27 **Senator Lees:** To move—That the Senate—

- (a) acknowledges the threats facing the endangered Asian elephant throughout its natural range, including live trade, human-elephant conflict and poaching for ivory tusks, hide and meat;
- (b) notes that:
 - (i) the Asian elephant is listed as an Appendix I species under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES),

- (ii) Appendix I species are those whose trade must be subject to particularly strict regulation, and only authorised in exceptional circumstances,
 - (iii) Australia has been a party to CITES since 1976,
 - (iv) implementation of the Commonwealth *Environment Protection and Biodiversity Conservation Act 1999* serves as Australia's way of meeting its international obligations as a CITES party,
 - (v) under the Act, CITES Appendix I species cannot be imported for the purpose of exhibition, and zoos must prove that they are able to meet the biological and behavioural needs of the animals if importation is for reasons such as conservation breeding,
 - (vi) Australian zoos have requested permission from the Australian Government to import nine Asian elephants from Thailand as part of a captive breeding program,
 - (vii) research undertaken by Oxford University in 2002 and supported by peers has identified that zoos are unable to meet the biological and behavioural needs of elephants in captivity, as elephants in captivity suffer from stress and boredom leading to abnormal behaviours and have a greater incidence of infant mortality and early death, and
 - (viii) the proposed captive breeding program offers no conservation benefit to the Asian elephant species as no offspring will ever be returned to the wild and elephants do not breed successfully in captivity; and
- (c) calls on the Government to:
- (i) reject the proposal that would allow the impending and any future importation of elephants from Thailand to Australian zoos,
 - (ii) work with the zoo association and non-government organisations to undertake an assessment of welfare conditions for elephants currently held in Australian zoos, and
 - (iii) earmark funding from the Regional Natural Heritage Program addressing biodiversity hotspots in the Asia Pacific region, for in situ conservation projects that will help to address the threats facing the Asian elephant in Thailand and other range states.

QUESTIONS ON NOTICE

Questions remaining unanswered

Question Nos, as shown, from 23 to 339 remain unanswered for 30 or more days (see standing order 74(5)).

Notice given 16 November 2004

23 **Senator Marshall:** To ask the Minister for Immigration and Multicultural and Indigenous Affairs—

- (1) For each of the years 2002, 2003 and 2004 (to date): (a) how many appeals for ministerial discretion to grant a visa to remain in Australia were made by people whose visas were cancelled under subsection 501(2) of the *Migration Act 1958*; and (b) how many times did the Minister exercise discretion to grant a visa to a person whose visa was cancelled under section 501 of the Act.
- (2) Does the Minister have the power to re-instate a permanent resident visa previously cancelled under sections 200 or 501 of the Act.

24 **Senator Allison:** To ask the Minister representing the Minister for Health and Ageing—

- (1) What discussions or consultations were conducted with industry and consumer groups regarding the pre-election announcement of compulsory 12.5 per cent cuts in the Pharmaceutical Benefits Scheme (PBS) prices for newly listed medicines.
- (2) (a) How will this savings measure be realised; (b) what legislative changes will be required; and (c) when will these be presented to the Parliament for consideration.
- (3) What information does the Minister have on the potential consequences of these enforced cuts in PBS prices for the sustainability of the pharmaceutical industry in Australia.

- (4) What work has been done to study the impact of this decision on the take-up of generic medicine manufacture.
- (5) What information does the Minister have on the potential consequences of these enforced cuts in PBS prices for community pharmacies.

27 **Senator Allison:** To ask the Minister representing the Prime Minister—

- (1) With reference to a claim made by the Prime Minister before the war that only the threat of force by the United States of America (US) allowed the United Nations Monitoring Verification and Inspection Commission (UNMOVIC) weapons inspectors back into Iraq, and given that it was the threat of force by Washington which pulled the weapons inspectors out of Iraq in March 2003 before they could complete their work (as in December 1998), does the Prime Minister now concede that the threat of force failed again to disarm Iraq of its weapons of mass destruction.
- (2) What is the Government's response to the claim of the Executive Chairman of UNMOVIC, Dr Blix, that the US was guilty of 'fabricating' evidence against Iraq to justify the war, and his belief that the discovery of weapons of mass destruction had been replaced by the main objective of the US of toppling Saddam Hussein (*The Guardian*, 12 April 2003).
- (3) With reference to claims made by the Prime Minister before the war that there was no doubt that Iraq had weapons of mass destruction and that that this was the primary reason for Australia's participation in the 'coalition of the willing', what is the Prime Minister's position now that, even after the collapse of the regime in Baghdad, no weapons of mass destruction have been found despite United States Defence Secretary Donald Rumsfeld's claim to know where they are.
- (4) Given the Prime Minister's statements that 'regime change' was only a secondary concern for Australia, does the Government agree that the primary justification for the war may prove to be a lie.
- (5) If, as the Prime Minister repeatedly claimed, Iraq had weapons of mass destruction and Saddam Hussein could not be contained or deterred, what is the Government's analysis of why they were not used in the regime's terminal hours against the invading US, United Kingdom and Australian forces.
- (6) With reference to the Prime Minister's argument that stopping the spread of weapons of mass destruction was a primary motive for Australia's participation in a war against Iraq: (a) is the Government concerned that one of the direct effects of the war may be the proliferation of weapons of mass destruction to third parties, including other so called 'rogue states' and possibly terrorist groups, and (b) what analysis has the Government done of this likelihood, and (c) can details be provided.
- (7) Does the Prime Minister now regret saying just before the war (at the National Press Club and elsewhere) that Saddam Hussein could stay on in power providing he got rid of his weapons of mass destruction, thus allowing him to continue the repression of Iraqis; if so, what circumstances altered the Prime Minister's view.

29 **Senator Allison:** To ask the Leader of the Government in the Senate—When will the Minister respond to Senator Allison's letter of 7 April 2003 concerning orders for the production of documents.

30 **Senator Allison:** To ask the Minister representing the Minister for Agriculture, Fisheries and Forestry—

- (2) For the 2003-04 financial year to date, how much has been spent on advertising and marketing in relation to the NAP.
- (3) For each state and territory, how much has been spent on foundation funding, priority actions, regional investment strategies and capacity building under the NAP.

- (5) Can copies be provided of the strategic investment plans that have been prepared in relation to the NAP for each state and territory.

31 **Senator Allison:** To ask the Minister representing the Minister for Ageing—

- (3) What monitoring took place between the audit report of 2003 and the subsequent decision to accredit this aged care home, and the 2004 audit.
- (4) Why were the non-compliant outcomes not identified before February 2004.

32 **Senator Allison:** To ask the Minister representing the Treasurer—

- (1) Why has the Treasurer imposed competition payment penalties on the Government of South Australia and ignored the arguments it put forward about the social impact that would result from that state removing its 'proof of need' test for hotel and retail liquor merchant licences, as required by the National Competition Council.
- (2) Does the Treasurer accept advice from the Government of South Australia, and the Drug and Alcohol Services Council, the Salvation Army and the South Australia Police, that removing the 'proof of need' test would result in greater alcohol-related harm; if not, why not.
- (3) Does the Treasurer accept the arguments put forward by the South Australian Premier on 2 June 2004 that the 'proof of need' test protects against business failures in the industry, and against market domination by one or two powerful players, which would lead to a reduction in competition; if not, why not.
- (4) What other competition payment penalties will be or have been imposed on state governments, despite arguments put forward by those governments in relation to social and/or health impacts.

36 **Senator Allison:** To ask the Minister representing the Minister for Ageing—

- (2) Is more recent data on waiting lists in any or all of these areas available; if so, can it be provided.
- (3) Can data on waiting lists for the other states and territories in any or all of these areas be provided.
- (4) Can the latest data be provided on the number of non-operational residential care places in each state and territory.
- (5) For each state and territory, what is the average wait for low and high care residential places following assessment by an Aged Care Assessment Team that a person requires residential care.

- (2) Does the Minister accept the *Australian Concise Oxford Dictionary’s* definition of ‘vast’ as ‘immense, huge, very great’.
- (3) Can the Minister: (a) provide a list for the Senate of any bill that could conceivably be regarded as being held up, as described by Mr Hockey; and (b) give his reasons for making that judgment.

50 **Senator Murray:** To ask the Minister representing the Minister for Employment and Workplace Relations—

- (4) Can the Government confirm that when adverse drug reactions are reported, it is the practice that all medications that a person may be taking are listed and that it is common for people to be using multiple products at the one time; if so, of the 62 serious adverse events occurring in individuals who consumed products for which Pan Pharmaceuticals was an approved manufacturer and that were reported in the 12 months prior to the Pan Pharmaceuticals recall, how many of the 62 reports had other medications listed.

A GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

The ‘full’ Notice Paper

On the first day of each period of sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo and on the Senate’s Internet site at aph.gov.au/senate.

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
