## 9 APPROPRIATION BILL (NO. 1) 2021-2022

The order of the day having been read for the resumption of the debate on the question—That the bill be now read a second time—

Debate resumed by Dr Chalmers who moved, as an amendment—That all words after “That” be omitted with a view to substituting the following words:

“whilst not declining to give the bill a second reading, the House notes:

- (1) the 2021 Budget includes nearly \$100 billion in new spending and racks up one trillion dollars in debt, but still delivers a real wage cut for Australian workers;
- (2) after eight long years of cuts to key services, increasing job insecurity, stagnant wages growth, weak business investment, weak productivity and waste and rorts, this Budget was designed to get through an election rather than outline a vision for Australia; and

- (3) that the 2021 Budget is a missed opportunity to shape a better, stronger post-pandemic Australia where no one is held back and no one is left behind”.

Debate ensued.

Mr Joyce addressing the House—

It being 1.30 pm, the debate was interrupted in accordance with standing order 43, Mr Joyce was granted leave to continue his speech when the debate is resumed, and the resumption of the debate made an order of the day for a later hour this day.

#### 10 MEMBERS' STATEMENTS

Members' statements were made.

#### 11 QUESTIONS

Questions without notice being asked—

*Member directed to leave*

At 3.10 pm the Member for Isaacs (Mr Dreyfus) was directed, under standing order 94, to leave the Chamber for one hour for continuing to interject after a warning had been given by the Chair and he accordingly left the Chamber.

Questions without notice continued.

#### 12 DOCUMENT

The following document was presented:

National Disability Insurance Scheme—Joint Standing Committee—General Issues—Government response, May 2021.

#### 13 AUDITOR-GENERAL'S REPORT

The Speaker presented the following document:

Auditor-General—Audit report No. 38 of 2020-21—Performance audit—Defence's implementation of cultural reform: Department of Defence.

The document was made a Parliamentary Paper.

#### 14 MATTER OF PRIVILEGE—STATEMENT BY SPEAKER

The Speaker made the following statement:

On Thursday, 13 May, the Member for Hughes raised, as a matter of privilege, whether his banning by Facebook from its social media platforms constitutes an improper interference with the free performance of his duties as a member such as to amount to a contempt of the House.

The Member for Hughes refers to Facebook's action as impeding his ability to communicate with his constituents, and his constituents' ability to communicate with him, thereby impeding his ability to represent their interests.

The Member for Hughes presented several documents as supporting information, including media articles and webpage printouts.

Since the last sitting I have reviewed the matter raised by the Member for Hughes and the supporting information he provided. I accept that the matter has been raised at the earliest opportunity.

Acts which attempt to interfere with the free performance by a member of his or her duties as a member, can be regarded as a contempt. Under section 4 of the *Parliamentary Privileges Act 1987*, such acts must amount to, or be intended or likely to amount to improper interference in the free performance of the member's duties as a member.

While the action described by the Member for Hughes does appear to have been directed specifically at him, and I acknowledge that the Member for Hughes considers that the action taken has seriously impacted his ability to perform aspects of his role, on the information available to me I am not in a position to determine that this represents a prima facie case of an improper interference, as required under the Act.

In the media reports presented to the House by the member, Facebook has stated that it removed the member's Facebook page because the Member for Hughes repeatedly violated the site's policy of not allowing users to share misinformation about COVID-19 that had been refuted by public health officials.

There is no evidence in the material to suggest that the particular action by Facebook was directed at the member in his capacity as a member.

I acknowledge that the Member for Hughes considers that the action taken has impeded communications between himself and his constituents. I am aware also that the member would have other means of communicating with constituents available to him.

In the absence of more specific evidence, and given the consistently held view that the House's privileges and contempt powers should be exercised sparingly, I do not find that a prima facie case has been established such as would cause me to give precedence to a motion to refer the matter to the Committee of Privileges and Members' Interests.

#### 15 MESSAGE FROM THE SENATE

Message No. 366, 13 May 2021, from the Senate was reported informing the House that:

#### 17 APPROPRIATION BILL (NO. 1) 2021-2022

Debate resumed.

Mr Joyce, by leave, again addressed the House.

Debate continued.

**FEDERATION CHAMBER**

**MINUTES OF PROCEEDINGS**

MONDAY, 24 MAY 2021

---

---

*(Order of business for this sitting—see item No. 10, Votes and Proceedings, 13 May 2021.)*

1 The Federation Chamber met at 10.30 am.

**2 MEMBERS' CONSTITUENCY STATEMENTS**

Members' constituency statements were made.

**3 TERRITORY RIGHTS ON EUTHANASIA**

Dr Leigh, pursuant to notice, moved—That this House:

(1) notes that:

- (a) the *Euthanasia Laws Act 1997* (known as the Andrews Bill) amended the *Australian Capital Territory (Self-Government) Act 1988* and the *Northern Territory (Self-Government) Act 1978* to deprive these two legislative assemblies of the power to make laws relating to euthanasia;
- (b) the Government of Prime Minister Howard justified this at the time as a constraint on young jurisdictions that were seen to be moving ahead of the broader public mood;
- (c) when the Andrews Bill curtailed the right of territories to make laws relating to euthanasia, no other state or territory legislature had conducted a debate on similar laws;
- (d) polls of public attitudes to doctor-led voluntary assisted dying suggest that support was in the high sixties in the 1980s, in the mid to high seventies in the 1990s, and in the low eighties in the past two decades;
- (e) in recent years all state legislatures have debated legislation around voluntary assisted dying, with Victoria and Western Australia legalising voluntary assisted dying, and New South Wales and South Australia rejecting legalisation, while Queensland and Tasmania have processes ongoing;
- (f) the anachronistic Andrews Bill means that, a quarter of a century since it was passed, 700,000 Australians who live in the Northern Territory or the Australian Capital Territory are still unable to participate in a democratic process to resolve community approaches to euthanasia;
- (g) repealing the Andrews Bill would return to territories legal powers that are held by other Australian jurisdictions; and
- (h) restoring territory rights does not direct that either territory legislature should consider legislating on euthanasia, it merely allows them to do so if their properly elected representatives decide it appropriate;

(2) acknowledges that:

- (a) in each of the last two terms of parliament the Government has blocked debate on private Members' bills that would restore territory rights; and

- (b) while senators have debated and voted on related legislation, members of the House of Representatives have been prevented from expressing their views on this issue; and
- (3) calls on the Government to:
  - (a) explain why, in 2021, two mature legislative jurisdictions are still singled out as unworthy of legislative self-determination;
  - (b) commit to introduce legislation into the House of Representatives that would grant territorians legislative equality with Australians in other jurisdictions; and
  - (c) restore the right of territories to determine their own laws on euthanasia.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

#### 4 ELECTRICITY PRICES

Mrs Archer, pursuant to notice, moved—That this House:

- (1) acknowledges that under the Government, we have seen:
  - (a) a record eight consecutive quarters of year-on-year consumer price index reductions in retail electricity prices; and
  - (b) wholesale electricity prices fall for 17 months in a row; and
- (2) welcomes the Government's strong action to ensure that Australian households and businesses have access to affordable, reliable and secure electricity.

Debate ensued.

#### *Suspension of meeting*

At 12.03 pm, a division having been called in the House, the proceedings were suspended.

#### *Resumption of meeting*

#### 5 HOUSING

The order of the day having been read for the resumption of the debate on the motion of Mr Burns—That this House:

- (1) recognises that every Australian should have access to safe and secure housing;
- (2) notes that:
  - (a) the rate of home ownership continues to decline due to this Government's inaction and lack of leadership on federal housing policy;
  - (b) the rising cost of rent is pushing more Australians into rental stress;
  - (c) more investment in social housing is needed immediately to address the growing waitlists and increasing number of people facing homelessness; and
  - (d) the homelessness sector is desperate for more funding to support those needing crisis accommodation, especially women fleeing domestic and family violence; and
- (3) calls on the Government to take responsibility and implement policies that respond to the serious issues facing access to safe and secure housing in Australia—

Debate resumed.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

**6 DEFENCE INDUSTRY**

Mr Connelly, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) the Government's \$270 billion investment in Australia's defence capability is creating thousands of jobs and opportunities for small businesses across Australia, particularly in the state of Western Australia;
  - (b) it is only because of the Government's continued investment that we are able to guarantee that the men and women of the Australian Defence Force receive the defence capabilities they need to keep Australians safe; and
  - (c) a key pillar of our economic recovery plan to get Australians in jobs is getting more Australian businesses in our defence industry to deliver the essential capability our Defence Force relies on; and
- (2) recognises that because of the support measures the Government has introduced to help Australian defence:
  - (a) businesses remain in business and are recovering from COVID-19; and
  - (b) our defence industry is not only recovering, but thriving as we come back from the COVID-19 recession.

Debate ensued.

  - (2) after eight long years of cuts to key services, increasing job insecurity, stagnant wages growth, weak business investment, weak productivity, waste and errors, this Budget was designed to get through an election rather than outline a vision for Australia; and
  - (3) that the 2021 Budget is a missed opportunity to shape a better, stronger post-pandemic Australia where no one is held back and no one is left behind”—*And on the amendment moved thereto by Mr Bandt, viz.*—That the following words be added after paragraph (3):
- “(4) the 2020-21 Budget delivered the publicly-funded Jobkeeper wage subsidy, that was received by many companies that enjoyed an increase in profits during the pandemic, resulting from changes in consumer spending;
- (5) the 2021-22 Budget does not include measures requiring such corporations to repay any Jobkeeper payments they received as a windfall; and
  - (6) calls on the Government to require companies with an annual turnover of more than \$50 million that received windfall Jobkeeper payments and in the last 12 months:
    - (a) made increased profits; or
    - (b) paid increased executive bonuses; or

  - (2) after eight long years of cuts to key services, increasing job insecurity, stagnant wages growth, weak business investment, weak productivity, waste and errors, this Budget was designed to get through an election rather than outline a vision for Australia; and
  - (3) that the 2021 Budget is a missed opportunity to shape a better, stronger post-pandemic Australia where no one is held back and no one is left behind”—*And on the amendment moved thereto by Mr Bandt, viz.*—That the following words be added after paragraph (3):

**2 SUSPENSION OF STANDING ORDERS MOVED**

Mr M. C. Butler moved—That so much of the standing orders be suspended as would prevent the Member for Hindmarsh from moving the following motion immediately—That the House:

(1) notes:

- (a) the Prime Minister had two jobs this year, to get the vaccine rollout right and to create a safe, national quarantine system, and the Victorian outbreak has shown he has failed at both;
  - (b) the Prime Minister announced these aged care residents and staff would be vaccinated by Easter but has failed to deliver, leaving them vulnerable;
  - (c) shockingly, when asked this morning, the Aged Care Minister could not even say how many aged care residents in Victoria had been fully vaccinated;
  - (d) in November last year, the Government ceased its efforts to prevent aged care workers working in multiple facilities in Australia; and
  - (e) this Government has failed its basic duty to protect older and vulnerable Australians; and
- (2) therefore, calls on the Prime Minister to attend the Chamber and make a statement of no more than 30 minutes in length accounting for these failures.

(1) notes:

- (a) the devastating mouse plague is ravaging farms across four Australian states;
- (b) the Federal Government has no national response plan for this unfolding disaster;
- (c) State Agriculture Ministers, some from the Agriculture Minister's own party, have expressed their frustration at the complete lack of action from the Federal Government; and
- (d) farmers and their rural communities, who have just recovered from drought, need to see action from the Prime Minister and the National Party as a matter of urgency; and

(2) therefore, calls on the Prime Minister to attend the Chamber and explain what his Government plans to do to stop the devastating mouse plague before further damage is done.

Mr Wilkie moved—That so much of the standing orders be suspended as would prevent the Member for Clark from moving the following motion immediately—That the House:

- (1) notes that:
  - (a) the Government recently extended a contract for the Department of Defence, for the storage and management of data, with Chinese-owned data centre Global Switch, without due process or public tender; and
  - (b) the extension of this contract threatens Australia’s national security;
- (2) condemns the Government for putting cost-saving measures above the safety of Australians’ national security; and
- (3) calls on the Government to:
  - (a) immediately terminate all government contracts with foreign-owned external data storage companies, including Global Switch;
  - (b) promptly and securely transfer all externally-stored government data to Australian-owned and managed data centres; and
  - (c) explain to the House why the Department of Defence has delayed its withdrawal from Global Switch, unlike other government agencies such as ASIC and the ATO which have already begun transferring their data.

Debate ensued.

**MINUTES OF PROCEEDINGS**

**WEDNESDAY, 2 JUNE 2021**

---

*(Order of business for this sitting—see item No. 10, Votes and Proceedings, 13 May 2021.)*

1 The Federation Chamber met at 10.01 am.

**2 MEMBERS' CONSTITUENCY STATEMENTS**

Members' constituency statements were made.

**3 ISRAELI PALESTINIAN CONFLICT**

Mr Hayes, by leave, for Ms Vamvakinou, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) recent violence in Israel and the Palestinian territories has resulted in the deaths of at least 222 Palestinians in Gaza, including 63 children, and 12 Israelis, including two children;
  - (b) a ceasefire was declared on 20 May 2021; and
  - (c) according to the United Nations, more than 74,000 Palestinians in Gaza were displaced from their homes during the conflict;
- (2) recognises that the impact of this violence is far-reaching, and that many in the Australian community are hurting at this difficult time; and
- (3) calls on the Government to ensure Australia is working constructively to support security and human rights in advance of a just and enduring two-state solution in the Middle East.

Debate ensued.

Mr Hayes, by leave, again addressed the Federation Chamber, without closing the debate.

Debate continued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

**4 DIABETES AND INSULIN**

Mr Ramsey, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) 2021 marks 100 years since the discovery of insulin by Canadian surgeon Frederick Banting;
  - (b) Frederick Banting, along with his colleagues Professor John McLeod, medical student Charles Best and researcher Dr James Collip, solved the problem of how extracted insulin could be used to treat a person with diabetes;
  - (c) insulin was first administered to a 14 year old boy, Leonard Thompson, at the Toronto General Hospital—it was lifesaving for Leonard and for millions of others diagnosed with diabetes over the ensuing years; and
  - (d) for their discovery, Banting and McLeod won the Nobel Prize in Physiology and Medicine in 1923 and shared their prize money with Best and Collip;

- (2) recognises that:
- (a) diabetes is a serious and complex metabolic disease that affects the lives of many Australians;
  - (b) more than 1.4 million Australians currently have diabetes and are registered with the National Diabetes Services Scheme (NDSS); and
  - (c) Australians like Anna Moresby, who was diagnosed with type 1 diabetes as a child during World War 2, can live long and productive lives because of the discovery of insulin—Anna has just received a Kellion Victory Medal for living with diabetes for 80 years; and
- (3) acknowledges that:
- (a) the Government has a long-standing commitment to the NDSS, established in 1987, which assists people with diabetes to self-manage their diabetes through provision of subsidised insulin pen needles and pump consumables, glucose monitoring strips, continuous glucose monitors and flash monitors, and important information, resources, education and support programs and other services;
  - (b) there has been strong bi-partisan support for the NDSS; and
  - (c) since its inception the NDSS supports all people with diabetes all over Australia, including children with type 1 diabetes and families, young adults, women with diabetes in pregnancy and over 450,000 people who currently use insulin to help manage their diabetes.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

## 5 VOLUNTEER ORGANISATIONS

Ms Owens, pursuant to notice, moved—That this House:

- (1) acknowledges the almost 6 million Australian volunteers who contribute 600 million hours each year to help others through secular and faith-based volunteering organisations;
- (2) notes that:
  - (a) in early 2020, two out of every three volunteers cut back their hours, including many older volunteers who had to self-isolate, leaving charities short by an estimated 12.2 million hours per week; and
  - (b) only around one in four volunteer organisations managed to get volunteer participation back to pre-pandemic levels of activity by the start of 2021;
- (3) recognises that, while volunteering organisations have been supporting much greater numbers of people in need with fewer resources during the coronavirus pandemic, there was nothing in the Government's latest budget for volunteers; and
- (4) calls on the Government to get behind our volunteer organisations and make sure they have the resources they need to continue their important work.

Debate ensued.

- (3) notes:
  - (a) Rotary's important work partnering the Global Polio Eradication Initiative and its involvement in the End Trachoma project; and
  - (b) there are approximately 30,000 members who belong to one of the 1,052 charter Rotary clubs established throughout Australia; and

Ms Templeman, pursuant to notice, moved—That this House:

- (1) notes with dismay that suicide is the leading cause of death among Australians aged 15 to 24 years;
- (2) recognises that for young people the decision to access mental health care is fragile, and if they do not have a positive experience they may not make another attempt to seek help;
- (3) further notes that youth-friendly mental health services are not available uniformly to young people; and
- (4) calls on the Government to:
  - (a) increase access to effective mental health services and supports for young people across all stages of mental ill-health; and

- (1) notes that:
  - (a) the COVID-19 crisis has caused the cancellation or delay of flights and other travel for many Australians;
  - (b) many Australians have experienced considerable difficulty in obtaining the refund of monies paid for travel, accommodation and other tourist activities;
  - (c) while many travel agents have acted with integrity and fairness, some have not done so; and
  - (d) the COVID-19 crisis has exposed the absence of consumer protections for Australian travellers; and
- (2) urges Australian governments to enact legislation that:
  - (a) provides consumers with a right to a refund if the service they paid for hasn't been fulfilled due to situations outside of human control;
  - (b) establishes mandatory trust accounts for all travel agents, including online travel agents;
  - (c) provides for transparent fee for service for all travel agents with no hidden costs; and

## 10 WAGE GROWTH

Ms Coker, pursuant to notice, moved—That this House:

- (1) recognise that, under this Government, Australia has experienced near stagnant wage growth;
- (2) notes that:
  - (a) low wages are a deliberate design feature of this Government's economic policy;
  - (b) the budget showed real wages for Australian workers are expected to fall under this Government;
  - (c) budget figures show that Australia is wealthier than we expected but there will be no meaningful benefit of that higher wealth to the wages and salaries of Australians; and
  - (d) while all Australians deserve a pay rise, women especially suffer under this Government's wage-failure due to the enormous 13.4 per cent gender wage gap; and
- (3) calls on the Government to put the Australian people at the centre of their economic decision making and get wages moving again, starting with an increase to the minimum wage.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

## 11 DEFENCE INDUSTRY

The order of the day having been read for the resumption of the debate on the motion of Mr Connelly—That this House:

- (1) notes that:
  - (a) the Government's \$270 billion investment in Australia's defence capability is creating thousands of jobs and opportunities for small businesses across Australia, particularly in the state of Western Australia;
  - (b) it is only because of the Government's continued investment that we are able to guarantee that the men and women of the Australian Defence Force receive the defence capabilities they need to keep Australians safe; and

- (c) a key pillar of our economic recovery plan to get Australians in jobs is getting more Australian businesses in our defence industry to deliver the essential capability our Defence Force relies on; and
- (2) recognises that because of the support measures the Government has introduced to help Australian defence:
  - (a) businesses remain in business and are recovering from COVID-19; and
  - (b) our defence industry is not only recovering, but thriving as we come back from the COVID-19 recession.—

Debate resumed.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

## 12 REOPENING AUSTRALIAN BORDERS

Ms Steggall, pursuant to notice, moved—That this House:

- (1) notes:
  - (a) Australia's borders have been closed for over a year to both inbound and outbound travel as an emergency measure;
  - (b) the Government has not disclosed or provided any credible timeline or roadmap to reopen the borders;
  - (c) many Australian citizens are struggling with disconnection from family members, partners and loved ones overseas and unable to see one another;
  - (d) there has been no extension of travel exemptions to family members or visa holders despite repeated calls;
  - (e) many Australian business sectors, like tourism, entertainment, agriculture, universities and industry, are pleading for a roadmap to safely reopen the borders; and
  - (f) communities and businesses are continually exposed to quarantine leakages and pay the price with lockdowns; and
- (2) calls on the Government to:
  - (a) double the capacity of national quarantine facilities using best practice purpose-built facilities such as Howard Springs;
  - (b) prioritise expenditure to accelerate the rollout of the vaccine with a goal of achieving vaccination of at least 80 per cent of the population before the end of the year; and
  - (c) establish a clear roadmap for safely reopening Australian borders and clearly communicate goals and timeframes by reporting back to this Parliament and the Australian people without delay.

Debate ensued.

- (2) after eight long years of cuts to key services, increasing job insecurity, stagnant wages growth, weak business investment, weak productivity, waste and rorts, this Budget was designed to get through an election rather than outline a vision for Australia; and
- (3) that the 2021 Budget is a missed opportunity to shape a better, stronger post-pandemic Australia where no one is held back and no one is left behind”—*And on the amendment moved thereto by Mr Bandt, viz.*—That the following words be added after paragraph (3):
  - “(4) the 2020-21 Budget delivered the publicly-funded Jobkeeper wage subsidy, that was received by many companies that enjoyed an increase in profits during the pandemic, resulting from changes in consumer spending;
  - (5) the 2021-22 Budget does not include measures requiring such corporations to repay any Jobkeeper payments they received as a windfall; and
  - (6) calls on the Government to require companies with an annual turnover of more than \$50 million that received windfall Jobkeeper payments and in the last 12 months:
    - (a) made increased profits; or
    - (b) paid increased executive bonuses; or

**12 AUDITOR-GENERAL'S REPORT**

The Speaker presented the following document:

Auditor-General—Audit report No. 44 of 2020-21—Performance audit—Regulation of Great Barrier Reef Marine Park permits and approvals—Follow-up: Great Barrier Reef Marine Park Authority.

The document was made a Parliamentary Paper.

**13 MATTER OF PRIVILEGE—STATEMENT BY SPEAKER**

The Speaker made the following statement:

On Tuesday of this week, the Member for Hughes raised, as a matter of privilege, whether the removal by YouTube from its platform, on 7 June, of a video containing a speech made in the House by the member represents the censoring of parliamentary debate and an improper interference with his duties as a member, such as to amount to a contempt of the House.

The Member for Hughes presented two emails sent to him by YouTube as supporting information.

I have reviewed the matter raised by the member and the supporting information he provided. I accept that the matter has been raised at the earliest opportunity.

While acts which attempt to interfere with the free performance by a member of his or her duties as a member can be regarded as a contempt, such acts must amount to, or be intended or likely to amount to improper interference in the free performance of the member's duties as a member.

In the emails presented to the House by the member, YouTube has stated that it removed the member's video because it violated the platform's medical misinformation policy. No evidence has been provided that indicates the action by YouTube was directed at the member in his capacity as a member.

YouTube is not the official provider of the parliamentary broadcast; the official webcast of proceedings is available on the Parliament's website. I acknowledge that the Member for Hughes considers that YouTube's action has impacted his ability to perform aspects of his role. I do not accept the member's assertion that the removal of his speech from this platform constitutes the censoring of parliamentary proceedings.

The Member for Hughes also refers to a 'threat' by YouTube to restrict his channel if any further violations of the medical misinformation policy occur. On the information provided, this appears simply to be a standard warning about complying with the platform's policies, and again not directed at the member in his capacity as a member.

For these reasons, and given the consistently held view that the House's privileges and contempt powers should be exercised sparingly, I do not find that a prima facie case has been established such as would cause me to give precedence to a motion to refer the matter to the Committee of Privileges and Members' Interests.

### 13 MATTER OF PRIVILEGE RAISED BY MR WILKIE—STATEMENT BY SPEAKER

The Speaker made the following statement:

Last Tuesday, the honourable Member for Clark raised a matter of privilege in connection with a recent interlocutory judgment of the Federal Court of Australia, in an action brought by the Registered Clubs Association of New South Wales against Mr Troy Stolz.

The basis of the member's concern is that the judgment granted leave to Clubs NSW to obtain correspondence between Mr Stolz and the member's office, including emails, text messages and documents. The Member for Clark stated that these materials had been relied upon by him to speak in the House of Representatives Chamber on 13 February 2020, and thereby there was a direct link between the materials covered by the court decision and the member's contributions in parliamentary proceedings. The member has urged that the Parliament intervene to assert the protection of parliamentary privilege in the proceedings before the court.

Section 16 of the Parliamentary Privileges Act provides protections for 'proceedings in Parliament [which] means all words spoken and acts done in the course of, or for the purposes of or incidental to, the transacting of the business of' the House.

It is acknowledged that the courts have a role in interpreting what is included in 'proceedings in Parliament', in particular the scope of the term 'for purposes of or incidental to' the transacting of the business of a House.

In the present case, the honourable Member for Clark has not presented detailed information which might lead me to be satisfied that there is prima facie evidence of a contempt or a breach of privilege.

Nevertheless, I am willing to give precedence to a motion for a matter concerning privilege or contempt, in relation to the circumstances raised by the member, to be referred to the Committee of Privileges and Members' Interests. In my opinion, the House would benefit from the advice of the committee on this matter.

**14 MATTER OF PRIVILEGE—REFERENCE TO COMMITTEE OF PRIVILEGES AND MEMBERS' INTERESTS**

Mr Wilkie moved—That the following matter be referred to the Committee of Privileges and Members' Interests:

Whether the legal action in the Federal Court of Australia, taken by the Registered Clubs Association of New South Wales against Mr Troy Stolz, raises issues of parliamentary privilege or contempt such that the House should formally claim privilege and intervene in the court proceedings to assert the protection of parliamentary privilege.

Question—put and passed.

**15 DISCUSSION OF MATTER OF PUBLIC IMPORTANCE—REGIONAL COMMUNITIES**

The House was informed that Ms Collins had proposed that a definite matter of public importance be submitted to the House for discussion, namely, “The government’s continued failure to adequately represent farmers, producers and regional communities”.

The proposed discussion having received the necessary support—

Ms Collins addressed the House.

Discussion ensued.

Discussion concluded.

**16 SUSPENSION OF STANDING ORDERS—PRIVATE MEMBERS' NOTICE**

Mr Pitt (Minister for Resources, Water and Northern Australia), pursuant to notice, moved—That so much of the standing orders be suspended as would prevent the private Members' business notice relating to the disallowance of the Industry Research and Development (Beetaloo Cooperative Drilling Program) Instrument 2021 made under the *Industry Research and Development Act 1986* on 13 May 2021 and presented to the House on 24 May 2021, standing in the name of the Member for Warringah being called on immediately.

Question—put and passed.

**17 INDUSTRY RESEARCH AND DEVELOPMENT (BEETALOO COOPERATIVE DRILLING PROGRAM) INSTRUMENT 2021—MOTION FOR DISALLOWANCE**

Ms Steggall, pursuant to notice, moved—That the Industry Research and Development (Beetaloo Cooperative Drilling Program) Instrument 2021 made under the *Industry Research and Development Act 1986* on 13 May 2021 and presented to the House on 24 May 2021, be disallowed.

Debate ensued.

Question—That the motion be disagreed to—put.

The House divided and only Mr Bandt, Dr Haines, Ms Steggall and Mr Wilkie voting “No”, the Deputy Speaker (Dr Gillespie) declared the question resolved in the affirmative.

**18 COVID-19 DISASTER PAYMENT (FUNDING ARRANGEMENTS) BILL 2021**

The order of the day having been read for the resumption of the debate on the question—That the bill be now read a second time—

Debate resumed by Mr Giles who moved, as an amendment—That all words after “That” be omitted with a view to substituting the following words:

“whilst not declining to give the bill a second reading, the House:

(1) notes the Government has:

(a) catastrophically failed to address outbreaks in hotel quarantine, which has led to extended lockdowns in states across Australia;

- (b) botched the COVID-19 vaccine rollout, which has left all Australians, but particularly aged care workers, vulnerable; and
- (c) failed to ensure that workers and businesses received the support needed in the recent Victorian lockdown;
- (2) further notes this bill may not have been necessary, if not for the Government's failure on quarantine and vaccines, both national responsibilities; and
- (3) calls on the Government to:
  - (a) build dedicated quarantine facilities and expand existing facilities in every state and territory;
  - (b) fix the vaccine rollout and expand mobile and mass vaccination clinics;
  - (c) start a mass public information campaign to encourage people to get vaccinated; and
  - (d) begin manufacturing mRNA vaccines right here in Australia".

Debate ensued.

Question—That the amendment be disagreed to—put.

**19 SUSPENSION OF STANDING ORDERS MOVED**

Ms Rishworth moved—That so much of the standing orders be suspended as would prevent the Member for Kingston from moving the following motion immediately—That the House:

(1) notes:

- (a) by keeping the Member for Bowman as chair of the Standing Committee on Employment, Education and Training, the Prime Minister is showing how little value he places on committee work;
- (b) his failure to respond to a letter written by female Opposition members of the committee urging him to act also shows how little value he places on the views of women;
- (c) Government members need to stop the protection racket for the Member for Bowman; and

  - (a) declines to give the bill a second reading; and

**17 MESSAGE FROM THE SENATE—WATER LEGISLATION AMENDMENT (INSPECTOR-GENERAL OF WATER COMPLIANCE AND OTHER MEASURES) BILL 2021**

Message No. 398, 23 June 2021, from the Senate was reported returning the Water Legislation Amendment (Inspector-General of Water Compliance and Other Measures) Bill 2021 with amendments.

Ordered—That the amendments be considered immediately.

On the motion of Mr Pitt (Minister for Resources, Water and Northern Australia), amendments (2) and (3) were agreed to, after debate.

On the motion of Mr Pitt, amendments (1) and (4) were disagreed to.

Mr Pitt presented reasons, which were circulated, and are as follows:

*Reasons of the House of Representatives for disagreeing to the amendments of the Senate*

The amendments are not necessary as Basin states already have publicly accessible water registers which record information on water trading within the Basin, which includes dates of trades, the amount paid and details about the trade. Creating a water register to include all Basin state water trades would create duplication with the already existing state registers.

The Coalition has already committed to the establishment of an expert independent panel to review the recommendations presented in the Australian Competition and Consumer Commission Murray-Darling Basin water markets inquiry report. The independent expert panel interim report will be tabled in the Parliament.

Following Royal Assent of the bill, the RRAT committee has the opportunity to consider water market transparency.

Accordingly, the House of Representatives does not accept these amendments.

On the motion of Mr Pitt, the reasons were adopted.

Mr Drum, by leave, moved amendments (1) to (3) of sheet 1297 and (1) to (3) of sheet 1300 together.

*Speaker's ruling*

The Speaker ruled that the amendments moved by Mr Drum were out of order as they were not relevant to, or consequent on, the Senate amendments.

*Dissent from ruling moved*

Mr Burke (Manager of Opposition Business) moved—That the ruling be dissented from.

Debate ensued.

Motion, by leave, withdrawn.

**18 SUSPENSION OF STANDING ORDERS MOVED**

Ms Rishworth moved—That so much of the standing orders be suspended as would prevent the Member for Kingston from moving the following motion immediately—That the House suspend to take note of the Senate debate.

*Closure of Member*

Mr Dutton (Leader of the House) moved—That the Member be no longer heard.

Question—put.

*Reasons of the House of Representatives for disagreeing to the amendment of the Senate*

The amendment proposed by the Senate would undermine trust and confidence in the protected nature of taxpayer information enshrined in legislation by the tax secrecy laws. Australians disclosed information for the purposes of receiving Jobkeeper to the Australian Taxation Office on the basis that the information would be subject to these strict tax confidentiality and secrecy laws. The same argument applies to information provided for other types of COVID-19 payments.

It is the view of the House of Representatives that the benefit from disclosure of the information proposed in the amendment does not outweigh the risks it poses to the Commissioner's administration of Commonwealth law.

Further, the House notes that public companies are required under the *Corporations Act 2001* to prepare annual financial reports and to give those reports to the Australian Securities and Investments Commission (ASIC). Reports provided to ASIC are available for the public to access. ASIC has advised reporting entities that they should prominently disclose material amounts of COVID-19 government assistance in their financial reports.

On the motion of Mr Gee, the reasons were adopted.

  - (c) today, many Australians are being coerced, against their free will, to submit to receiving a medical intervention (being the COVID vaccines) just to open their business, keep their job, to be able to pay their mortgage, or to put food on the table;
  - (d) that no Australian should be placed in a position where they are forced to undertake a medical intervention to visit a beach or a park;
  - (e) today, many Australians are being coerced, against their free will, to submit to receiving a medical intervention (being the COVID vaccines) if they wish to visit a beach or go to a park;
  - (f) that the Australian Constitution provides that trade commerce and intercourse between the states shall be “absolutely free”;
  - (g) the words “absolutely free” in the Constitution are not preceded by first providing some government issued health papers;
  - (h) many Australians are being coerced, against their free will, to submit to receiving a medical intervention (being the COVID vaccines) to cross state borders;
  - (i) the only document that Australians should need to cross a state border within Australia is that little book called the Constitution; and
  - (j) the latest data out of Israel evidences that vaccine passports are deception and little more than a marketing stunt as they provide little evidence that a person is less likely to have COVID, and the latest published science evidences that a person with a vaccine passport is no less likely to spread COVID compared to a person without a vaccine passport; and

**23 SUSPENSION OF STANDING ORDERS MOVED**

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

- (1) notes:
- (a) the Government has failed to back a legislated target of net zero emissions by 2050;
  - (b) the Prime Minister always does too little too late, saying he didn't hold a hose during the bushfire crisis, saying it wasn't a race on COVID vaccines, and saying hospital capacity is the responsibility of the states;
  - (c) the Prime Minister prefers slogans to leadership, with the Prime Minister claiming electric vehicles will end the weekend, saying the world's biggest battery to store renewable energy is as useful as a big banana, and describing renewable energy targets as "nuts";
  - (d) so great is the dysfunction inside the Government, the Prime Minister is allowing climate policy to be set by his Deputy Prime Minister and the National Party; and
  - (e) Government Members who claim they support a net zero by 2050 target voted against one today, including the Treasurer, the Member for Higgins, the Member for North Sydney, the Member for Mackellar, the Member for Wentworth, the Member for Reid, the Member for Leichhardt, the Member for Riverina and the Member for Gippsland; and
- (2) therefore, condemns the Government for voting against a legislated target of net zero emissions by 2050.

**3 LABOUR HIRE COMPANIES**

The order of the day having been read for the resumption of the debate on the motion of Ms Swanson—  
That this House:

- (1) notes that:
  - (a) many Australian workers are being employed by labour hire companies on low wages and without access to entitlements such as annual leave, sick leave and parental leave;
  - (b) these workers are often working alongside other workers doing the same job, with the same roster who are employed on higher wages and with access to leave entitlements;
  - (c) the use of labour hire to avoid paying fair wages and conditions by Australian companies is growing, particularly in Australia's mining industry;
  - (d) the Federal Court of Australia in the *Workpac v Rossato* case determined that a worker who was defined as a casual employee by labour hire company Workpac was in fact a full time employee working a full time roster and therefore entitled to leave entitlements; and
  - (e) Workpac have appealed this decision in the High Court of Australia and the Government has intervened in the case to support the submission of Workpac that Mr Rossato is a casual employee and should not receive leave entitlements;
- (2) recognises that the increasing use of labour hire companies by employers to avoid paying fair wages and conditions is reducing the incomes of workers and families, and is having a detrimental impact on their livelihoods, particularly in regional Australia; and
- (3) calls on the Government to support Labor's policy and legislation in the Parliament that will ensure workers who do the same job receive the same pay—

- (3) further notes that youth-friendly mental health services are not available uniformly to young people; and

  - (a) increase access to effective mental health services and supports for young people across all stages of mental ill-health; and

  - (b) Government's proposed Commonwealth Integrity Commission is half-baked, creating the weakest watchdog in the country with hearings for all politicians and public servants held behind closed doors, no transparency on findings and penalties for whistle-blowers; and

- (2) calls on the Government to:
- (a) abandon its deeply unpopular Commonwealth Integrity Commission proposal which in its current form is beyond effective amendment and should be scrapped;
  - (b) establish a strong, well-funded, wide-ranging and independent integrity commission through the Australian Federal Integrity Commission Bill put forward by the Member for Indi that can launch its own inquiries into criminal, corrupt and unethical behaviour by politicians and their staff, hold public hearings and make public findings; and

The House was informed that Mr Albanese (Leader of the Opposition), had proposed that a definite matter of public importance be submitted to the House for discussion, namely, “Almost a decade of inaction from the Government”.

The proposed discussion having received the necessary support—

Mr Albanese addressed the House.

Discussion ensued.

Discussion concluded.

**15 MATTER OF PRIVILEGE RAISED BY THE MANAGER OF OPPOSITION BUSINESS—STATEMENT BY SPEAKER**

The Speaker made the following statement:

On Monday, the Manager of Opposition Business raised as a matter of privilege whether the Member for Pearce had failed to comply with the resolution of the House regarding the registration of Members’ interests such as would constitute a contempt of the House.

I am satisfied that the Manager of Opposition Business has raised the matter at the earliest opportunity. The Manager of Opposition Business tabled a number of related documents and I have examined these as well as his statement to the House.

The matter arises from an alteration made by the Member for Pearce to his statement of interests on 13 September 2021. As recorded in the Register of Members’ Interests, this alteration addresses payments related to a defamation case in the court. In the alteration, the Member lists: “part contribution to the payment of my fees by a blind trust known as the Legal Services Trust. As a potential beneficiary I have no access to information about the conduct and funding of the trust.”

The Manager of Opposition Business claims that by not including detail as to the source of the donated funds in his statement of interests, the Member for Pearce has deliberately evaded the purpose of the Register. I also note that while the Member for Pearce made a public statement on 19 September about obtaining information from the trustee of the Legal Services Trust, that information did not include detail as to the source of the donated funds.

The House has several rules about the pecuniary interests of Members, in standing orders and the resolution for the registration of Members’ interests.

In 1986, the House provided that certain behaviours in relation to registration of Members’ interests would be included as a category of contempt of the House.

Since passage of the Parliamentary Privileges Act in 1987, section 4 of that Act provides the test which applies to consideration of all contempts.

The registration of Members’ interests is in its nature a disclosure regime, and transparency is a key feature. All Members of this House would be familiar with their obligations in relation to completing and maintaining a statement of registrable interests, and the fact that these obligations require them to exercise their judgment about disclosures.

The Explanatory Notes, published by the Committee of Privileges and Members’ Interests, state: “The purpose of the Statement of Registrable Interests form is to place on the public record Members’ interests which may conflict, or may be seen to conflict, with their public duty.” The notes also state as guidance: “No form can cover all possible circumstances and Members should consequently bear in mind the purpose and spirit of the return in deciding which matters should be registered.”

Based on my careful consideration of all the information available to me, I am satisfied that a prima facie case has been made out, and I am willing to give precedence to a motion concerning privilege or contempt, as raised by the Manager of Opposition Business, referring the matter to the Committee of Privileges and Members’ Interests.

As Members would be aware, and as House of Representatives Practice makes clear, “an opinion by the Speaker that a prima facie case has been made out does not imply a conclusion that a breach of privilege or contempt has occurred.”

In giving precedence for a motion to be moved, I am simply allowing the House the opportunity to consider a motion immediately and debate and decide on whether the matter should be referred to the Committee for inquiry and report.

**16 MATTER OF PRIVILEGE—REFERENCE TO COMMITTEE OF PRIVILEGES AND MEMBERS' INTERESTS MOVED**

Mr Burke (Manager of Opposition Business) moved—That the following matter be referred to the Committee of Privileges and Members' Interests—Whether:

- (1) the conduct of the Member for Pearce, by refusing to disclose on the Register of Members' Interests the identities of individual donors to a trust used to pay his private legal fees, has failed to properly register an interest where a conflict of interest with his public duties could foreseeably arise, or be seen to arise, and in doing so created a precedent which threatens the integrity of the Register of Members' Interests;
- (2) the Member for Pearce has knowingly provided false or misleading information to the Registrar of Members' Interests;
- (3) this constitutes a contempt of the House; and
- (4) paragraph 2(k) of the House Resolution on the Registration of Members' Interests requires Members to provide reasonable identifying details of the sources of gifts that meet the relevant thresholds.

**10 PRIVILEGE MOTION—STATEMENT BY SPEAKER**

The Speaker made the following statement:

There has recently been quite a bit of commentary on my giving precedence to a motion of privilege last Wednesday that has led to a large number of Members to ask about the process. For the information of Members, I will briefly outline what did and, more importantly, what did not happen.

What did happen was that, following the matter of privilege being raised by the Manager of Opposition Business, I considered the issue and determined that I would give precedence for a motion moved by the person who initially raised the issue of privilege, or any other Member.

What this means I outlined clearly in the final two paragraphs of my statement last Wednesday. I said, "As Members would be aware, and as House of Representatives Practice makes clear, 'an opinion by the Speaker that a prima facie case has been made out does not imply a conclusion that a breach of privilege or contempt has occurred.' In giving precedence for a motion to be moved, I am simply allowing the House the opportunity to consider a motion immediately and debate and decide on whether the matter should be referred to the Committee for inquiry and report."

As the Practice also points out, the prima facie case relates to the moving of the motion, which puts the matter in the hands of the House.

Many commentators have said that I made a ruling, but this is not correct. I did not make a ruling. As Practice states, "An opinion by the Speaker on a complaint raised under standing order 51 is not a ruling and so a dissent motion, as provided for in standing order 87, is not in order."

The reason this is important is that the Speaker's decision to either grant precedence or not cannot be dissented from. Granting precedence is permissive only, it enables the next step—that a member may move a motion to refer a matter of privilege to the committee.

It is the role of the House to consider that proposal and make a decision about referral of the matter.

**11 DISCUSSION OF MATTER OF PUBLIC IMPORTANCE—REGIONAL AUSTRALIA**

The House was informed that Ms C. F. King had proposed that a definite matter of public importance be submitted to the House for discussion, namely, "The Government's decade of neglect of regional Australians and increasing misuse of taxpayers' money".

Debate resumed.

Dr Haines moved, as an amendment to the amendment proposed by Mr Giles—That all words after “whilst” be omitted with a view to substituting the following words:

“noting the importance of this reform, the House:

- (1) notes the Government broke with convention and introduced a significant addition to this bill, tripling it in size within a matter of hours, and preventing the crossbench from having an opportunity to review, contemplate or be briefed on the amended bill;
- (2) notes that if the Government wanted to truly level the playing field when it comes to political donations, it could lower the AEC disclosure threshold from the current rate of \$14,500 to \$1,000; and
- (3) calls on the Government to postpone the second reading vote on this bill until another sitting day, as is the convention with new bills”.

Debate ensued.

**24 INVESTMENT FUNDS LEGISLATION AMENDMENT BILL 2021**

The order of the day having been read for the resumption of the debate on the question—That the bill be now read a second time—

Debate resumed by Mr Jones who moved, as an amendment—That all words after “That” be omitted with a view to substituting the following words:

“whilst not declining to give the bill a second reading, the House notes the:

- (1) Coalition Government’s continued diminution of the Australian Public Service, including through its arbitrary staffing cap policy and growing reliance on private consultants, contractors and labour-hire to perform core public sector work;
- (2) complete aversion to transparency and scrutiny, and degradation of the Freedom of Information regime, experienced over the Government’s time in office;
- (3) Medical Research Future Fund was credited with savings from Health despite former Prime Minister Tony Abbott repeatedly saying there would be ‘no cuts to health’ and when established was promised by the government to provide \$1 billion in annual medical research funding, which is a promise this bill explicitly breaks by setting a \$650 million annual research funding limit; and

- (4) Government has consistently left communities behind through its failures in emergency management and disaster relief, particularly in relation to the 2019-20 Black Summer bushfires”.

Debate ensued.

- (2) recognises that the RSP supports the fast rollout of lifesaving road safety treatments on rural and regional roads and greater protection for vulnerable road users, like cyclists and pedestrians, in urban areas;
- (3) commends the Government for its funding in the recent budget to provide \$3 billion over three years from 2020-21; and

## 5 INFRASTRUCTURE FUNDING

Ms Ryan, pursuant to notice, moved—That this House:

  - (a) over the past eight years of this Government, infrastructure funding to areas of growth has been neglected;
  - (b) as revealed in September’s Final Budget Outcome there has been another 12 months of broken infrastructure promises from the Government, with infrastructure spending totalling \$656.5 million less than was promised; and
  - (c) over eight long years of this Government, its infrastructure broken promises now total an incredible \$7.4 billion;
- (2) recognises that this lack of funding has resulted in fewer roads, fewer public transport upgrades, longer commutes, less time at home and fewer jobs for Australians who need them; and
- (3) calls on the Government to provide adequate funding to infrastructure projects and build the roads and rail that Australians actually need.

## 6 HIV

Dr Allen, pursuant to notice, moved—That this House:

  - (c) the High-Level Meeting coincides with a meeting of public health and political leaders in Australia on 17 June to discuss Agenda 2025: Ending HIV transmission in Australia;
  - (d) testing and treatment services combined with successful leadership from governments and civil society mean that progression from HIV to AIDS is now relatively rare in Australia;
  - (e) action is still needed to address rising HIV transmission among First Nations, trans and gender diverse people, and other emerging high-risk population groups;
  - (f) gay and bisexual men continue to bear the burden of Australia’s HIV epidemic and ongoing health education among this population group is needed; and
  - (g) further bipartisan political action and leadership is required to meet our national target of ending HIV transmission in Australia; and
- (2) recognises and acknowledges the:
  - (a) Agenda 2025: Ending HIV transmission in Australia strategy outlines the commitments needed to make Australia one of the first countries to eliminate HIV;
  - (b) journey that people have made through their diagnosis, treatment and experiences of living with HIV;

- (1) notes that:
  - (a) a delegation from the Regional, Rural and Remote Communications Coalition (RRRCC) has approached Members of the 46th Parliament via a virtual delegation to highlight priorities for improving regional telecommunications;
  - (b) the RRRCC is a group of 21 like-minded organisations and advocacy bodies which have joined together to highlight their collective concern about the lack of equitable access to reliable and quality telecommunication in regional Australia;
  - (c) telecommunications is an essential service in a modern world, supporting social connectivity, business activity, and the delivery of health and education services;
  - (d) every Australian, irrespective of where they live or work, should have access to quality, reliable, and affordable voice and data services with customer support guarantees; and
  - (e) there is ongoing inequity in the access to telecommunications experienced by Australians living in regional, rural, and remote areas, compared to their urban counterparts; and
- (2) calls upon the Government to ensure that regional, rural, and remote Australia is best positioned to retain people and grow in the long term, by:
  - (a) establishing a rural, regional and remote communications fund to resource ongoing investment in regional telecommunications through the Mobile Black Spot Program, Regional Connectivity Program and through state and territory co-investment programs;
  - (b) continuing its commitment to expanding the mobile network in regional Australia through the Mobile Black Spot Program or a similar program (such programs must continue to promote competition by requiring open access for all networks and the criteria for such programs reflect changing technologies and commercial circumstances);
  - (c) ensuring no mobile network user is disadvantaged by the switching off of the 3G network;
  - (d) having the Australian Communications and Media Authority investigate and monitor widespread mobile outages in regional and remote Australia, and the reliability of mobile infrastructure;
  - (e) ensuring there are adequate upgrade plans and pathways for regional Australians using ADSL services that provide access to higher quality or equivalent fixed broadband services;
  - (f) bringing about further enhancements to NBN Sky Muster in order to reflect consumer and small business needs, including more affordable plans, and a mobility product;

- (g) legislating telecommunications as an essential service in all states and territories, recognising telecommunications providers as ‘essential users’ in natural disaster areas, and ensuring the rollout of NBN Disaster Satellite Services appropriately complement MBSP 5A upgrades to power supplies at base stations;
- (h) ensuring any alternative technologies for voice service delivery be proven to have greater reliability and performance quality for regional, rural, and remote consumers;
- (i) creating appropriate minimum service guarantees and performance benchmarks for connection, fault repair and appointment keeping timeframes for NBN and other statutory infrastructure providers (these obligations and timeframes must support maximum connectivity during natural disaster events and customers must be adequately compensated when baseline timeframes are exceeded);
- (j) introducing adequate performance quality metrics for all services, including NBN Sky Muster, monitored against independent benchmarks;
- (k) committing to funding the regional tech hub service beyond the current one-year funding period, and working with the RRRCC and state and local governments to identify and deliver digital capacity building needs beyond the remit of the regional tech hub project;
- (l) creating a targeted, concessional NBN broadband service to support low-income residents in regional, rural and remote areas, and reconfiguring the existing telecommunication allowance to meet the needs of low-income, mobile-only consumers;
- (m) supporting remote communities, in particular Aboriginal and Torres Strait communities, to have access to affordable telecommunications equipment so they can maximise access to services such as medical services; and
- (n) requiring retail service providers to be transparent about the limitations of the more affordable services they provide to low-income consumers.

**21 SUSPENSION OF STANDING ORDERS—STATEMENT BY SPEAKER**

The Speaker made the following statement:

Over most of the last two years, the House has adopted different formulations of certain questions on motions as they are put to a vote. The different formulations have been adopted as a means of reducing movement across the chamber, thereby reducing risks associated with COVID-19. In relation to motions to suspend standing orders, because of the current formulation of the question, in the overwhelming majority of cases those questions are decided for the Ayes—in favour of the question 'That the motion to suspend standing orders be disagreed to'.

Earlier today, the Member for Indi moved a motion to suspend standing orders. Following debate on the suspension motion, the initial question was decided for the Noes—that is, disagreeing to the question 'That the motion to suspend standing orders be disagreed to'. A second decision was needed on a differently formulated question, simply because a decision against a proposal to disagree to a motion is not the same as a decision in favour of a motion. The second question enabled a vote on whether the suspension motion should be agreed to, which is the question under standing order 47(c) that requires an absolute majority in order for it to be carried. If members thought this was unusual, they are correct, as there is usually no need for a second question because of the result of the initial question. I regret if members were concerned about having to change sides of the chamber to vote, given the COVID safety arrangements the House has been operating under. On the other hand, this one exception in almost two years highlights just how successful the arrangements have been.

**22 MATTER OF PRIVILEGE RAISED BY THE MANAGER OF OPPOSITION BUSINESS—STATEMENT BY SPEAKER**

The Speaker made the following statement:

On Tuesday, the Manager of Opposition Business raised as a matter of privilege whether the Member for Pearce had failed to comply with the resolution of the House regarding the registration of Members' interests such as would constitute a contempt of the House.

Having previously raised this matter on 18 October, the Manager of Opposition Business stated that new information had come to light, by way of an interview on Tuesday morning given by the Member for Casey, the former Speaker, which might cause the House to reconsider the matter being referred to the Committee of Privileges and Members' Interests.

I have considered the statement made by the Manager of Opposition Business and the documents he presented.

The interview with the Member for Casey he referred to does not reveal new information relating to the substance of the matter of privilege raised.

Accordingly, as the House has recently decided not to refer the matter to the committee, and in the absence of new information of substance to the matter, nothing has been raised with me that would cause me to support priority being given over other business to a motion for referral of the same matter to the committee.

Mr C. Kelly moved, as an amendment to the amendment proposed by Mr M. C. Butler—That all words after “whilst” be omitted with a view to substituting the following words:

“not declining to give the bill a second reading, the House notes:

- (1) that the price of the drug Ivermectin in Australia under the Pharmaceutical Benefits Scheme (PBS) is significantly higher than reported elsewhere in the world;
- (2) that on 10 September 2021, the TGA placed new restrictions on prescribing Ivermectin through the PBS for COVID-19, denying sick Australians access to a medicine that many medical experts believe could save lives, and this denial of Australians’ access to a medicine through their doctor was described by experts as ‘a sad and shameful day for Australian medicine’;

- (3) recently published Australian data provides evidence that Ivermectin prescribed under the PBS in Australia (prior to the TGA's ban) combined as part of a 'triple therapy' including Zinc and Doxycycline (also prescribed under the PBS) has been highly successful in reducing hospitalisations and death;
- (4) that the TGA noted on 10 September 2021 there had been a three to four fold increase in dispensing of Ivermectin prescriptions through the PBS in recent months, however the TGA Database of Adverse Events records no increase in adverse events;
- (5) that a reason for denying Australians' access to Ivermectin through their doctor and the PBS to treat COVID-19 included the reason of 'national and local shortages for those who need the medicine for scabies and parasite infections', however medical regulators failed to take steps to overcome this shortage; and
- (6) that this denial of Australians' access to this medicine through their doctor and the policies of other nations to adopt widespread use of Ivermectin to tackle COVID-19, have created a black-market for the drug undermining Australia's PBS".

1 The Federation Chamber met at 10.30 am.

**2 MEMBERS' CONSTITUENCY STATEMENTS**

Members' constituency statements were made.

**3 GP ACCESS AFTER HOURS SERVICE**

Ms Claydon, pursuant to notice, moved—That this House:

- (1) acknowledges that:
  - (a) the GP Access After Hours service:
    - (i) has provided over a million urgent after-hours consultations to families in Newcastle and the Hunter region for more than twenty years;
    - (ii) delivers 50,000 face-to-face appointments and handles 70,000 calls through the nurse led triage call centre each year; and
    - (iii) saves our health system up to \$21.7 million in unnecessary emergency department presentations each year;
  - (b) due to the Government's continuous cuts to bulk-billing incentives and its failure to adequately index Medicare rebates, Hunter Primary Care has been forced to make cuts to the GP Access After Hours service;
  - (c) from Christmas Eve, the Calvary Mater Clinic will close completely, and operating hours for clinics at the Belmont Hospital, John Hunter Hospital, Maitland Hospital and Westlakes Community Health Centre will be reduced; and
  - (d) over 10,000 people from the Hunter region have signed a petition calling on the Government to restore funding to the GP Access After Hours service;
- (2) recognises that:
  - (a) the GP Access After Hours service has been an essential service for tens of thousands of Newcastle and Hunter families who rely upon bulk-billing GP services to access the healthcare they need, when they need it;
  - (b) with so few bulk-billing doctors in Newcastle and the Hunter region, any further loss of services will have a huge impact on families already faced with high out-of-pocket healthcare costs;
  - (c) any cuts to this service will dramatically increase pressure on our already overstretched and under-resourced emergency departments; and
  - (d) not only is the Government's lack of support for primary healthcare unacceptable, it is also grossly irresponsible in the middle of a global pandemic; and

- (3) calls on the Government to:
- (a) restore the funding to our GP Access After Hours service to stop the closure of the Calvary Mater Clinic and retain existing hours of operation at all remaining clinics;
  - (b) reverse cuts to bulk-billing incentive payments in the Lower Hunter that have seen GP practices close and vulnerable people left without access to a bulk-billing GP;
  - (c) abandon any efforts to further reduce funding to our GP Access After Hours service;
  - (d) provide additional support for GP Access After Hours to expand their services to areas of need throughout the Hunter; and
  - (e) utilise the success of the GP Access After Hours service as a model of best practice after hours primary healthcare across Australia.

**19 SUSPENSION OF STANDING ORDERS MOVED**

Mr C. Kelly moved—That so much of the standing orders be suspended as would prevent the Member for Hughes from moving the following motion immediately—That the House:

(1) notes:

- (a) in a free democratic nation, any experimental medical intervention, which has zero long-term safety data, should only be administered with the free and informed consent of the person undergoing the medical intervention;
- (b) no Australian should ever be placed in a situation where they are coerced into undertaking any medical intervention, let alone an experimental provisionally approved medical intervention (which has zero long-term safety data), with the threat of being sacked from their job and denied the freedom to work in their career of choice and a career that they have trained for;
- (c) any policy by a government or the private sector which mandates Australians to be injected with an experimental genetic agent violates basic human rights;

- (d) thousands of Australians including nurses, police officers, airline pilots, teachers, truck drivers, disability workers, charity workers, office staff, etc. have already been thrown out of their jobs and denied the freedom to pursue their career of choice for not submitting to be injected with an experimental, provisionally approved substance that has no long-term safety data due to compulsory mandates for medical intervention with the COVID vaccines;
  - (e) compulsory mandates, requiring Australians to be injected with any of the COVID injections, and policies of segregation, discrimination and medical apartheid are not based upon the science or the evidence; such mandates are based upon the marketing literature of the vaccine sellers, superstition, and mindless fearmongering;
  - (f) the most recent published data from the UK Health Security Agency, titled ‘COVID Vaccine surveillance report week 46’, records that those injected twice aged between 60 and 79 years of age have a greater chance of having COVID than those not injected and for those in the age group between 40 and 69 years of age the data records those injected twice have more than double the rate of COVID infections compared to those not injected at all;
  - (g) the title of a recently published study by researchers from the University of California is self-explanatory: ‘Vaccinated and unvaccinated individuals have similar viral loads’;
  - (h) the esteemed virologist Geert Vanden Bossche has warned that such mandates will result in a ‘catastrophe’ and has stated ‘No healthy individual should be considered more of an infectious threat than another. There is no scientific rationale for any individual, whether vaccinated or not, to discriminate against contacts with any healthy vaccinated or unvaccinated person’; and
  - (i) that recent detections of the Omicron COVID variant in Australia have all been among people with a vaccine passport, demonstrating that vaccine passports are worse than useless;
- (2) further notes that the federal government of Australia has multiple constitutional powers to ban COVID injection mandates, and to ensure that workers currently sacked from their jobs under vaccine mandates can return to work and recommence their careers before Christmas;
  - (3) notes that only hours ago, in the USA, a federal judge issued a preliminary injunction against the US President’s vaccine mandate for healthcare workers, with the decision, no healthcare worker in all 50 states of USA can be dismissed from their job for not submitting to mandatory injection with a COVID genetic vaccine, with the judge noting “if human nature and history teach us anything, it is that civil liberties face grave risk when governments proclaim indefinite states of emergency...”; and
  - (4) calls on the Government to immediately bring on the No Domestic COVID Vaccine Passport Bill 2021, introduced to this Parliament in July by the Member for Hughes, for debate and determination before this Parliament rises for the Christmas New Year break.

Debate ensued.

Question—That the motion for the suspension for standing orders be disagreed to—put.

**VOTES AND PROCEEDINGS**

No. 161

TUESDAY, 8 FEBRUARY 2022

1 The House met, at 12 noon, pursuant to adjournment. The Speaker (the Honourable A. B. Wallace) took the Chair, made an acknowledgement of country and read Prayers.

**2 STATEMENT OF ACKNOWLEDGEMENT—STATEMENT BY SPEAKER**

The Speaker made the following statement:

In the final sitting week of 2021, the Independent Review into Commonwealth Parliamentary Workplaces was published by the Sex Discrimination Commissioner Kate Jenkins.

Today, on the first sitting day of 2022, we deliver this statement on behalf of the Parliamentary Cross-Party Leadership Taskforce recommended by Commissioner Jenkins and as a reflection of the Parliament. We acknowledge the unacceptable history of workplace bullying, sexual harassment and sexual assault in Commonwealth parliamentary workplaces.

This issue is of the greatest importance and the responsibility of all people who work in this place. Any bullying, sexual harassment and sexual assault is unacceptable and wrong. We say sorry.

Every workplace should be safe and respectful. This place and its members are committed to bringing about lasting and meaningful change to both culture and practice within our workplaces. We have failed to provide this in the past. We today declare our personal and collective commitment to make the changes required. We will aspire, as we should, to set the standard for the nation.

We thank all of those who participated in the Jenkins Review, acknowledging everyone who came forward to tell us of their experiences. We also acknowledge the many others who could not or did not participate but who may have experienced misconduct. We know that your experiences have had profound and far-reaching impacts on your lives. We have listened and heard you, and we accept your calls for change.

This Parliament should serve as a model workplace for our nation. Only by creating the best workplace will this Parliament attract the best people our country has to offer. And only by attracting the best our country has to offer, and listening to the communities we represent, will we deliver the high standards that our country deserves.

Parliamentary workers feel pride in working for their country, and the privilege and honour of making a difference for the Australian people. However, for far too many, it has not been safe or respectful.

The Jenkins Review proposes an ambitious program of reform to ensure Commonwealth parliamentary workplaces meet the highest standards. We are fully committed to working across the Parliament to implement all of these recommendations within the timeframes proposed by Commissioner Jenkins.

We have started to act. Last year, we established a new independent complaints process and began providing trauma-informed support for people who have experienced serious incidents working in the Parliament. Members, Senators and staff have undertaken professional workplace training.

Parliamentarians must uphold the highest standards and be accountable for delivering required actions. We know that cultural change has to come from the top; it has to be role-modelled and championed by all of us.

While we know we cannot undo the harm that has already been done, we are committed to acknowledging the mistakes of the past and continuing to build safe and respectful workplaces.

Mr Morrison (Prime Minister), Mr Albanese (Leader of the Opposition), Mr Joyce (Deputy Prime Minister), Mr Bandt and Ms Steggall, by indulgence, made statements on the same matter.

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

- (1) notes:
  - (a) in the third year of the pandemic, aged care remains in crisis, with almost 12,000 aged care residents and workers infected with COVID in more than 1,100 facilities as of Friday, and over 600 deaths among aged care residents this year;
  - (b) tens of thousands of aged care residents are still waiting for a booster dose;
  - (c) aged care facilities have been left without rapid antigen tests and PPE;
  - (d) aged care residents have been left without food, water and medical care because the Government's surge workforce strategy was inadequate; and
  - (e) despite aged care being in crisis, the Minister for Aged Care Services has declared the sector is performing exceptionally well; and
- (2) therefore calls on the Prime Minister to:
  - (a) immediately sack his Minister for Aged Care Services; and
  - (b) apologise to aged care residents and their families for his failure to listen and act on countless warnings about the continuing crisis in aged care.

  - (d) in contrast, Labor has a range of commitments to make education and training more accessible, including to:
    - (i) make child care cheaper for 97 per cent of Australian parents;
    - (ii) support 10,000 New Energy Apprenticeships;

- (2) further notes that one of the standout success stories in achieving this is Hands on Learning, a program first piloted at Frankston High School in 1999 by Russell Kerr OAM, that builds wellbeing, engagement, and attendance by creating opportunities for students to discover their talents and experience success through significant and authentic hands-on projects, that results in 95 per cent of Hands on Learning students finishing school, getting an apprenticeship or getting a job.
