

Mr James Catchpole,
Committee Secretary,
Joint Standing Committee on Migration,
Canberra.

Dear Mr. Catchpole,

I would like to make a submission in respect of Multiculturalism in Australia. As an Australian I have long felt that we as a nation are richly blessed. At the same time I have never comprehended multiculturalism

This is the COMMONWEALTH of Australia.
The word commonwealth is made up of two words.

Common and **wealth**.

We are wealthy in one respect, in that we have things in common.
We love freedom. We have property rights. We vote.
But we also speak a common language.
We worship one God (the same one)
We respect property, we do not kill unpopular politicians.

The list is very long. Up until the 1970s our migrants were from mostly countries that share our values, the things we have in common.
But since that time the people entering our country have tended to not share our values.

Specifically, Muslims do not integrate into our communities because their religion teaches them not to. Their practices conflict with our values. (ref www.youtube.com/STOPShariaLAWnow)

You really should examine the Koran if you want to save this country from the turmoil that is descending upon Europe.

And please don't ask a Muslim Imam to explain it to you. They are taught to lie to Infidels to protect Islam. There is ample evidence

on You tube alone for you to see that there is something inherently bad about Islam. Please do not import this cancer into our society. No good can come from it.

Take a study tour of France, Denmark even Western China!

We have currently 1.8% of our population represented by Muslims.

Statistics show that once this figure exceeds 2% we will experience increasing trouble.

Look at what is happening around the world!

Since September 11 2001 there have been 17,207 terrorist attacks in the name of Islam.

(Refer to www.thereligionofpeace.com)

This is not made up.

Ask yourself. Do you want this country to descend into chaos because

of a minority of people who will not assimilate?

These people have on average 6 or 7 children per family. We average less than 2.

They do not question their beliefs. They are discouraged

from questioning their beliefs. Many despise our way of life.

There is still time to prevent the disaster that is coming.

Stop all immigration of Muslims. Look to what our values are

and allow migrants from those nations that share our values,

our love of democracy, and respect for property and life.

Yours faithfully,

BW
