

**Australian Parliament
Joint Standing Committee on Migration
Submission no. 227**

Dear Minister,

What exactly does the term "Social inclusion" mean? I HOPE IT MEANS THAT IMMIGRANTS COMING TO OUR COUNTRY socially include themselves into the Australian way of life?

because I am sick to death of hearing spineless politicians pandering to a minority group "namely muslims" just to win a few votes when they have forgotten some basic rights of Australians. My father went to war for freedom and the Commonwealth in W.W.2. I went to war in Viet Nam for the same.

I am tired of politicians and civil libertarian groups with no back bone where there wish bone should be, telling us Australians we have to fit in with immigrants way of life.

I tell you this is rot. You go to Indonesia, India, The Middle east, even Europe etc etc and observe if they accept our life style and fit in with us! You all believe in the tooth fairy if you think that.

Stand up, be counted and say "So Sad Too Bad" If (migrants) legal or otherwise don't like this Country the way it is! and refuse to assimilate "Go home". We don't want you.

Start listening to the huge percentage of Australians who have settled here and born here who feel the same way I do OR at your peril "Loose the next election" Thank you for the opportunity to voice my concerns.

Kindly,
