 February 1902,
 - (iv) in 1902 the then Federal Parliamentarian and later first Governor-General of Australia, Issac Issacs, raised the matter of the execution in Parliament stating that this issue was agitating the minds of the people of this country in an almost unprecedented degree, and questioned the validity of the decision,
 - (v) the reason we need to go back 100 years to now right this wrong, is because Breaker Morant is one of the fathers of our ANZAC tradition; a friend of Banjo Patterson and an inspiration for much of his poetry and described as a man of great courage who would never betray a mate; and a man of whom many of the young ANZACs in World War I had heard and on whom they modelled themselves, and
 - (vi) Lord Kitchener was the Commander-in-Chief of the British Military who made the decision to commit troops to Gallipoli and is responsible for that disastrous campaign;
- (b) calls on the Government to petition directly the British Government for a review of the case, with the aim to quash the harsh sentence of death for Harry 'Breaker' Morant and Peter Handcock; and
- (c) take action to include the names of these two Australians on the Roll of Honour at the Australian War Memorial.

30 **Senator Brown:** To move—That the Senate—

- (a) notes that the Ministerial Code in the United Kingdom includes a system which deals with acceptance of appointments for ministers after leaving office; and
- (b) calls on the Government to:
 - (i) implement an advisory committee on business appointments, from which a minister would be required to seek advice before accepting business appointments within 5 years from the date from which he or she ceased to be a minister, and
 - (ii) ban any minister from taking an appointment that is directly related to his or her portfolio for 5 years from the date of resignation.

Notice given 16 May 2002

78 **Senator Tierney:** To move—That the Senate—

- (a) notes that south-eastern Australia is the most fire prone region in the world;
- (b) commends the support provided by the Howard Government to New South Wales in January 2002, in particular, the provision of aerial fire fighting equipment;
- (c) expresses its concern that the state government is whitewashing the causes of the bushfire catastrophe of Christmas 2001 by just blaming pyromaniacs during the current bushfires inquiry;
- (d) calls on the New South Wales Government to give serious consideration to the evidence of State Forests of NSW, which believes that inadequate back-burning was the primary cause of the devastating fires;
- (e) rejects calls from the Nature Conservation Council to restrict hazard reduction;
- (f) calls on the Carr Government to allow non-government committee members to receive witnesses' submissions without having to first request them;
- (g) encourages the inquiry to reach a conclusion based on evidence and not party politics resulting from pressure from extreme green groups; and
- (h) hopes that the lessons learned from the bushfire inquiry will be shared to other state governments so all Australians can avoid such an unnecessary disaster.

Notice given 26 June 2002

108 **Senator Sherry:** To move—That there be laid on the table, on the next day of sitting, the advice by the Australian Prudential Regulation Authority to the Assistant Treasurer under section 230A of the *Superannuation Industry (Supervision) Act 1993*, in relation to applications for financial assistance for superannuation funds where Commercial Nominees of Australia was trustee.

112 **Senator Ridgeway:** To move—That the Senate—

- (a) notes that:
 - (i) the week beginning 24 June 2002 is Drug Action Week, aimed at generating community awareness about drug and alcohol abuse and the solutions being used to tackle these issues,
 - (ii) each day of Drug Action Week highlights a different theme and the theme on 27 June 2002 is Indigenous issues,

- (iii) the misuse of alcohol and other drugs has long been linked to the deep levels of emotional and physical harm suffered by Indigenous communities since the colonisation of Australia,
 - (iv) alcohol and tobacco consumption rates continue to remain high in the Indigenous population, against declining rates in the general population, and the increasing use of heroin in urban, regional and rural Indigenous communities is also of particular concern,
 - (v) substance misuse is probably the biggest challenge facing Indigenous communities today, as it affects almost everybody either directly or indirectly and is now the cause as well as the symptom of much grief and loss experienced by Indigenous communities, and
 - (vi) the demand for the services of existing Indigenous-controlled drug and alcohol rehabilitation centres far exceeds the current level of supply;
- (b) acknowledges the essential role of Indigenous community-controlled health services in providing long-term, culturally-appropriate solutions for substance abuse; and
- (c) calls on the Government to:
- (i) fund the national substance misuse strategy, developed by the National Aboriginal Community Controlled Health Organisation, which is designed to build the necessary capacity within the Indigenous health sector so communities can address their health and well-being needs in a holistic and culturally-appropriate manner, and
 - (ii) improve coordination between Commonwealth, state, territory and local governments on these issues and ensure this facilitates greater Indigenous control over the development and implementation of all health programs.

Notice given 19 August 2002

120 **Senator Ray:** To move—That the Senate—

- (a) notes:
- (i) the claims in the *Age* newspaper of 15 August 2002 that the McGauran family is financially supporting the Democratic Labour Party of Australia (DLP) in its attempt to retain registration under the provisions of the Electoral Act,
 - (ii) that two of the three Victorian National Party representatives in the Federal Parliament are from the McGauran family and have, on occasions, relied on DLP preferences,
 - (iii) the comments of the DLP Secretary, Mr John Mulholland, when he said, 'It would be in Senator Julian McGauran's interests for the DLP to survive this de-registration moved by the Electoral Commission', and
 - (iv) the immense amount of money made by the McGauran family from its poker machine interests in Altona, some of which is apparently going to fund the DLP's legal expenses; and
- (b) calls on Senator McGauran and the Minister for Science (Mr McGauran), to explain their knowledge of their family's involvement in funding the DLP's legal bills.

Notice given 22 August 2002

139 **Senator Mackay:** To move—That the Senate—

- (a) congratulates the Australian Capital Territory Legislative Assembly:
 - (i) on becoming the first state or territory legislature to remove abortion from the criminal code, and
 - (ii) for repealing the appalling law which required women seeking abortions to first look at pictures of fetuses;
- (b) notes that this landmark legislation should serve to encourage all remaining states and territories to enact similar legislative changes; and
- (c) notes that the Australian Capital Territory legislation recognises that abortion is a decision for women and is not something that should carry the threat of a jail term.

Notice given 16 September 2002

156 **Senator Allison:** To move—That the Senate—

- (a) notes that:
 - (i) the Deaflympic Games will be held in Melbourne in 2005; and
 - (ii) Deaf Sports Recreation Victoria has set up a Games Organising Committee to begin planning and organising this international event which will see the participation of 4 000 deaf athletes and officials from over 90 countries; and
- (b) urges the Prime Minister (Mr Howard) to respond to the correspondence from Deaf Sports Recreation Victoria and to offer support for the Deaflympic Games.

Notice given 19 September 2002

175 **Senator Tierney:** To move—That the Senate—

- (a) deplures comments made in the New South Wales Parliament on Tuesday, 17 September 2002, by the State Minister for Education and Training (Mr Watkins), which misrepresented the future direction of universities in Australia and, in particular, the role of rural and regional universities;
- (b) notes that the Minister for Education, Science and Training (Dr Nelson) has put on the record that regional universities will not be disadvantaged by the current reform process;
- (c) further notes that the Federal Minister told all state education ministers, including Mr Watkins, in July 2002 that Australia would not be returning to second tier, teaching-only, higher education institutions; and
- (d) congratulates the Federal Minister for his comprehensive and inclusive review of higher education in Australia.

Notice given 24 September 2002

184 **Senator Stott Despoja:** To move—That the Senate—

- (a) notes:
 - (i) the commitment of the Government and Mr John Loy, Chief Executive Officer (CEO) of Australian Radiation Protection and Nuclear Safety Agency (ARPANSA), to a demonstrated store for radioactive waste by 2005,

- (ii) the commitment of the Government and Mr Loy to a second spent fuel reprocessing pathway for spent fuel from the Lucas Heights reactor,
- (iii) the commitment in the Lucas Heights environmental impact statement (EIS), EIS supplementary report and EIS assessment report to a radioactive waste store by 2005,
- (iv) the ARPANSA site licence assessment regarding a potential operating licence at Lucas Heights that, 'A license to operate would not be issued by ARPANSA without there being clear and definite means available for the ultimate disposal of radioactive waste and spent nuclear fuel',
- (v) that the recent comments by Mr Loy on the Australian Broadcasting Corporation's *PM* program indicating that the 'new' deadline for a store is now 2025 and that provision for second country reprocessing is no longer required are in direct contradiction to previous commitments, and
- (vi) that it recently passed a second reading amendment that:
 - (A) noted the view of the CEO of ARPANSA that arrangements for taking the spent fuel and turning it into a reasonable waste form need to be absolutely clear before the new reactor at Lucas Heights commences operation, and there needs to be clear progress on siting a store for the waste that returns to Australia, and
 - (B) expressed its opinion that until all matters relating to safety, storage and transportation of nuclear materials associated with the new reactor at Lucas Heights are resolved, no operating licence related to the new reactor at Lucas Heights should be issued by ARPANSA; and
- (b) calls on the CEO of ARPANSA to:
 - (i) reaffirm commitments made to the Australian people as part of the EIS process, and
 - (ii) act in conformity with the Senate's second reading amendment.

Notice given 17 October 2002

215 **Senator Tierney:** To move—That the Senate—

- (b) expresses alarm that New South Wales state government spending on education currently lags \$318 million a year below the Australian national average;
- (c) notes that New South Wales primary schools have the worst student-to-teacher ratios in Australia and some of the largest class sizes in the country;
- (d) further notes that the Vinson report into public education demonstrates the under resourcing of the public education system in New South Wales by the Carr Government; and
- (e) congratulates New South Wales Opposition Leader, John Brogden, who vowed on 24 September 2002 to spend more on public schools and backed the need to reduce class sizes.

Notice given 18 March 2003

393 **Senator Stott Despoja:** To move—That the Senate—

- (a) notes, with concern, the serious hardship facing coffee producers of the developing world as a result of low coffee prices and, in particular, that:
 - (i) many coffee farmers are being forced to abandon their livelihoods and sell their land at a loss,
 - (ii) the financial strain on coffee farming families reduces their capacity to meet their basic needs, including schooling, food and medicines,
 - (iii) a lack of money in coffee-producing communities, together with overburdened health-care systems, threatens the stability of already vulnerable economies, and
 - (iv) intensive farming methods, adopted by reason of financial necessity, seriously damage the natural environment;
- (b) acknowledges the financial support provided by the Government through AusAid to rural development and other assistance for coffee producing nations; and
- (c) requests that the Government provide further political and economic support for:

 - (ii) that Shelburne Bay is one of the largest and least disturbed areas of active parabolic dunes in the world, and is listed on the National Estate,

- (iii) that any mining would have involved the removal of two dune systems and the construction of a major port facility on the edge of the Great Barrier Reef, and
 - (iv) that the cancellation of the leases had been called for by the traditional owners, the Wuthathi people, to enable them to have greater access to, and involvement in, this special area of their traditional lands; and

 - (v) close the US military spy base at Pine Gap; and
- (b) condemns the Government’s ill-considered pursuit of closer military ties with the US, without Parliamentary consultation or debate and despite the threat to Australia’s national interest that this policy poses.

27 **Family and Community Services—Family tax benefits**

Adjourned debate on the motion of Senator Ludwig—That the Senate—

- (a) condemns the Howard Government's decision to strip, without warning, the tax returns of Australian families who have been overpaid family payments as callous and unfair to parents trying to survive under increasing financial pressures;
- (b) notes that this is not consistent with the statement of the Minister for Family and Community Services (Senator Vanstone) in July 2001 in which she assured families that, 'The Government has also decided that it would be easier for any family who still had an excess payment to have it recovered by adjusting their future payments, rather than taking it from their tax refund. This is because people may have earmarked their refund for use for specific things';
- (c) considers that the Government's 2-year-old family payments system is deeply flawed, given that it delivered average debts of \$850 to 650 000 Australian families in the 2001-02 financial year and continues to punish families who play by the rules; and
- (d) condemns the Howard Government and its contemptible attack on Australian families (*Senator Tierney, in continuation, 22 August 2002*).

28 **Health—Medicare—Bulk billing**

Adjourned debate on the motion of Senator Evans—That the Senate—

- (a) notes that:
 - (i) since the election of the Howard Government, the rate of bulk billing by general practitioners (GPs) has dropped from 80.6 per cent to 74.5 per cent, and that the average patient cost to see a GP who does not bulk bill has gone up 41.8 per cent to nearly \$12, and
 - (ii) in every year from the commencement of Medicare in 1984 through to 1996, bulk billing rates for GPs increased, but that, in every year since the election of the Howard Government, bulk billing rates have decreased;
- (b) recognises that the unavailability of bulk billing hurts those Australians who are least able to afford the rising costs of health care and those who are at greatest risk of preventable illness and disease;
- (c) condemns the Howard Government's failure to take responsibility for declining rates of bulk billing; and

- (d) calls on the Minister for Health and Ageing (Senator Patterson) to release publicly the June 2002 quarter bulk billing figures so that the true extent of the problem is made known (*Senator Moore, in continuation, 29 August 2002*).

Adjourned debate on the motion of Senator Sherry—That the Senate notes the Howard Government's third term failures on superannuation, including:

- (b) the failure to adequately compensate victims of superannuation theft or fraud;
- (c) the failure to accurately assess the administrative burden on small business of the Government's third attempt at superannuation choice and deregulation;

- 48 **Environment—National radioactive waste repository**
Adjourned debate on the motion of Senator Carr—That the Senate condemns the Government for:
- (a) its failure to respect the rights of the people of South Australia in its consultation process over the location of the planned low-level radioactive waste repository;
 - (b) its decision to replace effective and meaningful consultation and discussion with a \$300 000 propaganda campaign, designed to sway the opinions of South Australians towards locating the repository in that state, in the absence of genuine efforts to provide accurate and exhaustive information on the suitability of the selected site, close to Woomera; and
 - (c) its lack of a thorough examination of the environmental impact of this plan, in particular the possible dangers caused by the site's proximity to the Woomera rocket range, and the serious concerns of both the Department of Defence and private contractors on this issue (*Senator Buckland, in continuation, 6 February 2003*).

 - (b) notes that:
 - (i) late payments by big businesses are a major issue for small businesses as they create cash flow problems,

59 Governor-General

Adjourned debate on the motion of the Leader of the Opposition in the Senate (Senator Faulkner)—That the Senate—

(a) notes with concern that:

- (i) the Government has failed to respond to evidence of sexual abuse of children in our society and within our public institutions,
- (ii) the independent report of the Diocesan Board of Inquiry found that Dr Peter Hollingworth, while occupying a position of public trust as Archbishop of Brisbane, allowed a priest to remain in the ministry after an admission of sexual abuse, and the Board of Inquiry found this decision to be ‘untenable’,
- (iii) the Governor-General has admitted that he made a serious error in doing so,
- (iv) Dr Peter Hollingworth, through his actions while in the Office of Governor-General, in particular his interview on ‘Australian Story’ and his apparent ‘reconstruction’ of evidence before the Diocesan Board of Inquiry, has shown himself not to be a person suitable to hold the Office of Governor-General,
- (v) members of the House of Representatives, senators, and premiers and members of state parliaments have called upon the Governor-General to resign, or failing that, to be dismissed by the Prime Minister,
- (vi) the Governor-General is now no longer able to fulfil his symbolic role as a figure of unity for the Australian people,
- (vii) the Governor-General is now no longer able to exercise the constitutional powers of the Office in a manner that will be seen as impartial and non-partisan,
- (viii) the Governor-General’s action in standing aside until the current Victorian Supreme Court action is resolved, does not address any of

the issues surrounding his behaviour as Archbishop of Brisbane, and is therefore inadequate,

- (ix) the Governor-General has failed to resign and the Prime Minister has failed to advise the Queen of Australia to dismiss him, and
 - (x) the Australian Constitution fails to set out any criteria for the dismissal of a Governor-General or a fair process by which this can be achieved; and
- (b) urges:
- (i) the Prime Minister to establish a Royal Commission into child sexual abuse in Australia, and
 - (ii) the Governor-General to immediately resign or, if he does not do so, the Prime Minister to advise the Queen of Australia to terminate the Commission of the Governor-General—(*Senator Ludwig, in continuation, 13 May 2003*).

And on the amendment moved by *Senator Murphy*—Omit all words after “That”, substitute “the Senate—

- (a) notes with concern that:
- (i) Dr Peter Hollingworth, while in the Office of Governor-General, gave in an interview on ‘Australian Story’, a version of events which have been found by the diocesan Board of Inquiry to be untrue, and
 - (ii) the same Board of Inquiry found that they could not accept Dr Hollingworth had a belief that the child sexual abuse was an isolated incident and that his handling of the matters was untenable;
- (b) finds that:
- (i) the circumstances that have developed around the Office of Governor-General are doing irreparable damage to the Office and must be resolved,
 - (ii) the conclusions of the report of the Anglican Church clearly demonstrates that Dr Hollingworth failed in his duty as Archbishop,
 - (iii) such failing in a position of significant public trust renders Dr Hollingworth an unsuitable person to fill the Office of Governor-General,
 - (iv) the Governor-General’s action in standing aside until the current Victorian Supreme Court action is resolved does not address any of the issues surrounding his behaviour as Archbishop of Brisbane, and is therefore inadequate,
 - (v) the Governor-General is now no longer able to fulfil his symbolic role as a figure of unity for the Australian people, and
 - (vi) the Governor-General is now no longer able to exercise the constitutional powers of the Office in a manner that will be seen as impartial and non-partisan; and, therefore, in light of these unacceptable circumstances
- (c) urges:
- (i) the Governor-General to immediately resign or, if he does not do so, the Prime Minister to advise the Queen of Australia to terminate the Commission of Governor-General, and
 - (ii) the Prime Minister to establish a Royal Commission into child sexual abuse in Australia.”—(*Senator Collins, in continuation, 14 May 2003*).

60 **Textbook Subsidy Bill 2003**—(*Senate bill*)—(*Senator Stott Despoja*)

Second reading—Adjourned debate (*Senator Stott Despoja, in continuation, 18 June 2003*).

*61 **Health—Medicare—Bulk billing**

Adjourned debate on the motion of Senator McLucas—That the Senate—

- (a) condemns the most damaging effects of the Government's proposed reforms to Medicare, which will create a user-pays, two-tiered health system in Australia and dismantle the universality of Medicare;
- (b) acknowledges that the first of the damaging effects of the Government's reform package is to cause bulk-billing rates to decline further, and that these reforms do nothing to encourage doctors to bulk bill any Australians other than pensioners and concession cardholders but make it clear that the Government considers bulk billing to be a privilege that accrues only to a subset of Australians, not an entitlement that all Australians have as a result of the Medicare charge;
- (c) notes that the second most damaging effect of the Government's proposed changes to Medicare is the facilitation and encouragement of higher and higher co-payments to be charged by medical practitioners, and that a central plank of the Government's package is the facilitation of co-payments to be charged by doctors who currently bulk bill Australian families, as well as to make it easier for doctors who currently charge a co-payment to increase the amount of this co-payment; and
- (d) notes, with concern, that the Government seeks to allow private health funds to offer insurance for out-of-pocket expenses in excess of \$1 000, a measure which, if implemented, would inflate health insurance premiums as well as be a real step towards a user-pays system in Australia where people who can afford co-payments and insurance premiums will be treated when they are sick, whereas those individuals and families on lower incomes will be forced to go without medical assistance—(*Senator Eggleston, in continuation, 19 June 2003*)

1340 **Senator Harris:** To ask the Minister for Revenue and Assistant Treasurer—With reference to the recent decision in the Federal Court determining that Ms Julie Vincent was not liable to pay taxes to the Australian Taxation Office (ATO) and did not owe the tax debt attributed to her:

- (1) Will the ATO contact Ms Vincent's fellow investors who have made settlement offers to the ATO and inform them that they are not liable to pay the tax claimed by the ATO on their amended assessments.
- (2) Can assurance be given that no other taxpayers will be financially disadvantaged as a result of ATO actions against them, particularly those who have made settlement offers to the ATO.
- (3) Why did the settlement process require that taxpayers make an offer to the ATO on a document prepared by the ATO which could not be accepted if there were any deletions or additions.
- (4) Has the ATO undertaken a review of the approximately 174 tax effective projects on which it has disallowed deductions, to determine the categories that would define projects in good, bad or alternative groups (eg structure, investor investment/deductions ratios, investor risk, profitability potential, export potential, certification and endorsement levels and employment opportunities); if so, will the ATO release the results of that review.
- (5) Has the ATO undertaken a review of the project type and/or such ratings, against the decisions made by the Federal Court to date.
- (6) How does the ATO explain the original letters sent to investors, with the prominent use of *Budplan* and *Vincent* case names, implying that these projects were typical and applied to all tax effective projects, given that rulings in the Federal Court to date paint a completely different picture and suggest that the average mum and dad investor has been misled by the ATO.
- (7) Does the ATO intend to issue to all investors a letter of explanation and an opportunity to withdraw any settlement offer.

1341 **Senator Harris:** To ask the Minister for Revenue and Assistant Treasurer—

- (1) Following Ms Julie Vincent's win before the Full Bench of the Federal Court, does the Minister accept that the amended assessment sent to her was wrong.
- (2) Does the Minister accept that Ms Vincent would have been required to pay tax for which she was not liable had she followed the settlement process provided by the ATO.
- (3) Can a guarantee be given that not one of the approximately 45 000 people caught up in this campaign will be similarly disadvantaged.
- (4) Does the Minister believe that the 'one size fits all' approach taken by the Commissioner of Taxation to the mass marketed tax effective investments campaign has resulted in gross unfairness to taxpayers who sought professional advice and told the truth when filling out their returns.
- (5) What is the Minister prepared to do about the growing feeling that the Commissioner of Taxation has taken advantage of his powers by bullying and intimidating taxpayers into accepting offers that can seriously disadvantage them.

1342 **Senator Harris:** To ask the Minister for Revenue and Assistant Treasurer—With reference to mass marketed tax effective investment (MMTEI) schemes:

- (1) Does the Minister believe that the Taxpayers' Charter of Rights should be dissolved.
- (2) Can the Minister confirm: (a) that the Australian Taxation Office (ATO) had concerns about the charter in the early 90s or even earlier; and (b) that the ATO took no action.
- (3) Does the Minister agree that if the taxpayer has to 'get it right' or face the repercussions then so, too, the ATO must also 'get it right' or also face the repercussions.
- (4) (a) Is the Minister aware that the settlement process document provided by the ATO to taxpayers states that the *Budplan* and *Vincent* court wins for the ATO prove the ATO was right, however in a letter to Australians for Tax Justice, the ATO states that the result of the Federal Court win for Ms Vincent was confined to a small number of participants in the project; and (b) why is this the case.
- (5) Does the Minister agree that the actions of the ATO in regard to the freedom of information (FOI) requests from MMTEI taxpayers, including originally attempting to charge five and six figure fees, were designed to avoid the ATO's obligations under FOI law.
- (6) Will the Minister admit that the failure on the ATO's side to meet FOI requests by the deadline for settlement meant that MMTEI taxpayers were forced to decide on settlement without being fully informed.
- (7) Does the Minister agree that the ATO failed to comply with directions from the AAT to provide documents to at least one appellant and sought repeated stays of hearing as the deadline for settlement approached.
- (8) Why does the ATO operate on the basis that it does not have to apply the principles of natural justice (ie procedural fairness) when conducting an internal review of a taxation decision.
- (9) Can the Minister confirm that the decision to disallow MMTEIs was taken at Casselden Place, Melbourne 5 months before the ATO had informed the public of its views by issuing Draft Ruling TR97/D17.
- (10) Will the Minister confirm that the ATO issued at least seven Private Binding Rulings (PBR) concerning the following primary production MMTEIs between 3 December 1992 and 19 January 1998, as follows:
 - (a) 1/ Main Camp Tea Tree Oil Project No. 1 (at least 2 PBRs were issued);
 - (b) 2/ Main Camp Tea Tree oil Project No. 2;
 - (c) 3/ Tumut River;
 - (d) 4/ Orchard Project;
 - (e) 5/ Golden Vintage 1996;
 - (f) 6/ WA Paulownias;
 - (g) and 7/ Plantations and Red Claw Partnerships.
- (11) Does the Minister agree that all but one of these seven PBRs are unqualified as to Part IVA provisions of the Income Tax Assessment Act, and that the financing arrangements (associated companies, non recourse loans, round robin of cheques) are specifically acknowledged in four of them.
- (12) Does the Minister agree that the Commonwealth's stated position (after the Sherman report) on the applicability of PBRs is that they should be available to ATO officers and taxation advisers for guidance, and 'legally binding on the Commissioner for a taxpayer whose circumstances are comparable to those dealt with by the ruling'.
- (13) Why is it that the ATO continues to resile from the applicability of these (and possible other) PBRs to many of the 174 disallowed MMTEIs.

1343 **Senator Harris:** To ask the Minister for Revenue and Assistant Treasurer—With reference to mass marketed tax effective investment (MMTEI) schemes:

- (1) Can details be provided of how much the Australian Taxation Office (ATO) has spent on the MMTEI campaign.
- (2) Has the Treasurer allocated additional funds to the ATO to carry out this campaign; if so, can details of additional funds be provided.
- (3) Can the Minister confirm that the ATO has spent over \$100 million on the MMTEI investigations.
- (4) (a) Has the Minister failed in her duty to the Parliament by not taking earlier action; and (b) why should Australian taxpayers pay for this level of inadequacy.

- (8) Will the Minister inform the Senate what mischief there is in aggressive tax planning.
- (9) Is aggressive planning illegal; if so, under what head of power.

- (12) Is it true that, in May 1997, officers of the ATO met in Casselden Place, Melbourne to discuss the disallowance to the deductions in MMTEIs.
- (13) Why was a further \$2 billion in tax deductions recovered by the ATO and accepted as claims in the following 2 years before the market effectively knew that the ATO had agreed to disallow the deductions.
- (14) Was the Treasurer made aware of the ATO's intentions in this matter before action was taken; and, if so, what was his reaction.
- (15) Given that the Treasurer re-appointed the Commissioner of Taxation for another 7 years, a full year before he was required to, and given that, in a press release, he stated that the re-appointment was because of his work on aggressive tax planning: is this just another way of securing 7 years for the Commissioner to promise the Treasurer hundreds of millions of dollars.

Notice given 22 April 2003

1403 **Senator Allison:** To ask the Minister representing the Prime Minister—

- (1) With reference to a claim made by the Prime Minister before the war that only the threat of force by the United States of America (US) allowed the United Nations Monitoring, Verification and Inspection Commission (UNMOVIC) weapons inspectors back into Iraq, and given that it was the threat of force by Washington which pulled the weapons inspectors out of Iraq in March 2003 before they could complete their work (as in December 1998), does the Prime Minister now concede that the threat of force failed again to disarm Iraq of its weapons of mass destruction.
- (2) What is the Government's response to the claim of the Executive Chairman of UNMOVIC, Dr Blix, that the US was guilty of 'fabricating' evidence against Iraq to justify the war, and his belief that the discovery of weapons of mass destruction had been replaced by the main objective of the US of toppling Saddam Hussein (*The Guardian*, 12 April 2003).
- (3) With reference to claims made by the Prime Minister before the war that there was no doubt that Iraq had weapons of mass destruction and that that this was the primary reason for Australia's participation in the 'coalition of the willing', what is the Prime Minister's position now that, even after the

collapse of the regime in Baghdad, no weapons of mass destruction have been found despite United States Defence Secretary Donald Rumsfeld's claim to know where they are.

- (4) Given the Prime Minister's statements that 'regime change' was only a secondary concern for Australia, does the Government agree that the primary justification for the war may prove to be a lie.
- (5) If, as the Prime Minister repeatedly claimed, Iraq had weapons of mass destruction and Saddam Hussein could not be contained or deterred, what is the Government's analysis of why they were not used in the regime's terminal hours against the invading US, United Kingdom and Australian forces.
- (6) With reference to the Prime Minister's argument that stopping the spread of weapons of mass destruction was a primary motive for Australia's participation in a war against Iraq: (a) is the Government concerned that one of the direct effects of the war may be the proliferation of weapons of mass destruction to third parties, including other so called 'rogue states' and possibly terrorist groups, and (b) what analysis has the Government done of this likelihood, and (c) can details be provided.
- (7) Does the Prime Minister now regret saying just before the war (at the National Press Club and elsewhere) that Saddam Hussein could stay on in power providing he got rid of his weapons of mass destruction, thus allowing him to continue the repression of Iraqis; if so, what circumstances altered the Prime Minister's view.

1423 **Senator Allison:** To ask the Minister representing the Prime Minister—With reference to the Productivity Commission report no. 10, *Australia's Gambling Industries*, dated 26 November 1999: Can information be provided on the progress made by the Ministerial Council on Gambling in respect of each of the following issues identified, and findings contained, in the report (pp 3-4):

- Quantification of the costs and benefits of the gambling industries is hazardous. Uncertainty about key parameters constrained the Commission to providing low and high estimates. For the gambling industries as a whole, estimates of their *net* contribution to society, ranged from a net loss of \$1.2 billion to a net benefit of \$4.3 billion. This masks divergent results for different gambling modes, with lotteries revealing clear net benefits, whereas gaming machines and wagering include the possibility of net losses.
- Policy approaches for the gambling industries need to be directed at reducing the costs of problem gambling – through harm minimisation and prevention measures – while retaining as much of the benefit to recreational gamblers as possible.
- The current regulatory environment is deficient. Regulations are complex, fragmented and often inconsistent. This has arisen because of inadequate policy-making processes and strong incentives for governments to derive revenue from the gambling industries.
- Restrictions on competition have not reduced the accessibility of gambling other than for casino games. With the possible exception of casinos, current restrictions on competition have little justification.

- Venue caps on gaming machines are preferable to state-wide caps in helping to moderate the accessibility drivers of problem gambling. However, more targeted consumer protection measures – if implemented – have the potential to be much more effective, with less inconvenience to recreational gamblers.
- Existing arrangements are inadequate to ensure the informed consent of consumers, or to ameliorate the risks of problem gambling. Particular deficiencies relate to:
 - information about the ‘price’ and nature of gambling products (especially gaming machines);
 - information about the risks of problem gambling;
 - controls on advertising (which can be inherently misleading);
 - availability of ATMs and credit; and
 - pre-commitment options, including self-exclusion arrangements.
- In such areas, self-regulatory approaches are unlikely to be as effective as explicit regulatory requirements. In most cases, regulation can be designed to enhance, rather than restrict consumer choice, by allowing better information and control.
- Counselling services for problem gamblers serve an essential role, but there is a lack of monitoring and evaluation of different approaches, and funding arrangements in some jurisdictions are too short term.
- Services, awareness promotion and research activities related to problem gambling are likely to be most effectively funded from earmarked levies on all segments of the gambling industry, with the allocation of funds independently administered.
- The mutuality principle, combined with lack of constraints on gaming machine numbers, appears to be distorting the investment and pricing decisions of some clubs, with impacts on competitors. Of the options for dealing with it, only tax action at the state level appears feasible.
- Policy decisions on key gambling issues have in many cases lacked access to objective information and independent advice – including about the likely social and economic impacts – and community consultation has been deficient.
- An ideal regulatory model would separate clearly the policy-making, control and enforcement functions.
- The key regulatory control body in each state or territory should have statutory independence and a central role in providing information and policy advice, as well as in administering gambling legislation. It should cover all gambling forms and its principal operating criteria should be consumer protection and the public interest.

1439 **Senator Allison:** To ask the Minister for Health and Ageing—

- (1) Can a progress report be provided on the National Meningococcal C Vaccine Program.
- (2) Is it the case that a report from the Australian Technical Advisory Group on Immunisation (ATAGI) in October 2002 recommended that a program of pneumococcal, meningococcal type C, injectable polio and chicken pox vaccines be funded.
- (3) Is it the case that the department, in consultation with ATAGI, initially recommended that \$47.5 million be spent on a targeted meningococcal type C vaccine program.
- (4) Can a copy of the National Health and Medical Research Council's consultation report into ATAGI's recommendations, 'National Health and Medical Research Council public consultation report into the draft 8th edition of the Australian Immunisation Handbook' be provided; if not, why not.
- (5) Why did the Government ignore expert advice and proceed with a universal meningococcal type C vaccine program in all states at a cost of \$250 million, in spite of the fact that meningococcal type C disease is only prevalent in a limited number of geographic locations.
- (6) As a result of this decision, is it now the case that the funding of the other essential vaccines recommended by ATAGI in October will be deferred indefinitely.
- (7) Is one of the reasons the ATAGI recommended funding for pneumococcal vaccination that, according to data from Communicable Diseases Australia, there were 18 cases of meningococcal type C infection and 512 cases of invasive pneumococcal disease reported in children under 5 years of age in Australia in 2002.
- (8) Can rates of hospitalisation, disability and death, by state, be provided for meningococcal type C disease and pneumococcal disease.

- (10) Is the Government aware of the article in the *New England Journal of Medicine*, 1 May 2003, that concludes; 'The use of the pneumococcal conjugate vaccine is preventing disease in young children, for whom the vaccine is indicated and may be reducing the rate of disease in adults. The vaccine provides an effective new tool for reducing disease caused by drug resistant strains'.

- (11) Will this report lead to a re-evaluation of the decision not to fund pneumococcal vaccines.
- (12) Can the Government provide a progress report on the distribution of pneumococcal vaccine to Aboriginal children.
- (13) Is it the case that the take-up for Aboriginal children has been poor due to excessive restrictions designed to prevent leakage to unsubsidised children, excessive paperwork and difficulties in implementation; if so, how does the Government propose to improve the take-up rate.
- (14) Is it the case that Aboriginal children have the highest rate of pneumococcal disease in the world.
- (15) Can rates of hospitalisation, disability and death, by state, be provided for pneumococcal disease in Aboriginal children.
- (16) When will an evaluation of the National Meningococcal C Vaccination Program be conducted.

1477 **Senator Brown:** To ask the Minister representing the Minister for the Environment and Heritage—

- (1) How much of the \$250 million promised for the Natural Heritage Trust (NHT) in the 2002-03 Budget has been released by the Commonwealth, apart from the \$50 million so far announced for Envirofund and drought recovery grants.
- (2) Can a breakdown be provided of commitments and/or expenditure for all components of the NHT for each of the 2002-03 and 2003-04 financial years.
- (3) Have any regional resource management plans yet been accredited under the NHT; if so, which ones; if not, when might the first of the 62 regions pass that hurdle.
- (4) Which, if any, of the current NHT support programs, such as the Bushcare Support Program, the Landcare Support Program or the Farm Forestry Support Program, will be continued in the 2003-04 financial year.
- (5) If the continuation of these programs is dependent upon the finalisation of bilateral agreements with the states, are there any contingency plans in place for NHT support workers in the four states that are still dead-locked in negotiations with the Commonwealth, or will these staff be made redundant after June 2003.

1478 **Senator Brown:** To ask the Minister representing the Minister for Industry, Tourism and Resources—Was any information prepared by consultant Rio Tinto Ltd as part of the mining and energy biotechnology sector study, undertaken under contract for the department in the 1999-2000 financial year; if so, what was that information and can a copy be provided.

1479 **Senator Brown:** To ask the Minister representing the Minister for Industry, Tourism and Resources—With reference to the environment statement for the 2003-04 Budget, which lists funding of \$11.6 million for the 'Cooperative Research Centre for Carbon Dioxide Sequestration' as a new measure in the Industry, Tourism and Resources portfolio:

- (1) Given that there is no existing cooperative research centre (CRC) of this name; where is the funding going.
- (2) (a) Is this funding new funding, additional to the existing CRC budget; and (b) has it been approved by the CRC selection process.

- (3) Why is additional funding being provided for geosequestration but none for research and development of renewable energy.

1480 **Senator Allison:** To ask the Minister for Family and Community Services—With reference to the answer to question on notice no. 1357:

- (1) Given the answer to part (2)(b), can the Minister explain the discrepancy between the answers given and the figures published by the Department of Health and Ageing on page 10 of the *Australian* on 24 March 2003.
- (2) On what evidence does the Minister base the assertion in answer to part (3) that the government disability services deal with clients with higher support needs.
- (3) With reference to the answer to part (3), that the current snapshot service data and the Productivity Commission cost data is to be treated with caution, and that the Australian Institute of Health and Welfare demand study has not been fully recognised in the Commonwealth State and Territory Disability Agreement (CSTDA) growth funding: how does the department do its planning with such unreliable data.
- (4) With reference to the answer to part (7), that the 'Commonwealth's view is that residential aged care rarely provides appropriate accommodation support for younger people with disabilities': does the Minister accept that this is the only option for accommodation for some families.
- (5) Can a copy be provided of the CSTDA Implementation Plan mentioned in the answer to part (8).
- (6) With reference to the answer to part (9)(b), which states that the department encourages states and territories to address the needs of young people in nursing homes: (a) how does this occur; and (b) is this encouragement monetary.
- (7) Given that the second CSTDA was held up with disputes over funding and the third CSTDA remains unsigned after nearly a year, despite the disability administrators' CSTDA implementation plan, does the Minister recognise the failure of the CSTDA negotiation process to reach agreement on national strategic policy and funding issues; if so, what process will be put in place to reach agreement.
- (8) With the limited growth funding available to the CSTDA over the next 5 years, how is the work plan in relation to young people in nursing homes going to be achieved.
- (9) With reference to the Victorian Department of Human Services' estimate of a 46 per cent growth in service demand for disability services by 2011: how is the CSTDA planning for this growth.

1481 **Senator Allison:** To ask the Minister for Health and Ageing—

- (1) Is the Minister aware that Professor Allars, on page 703 of the 1994 Allars report, and the 1997 Community Affairs References Committee report *CJD settlement offer* stated that many recipients of pituitary-derived hormones experienced difficulties in accessing their medical files, stating that records were 'missing or destroyed'.
- (2) Is the Minister aware that an 'unapproved' patient, who declared himself as a patient of Human Pituitary Advisory Committee (HPAC) doctors, could only obtain access to his medical files by applying to the Victorian Civil and Administrative Appeals Tribunal.

- (3) (a) What does the department consider as an 'unapproved patient'; and (b) is it true that some 500 to 600 people fit this description.
- (4) How can 'unapproved patients' prove themselves, given they often do not have access to their medical records unless they go through the courts, and nor are they able to access services provided to 'official recipients'.
- (5) (a) Has the Minister been advised of this unfair treatment as stated in both reports; and (b) what does the Minister intend to do to redress this situation.
- (6) Why has the department elected not to advise an 'unapproved recipient' of his hGH intravenous administration during the 'provocation' tests in which his treating hospital advised the department back in 1998.
- (7) Will the Minister follow up on the 'unapproved recipients' who were declared to the department and who the department elected not to advise of their treatment.
- (8) Can the Minister explain why it takes 10 years for an 'unofficial recipient' to discover his medical treatment under the HPAC.
- (9) (a) Can the Minister explain why some hGH batches were excluded from the information tabled in the Allars Report, namely hGH70, hGH102, hGH104 and hGH105; and (b) given the department holds a document on this 'unapproved recipient' dated 1978, after being disclosed as a recipient, why did the department elect not to advise this recipient of his treatment 20 years later in 1998 when his hospital contacted the department.
- (10) (a) Can the Minister explain why this patient was written to by both the department and his treating endocrinologist stating that he was never treated with pituitary-derived hormones, when this now proves to be incorrect.
- (11) (a) How could this mistake have been made; and (b) what structures are in place to ensure that it does not happen again.
- (12) Given the release of this recipient's medical files under the Freedom of Information Act, and the release of his 'provocation tests' and results, what is the Minister doing about those who were 'Steroid Primed' and chemically castrated as a result of the program.
- (13) In light of this new information and the clinical investigation undertaken prior to any 'growth treatment', showing that this 'unapproved recipient' was a healthy, child showing no endocrine abnormalities with normal growth hormones levels: why was the child experimented on.
- (14) Why does the department refuse to follow up on these subjects who were merely short for their age with no growth dysfunction, who ended up being treated with toxic drugs, namely anabolic steroids.
- (15) Does the Minister agree that both the Senate inquiry and the 'unapproved recipients' of this program have been misled about this treatment.

1482 **Senator Brown:** To ask the Minister representing the Minister for Foreign Affairs—

- (1) Has the Government established a national co-ordination agency or body responsible for policy guidance, research and monitoring of efforts to prevent, combat and eradicate the illicit trade in small arms and light weapons in all its aspects; if not, why not.
- (2) Has the Government drafted specific legislation on arms brokering activities following its agreement to the program of action of the 'United

Nations Conference on the Illicit Trade in Small Arms and Light Weapons in all its Aspects'; if not, why not.

- (3) Has the Government established adequate, detailed standards and procedures relating to the management and security of the stocks of small arms and light weapons held by the armed forces, police and any other body authorised to hold them; if not, why not.
- (4) Has the Government developed any partnerships with civil society or non-government organisations in relation to the above; if not, why not.

1483 **Senator Brown:** To ask the Minister representing the Minister for Foreign Affairs—

- (1) What, if any, steps has the Australian Government taken since July 2001 to implement the United Nations program of action on small arms agreed to at the 'United Nations Conference on the Illicit Trade in Small Arms and Light Weapons in all its Aspects', held in July 2001.
- (2) Why is the latest information on the department's website on this issue dated October 2001.

Notice given 30 May 2003

1484 **Senator Allison:** To ask the Minister for Family and Community Services—With reference to the Productivity Commission report no. 10, *Australia's Gambling Industries*, dated 26 November 1999: Can information be provided on the progress made by the Ministerial Council on Gambling in respect of each of the following issues identified, and findings contained, in the report (pp 3-4):

- Quantification of the costs and benefits of the gambling industries is hazardous. Uncertainty about key parameters constrained the Commission to providing low and high estimates. For the gambling industries as a whole, estimates of their *net* contribution to society, ranged from a net loss of \$1.2 billion to a net benefit of \$4.3 billion. This masks divergent results for different gambling modes, with lotteries revealing clear net benefits, whereas gaming machines and wagering include the possibility of net losses.
- Policy approaches for the gambling industries need to be directed at reducing the costs of problem gambling – through harm minimisation and prevention measures – while retaining as much of the benefit to recreational gamblers as possible.
- The current regulatory environment is deficient. Regulations are complex, fragmented and often inconsistent. This has arisen because of inadequate policy-making processes and strong incentives for governments to derive revenue from the gambling industries.
- Restrictions on competition have not reduced the accessibility of gambling other than for casino games. With the possible exception of casinos, current restrictions on competition have little justification.
- Venue caps on gaming machines are preferable to state-wide caps in helping to moderate the accessibility drivers of problem gambling. However, more targeted consumer protection measures – if implemented – have the potential to be much more effective, with less inconvenience to recreational gamblers.
- Existing arrangements are inadequate to ensure the informed consent of consumers, or to ameliorate the risks of problem gambling. Particular deficiencies relate to:

- information about the ‘price’ and nature of gambling products (especially gaming machines);
 - information about the risks of problem gambling;
 - controls on advertising (which can be inherently misleading);
 - availability of ATMs and credit; and
 - pre-commitment options, including self-exclusion arrangements.
- In such areas, self-regulatory approaches are unlikely to be as effective as explicit regulatory requirements. In most cases, regulation can be designed to enhance, rather than restrict consumer choice, by allowing better information and control.
 - Counselling services for problem gamblers serve an essential role, but there is a lack of monitoring and evaluation of different approaches, and funding arrangements in some jurisdictions are too short term.
 - Services, awareness promotion and research activities related to problem gambling are likely to be most effectively funded from earmarked levies on all segments of the gambling industry, with the allocation of funds independently administered.
 - The mutuality principle, combined with lack of constraints on gaming machine numbers, appears to be distorting the investment and pricing decisions of some clubs, with impacts on competitors. Of the options for dealing with it, only tax action at the state level appears feasible.
 - Policy decisions on key gambling issues have in many cases lacked access to objective information and independent advice – including about the likely social and economic impacts – and community consultation has been deficient.
 - An ideal regulatory model would separate clearly the policy-making, control and enforcement functions.
 - The key regulatory control body in each state or territory should have statutory independence and a central role in providing information and policy advice, as well as in administering gambling legislation. It should cover all gambling forms and its principal operating criteria should be consumer protection and the public interest.

A GUIDE TO THE DAILY NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees: is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees: is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees: a daily list of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

A GUIDE TO THE FULL NOTICE PAPER

On the first day of each period of sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full electronic version of the *Notice Paper*, available on ParlInfo and on the parliament's Internet site.

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3015.
