GENERAL BUSINESS

Notices of Motion

Notice given 13 February 2008

18 **Leader of the Opposition in the Senate (Senator Minchin):** To move—That the Senate—

(a) notes:

- (i) the contempt in which the Australian Labor Party (ALP) has historically held upper houses around the country, including a platform to abolish all upper houses until 1979, the abolition of the upper house in Queensland and a current policy to abolish the South Australian Legislative Council,
 - (ii) that the Prime Minister (Mr Rudd) has reduced the number of sitting weeks in the Senate in 2008, and
 - (iii) that the Deputy Prime Minister (Ms Gillard) has already demanded legislation be passed without adequate scrutiny in the Senate; and
- (b) given the above, condemns the Rudd Labor Government for continuing the ALP's legacy of inherent contempt for the Senate.

Notice given 19 March 2008

63 **Leader of the Australian Greens (Senator Bob Brown):** To move—That the Senate calls on the Minister for Foreign Affairs (Mr Smith) to seek the abandonment of the death sentence in China.

Notice given 13 October 2008

233 **Senator Xenophon:** To move—That there be laid on the table by 1 November 2009, a report by the Productivity Commission on:

- (a) the total number and proportion of privately insured patients, in the latest 6-month period for which data is available prior to the report being issued, who were fully informed of the cost of hospital and specialist services before providing consent for treatment, in both public and private hospitals;
- (b) the comparative hospital and medical costs for each defined group of clinically similar procedures, as per the classification of Australian Refined Diagnostic Related Groups, as performed by the public and private hospital sectors separately in the latest 6-month period for which data is available prior to the report being issued; and
- (c) the rate (i.e. the number and proportion of all admissions) of hospital-acquired infections, by type, reported by individual public and private hospitals in the latest 6-month period for which data is available prior to the report being issued.

Notice given 27 October 2009

595 **Senator Moore:** To move—That the Senate—

- (a) notes the Government's increase of total health funding in the foreign aid budget and its support for maternal, newborn and child health and acknowledges that this is much needed when in our region, including South Asia, 200 000 mothers and 3.2 million children are dying every year from preventable causes;
- (b) notes that:
 - (i) Australia still requires a strong commitment to provide health funding through the foreign aid budget to progress towards Millennium Development Goals (MDGs) 4 and 5 by 2015,
 - (ii) MDG 4, to reduce child mortality by two-thirds, and MDG 5, to reduce maternal mortality by three-quarters, have made slow progress and are off-track to being achieved by 2015,
 - (iii) MDG 5 has made virtually no progress globally and has reversed in most of sub-Saharan Africa in the past 20 years, and
 - (iv) the health MDGs are achievable but require increased effort and greater cooperation from all developing and developed countries, given that evidence indicates that successful proven, cost-effective strategies exist that can reduce child deaths by at least 60 per cent and maternal deaths by 75 per cent, saving the lives of 240 000 children and 26 000 mothers in our immediate region each year;
- (c) acknowledges the Australian Government's support for health systems in the Asia-Pacific region (through coordinated mechanisms including the international Health Partnership) to ensure that adequate, coordinated, long-term and predictable donor resources are available in each developing country in our region;
- (d) recognises that greater focus must be placed on training health professionals and midwives to ensure significant reductions in newborn, child and maternal mortality and that system strengthening must also be ensured to provide incentives for staff to remain in country and in areas of need; and
- (e) recognises that continued Australian commitment to maternal and child health is required to support the provision of basic health services and strengthened health systems and that this will demonstrate Australia's leadership and commitment to ending the preventable deaths of children and mothers globally.

Day for bringing on motion changed pursuant to standing order 77 on 27 October 2009.

Notice of motion altered on 18 November 2009 pursuant to standing order 77.

Notice given 19 November 2009

*637 **Senator Cormann:** To move—That the Senate—

(a) Notes that:

- 1) the Minister for Health and Ageing told the House of Representatives on 29 October 2009, that the Government had legal advice that the Health Insurance Amendment (Revival of Table Items) Bill 2009 was unconstitutional, that it should not have been introduced in the Senate and had not been appropriately passed,
 - 2) the Minister also told the House of Representatives that the Government was “happy to provide that legal advice” (9.59am, 29/10/2009),
 - 3) on 17 November the Senate ordered “that there be laid on the table by the Minister representing the Minister for Health and Ageing in the Senate, by no later than 5pm on 17 November 2009, a copy of the legal advice referred to by the Minister on 29 October 2009, indicating that the Health Insurance Amendment (Revival of Table Items) Bill 2009 was unconstitutional” under section 53 of the Constitution,
 - 4) in response, on 18 November the Minister for Health and Ageing tabled a letter stating that the legal advice would not be provided to the Senate on the grounds that it could “prejudice the Commonwealth’s position in the event of future legal proceedings”, and
 - 5) advice from the Clerk of the Senate makes it clear that section 53 of the Constitution is non-justiciable and “[t]herefore there cannot be any legal proceedings which might be prejudiced by disclosure of advice to the government on its interpretation of section 53”.
- (b) Considers that release of a copy of the legal advice referred to by the Minister on 29 October 2009 is in the public interest.
- (c) Orders that there be laid on the table by the Minister representing the Minister for Health and Ageing in the Senate, by no later than 12pm on 24 November 2009, a copy of the legal advice referred to by the Minister on 29 October 2009, indicating that the Health Insurance Amendment (Revival of Table Items) Bill 2009 was unconstitutional.

- (c) calls on the Commonwealth Government to:

- *643 **Senator Milne:** To move—That the Senate—
- (a) notes that:
 - (i) Commonwealth Scientific and Industrial Research Organisation scientists have warned that Australia will experience more high fire danger days as a result of climate change,
 - (ii) three Australian states are on high fire danger alert and record high temperatures are being recorded for November 2009 in several Australian cities and towns including Adelaide,
 - (iii) a government report in 2005 said that no single state or territory is likely to have the human and material resources required to resolve a catastrophic event, and
 - (iv) Emergency Management Australia, the national coordination unit for operational responses to disasters:
 - (A) was not called in on Black Saturday in Victoria, and
 - (B) did not ask the Department of Defence or Defence Imaging to track the Victorian fires because no request to do so was made from Victoria; and

23 Carbon Pollution Reduction Scheme—Treasury modelling—Order for production of documents

That the Senate—

(1) Notes:

- (a) that the government has not complied with the order of the Senate made on 4 February 2009, ordering the production of certain unpublished information relating to the Department of the Treasury modelling, *Australia's Low Pollution Future: The economics of climate change mitigation*;
- (b) the government's statement to the Senate on 11 February 2009 expressing the 'belief' that the provision of some of the documents requested would cause substantial commercial harm to organisations that were contracted to assist Treasury;
- (c) that the claim of commercial harm cited by the government in its refusal to release the required information relates to only part of the information requested and that no explanation was provided as to why all of the other information not covered by the claim of commercial harm should not be provided for scrutiny by the Senate;
- (d) the evidence to the committee in this regard by Professor McKibbin, one of the consultants contracted by Treasury for its modelling, that in his view models developed with public funding should be publicly available;
- (e) that the committee has received correspondence from Monash University, one of the two organisations the government indicated in its statement would be exposed to substantial commercial harm were the requested information to be released, which states that "*the University wishes to assist (the Fuel and Energy Committee) in every way possible*", and that the University Solicitors would work with the creators of the Monash Multi-Regional Forecasting model "*to identify the manner and nature of disclosure that will meet the Committee's needs as far as possible while protecting the University's interests*";

- (f) the correspondence received from Purdue University, the other organisation mentioned in the government's statement, which explains that the simple purchase of a licence would avoid any commercial harm;
 - (g) the evidence of the WA Department of Treasury and Finance indicating that they had also been unsuccessful in obtaining access to relevant modelling information, which was preventing them from providing proper and informed advice on the economic impact of the proposed Carbon Pollution Reduction Scheme in Western Australia to the government in that state; and
 - (h) the ongoing concerns expressed by a wide variety of stakeholders about the inadequacy of the Treasury modelling of the impact of the proposed Carbon Pollution Reduction Scheme;
- (2) Considers that:
- (a) irrespective of the government's statement in the Senate on 11 February 2009 it is in the public interest that all the underlying information used by Treasury in its modelling be available to help facilitate proper scrutiny by the Senate of the impact of the government's proposed Carbon Pollution Reduction Scheme;
 - (b) models used in the modelling exercise developed using public funding ought to be publicly available; and
 - (c) where the public release of information is likely to cause significant commercial harm to an external organisation every effort ought to be made to prevent that harm while not preventing the Senate from fulfilling its proper role to scrutinise the activities and proposals of government;
- (3) Orders that the following information be produced to the Senate Select Committee on Fuel and Energy by noon on Friday 13 March 2009:
- (a) the information referred to in paragraph (b) of the Senate's order for documents of 4 February 2009 relating to the Department of the Treasury modelling, *Australia's Low Pollution Future: The economics of climate change mitigation*;
 - (b) any other information not published and not covered by (a) relating to the Department of the Treasury modelling, including but not limited to:
 - (i) any information and documents generated by the government for the purpose of the composition of the information covered by (a),
 - (ii) for the two scenarios modelled for the CPRS (CPRS -5 per cent and the CPRS -15 per cent) and the reference scenario, the time series data per annum to 2050 for all states and territories of the following:
 - a) Industry growth output in millions of dollars,
 - b) Employment numbers,
 - c) Gross State Product,
 - d) Emissions, and
 - e) Household CPI changes,
 - (iii) the data from (ii), a), b) and c) broken down by region where applicable, and
 - (iv) any substrate data of gross industry output by the above regions.

- (4) That the committee may make the information described in paragraph (3) available to the person contracted by the committee and referred to in paragraph (a) of the Senate's order of 4 February 2009, and any person appointed by the leader of a party in the Senate or an independent senator, duly notified to the committee, to examine that information and report to that senator.
- (5) That the committee, any senator and any other person referred to in paragraph (4) treat the information produced in accordance with paragraph (3)(a) of this order as confidential, and not publish the information to any other person except as authorised by this order.
- (6) That the committee may refer to the information produced to it in accordance with this order and any conclusions reached from it in a report to the Senate, but shall not disclose the information in such a report.

(Motion of the Chair of the Select Committee on Fuel and Energy (Senator Cormann) agreed to 11 March 2009; statement by leave made 17 March 2009; document presented 6 August 2009 and tabled 11 August 2009.)

27 Health—Chemotherapy treatment—Budget cuts—Order for production of documents

That the Senate—

- (a) notes that:
- (i) the government announced during Senate question time on 12 August 2009 that it remains committed to its \$100 million budget cut to chemotherapy treatment,
 - (ii) the government repeated its assertion that it only wants to fund the 'actual quantity' of chemotherapy medicines that are delivered to cancer patients,
 - (iii) chemotherapy drugs are delivered in standard vial sizes, while different cancer patients, with different body weights and different physiological requirements will need different dosages of a particular life saving chemotherapy drug,
 - (iv) at times a portion of an opened vial will be left unused,
 - (v) consistent with Therapeutic Goods Administration requirements any unused portion of an opened vial containing those dangerous chemotherapy drugs has to be discarded and will not be able to be used for any other patient,

- (vi) unless there is a change in vial sizes, no change in government funding arrangements will be able to remove that inefficiency and somebody will have to pay for the \$100 million budget cut,
 - (vii) this chemotherapy budget cut was part of both the 2008/09 and 2009/10 budgets with an original implementation date of 1 July 2009, deferred to 1 September 2009, and
 - (viii) the government still has not been able to come up with a sensible way to implement this ill-considered budget cut;
- (b) is concerned about the potential impact of this budget cut on cancer patients and considers that the ongoing uncertainty surrounding this measure has led to unnecessary concerns for cancer patients, their families and health care professionals involved in the preparation and use of chemotherapy drugs;
- (c) calls on the government to end the ongoing uncertainty as soon as possible; and
- (d) orders that there be laid on the table by the Minister representing the Minister for Health and Ageing by no later than 12 pm on 19 August, copies of:
- (i) all advice from the Department of Health and Ageing to the Minister for Health and Ageing in relation to the budget measures set out above from 13 May 2008 until 17 August 2009,

 - (iii) all correspondence between the Minister and/or her Department with State and Territory governments in relation to these budget measures from 13 May 2008 to 17 August 2009,

28 Health—Aged care providers—General Purpose Accounts—Order for production of documents

That the Senate—

- (a) notes that:
- (i) the Department of Health and Ageing has been collecting audited General Purpose Accounts from aged care providers since the 2004-05 financial year,
 - (ii) this information has to be submitted by aged care providers as a condition of receiving Conditional Adjustment Payments (CAP),
 - (iii) national de-identified comparative data from those accounts was expected to be made available every financial year to assist in performance benchmarking and in industry planning and investment decisions,
 - (iv) only the 2004-05 data was made available to the aged care industry (Bentleys MRI report), and

- (v) subsequently, even though the information has been collected and analysed (in 2005-06 by Grant Thornton, in 2006-07 by Access Economics and KPMG) these reports, and any subsequent analysis, do not appear to have been made publicly available;
- (b) considers publication of the national de-identified data from the audited General Purpose Accounts to be in the public interest; and
- (c) orders that there be laid on the table by the Minister representing the Minister for Health and Ageing, by no later than 12 pm on 20 August 2009, the following documents:

National de-identified data from the audited General Purpose Accounts of aged care providers for:

- 2005-06, including report/analysis by Grant Thornton,
- 2006-07, including report/analysis by Access Economics and KPMG,

30 Environment—Northern Victorian Irrigation Renewal Project—Order for production of document

(Motion of Senator Xenophon agreed to 27 October 2009; document tabled 16 November 2009.)

32 Environment—Montara oil spill—Order for production of documents

(Motion of Senator Siewert agreed to 29 October 2009; documents tabled 16 November 2009.)

33 Health—Aged care providers—General Purpose Accounts—Order for production of documents

That the Senate—

a) Notes that:

- 1) the Rudd Government is ignoring the accelerating crisis in aged care, in particular the serious financial viability challenges faced by aged care providers involved in the provision of high care beds;
- 2) the Government appears to justify its inaction by pointing to advice from the Department of Health and Ageing, also submitted to various Senate committees, that “efficient” aged care providers are financially viable;
- 3) the Senate has sought to verify those claims by seeking access to the de-identified data from the audited General Financial Purpose Accounts, which the Department of Health and Ageing has been collecting from aged care providers since the 2004-05 financial year;
- 4) on 13 August 2009, in answer to question on notice 1688, the Minister indicated that the de-identified data from the General Purpose Accounts was available on the Department of Health and Ageing website – when in fact it wasn’t;
- 5) on 19 August 2009 the Senate ordered that the de-identified data from the General Purpose Accounts and associated reports from the years 2005-06 to 2008-09 be laid on the table;
- 6) the Government eventually made the 2006-07 de-identified unit record data available;
- 7) the Government refused to table the remaining information part of the Senate’s order, providing the following reasons in a letter dated 20 September 2009:
 - a) information from 05-06 was of ‘poor quality’ and ‘could be misleading and not contribute to the public understanding of these issues’;
 - b) Access Economic and KPMG reports of the 2006-07 data were to ‘inform the Cabinet’s deliberations’; and
 - c) information from 2007-08 is incomplete, awaiting some late returns.

b) Considers that the above grounds are either not supported by precedent or insufficient justification for the refusal to provide the requested information and documents to the Senate, noting in particular that:

- 1) the Senate has previously explicitly rejected the proposition that information that may ‘confuse the public debate’ is a sufficient ground not to release information;

- 2) not every document placed before Cabinet reveals the deliberations of Cabinet, and only if the reports in question revealed Cabinet deliberations would they conform with the recognised ground; and
 - 3) incomplete material can (and should) be tabled with a caveat as to its incompleteness.
- c) Rejects the Ministers grounds for withholding the national de-identified data and associated reports.
 - d) Considers publication of the national de-identified data from the audited General Purpose Accounts and associated reports to be in the public interest.
 - e) Again orders that there be laid on the table by the Minister representing the Minister for Health and Ageing by no later than 12 pm on 18 November 2009, the following documents:
 - 1) National de-identified data from the audited General Purpose Accounts of aged care providers for:
 - i) 2005-06;
 - ii) 2007-08, including any report/analysis by the department and/or any third party consultant; and
 - 2) the report/analysis by Access Economics and KPMG based on the 2006-07 de-identified unit record data from the audited General Purpose Accounts of aged care providers.

(Motion of Senator Cormann agreed to 17 November 2009; document tabled 18 November 2009.)

34 Parliament—Health Insurance Amendment (Revival of Table Items) Bill 2009—Legal advice—Order for production of document

That the Senate—

- (a) Notes that:
 - 1) the Health Insurance Amendment (Revival of Table Items) Bill 2009 passed the Senate on 28 October 2009;
 - 2) the Clerk of the Senate provided advice that there was no constitutional barrier to the Senate introducing (and passing) this bill;
 - 3) the Minister for Health and Ageing told the House of Representatives on 29 October 2009, that the Government had legal advice that this bill was unconstitutional, that it should not have been introduced in the Senate and had not been appropriately passed;
 - 4) the Minister also told the House of Representatives that the Government, was “happy to provide that legal advice” (9.59am, 29/10/2009);
 - 5) subsequent and repeated requests to obtain a copy of the legal advice the Minister relied upon to make her claims on 29 October 2009 that the bill passed by the Senate was unconstitutional have been unsuccessful;

6) eventually a copy of departmental advice dated 4 November 2009 was provided, advice which clearly had been drafted well after the Minister made her claims based on ‘legal advice’ on 29 October 2009, and after requests for a copy of that legal advice had been put to the Minister.

(b) Orders that there be laid on the table by the Minister representing the Minister for Health and Ageing in the Senate, by no later than 5pm on 17 November 2009, a copy of the legal advice referred to by the Minister on 29 October 2009, indicating that the Health Insurance Amendment (Revival of Table Items) Bill 2009 was unconstitutional.

(Motion of Senator Cormann agreed to 17 November 2009; document tabled 18 November 2009; documents tabled 18 November 2009.)

35 Environment—Geoscience Australia—Carbon dioxide storage sites—Order for production of document

That there be laid on the table, no later than 4 pm on 18 November 2009, the assessment by Geoscience Australia reportedly identifying prospective sites for underground carbon dioxide storage sites in Victoria, Queensland and Western Australia, referred to in an article, ‘New hope for viable clean coal projects’ published in *The Australian* on 24 October 2009.

(Motion of Senator Milne agreed to 17 November 2009; document tabled 18 November 2009.)

36 Environment—Australian forest cover—Maps—Order for production of documents

(1) That the Senate:

(a) recalls that the:

(i) return to order motion moved on 16 September 2009 seeking a map of Australian forest cover (using the Kyoto definition of forest) for each year since 1990, at the highest available resolution, in any widely used GIS format, to be tabled by 26 October 2009, was supported, and

(ii) Government tabled a response which said ‘The Government is pursuing this matter however we are currently unable to satisfy the timeline for the production of these documents owing to the inter-departmental consultations that the order has required’; and

(b) notes that:

(i) 9 weeks have now passed since the motion was supported, and

(ii) scrutiny, of the forest cover maps is essential for consideration of the Carbon Pollution Reduction Scheme bills.

(2) That there be laid on the table, no later than 4 pm on 19 November 2009, a map of Australian forest cover (using the Kyoto definition of forest) for each year since 1990, at the highest available resolution, in any widely used GIS format.

***38 Health—Cataract surgery times—Data—Order for production of documents**

That the Senate—

- (a) notes that:
 - (i) the Senate disallowed the massive reduction in MBS cataract surgery rebates pursued by the Rudd Labor Government, with the objective to have the MBS rebates for cataract surgery maintained at the '2008 Regulations' level,
 - (ii) the Minister for Health and Ageing justified the massive 50 per cent cut to Medicare rebates for cataract surgery by arguing that the procedure was now 'quicker and easier' to perform and now took only about 15 minutes instead of the 45 minutes when the procedure was first introduced,
 - (iii) the Minister for Health and Ageing never provided any Australian data to substantiate those assertions, while an AMA survey of 334 ophthalmologists indicated that about 70 per cent of ophthalmologists took between 25 and 40 minutes to perform cataract surgery,
 - (iv) that it is further understood that the procedure band for cataract surgery has not been altered on the National Procedure Banding List, indicating no significant cost/time changes have occurred, and further
 - (v) the Minister for Health and Ageing has so far failed to acknowledge that MBS rebates for cataract surgery:
 - (A) have been reduced twice before since they were first introduced, by 30 per cent in 1987 and by 10 per cent in 1996, and
 - (B) have been indexed by about 2 per cent per annum since 1996, below CPI and below AWE, to take account of productivity improvements;

- (vi) the Minister for Health and Ageing or her department appear to have made some belated efforts to collect data to identify the average length of time taken to perform cataract surgery; and
- (b) orders that there be laid on the table by 12 pm on Friday, 20 November 2009:
 - (i) any information the Minister for Health and Ageing, her office or the department has received, compiled or commissioned on cataract surgery times in Australia since the Senate successfully disallowed the reduced rebates for cataract surgery on 28 October 2009, and
 - (ii) any information held by the Government in relation to procedure bands for cataract surgery on the National Procedure Banding List since its inception, including the cataract surgery related procedure band information on the most recently updated National Procedure Banding List.

(Motion of Senator Cormann agreed to 19 November 2009.)

GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses—adjourned debates on motions to consider or adopt committee reports and government responses. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear on the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents—adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for up to one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

The ‘full’ Notice Paper

On the first day of the autumn and spring sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo Search and at: www.aph.gov.au/senate/work/notice/index.htm

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
