Subject: Sub062 Volker Hirsinger

In the 2013 federal election I was registered to vote in South Australia, and successfully applied for a postal vote.

I duly filled in and submitted the voting materials, but was subsequently informed that my vote was invalid as I had failed to sign the outside of the envelope in which the vote was submitted.

I ask that the requirements and instructions for the submission of postal votes be simplified to avoid errors like this in future.
