Orders of the Day

1 Social Security and Other Legislation Amendment (Welfare Payment Reform) Bill 2007

Northern Territory National Emergency Response Bill 2007

Families, Community Services and Indigenous Affairs and Other Legislation Amendment (Northern Territory National Emergency Response and Other Measures) Bill 2007

Appropriation (Northern Territory National Emergency Response) Bill (No. 1) 2007-2008

Appropriation (Northern Territory National Emergency Response) Bill (No. 2) 2007-2008

Adjourned debate on the motion of the Minister for Community Services (Senator Scullion)—That these bills be now read a second time.

And on the amendment moved by Leader of the Opposition in the Senate (Senator Evans) in respect of the Social Security and Other Legislation Amendment (Welfare Payment Reform) Bill 2007, the Northern Territory National Emergency Response Bill 2007 and the Families, Community Services and Indigenous Affairs and Other Legislation Amendment (Northern Territory National Emergency Response and Other Measures) Bill 2007—At the end of the motion, add “but the Senate notes that:

- (a) the protection of children from harm and abuse is of paramount concern to all Australians;
- (b) the documented instances of child abuse within Indigenous communities in the Northern Territory are of such gravity as to require an urgent and comprehensive response to make safe children and the communities in which they live;
- (c) these legislative measures taken together represent a major challenge for Territorians and a change to current arrangements;
- (d) we will not succeed in our goal of protecting children without the support and leadership of Aboriginal people of the Northern Territory and therefore the Commonwealth must gain their trust, engage them and respect them throughout this emergency and beyond;
- (e) the work of strong and effective Indigenous community members and organisations must continue to be supported during this emergency;
- (f) it is important that temporary measures are replaced in time with permanent reforms that have the confidence and support of Territorians, and short-term measures aimed at ensuring the safety of children grow into long-term responses that create stronger communities that are free of violence and abuse;
- (g) in the case of town camps, effective partnerships with lessors and negotiated outcomes should obviate the need for compulsory acquisition;
- (h) stimulating economic development and more private sector partnerships will secure greater self-reliance;
- (i) both levels of government must work in partnership and there must be political accountability at the highest level – the Prime Minister (Mr Howard) and the Minister for Families, Community Services and Indigenous Affairs (Mr Brough);

- (j) program funding must hit the ground through evidence-based delivery and there must be a relentless focus on best-practice and rigorous evaluation by all parties set within specific timeframes; and
- (k) practical measures must include:
 - (i) police keeping every community in the Territory safe, particularly children, women and elders,
 - (ii) safe houses that provide a safe place for women and children escaping family violence or abuse, built using the direction and leadership of local Indigenous women,
 - (iii) night patrols that provide important protection,
 - (iv) community law and justice groups that play an important role in the effective administration of justice,
 - (v) appropriate background checks for all people providing services in communities who work in proximity to children,
 - (vi) comprehensive coverage of child and maternal health services, essential to give children the best start,
 - (vii) comprehensive coverage of parenting and early development services for Indigenous parents and their babies,
 - (viii) an effective child protection system in the Northern Territory,
 - (ix) all children being enrolled and attending school and governments delivering teachers, classrooms, teacher housing and support services, such as Indigenous teacher assistants,
 - (x) investment in housing construction and maintenance to reduce the shortfall in Indigenous homes and infrastructure, and
 - (xi) reform of the Community Development and Employment Program, including transitioning participants who are employed in public sector work into proper public sector jobs and ensuring participants are not left without sufficient income or participation opportunities”

1 **Employment, Workplace Relations and Education—Standing Committee**

Report to be presented on the current level of academic standards of school education.

General Business—Notice of Motion*Notice given 7 August 2007***842 Senator Milne:** To move—That the Senate—

(a) notes:

- (i) that 2007 marks the 20th anniversary of the Montreal Protocol on Substances that Deplete the Ozone Layer (Montreal Protocol), arguably the most successful multilateral environmental agreement and that since 1987, the Montreal Protocol has resulted in a 95 per cent reduction in global emissions of ozone depleting substances through the use of binding controls with strict compliance measures, financing mechanisms and trade restrictions,
 - (ii) the Montreal Protocol has already postponed the impacts of climate change by approximately 10 years, because the ozone depleting substances also have extremely high global warming potentials,
 - (iii) a number of parties to the Montreal Protocol have proposed amendments to the Montreal Protocol to accelerate the phase-out of hydrochlorofluorocarbons (HCFCs) in order to further delay these impacts by preventing the emission of approximately 2.5 gigatonnes of CO₂ equivalent, and
 - (iv) that an accelerated HCFC phase-out gives environmentally-friendly alternatives a fairer chance to compete on the market, particularly as alternatives exist for HCFCs in all applications, and that additional measures are needed to ensure natural refrigerants are used in preference to hydrofluorocarbons which are themselves potent industrial greenhouse gases covered by the Kyoto Protocol; and
- (b) calls on the Government to support the recommendations of the Stockholm Group, the Environmental Investigation Agency and the parties proposing amendments to the Montreal Protocol to accelerate the phase-out of HCFCs at the 19th meeting of the parties in Montreal, Canada, to be held in September 2007.

Three sitting days after today (10 September 2007)

Business of the Senate—Notice of Motion

Notice given 12 June 2007

- 1 **Chairman of the Standing Committee on Regulations and Ordinances (Senator Watson):** To move—That the Broadcasting (Charges) Determination 2007 and the Radiocommunications (Charges) Determination 2007, made under subsection 60(1) of the *Australian Communications and Media Authority Act 2005*, be disallowed. [F2007L00371 and F2007L00372]

Four sitting days remain, including today, to resolve the motion or the instrument will be deemed to have been disallowed.

Notice of intention to withdraw at the giving of notices on 14 August 2007
(*Notice given 13 August 2007*)

On 12 September 2007

Business of the Senate—Notice of Motion

Notice given 21 June 2007

- 1 **Senator Milne:** To move—That—
 - (a) the Senate notes that:
 - (i) the Fourth Assessment Report of the Intergovernmental Panel on Climate Change (IPCC) concluded that:
 - (A) the sea level would rise by between 0.18 metres to 0.59 metres by the end of the century and that these projections do not include the full effects of changes in ice sheet flow because a basis in published literature was lacking,
 - (B) there is medium confidence (that is a 50 per cent chance) that at least partial deglaciation of the Greenland ice sheet, and possibly the West Antarctic ice sheet, would occur over a period of time, ranging from centuries to millennia for a global average temperature increase of 1° to 4°C (relative to 1990-2000), causing a contribution to a rise in sea level of 4 to 6 metres or more, and
 - (C) many millions more people are projected to be flooded every year due to a sea level rise by 2080 and the numbers affected will be largest in the mega-deltas of Asia and Africa, while small islands are especially vulnerable,
 - (ii) recent scientific research, published too late for inclusion in the IPCC reports, suggests that the sea level is rising more quickly than previously thought and many eminent climate scientists, including Dr James Hansen, Head of Atmospheric Research for the National Aeronautics and Space Administration, warn that a warming of 2° to 3°C could melt the ice sheets of West Antarctica and parts of Greenland, resulting in a sea level rise of 5 metres within a century,
 - (iii) assessing the impact of even a moderate rise in sea level in Australia remains inadequate for adaptation planning,

- (iv) assessing the vulnerability of low coastal and estuarine regions requires not only mapping height above sea level but must take into account factors such as coastal morphology, susceptibility to long-shore erosion, near shore bathymetry and storm surge frequency,
 - (v) delaying analysis of the risk of the rise in sea level exacerbates the likelihood that such information may affect property values and investment through disclosure of increased hazards and possible reduced or more expensive insurance cover, and
 - (vi) an early response to the threat of rising sea levels may include avoiding investment in long-lived infrastructure in high risk areas; and
- (b) the following matter be referred to the Environment, Communications, Information Technology and the Arts Committee for inquiry and report by 3 December 2007:

An assessment of the risks associated with the rise in sea level in Australia, including an appraisal of:

- (i) recent science relating to projections on the rise in sea level,
- (ii) ecological, social and economic impacts for the full range of projections,
- (iii) adaptation and mitigation strategies,
- (iv) knowledge gaps and research needs, and
- (v) options to communicate risks and vulnerabilities to the Australian community.

3095 **Senator Bartlett:** To ask the Minister representing the Minister for Agriculture, Fisheries and Forestry—With reference to the Memorandum of Understanding (MOU) ‘MOU on Handling and Slaughtering of Australian Live Animals’ signed on 3 October 2006 by the Minister and the Egyptian Minister of Agriculture and Land Reclamation, Mr Amin Ahmed Abaza:

- (1) Does the MOU relate to all animals exported from Australia to Egypt.
- (2) Can the Minister confirm that there is no distinction made in the MOU in regard of agreed terms for the treatment of Australian sheep, for example whether they are sent to abattoirs or sold privately for home slaughter.
- (3) (a) Can the Minister confirm that, in Egypt, no enforceable legislation exists to prohibit cruelty to animals, within slaughterhouses or elsewhere, or to ensure that the conditions of the MOU are complied with; and (b) given that there is a lack of animal protection laws and that significant animal welfare issues are documented in Egypt, on what basis did the Minister believe that the conditions of the MOU would be complied with.
- (4) Can the Minister confirm that he and departmental officials were advised by representatives of Animals Australia, prior to the signing of the MOU, that the treatment and handling of sheep in Egypt did not comply with World Organisation for Animal Health (OIE) guidelines due to the prevalent practice of on-selling to private buyers and the inept and unregulated handling and slaughter practices that are used, even in major abattoirs, in Egypt.
- (5) What assurances about animal welfare standards in Egypt, if any, were made to the Australian Quarantine and Inspection Service, and to the Australian Government, prior to the granting of an export permit for a consignment of approximately 40 000 sheep from Australia to Egypt in October and November 2006.
- (6) Can the Minister confirm that he was advised, in correspondence from Animals Australia dated 22 November 2006, that the welfare of the first shipment of sheep to Egypt since the signing of the MOU was at risk as the import was specifically for Eid-al-Adha (the ‘Feast of Sacrifice’), the major religious festival during which sheep are sacrificed in the street and in homes; if so: did the Minister: (a) confirm the information contained in the correspondence; and (b) take action by sending Australian Government representatives to Egypt to monitor the treatment of the sheep that arrived in Egypt in November 2006 in order to assess the adherence to the MOU; if not, why not, given the statement, in the document ‘Frequently asked questions—Live trade export – Egypt on the department’s website, that ‘initial shipments will be closely monitored for compliance with the MOU provisions’.
- (7) Prior to the signing of the MOU, was there any assessment conducted by the Australian Government of market places, abattoirs, transport or handling standards in Egypt, and particularly any assessment of likely adherence to OIE animal welfare guidelines, and therefore the MOU, in regard to sheep; if so, can details of these assessments be provided.

- (8) What assurances were made, by either Mr Abaza or other representatives of the Government of Egypt, to Australian Government representatives in regard to the enforcement of the animal welfare provisions detailed in that MOU, and in particular the adherence to the OIE guidelines for the humane treatment and slaughter of Australian livestock.
- (9) Given that during additional estimates hearings of the Rural and Regional Affairs and Transport Committee in February 2007, Mr Craig Burns, Executive Manager of the International Division of the department, stated, under questioning about the MOU, that the 'focus' is on the way Australian animals are treated in 'abattoirs and official handling facilities' (Committee *Hansard*, 14 February 2007, p. 57P) in Egypt, and that the footage aired on television of the Animals Australia investigation related to 'leakage from that official system' (p. 56P), can the Minister confirm that: (a) in Egypt no official slaughter and handling system is in place for sheep; and (b) for each of the years 2004, 2005 and 2006, Australian sheep have only been exported from Australia to Egypt in the lead-up to the Eid-al-Adha religious festival, and that a large proportion of these sheep are likely to be privately transported and slaughtered.
- (10) Given that the Minister has viewed and is aware of the eye witness, video and photographic evidence, gathered by Animals Australia in Cairo in December 2006, that show multiple and consistent breaches of the OIE guidelines, and therefore the MOU, what measures has the Government taken to investigate the documented breaches.
- (11) What measures can the Australian Government take to compel compliance with welfare requirements within an MOU, apart from refusing to supply livestock.
- (12) (a) What assurances, if any, has Egypt provided that any other shipment of animals from Australia to Egypt will be treated humanely; and (b) if such assurances have been made, does the Minister believe that the conditions of the MOU will be complied with in future given that the Egyptian Government has no capacity to enforce the conditions of the MOU in slaughterhouses or in private premises.
- (13) What further measures will the Australian Government put in place to ensure, and to assure the Australian public, that Australian animals exported to Egypt will be treated in accordance with the OIE guidelines.
- (14) Will the Australian Government refrain from issuing any further export permits for animals from Australia to Egypt if no additional and effective measures are in place to protect these animals.
- (15) Is the Minister aware that the Egyptian Government Organisation of Veterinary Services Animal Welfare Office has recently renewed its policy and practice of authorising the shooting and use of strychnine on stray dogs in the streets of Cairo.
- (16) Given that the Australian Government has, in recent years, negotiated MOUs with Egypt, the United Arab Emirates, Saudi Arabia, Kuwait, Eritrea and Jordan on the trade in live animals which relate to the agreed off-loading of animals into the importing country in the event of a suspected disease issue, and were intended to protect against a rejection of Australian livestock similar to the *Cormo Express* incident and given the breaches of the MOU between Australia and Egypt that have been acknowledged in public statements by the Minister, and the apparent disregard by Egypt of the MOU, what confidence does the Minister have

that similar MOUs entered into with the remaining countries will be honoured in the event of a suspected major on-board disease event.

- (17) Will the Australian Government report the failure of the Egyptian Government to adhere to the minimum animal handling and slaughter guidelines to the OIE.

H-1).
- (3) Does the Minister agree that some entries in Appendix H indicate that not only was Transair not complying with regulations, it was deliberately and systematically flouting regulations, for example the entries dated 31 July 1998, 3 September 1998, 6 December 1999, 17 September 2001 and 2 October 2001, 21 July 2004 and 23 July 2004, 28 August 2004, 28 September 2004 and 4 February 2005.
- (4) Given that Appendix H states that Transair advised CASA on 24 September 1999 that it would be fitting predictive ground proximity warning systems to its Metroliner aircraft: (a) how was CASA advised of the decision; (b) did Transair fulfil its undertaking to CASA; and (c) did CASA follow up to ensure that the fitting of the warning systems had occurred.

- (5) Similarly, given that Transair stated that it would be giving video based training to its crew on flight into terrain awareness and that the company operations manual would be amended to reflect that training: (a) how was CASA advised of the decision; (b) did Transair fulfil its undertaking to CASA; and (c) did CASA follow up to ensure that the training had occurred.
- (6) Is it the case that neither the pilot in command nor the co-pilot of VH-TFU had received 'controlled flight into terrain' training.

3228 **Senator McLucas:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to the investigation by the Australian Transport Safety Bureau (ATSB) of the fatal crash of the aircraft VH-TFU at Lockhart River in May 2005:

- (1) Why did the Minister, on 14 December 1999, remove international Regular Public Transport operations from Transair's Air Operator's Certificate.
- (2) Given that Transair stated on 7 January 2000 that it intended to introduce a quality assurance system and that the system would incorporate a safety system: (a) did this occur; and (b) did the Civil Aviation Safety Authority (CASA) follow up to ensure that it had.
- (3) At the time of the crash, did Transair have a quality assurance system in place, including a safety system; if so, can details be provided of the system that was in place at the time.
- (4) Given that Transair, on 14 January 2000, made various undertakings following the drafting of a show cause notice against its chief pilot: (a) did Transair fulfilled any of these undertakings; and (b) did CASA follow up to ensure that it had.
- (5) Does the ATSB consider that the events outlined in the chart attached to the answer to question on notice CASA 18, provided to the Rural and Regional Affairs and Transport Committee on 1 February 2007, and Appendix H of the ATSB's final report on the crash constitute a consistent pattern through the period of issues not being fixed or corrected.

3229 **Senator McLucas:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to the investigation by the Australian Transport Safety Bureau of the fatal crash of the aircraft VH-TFU at Lockhart River in May 2005:

- (1) (a) What was the purpose and the methodology used for Safety Trend Indicator (STI) assessments when they were instituted by the Civil Aviation Safety Authority (CASA); (b) why were the assessments instituted; (c) what sort of information did they provide; and (d) how was information obtained in the assessments used by CASA.
- (2) For each STI assessment conducted on Transair, can details be provided of the specific areas assessed, the qualifications and expertise of the officers involved in the assessment, the duration of the assessment, the details of the findings of each assessment and any subsequent action that was taken by CASA.
- (3) (a) Is it the case that of the five STI assessments conducted on Transair that in four of the assessments Transair was listed as a high risk; (b) was a score of 17 registered in April 2000; and (c) is this the highest STI risk score that has been recorded by an Australian airline; if not what is the highest recorded score.

- (4) Is it the case that in October 2002 Transair still recorded an STI score of 12 and that any score over 7 is defined by CASA as being high risk.
- (5) Is it the case that no special audit or spot check was carried out on Transair after December 1999 because CASA inspectors from the Brisbane airline office did not consider Transair to be a high-risk operator.
- (6) (a) Is the Minister aware that in a matter of six months, from October 2002 to May 2003, Transair's weighted STI score fell from 12 to 3, that is from a high-risk operator to a low-risk operator; and (b) what actions taken during in that period, by CASA and/or Transair, led to this change.
- (7) After the abandonment of STI assessments in 2003, why was no replacement made available to CASA, particularly as audits were reduced from being undertaken twice yearly to once yearly.
- (8) Has CASA developed a replacement risk assessment model; if not, does it intend to.
- (9) Does the Minister consider a risk assessment model to be a critical part of CASA's capacity to ensure the safety of the travelling public.
- (10) Is it correct that in 2003 an audit of CASA recommended development of a risk assessment model, and a number of suggestions were provided on how it should work.

3230 **Senator McLucas:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to the investigation by the Australian Transport Safety Bureau of the fatal crash of the aircraft VH-TFU at Lockhart River in May 2005:

- (2) (a) Did the CASA audit of Transair in September/October 2002 result in 7 requests for corrective action (RCAs) and two observations being issued; (b) did the subsequent 3 CASA audits of Transair, in February and August 2003 and February 2004, result in 1 RCA and 4 observations being issued; and (c) did the CASA audit in August 2004 resulted in 13 RCAs and 16 observations being issued.
- (3) Were there any differences in approach, the number of inspection personnel, the skills and expertise of inspection personnel, the duration of the audits, supervisory rigor, audit scope and content between the three audits of Transair in February and August 2003 and February 2004 and those preceding and after them.
- (4) Can a chart be provided that details all audits of Big Sky Express, including the date and scope of the audit and the number of RCAs and observations issued.
- (5) Can details be provided of any correspondence, written or verbal, contact or meeting between Transair and/or Lessbrook and the Minister and/or members of his staff, the department and CASA in relation to the setting up of Big Sky operations in New South Wales.

- (1) Have all of Transair's approved routes, areas and airports been examined to establish whether all flight and turn times are realistic and fall within prudent limits.
- (2) Given that the ATSB's final report on the crash indicates that VH-TFU was scheduled to depart each terminal on the route no more than 20 minutes after arrival, do the ATSB and CASA consider those turn times were prudent.

- (3) (a) Is it the case that the chart attached to the answer to question on notice CASA 18, provided to the Rural and Regional Affairs and Transport Committee on 1 February 2007, made the observation in relation to an audit of Transair on 16 to 24 August 2004 that the turn times were unrealistic; (b) which routes and aircraft types did this observation apply to; and (b) in each instance, how long after arrival at each terminal the aircraft was scheduled to depart.

3259 **Senator McLucas:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to the investigation by the Australian Transport Safety Bureau of the fatal crash of the aircraft VH-TFU at Lockhart River in May 2005:

- (1) Is it the case that paragraph 13.3.4 of Civil Aviation Order (CAO) 40.2.1 states that the holder of an instrument rating must only use the types of navigation aids or procedures endorsed in the holder's personal log book when exercising the authority given by the rating.
- (2) Does the CAO require both crew on a multi-crew aircraft to be endorsed on a particular instrument approach in order to conduct that instrument approach.
- (3) Did Transair provide en-route navigation (global navigation satellite system) (RNAV (GNSS)) endorsement training for its pilots.

- (4) (a) Did all Transair pilots based in Cairns have an RNAV (GNSS) approach endorsement; and (b) was it necessary or desirable for Transair's Cairns-based pilots to hold an endorsement.

- (2) Is it the case that on 13 January 2004 the Civil Aviation Safety Authority (CASA) announced that it had ‘given the official go-ahead’ for Big Sky Express operations following ‘a close review of the operation by CASA’s technical experts and a trial flight on the new [Gunnedah-Inverell-Sydney] route’.
- (3) (a) Did the Civil Aviation Safety Authority (CASA) make a statement on 13 January 2004 that CASA’s review of Transair’s proposed New South Wales operations ‘was completed in less than seven weeks, a period which included the Christmas-New Year holiday break’; (b) did the length of the assessment period compromise the standard of the review; if not, how can the findings by the company’s contractor check pilot 8 months after the commencement of operations be explained.
- (4) Did CASA make a statement on 13 January 2004 that ‘the Big Sky Express operation meets the appropriate safety standards and CASA will continue to monitor the service to make sure safety is maintained’.
- (5) (a) How did CASA monitor Transair’s Big Sky Express operation to ensure safety was maintained; and (b) did the monitoring reveal that any of the statements made by Transair’s contractor check pilot in paragraph (1) were correct.

- (5) Over a 5 year period, on how many occasions would a similar airline normally undergo: (a) spot checks; and (b) special audits.

3269 **Senator McLucas:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to the investigation by the Australian Transport Safety Bureau of the fatal crash of the aircraft VH-TFU at Lockhart River in May 2005 and, specifically given that in September 2004 a former Transair pilot made a series of serious safety allegations against Transair to the Civil Aviation Safety Authority (CASA) the chief pilot of Transair was interviewed and informed that a follow-up investigation to collect documentary evidence was to be conducted:

- (1) With reference to the transcript of evidence given to the Foreign Affairs, Defence and Trade Committee estimates hearing on 30 May 2007 concerning the own-motion review to be conducted by the Commonwealth Ombudsman into the allegations that the Department of Defence ('the department') was warned of the dangers of poor maintenance of HMAS *Westralia* prior to the fatal fire in May 1998, is there a term of reference for that review or is it the case that, as stated by the department on 30 May 2007, that the Ombudsman 'would not be limited by any terms of reference or scope of matters that Defence referred to them' (FAD&T Committee *Hansard*, 30 May 2007, p. 33P).

3379 **Senator Faulkner:** To ask the Minister representing the Minister for Defence—

- (1) Can the Minister confirm if complaints were made in 1997 to the department by Bailey's Diesel Services concerning poor and dangerous maintenance of Navy ships, in particular the Oberon class submarines, HMAS *Success* and HMAS *Tobruk*, prior to similar allegations about HMAS *Westralia* and the use of non standard parts in the fuel systems, and prior to the subsequent complaint investigated by the joint Australian Federal Police and Inspector-General of Defence (AFP/IG) team which interviewed Bailey's Diesel Services on 6 February 1998; if so, can the Minister advise whether any records of the earlier allegations exist within the department or the Navy.
- (2) Is the Minister aware of the allegation that it was the failure to respond to complaints made in 1997 that prompted Bailey's Diesel Services to refer matters to the Independent Commission Against Corruption (ICAC) in New South Wales, and can the Minister confirm that ICAC in turn referred the matter to the Inspector-General of Defence; if so, is there any record of any communication between the department and ICAC at that time; if not, will the Minister direct the department to make such an inquiry of ICAC to check this assertion.
- (3) Was a formal response ever made to ICAC concerning the outcomes of the investigation conducted by the AFP/IG team; if so, on what date was that provided, and what was the substance of the report.
- (4) Were separate investigations of Bailey's Diesel Services' 1997 allegations made by Defence in the period prior to the interview by the AFP/IG team on 6 February 1998; if so, what records exist of those investigations and what were the findings and outcomes.
- (5) (a) When was the investigation of Bailey's Diesel Services' complaints by the AFP/I-G team terminated; (b) for what reason; and (c) was it made with the approval or direction of Ministers; if not, who made the decision.
- (6) Was a decision made in late February or early March 1998 to close the AFP/IG investigation and to upgrade it to become Operation Majorca under the primary control of the AFP.

- (7) In the period leading up to the decision to initiate Operation Majorca, had any complaints been made about the operation of the Inspector-General's office, and in particular about the manner in which the investigation of the Bailey's Diesel Services complaint had been managed; if so: (a) was a review conducted; (b) by whom; (c) with what outcomes; (d) was the agreement of Ministers obtained; and (e) what changes were subsequently made to that organisation.
- (8) (a) How many departmental officials or Australian Defence Force (ADF) personnel were appointed to join Operation Majorca; and (b) what were their Australian Public Service levels or ranks.
- (9) Does the department retain all records of Operation Majorca, including reports made to Ministers; if so, what scrutiny have those records received in recent times to establish the circumstances of the investigation into the allegations by Bailey's Diesel Services.

3380 **Senator Faulkner:** To ask the Minister representing the Minister for Defence—

- (1) In September 1997, were two fuel injector pumps from HMAS *Westralia* sent by Ches Diesel and Marine Services, a subcontractor to Australian Defence Industries (ADI), to Bailey's Diesel Services in Unanderra, New South Wales, for repair.
- (2) Is the Minister aware of allegations that during the repairs non-standard parts were found in those pumps; if so: (a) who repaired those pumps on the previous occasion(s); (b) what check was made by the Navy of quality assurance measures in place at that time to ensure that: (i) only certified genuine parts were used, and (ii) the repairs were carried out by the original equipment manufacturer (OEM) certified repairer of that brand of pump; and (c) what examination was made of other pumps on HMAS *Westralia* at the time to check for similar alleged defects.
- (3) On 16 February 1998, did ADI seek a quotation from Bailey's Diesel Services for the maintenance of 24 or 28 fuel injector pumps through Ches Diesel & Marine Services, as sought by the Navy; if so: (a) were those pumps from HMAS *Westralia*; (b) were the pumps manufactured by L'Orange; (c) which company was eventually awarded the contract; (d) for what price; (e) was the repairer certified by the OEM of the pumps in question; and (f) is Bailey's Diesel Services the only licensed repairer of L'Orange equipment in Australia; if so: (i) why was someone else awarded the contract, and (ii) what quality assurance was obtained by the Navy for that work.
- (4) In September 1998, was a similar tender conducted for the maintenance of fuel injector pumps on HMAS *Tobruk*; if so: (a) which company won that tender; (b) were those pumps made by Lucas Bryce; and (c) was Bailey's Diesel Services the only registered repairer of that equipment in Australia at that time.
- (5) During the 5 years prior to the fire on HMAS *Westralia* in May 1998, on how many occasions had fuel injection pumps been removed in total or individually, and on each occasion: (a) what was the reason to remove them; (b) how many were replaced from Navy stores; (c) what tenders were called; (d) which company was the principal ship repairer awarded the contract; (e) who was the subcontractor which undertook the maintenance on the pumps; and (f) with respect to quality assurance, what evidence was required of the principal ship repair contractor or the subcontractor repairing the pumps as to their certification by the OEM of the pumps.

3381 **Senator Faulkner:** To ask the Minister representing the Minister for Defence—

- (1) With reference to the transcript of evidence of Rear Admiral Ruting to the estimates hearing of the Foreign Affairs, Defence and Trade Committee of 30 May 2007: (a) what are the precise terms of the new instruction issued after the Board of Inquiry (BOI) report into the fire on HMAS *Westralia* in May 1998, requiring ship repair contractors to sub-contact work only to Original Equipment Manufacturers (OEM's); and (b) what was the wording of those instructions prior to the fire.
- (2) In response to a Freedom of Information request by Dahlmann Burke, lawyers on behalf of Bailey's Diesel Services on this same matter, did the information provided quote the instruction in paragraph 1(a) as 'Department of Defence policy which provides that all work relating to *fuel system components* must be performed by Original Equipment Manufacturers ("OEM") or their Australian agent' and 'The contractor agrees that the Original Equipment Manufacturer (OEM) or his Australasian agent shall issue a Conformance Certificate for all work and components relating to *Internal Combustion Engine (ICE) Fuel Systems*'; if so, does this mean: (a) that OEM assurance to be sought from the OEM for all repairs and parts includes the specific OEM of fuel pumps, regardless of company ownership, and (b) that the Navy is absolved from responsibility for non-complying work endangering the safety of its ships.
- (3) In a response to the Western Australian Coroner's recommendations, did the department, as reported at page 114 of the Coroner's Report, say that 'The Commonwealth was not a party to the contract between ADI and Enzed. The Commonwealth was not in a position to know that the wrong hose had been specified in that contract. It was ADI's responsibility to monitor the work of its sub-contractors'; if so, (a) does it accept the Coroner's view that 'the fact that no one in the Navy had any knowledge of which type of hoses had been contracted for even after they were installed demonstrated a gross lack of supervision of the contract'; and (b) does this contracting practice continue today.
- (4) Were the engines on the HMAS *Westralia* at the time of the fire in May 1998 Pielstick engines made by SEMT, now owned by MAN, and were the fuel injector pumps made by L'Orange, a separate company, but also subsequently taken over by MAN; if so, would the new instructions to obtain OEM assurance for all repairs to injection fuel pumps require assurance from only MAN or its registered agent as an OEM for the engines, or does it also require separate assurance from the manufacturer of injector fuel pumps L'Orange or its certified agents.
- (5) Can the Minister advise: (a) which companies, in 1997 and 1998, were the registered agents of L'Orange in Australia; (b) who are they now; and (c) which repair companies have been contracted to maintain Navy L'Orange fuel pumps since 1998.
- (6) Noting that the Navy uses a panel of four ship repairers for engine maintenance work, as referred to by Rear Admiral Ruting on 30 May 2007: (a) what certification does each company have as certified repairers of all the OEM's of all diesel engine types in RAN ships and, in each case, what OEM certification is held by each sub-contractor used by those companies in the maintenance of all Navy diesel injection pumps; and (b) does the Navy hold a register of those certified sub-contractors; if not, why not; if so, what are the names of the certified sub-contractors on that list.

- (7) Can the Minister confirm that the current instructions requiring the Navy's diesel engine repairers to be certified, places total responsibility for the OEM certification of engine maintenance sub-contractors' work on the ship repairer contracted to do the work; if so, what checks does the Navy take to ensure that: (a) such sub-contractors are in fact certified by the OEM as repairers of their product; and (b) only genuine OEM approved replacement parts are used.
- (8) What is the most recent Navy ship to have fuel injection pumps removed for maintenance, and: (a) who was the contracted repairer; (b) what sub-contractor(s) were used; (c) what type of engine was fitted to that ship, who manufactured it, and what brand of injector pump was fitted; and (d) what evidence was sought by the Navy: (i) that the sub-contractors were certified by the OEM of the fuel injector pumps fitted to that ship, and (ii) that only OEM approved replacement parts were used.
- (9) (a) What guarantee and warranty is required of: (i) engine repairers and (ii) fuel injection maintenance sub-contractors, for maintenance work done to Navy diesel engines; and (b) how many times in the past 3 years have the provisions of those been exercised for the rectification of unsatisfactory work, and in respect of: (i) which ships, (ii) which principal contractors, and (iii) which sub-contractors.

3382 **Senator Faulkner:** To ask the Minister representing the Minister for Defence—

- (1) With respect to the aftermath of the tragic fire on HMAS *Westralia* in May 1998, can the Minister confirm that legal action has been taken against the Commonwealth by some, or all, of the families of the deceased; if so: (a) what is the nature of that action; (b) is Mr Bernard Collaery representing the families; and (c) is Mr Collaery the lawyer to whom the then Minister Assisting the Minister for Defence, Ms Kelly, responded on 1 November 2005, affirming the existence of the joint Australian Federal Police and Inspector-General of Defence report of the interview with Bailey's Diesel Services, now claimed at the estimates hearing of the Foreign Affairs, Defence and Trade Committee on 30 May 2007 to have been incorrect advice.
- (2) Has the department now advised Mr Collaery that the previous advice given to him confirming the existence of the 6 February 1998 document is incorrect, as advised at the estimates hearing on 30 May 2007; if not, why not.
- (3) (a) What has it cost so far to defend the action taken by the families; and (b) what part of that cost has been incurred, and by which, if any, outsourced legal firms.
- (4) Have the affected families at any stage sought an act of grace or ex gratia payment from the Commonwealth; if so, with what result.

3383 **Senator Faulkner:** To ask the Minister representing the Minister for Defence—

- (1) In addition to the tape recording of the 6 February 1998 interview with Bailey's Diesel Services, have other records of the investigation been recovered, including the running sheets and any other reports which may have been made, such as briefs to the Minister; if so, could a list of those files and documents be provided.

- (2) After 6 February 1998, was the investigation of the Bailey's Diesel Service allegations resumed; if so: (a) who conducted the investigation; (b) when did it cease; (c) what were the conclusions; (d) who was interviewed; and (e) was there a complete transfer of all previous records including the tape recordings and running notes, discs and any other records to the new investigation team; if so, where are those records and the records of the subsequent investigation currently located.
- (3) Were reports made to the Ministers at the time, on the progress of the joint Australian Federal Police and Inspector-General of Defence investigation into stolen weapons at Moorebank and the Bailey's Diesel Services allegations; if so: (a) who signed those reports; (b) how many were submitted; (c) did those reports make reference to the investigation of the Baileys allegations; and (d) what reports were provided to the Minister throughout the subsequent period of Operation Majorca.

3384 **Senator Faulkner:** To ask the Minister representing the Minister for Defence—

- (1) In evidence before the estimates hearing of the Foreign Affairs, Defence and Trade Committee 30 May 2007, did Defence dismiss an anecdote used by Bailey's Diesel Services that a company undertaking maintenance on HMAS *Westralia* prior to the fire of May 1998 'was operating out of the boot of a car and so was an inappropriate source of labour and parts for work on Navy ships' (FAD&T Committee *Hansard*, p. 29).
- (2) Can the Minister confirm that the Western Australian Coroner, in his report at page 12, referred to Mr Old of the Enzed company, which supplied and fixed the substandard fuel hoses to HMAS *Westralia*, as a person who 'had left Navy on 14 November 1997 and worked as a "hose doctor" operating a mobile hydraulic hose repair service from the back of a van or truck', and 'If the significance of the proposed change had been appreciated by ADI, Enzed would not have been an appropriate subcontractor to use'.

That the following order operate as a sessional order:

- (1) The Senate confirms that any disclosure of evidence or documents submitted to a committee, of documents prepared by a committee, or of deliberations of a committee, without the approval of the committee or of the Senate, may be treated by the Senate as a contempt.
- (2) The Senate reaffirms its resolution of 20 June 1996, relating to procedures to be followed by committees in cases of unauthorised disclosure of committee proceedings.
- (3) The Senate provides the following guidelines to be observed by committees in applying that resolution, and declares that the Senate will observe the guidelines in determining whether to refer a matter to the Committee of Privileges:
 1. Unless there are particular circumstances involving actual or potential substantial interference with the work of a committee or of the Senate, the following kinds of unauthorised disclosure should not be raised as matters of privilege:
 - (a) disclosure of a committee report in the time between the substantial conclusion of the committee's deliberations on the report and its presentation to the Senate;
 - (b) disclosure of other documents prepared by a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event, or where they contain only research or publicly-available material, or where their disclosure is otherwise inconsequential;
 - (c) disclosure of documents and evidence submitted to a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event;
 - (d) disclosure of private deliberations of a committee where the freedom of the committee to deliberate is unlikely to be significantly affected.
 2. The following kinds of unauthorised disclosure are those for which the contempt jurisdiction of the Senate should primarily be reserved, and which should therefore be raised as matters of privilege:
 - (a) disclosure of documents or evidence submitted to a committee where the committee has deliberately decided to treat the documents or evidence as in camera material, for the protection of witnesses or others, or because disclosure would otherwise be harmful to the public interest;
 - (b) disclosure of documents prepared by a committee where that involves disclosure of material of the kind specified in paragraph (a);
 - (c) disclosure of private deliberations of a committee where that involves disclosure of that kind of material, or significantly impedes the committee's freedom to deliberate.
 3. An unauthorised disclosure not falling into the categories in guidelines 1 and 2 should not be raised as a matter of privilege unless it involves actual or potential substantial interference with the work of a committee or of the Senate.

4. When considering any unauthorised disclosure of material in the possession of a committee, the committee should consider whether there was any substantive reason for not publishing that material.
- (4) Before deciding to raise a matter of privilege involving possible unauthorised disclosure of committee proceedings, any committee may seek the guidance of the Committee of Privileges as to whether a matter should be pursued. If the committee decides that such a matter should be raised, it must consult with the Committee of Privileges before taking the matter further.
- (5) When applying this resolution a committee shall have regard to the matters set out in paragraphs 3.43 to 3.59 of the 122nd Report of the Committee of Privileges, June 2005.

A GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

The ‘full’ Notice Paper

On the first day of the autumn and spring sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo and on the Senate’s Internet site at aph.gov.au/senate.

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
