#### FOREWORD.

On 3rd December, 1959; Your Committee presented to the Parliament in the Forty-fifth Report an Index to the first forty-one reports of the Joint Committee of Public Accounts. This revised Index now covers the fifty-eighth reports issued by the first four Committees in the period of nine years between the appointment of the First Committee on 25th September, 1952, and the presentation of the Fifty-eighth Report, the last report of the Fourth Committee, on 25th October, 1961.

The method of compilation of this Index is similar to that adopted previously. Topics have been listed under main subject headings and then is indicated the number of report and the page or the first of a succession of pages in that report where the topic will be found; Commonwealth departments are indexed uniformly under the key name of the department, e.g., "Trade Department" and fire "Department of Trade". Authorities whose formal titles commence with "Commonwealth" or "Australia" are so indexed with a cross reference under a commonly used name, for example, "Australia" with a cross reference under "Mostralia". Treasury Minutes, conveying to the Committee the action, taken by the Treasury and departments on their reports, are indexed under "Treasury Minutes".

The following example will illustrate the way in which the Index is to be interpreted:-

" RECRUITING CAMPAIGN-

Provision in Army votes

20/12, 20: 25/30, 39: 27/46."

This subject and topic are referred to into Twentieth Report, pages 12 and 20 (and 21), in the Twenty-flith Report, pages 30 and 39, and in the Twenty-wenth Report, page 46.

The Committee will continue to add to the Index from time to time.

For and on behalf of the Committee,

Chairman.

Secretary,

Joint Committee of Public Accounts, Parliament House. Canberra, A.C.T.

10th April, 1962.
