

House Reps.
Standing Committee

Submission No 124.

Sc

28 Nov 2010

Dear Sir

I write to express my concern for any reduction to our volume and availability of allocation of water licence.

Our farm is 520 acres (size determined by Closes Settlement Lease). The land is productive only if we have our full water allowance.

We use all the water carefully and without waste. We have worked very hard and are productive farmers.

The farm and licence need each other. Australia needs productive farmers. Encourage these hard working people. Do not penalize them. There is an old saying "Don't cut off your nose to spite your face".

Please give us help not hinderance.

Yours sincerely

(Mrs) Anne Muscat.
