  - (iii) Australia has been a party to CITES since 1976,
  - (iv) implementation of the Commonwealth *Environment Protection and Biodiversity Conservation Act 1999* serves as Australia's way of meeting its international obligations as a CITES party,
  - (v) under the Act, CITES Appendix I species cannot be imported for the purpose of exhibition, and zoos must prove that they are able to meet the biological and behavioural needs of the animals if importation is for reasons such as conservation breeding,

Technological progress and globalisation are changing the structure of the Australian media market and patterns of media consumption—undeniably Australian media organisations are responding to these changes by investing in new technology enterprises and forming broader strategic partnerships, but the regulation of ownership and control of Australian media has been largely static. This creates ongoing tension between the trend towards convergence in the communications market and a regulatory framework which is based on sector-specific regulation and an assumption that influential sources of news and opinion are limited to the traditional domestic media outlets...The government is committed to the need for ongoing diversity of opinion and information in the Australian media.

## **Parliament**

### **21 Security funding**

The Senate:

- (a) notes the transfer of \$1 million from the Department of the Senate to the Department of Parliamentary Services as a special contribution to security costs in the parliamentary precincts over and above the transferred funds previously provided for security, and
- (b) agrees that, if any further funds are necessary to provide additional security costs, they be made by additional appropriation to, or savings within, the Department of Parliamentary Services.

*(Agreed to 8 December 2004 upon adoption of a recommendation of the Appropriations and Staffing Committee in its 41st report.)*

### **22 Appropriation bills: Payments to international organisations**

The Senate is of the view that:

- (a) an initial payment to an international organisation in effect represents a new policy decision and therefore should be in Appropriation Bill (No. 2); and
- (b) subsequent payments represent a continuing government activity of supporting the international organisation and therefore represents an ordinary annual service and should be in Appropriation Bill (No. 1).

*(Agreed to 8 December 2004 upon adoption of a recommendation of the Appropriations and Staffing Committee in its 41st report.)*

## A GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

**Matters of privilege** take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

**Business of the Senate** has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

**Government business** is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

**General business** is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

**Notices of motion** are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

**Orders of the day** are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

**Orders of the day relating to committee reports and government responses** follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

**Orders of the day relating to government documents** appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

**Business for future consideration** lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

**Bills referred to committees** lists all bills or provisions of bills currently being considered by committees.

**Questions on notice** includes the text of new questions on notice and lists the numbers of unanswered questions.

**Orders of the Senate** includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

**Contingent notices of motion** are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

**Temporary chairs of committees** is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

**Categories of committees** is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

**Committees** lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

**Senate appointments to statutory authorities** lists the statutory authorities on which the Senate is represented and details of representation.

**Ministerial representation** lists Senate ministers and the portfolios they represent.
