Notices of Motion

Notice given 13 February 2008

18 Leader of the Opposition in the Senate (Senator Minchin): To move—That the Senate—

(a) notes:

- (i) the contempt in which the Australian Labor Party (ALP) has historically held upper houses around the country, including a platform to abolish all upper houses until 1979, the abolition of the upper house in Queensland and a current policy to abolish the South Australian Legislative Council,
 - (ii) that the Prime Minister (Mr Rudd) has reduced the number of sitting weeks in the Senate in 2008, and
 - (iii) that the Deputy Prime Minister (Ms Gillard) has already demanded legislation be passed without adequate scrutiny in the Senate; and
- (b) given the above, condemns the Rudd Labor Government for continuing the ALP's legacy of inherent contempt for the Senate.

 - (ii) that Australia is now the only country that continues to enforce these harsh restrictions on our aid program, limiting its ability to provide an effective and essential family planning service;
 - (b) recognises:
 - (i) the essential role mothers play in developing communities, with both maternal and child health considered crucial Millennium Development Goals, and
 - (ii) that an estimated 34 000 mothers die in our region each year, due to the lack of maternal health supports available, with more than half of the 29 developing countries not on track to achieve either goal; and

 - (d) catering and other retail services;
 - (e) availability of taxi services; and
 - (f) security services, particularly in relation to long-term parking.
 - (4) What are the limitations, if any, on the airport charging monopolistic fees on the services they provide.
 - (5) (a) Are any details of the contractual and regulatory obligations of the owner of the airport regarding level of service and facilities not publicly available; if so, why are these details not publicly available; and (b) who monitors the compliance with such contractual and regulatory obligations.

- 1688 **Senator Cormann:** To ask the Minister representing the Minister for Ageing—With reference to the evidence of the department to the Finance and Public Administration Committee inquiry *Residential and Community Aged Care in Australia* on 13 March 2009, indicating that the survey by Bentleys MRI Resourcing Pty Ltd for 2008 showed an improvement in returns for operators:

 - (2) (a) Is the Minister aware that the covering letter goes on to state that ‘We also urge participants to exercise caution when comparing data between this year’s survey benchmarks and previous years. Due to changes in the participant pool in 2008, and as a result of adjustments to our classification

scales for services, direct comparison from year to year for some items may be misleading at first glance'; and (b) did the Minister not consider that the researcher's advice was relevant before presenting comparative analysis to the inquiry on two unrelated data sets.

- (3) Given that the department also stated that 51.5 per cent of single-bed facilities were in the top earnings before interest, taxes, depreciation and amortization (EBITDA) quartile for the 2007-08 financial year and Bentleys has not published a report on its raw survey data, what is the department's definition of 'single-bed' and 'multi-bed' facilities.

- *1949 **Senator Nash:** To ask the Minister representing the Minister for Agriculture, Fisheries and Forestry—With reference to the answer given by the Minister to a question without notice (House of Representatives *Hansard*, 4 June 2009, p. 5782) in which he stated:

Wheat Exports Australia, in the information they have provided, have graphs on the three different markers: the Chicago Board of Trade for the international price, the Fremantle price and marker for the west coast price and Newcastle for the east coast price. Before these reforms were introduced, the Chicago price was consistently above what we were getting on the east coast of Australia or the west coast of Australia. But since growers were given a choice as to whom they wanted to sell to, first of all you find that on the east coast of Australia prices have gone up to close to parity with the Chicago price. But in Western Australia there has been a \$35 a tonne premium above what they were previously getting, above the Chicago marker, since this was introduced:

What was the average price paid per tonne in the graphs used by the Minister.

Is it a fact that these comparisons are not accurate because they do not take into account the fact that in previous years the Australian Wheat Board would have hedged a large proportion of the crop.

- (b) the government's statement to the Senate on 11 February 2009 expressing the 'belief' that the provision of some of the documents requested would cause substantial commercial harm to organisations that were contracted to assist Treasury;
- (c) that the claim of commercial harm cited by the government in its refusal to release the required information relates to only part of the information requested and that no explanation was provided as to why all of the other information not covered by the claim of commercial harm should not be provided for scrutiny by the Senate;
- (d) the evidence to the committee in this regard by Professor McKibbin, one of the consultants contracted by Treasury for its modelling, that in his view models developed with public funding should be publicly available;

- (a) irrespective of the government's statement in the Senate on 11 February 2009 it is in the public interest that all the underlying information used by Treasury in its modelling be available to help facilitate proper scrutiny by the Senate of the impact of the government's proposed Carbon Pollution Reduction Scheme;
 - (b) models used in the modelling exercise developed using public funding ought to be publicly available; and
 - (c) where the public release of information is likely to cause significant commercial harm to an external organisation every effort ought to be made to prevent that harm while not preventing the Senate from fulfilling its proper role to scrutinise the activities and proposals of government;
- (3) Orders that the following information be produced to the Senate Select Committee on Fuel and Energy by noon on Friday 13 March 2009:

- (5) That the committee, any senator and any other person referred to in paragraph (4) treat the information produced in accordance with paragraph (3)(a) of this order as confidential, and not publish the information to any other person except as authorised by this order.
- (6) That the committee may refer to the information produced to it in accordance with this order and any conclusions reached from it in a report to the Senate, but shall not disclose the information in such a report.

GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses—adjourned debates on motions to consider or adopt committee reports and government responses. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear on the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents—adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for up to one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

The ‘full’ Notice Paper

On the first day of the autumn and spring sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo Search and at: www.aph.gov.au/senate/work/notice/index.htm

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
