775 **Senator Milne:** To ask the Minister representing the Minister for Resources and Energy—In regard to the proposed HRL Limited coal-fired power station in Victoria's Latrobe Valley:

- (1) Given the Government has committed \$100 million under the Federal Low Emissions Technology Demonstration Fund to HRL Limited for use towards the proposed 'clean coal' power plant in Gippsland: (a) are there any performance benchmarks/conditions on which this grant is contingent in regard to development timelines and technical performance of the facility; if so, what are they; and (b) are these conditions and/or benchmarks explained in government documents; if so: (i) what are the document titles, and (ii) are these documents publicly available; if not, will they become publicly available.
- (2) Has this grant already been provided to HRL Limited.
- (3) Have any contracts been signed with HRL Limited.
- (4) If no contracts have been signed with HRL Limited: will any contracts be entered into with HRL Limited in relation to the \$100 million grant; if so, what is the expected timeline for contractual sign-off.
- (5) Apart from the project description as provided in media releases, does the Government have any documentation which contains a more detailed project description; if so, can copies be provided of the documentation and/or the titles.
- (6) Will the project replace any current coal-fired generation or will it be additional.
- (7) Will the plant result in a rise in Australia's greenhouse gas emissions.
- (8) Where will the project be sited.
- (9) Has community consultation begun in relation to the location of the project; if so, can any relevant process information be provided.
- (10) How much water will the plant use each year.
- (11) (a) What is the estimated water use per megawatt hour and how does such usage compare with existing brown coal generators in the Latrobe Valley; (b) where will this water come from; and (c) will market rates be paid for this water.
- (12) Given that the proponents claim that the project will be 30 per cent less polluting than an equivalent-sized conventional brown coal power station and use 50 per cent less water: will meeting these performance levels be a condition of receiving the \$100 million grant from the Government.

- (13) (a) Where else is the Integrated Drying Gasification and Combined Cycle technology in use; and (b) is using this technology meeting the abovementioned performance improvements in relation to water use and pollution output.
- (14) Will the project be required to implement carbon capture and storage.

776 **Senator Milne:** To ask the Minister for Climate Change and Water—

- (1) In regard to the answer to question on notice no. 726 (Senate *Hansard*, 13 October 2008, p. 92), concerning the construction of irrigation pipelines from the Meander River via water release from the Meander Dam in Tasmania, in which the Minister advised that \$140 million had been allocated to the Tasmanian Government to support efficient irrigation projects and that this funding was subject to Tasmania's agreement to a range of conditions related to the implementation of the National Water Initiative: what conditions must the Tasmanian Government comply with to meet their commitments to the National Water Initiative.
- (2) Has the Tasmanian Government failed to comply with any of these conditions; if so, which ones and what are the implications for Tasmania.

777 **Senator Milne:** To ask the Minister for Climate Change and Water—

- (1) Does the Government intend for a market-based mechanism to involve private polluters being able to seek pollution credits from developing countries or land holders in developing countries.
- (2) Does the Government intend to limit the proportion of Reducing Emissions from Deforestation and Forest Degradation in Developing Countries (REDD) incentive credits entering the Australian Carbon Pollution Reduction Scheme; if so, how.
- (3) What proportion of Australia's greenhouse emissions does the Government intend to allow to be offset under a market-based REDD incentive.
- (4) On what criteria was the Government's decision to 'argue' for a market-based mechanism based, and was the equitable distribution of incentives one of the criteria.
- (5) How does the Government intend to ensure that human rights are maintained under a fully fungible pure market-based REDD incentive mechanism.
- (6) How does the Government intend to avoid devaluing carbon prices from a potential flood of cheap REDD incentive credits into carbon markets.
- (7) Has the Government assessed alternatives to market-based REDD incentives; if so, what other models and/or mechanisms were assessed and what was the outcome and findings of such assessment.
- (8) Has the Government considered arguing for the auctioning of Kyoto assigned amount units contributing to a United Nations Framework Convention on Climate Change administered fund as an alternative to a fully fungible pure market-based REDD incentive mechanism; if so, on what basis was such a mechanism found to be inferior to a market-based mechanism.

778 **Senator Milne:** To ask the Minister representing the Minister for Agriculture, Fisheries and Forestry—

- (1) Are the Commonwealth Government, state governments and the agricultural industry cooperating to establish a national system for managing our agricultural plant genetic resources; if so, what policy mechanisms, funding arrangements and strategic goals (including time frames) are in place that binds each party to ongoing cooperation.
- (2) Is there a national guideline in place in regard to protecting and utilising Australian agricultural plant genetic resources; if so, what is the content of that guideline, and how and over what period of time will it be implemented.
- (3) Given that 16 reviews have been undertaken since 1992 into Australian agricultural plant genetic resources, what are the impediments to any national progress that required continuous review, and what steps is/will the Commonwealth Government take to remove all impediments to national progress.
- (4) Exactly how is Australia to meet and/or in what manner is Australia actually meeting its legally binding obligation under the International Treaty on Plant Genetic Resources for Food and Agriculture to conserve globally-significant collections of plant genetic resources.
- (5) What are the Commonwealth Government's short-, medium- and long-term plans for Australia's collection of globally-unique agricultural plant genetic resources.
- (6) Which collection of plant genetic resources, including those managed by the states, have been placed under the auspices of the International Treaty on Plant Genetic Resources for Food and Agriculture, and which collections are therefore available to other countries to access under the treaty's multilateral system for sharing and access.
- (7) Have the Commonwealth and state governments clarified the intellectual property status of indigenous wild plant species of citrus, mung bean, rice, and sorghum that are listed in the international treaty; if so, what process was used to achieve clarification and what are the implications of such status.
- (8) Which countries have approached the Australian Government over the past 16 years and/or are seeking access to Australia's agricultural plant genetic resources.
- (9) Given that many indigenous wild plant species such as citrus, mung bean, rice and sorghum possess unique attributes of drought tolerance to changing climatic conditions, disease and pest resistance to combat changes in climate, provide nutritional quality for a more healthy diet, and may contain valuable new genes, what is the optimal use and best market for such species.

**9 Unauthorised disclosure of committee proceedings**

That the following order operate as an order of continuing effect:

- (1) The Senate confirms that any disclosure of evidence or documents submitted to a committee, of documents prepared by a committee, or of deliberations of a committee, without the approval of the committee or of the Senate, may be treated by the Senate as a contempt.
- (2) The Senate reaffirms its resolution of 20 June 1996, relating to procedures to be followed by committees in cases of unauthorised disclosure of committee proceedings.
- (3) The Senate provides the following guidelines to be observed by committees in applying that resolution, and declares that the Senate will observe the guidelines in determining whether to refer a matter to the Committee of Privileges:
  1. Unless there are particular circumstances involving actual or potential substantial interference with the work of a committee or of the Senate, the following kinds of unauthorised disclosure should not be raised as matters of privilege:
    - (a) disclosure of a committee report in the time between the substantial conclusion of the committee's deliberations on the report and its presentation to the Senate;

- (b) disclosure of other documents prepared by a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event, or where they contain only research or publicly-available material, or where their disclosure is otherwise inconsequential;
  - (c) disclosure of documents and evidence submitted to a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event;
  - (d) disclosure of private deliberations of a committee where the freedom of the committee to deliberate is unlikely to be significantly affected.
2. The following kinds of unauthorised disclosure are those for which the contempt jurisdiction of the Senate should primarily be reserved, and which should therefore be raised as matters of privilege:
- (a) disclosure of documents or evidence submitted to a committee where the committee has deliberately decided to treat the documents or evidence as in camera material, for the protection of witnesses or others, or because disclosure would otherwise be harmful to the public interest;
  - (b) disclosure of documents prepared by a committee where that involves disclosure of material of the kind specified in paragraph (a);
  - (c) disclosure of private deliberations of a committee where that involves disclosure of that kind of material, or significantly impedes the committee's freedom to deliberate.
3. An unauthorised disclosure not falling into the categories in guidelines 1 and 2 should not be raised as a matter of privilege unless it involves actual or potential substantial interference with the work of a committee or of the Senate.
4. When considering any unauthorised disclosure of material in the possession of a committee, the committee should consider whether there was any substantive reason for not publishing that material.
- (4) Before deciding to raise a matter of privilege involving possible unauthorised disclosure of committee proceedings, any committee may seek the guidance of the Committee of Privileges as to whether a matter should be pursued. If the committee decides that such a matter should be raised, it must consult with the Committee of Privileges before taking the matter further.
- (5) When applying this resolution a committee shall have regard to the matters set out in paragraphs 3.43 to 3.59 of the 122nd Report of the Committee of Privileges, June 2005.

## GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

**Matters of privilege** take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

**Business of the Senate** has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

**Government business** is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

**General business** is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

**Notices of motion** are statements that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

**Orders of the day** are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

**Orders of the day relating to committee reports and government responses**—adjourned debates on motions to consider or adopt committee reports and government responses. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear on the following day's *Notice Paper*. The section is printed in full on Thursdays.

**Orders of the day relating to government documents**—adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for up to one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

**Business for future consideration** lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

**Bills referred to committees** lists all bills or provisions of bills currently being considered by committees.

**Questions on notice** includes the text of new questions on notice and lists the numbers of unanswered questions.

**Orders of the Senate** includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

**Contingent notices of motion** are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

**Temporary chairs of committees** is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

**Categories of committees** is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

**Committees** lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

**Senate appointments to statutory authorities** lists the statutory authorities on which the Senate is represented and details of representation.

**Ministerial representation** lists Senate ministers and the portfolios they represent.

### The ‘full’ Notice Paper

On the first day of the autumn and spring sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo and at: [www.aph.gov.au/senate/work/notice/index.htm](http://www.aph.gov.au/senate/work/notice/index.htm)

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
