## 6 SUSPENSION OF STANDING ORDERS MOVED

Mr Katter moved—That so much of the standing orders be suspended as would prevent the Member for Kennedy from moving the following motion immediately—That the House:

- (1) notes that:
  - (a) on 6 May 2020 the Minister for Agriculture put out a media release titled “Time to stop milking dairy, fair go for farmers”;
  - (b) nearly 500 dairy farmers have left the industry in the past year;
  - (c) the ACCC in 2018 identified that there is a market imbalance between processors and farmers;
  - (d) in the state of Queensland alone the number of dairy farmers has dropped from 1,305 in 2000-01 to 356 in 2019;
  - (e) Australia had 12,896 dairy farms in the year 2000;
  - (f) in 2018 there were just 5,699 dairy farms, a reduction of 57 per cent, which is likely to have increased in the last 12 months;
  - (g) in the North Queensland dairy area before deregulation farmers got 60.4 cents per litre, but after deregulation they got 41.1 cents;
  - (h) Dairy Australia’s Situation and Outlook March 2020 report says dairy farmers have been impacted by the summer bushfires, adding additional price pressures to their operations, including in:
    - (i) New South Wales, 32 dairy farms on the south coast and far south coast and eight on the mid coast;
    - (ii) North East Victoria, 35 dairy farms directly affected and 11 more operations significantly impacted;
    - (iii) East Gippsland in Victoria, approximately 30 dairy farms affected in the direct fire zone with varying degrees of impact, including two known to have lost major assets; and
    - (iv) South Australia, 12 dairy farms affected by fires prior to Christmas;
  - (i) Dairy Australia has also stated a range of factors weighed on economic growth last year, including geopolitical tensions, trade policy uncertainty, social unrest and stressed emerging markets, and overall growth in global output fell 0.7 per cent to 2.9 per cent, the lowest level since the 2008-09 financial crisis; and
  - (j) the Australian Dairy Situation Analysis, dated May 2019, states that Australian dairy farmers operate in a deregulated and open market, leaving them quite exposed to the product price adjustments induced by global market shocks and associated flow-on impact to farmgate milk prices, which, coupled with increased volatility in the availability and pricing of key production inputs, such as water and feed, has undermined local farmer confidence in the long term dairy market outlook and the scope to extract reliable returns from their milk to build a longer term future; and
- (2) calls on the Government to:
  - (a) give more support to Australia’s dairy farmers;
  - (b) instruct the ACCC to develop a minimum farmgate milk price;
  - (c) enforce the minimum farmgate milk price through the Dairy Code of Conduct; and
  - (d) as an interim measure, provide a mechanism for mandating the voluntary milk levy until the minimum farmgate price is established or create an offence to purchase fresh milk below the minimum price to farmers that will be set by an arbitration authority designated by the ACCC.

Debate ensued.

Question—That the motion be disagreed to—put.

Murray Darling Basin calling—questions unanswered.

Members' constituency statements continued.

**3 UNIVERSITY JOBS**

Mr Hayes, by leave, for Ms Plibersek, pursuant to notice, moved—That this House acknowledges that:

- (1) during the COVID-19 crisis, Labor has been urging the Government to act to help universities and save jobs, while:
  - (a) the Prime Minister has done nothing, and now jobs are being lost; and
  - (b) it has been reported that hundreds of jobs will go at universities in Rockhampton, Geelong, and suburban Melbourne;
- (2) without serious Government help, universities have predicted 21,000 jobs will be lost in the next six months alone, meaning:
  - (a) tens of thousands of livelihoods could be destroyed, including those of academics, tutors, administrative staff, library staff, catering staff, grounds staff, cleaners, security and many others—all with families, trying to make ends meet; and
  - (b) the impact on regional communities will be devastating (universities support 14,000 jobs in country Australia);
- (3) to save university jobs, the Government must take serious action now, and that the Treasurer could have acted to solve this problem, but hasn't—instead, the Treasurer has been deliberately moving the goal posts to ensure universities are excluded from government support;
- (4) the Government cannot explain why a university student working a \$100 shift per week receives the full \$1500 Jobkeeper wage subsidy, while their full-time university tutor, with three kids to support, is not eligible; and
- (5) Labor believes it is a big mistake for the Prime Minister to abandon university staff during the COVID-19 crisis.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

**4 HEADSPACE**

Mrs Archer, pursuant to notice, moved—That this House:

- (1) acknowledges that Headspace was established by the Howard Government in 2006;
- (2) notes that:
  - (a) there are currently 113 Headspace services operating nationally, including 54 services located in rural and regional Australia; and
  - (b) in 2018-19, the Government provided \$95.7 million to commission Headspace services in rural areas;
- (3) further acknowledges that in the 2019-20 Budget, the Youth Mental Health and Suicide Prevention Plan was outlined with funding of \$509 million; and
- (4) congratulates the Government for announcing a further \$64 million to provide suicide prevention and mental health initiatives.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

**5 FUNDRAISING LAWS**

Dr Leigh, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) charities are the most trusted sector in Australian public life; and
  - (b) the Government's failure to act on fundraising reform is costing Australian charities over \$1 million every month;
- (2) acknowledges that:
  - (a) Australia's current framework of fundraising regulation creates unnecessary problems for charities and organisations who rely on donations from Australian supporters;
  - (b) current fundraising laws no longer meet the objectives that guided the decision to regulate donations;
  - (c) current fundraising compliance regimes do not allow charities to cultivate donor activity and make optimal use of the resources donors provide;
  - (d) meeting the requirements of Australia's seven different fundraising regimes is causing needless productivity loss for thousands of Australian charities and not-for-profits;
  - (e) Australia's current frameworks for investigation and enforcement have failed to adapt to the contemporary fundraising environment;
  - (f) current fundraising laws do not meet the donor-focused expectations and requirements that should govern fundraising regulation in the 21st century; and
  - (g) the mechanisms that regulate third party fundraisers should ensure the culture of third party fundraisers matches community perceptions of their clients;
- (3) recognises that:
  - (a) for several years, the charity and not-for-profit sector has been calling for reform of Australia's fundraising laws;
  - (b) Treasury's five year review of the Australian Charities and Not-for-profits Commission, delivered on 31 May 2018, identified fundraising law as the major reporting burden on charities and recommended that fundraising law be harmonised across the country;
  - (c) in February 2019, the Senate Select Committee into Charitable Fundraising in the 21st Century called on Parliament to harmonise fundraising law within two years;
  - (d) that inquiry, chaired by Labor Senator Catryna Bilyk, delivered a unanimous report, with its recommendations being supported by Greens Senator Rachel Siewert, Liberal Senators Eric Abetz and Amanda Stoker, former Labor Senator David Smith, and former United Australia Party Senator Brian Burston; and
  - (e) postponing fundraising reform has had significant costs to the charity and not-for profit sector, with the committee estimating that the annual cost to charities and their donors is around \$15 million; and

- (4) calls on the Government to:
- (a) support Australian charities by ending unnecessary waste of their precious resources;
  - (b) support the generous Australian donors who donate money to our charities, by ensuring their donations are not needlessly eroded by redundant administrative and regulatory costs;
  - (c) work with state and territory governments and the not-for-profit sector to deliver a consistent national model for regulating not-for-profit and charitable fundraising activities before February 2021; and
  - (d) immediately provide a public response to the recommendations made in the review panel's report, *Strengthening for Purpose: Australian Charities and Not-for-profits Commission Legislation Review*, which was provided to the Government on 31 May 2018.

Debate ensued.

And so it was resolved in the affirmative.

Mr Howarth presented reasons, which were circulated, and are as follows:

*Reasons of the House of Representatives for disagreeing to the amendments of the Senate*

The issue raised by this amendment is the subject of a recommendation in the Senate Economics Committee's Corporate Tax Avoidance report, Part I: You cannot tax what you cannot see. The House will not pre-empt the Government's response to this recommendation as part of its response to the Senate Economics Committee's corporate tax avoidance reports. The House does not support this last minute amendment to an unrelated bill prior to the Government's response to the relevant Senate Committee's report being considered.

In addition, exempt proprietary companies to which the amendment relates are still required to prepare financial reports and have them audited according to accounting and audit standards where required by law, as is appropriate.

Accordingly, the House of Representatives does not accept this amendment.

On the motion of Mr Howarth, the reasons were adopted.

  - (c) all aged care workers play a valuable role to deliver care and support to older Australians in residential and home care;
  - (d) many aged care workers are low paid and around 87 per cent of them are women;
  - (e) the Government's decision to exclude a large proportion of aged care workers from receiving the retention bonus;

  - (g) the exclusion of any aged care worker from receiving the retention bonus is unwarranted and unfair;
  - (h) on 20 March 2020 the Minister for Aged Care and Senior Australians issued a media release that stated the retention bonus payment would be 'after tax'; and
  - (i) on 5 June 2020 the Department of Health's retention bonus guidelines stated the payment would be 'subject to income tax';
- (2) conveys its disappointment that the Government made a:
  - (a) decision to exclude about 40 per cent of aged care workers from receiving the retention bonus; and
  - (b) late decision to switch the retention bonus from being after tax to being before tax that will see aged care workers lose hundreds of dollars they were previously promised;

- (3) calls on the Government, as a matter of urgency, to reconsider its decision and pay the retention bonus to all aged care workers irrespective of their role or where they work and to explain why it changed the rules around the payment being after tax to the payment now being subject to income tax; and
- (4) acknowledges the work all aged care workers undertake each and every day and thanks them for their continued dedication to care and support older Australians in residential and home care.

Debate ensued.

## 9 VETERAN SUICIDES

Mr Thompson, pursuant to notice, moved—That this House:

- (1) notes:
  - (a) the work the Government is doing to address the issue of veteran suicide with the announcement of an independent National Commissioner for Defence and Veteran Suicide;
  - (b) that a new independent National Commissioner will be appointed to identify and investigate suicide amongst Australian Defence Force and veteran population; and
  - (c) that a new Veteran Family Advocate will be appointed to lead engagement, liaison and advocacy amongst families and will be at the heart of policy and decision making with the Department of Veterans' Affairs; and
- (2) recognises mental health and suicide are complex issues, but issues that are everyone's business—families, friends, employers, community organisations, governments and the ex-service community.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

## 10 PUBLIC SERVICE CONTRACTORS

Ms Claydon, pursuant to notice, moved—That this House:

- (1) acknowledges that:
  - (a) an effective public service relies on skilled public servants who have fair and equitable conditions of employment and job security;
  - (b) the Government's arbitrary average staffing level (ASL) policy is:
    - (i) driving privatisation as it forces agencies to outsource their core functions;
    - (ii) causing a blowout in spending on contractors, consultants and labour hire; and
    - (iii) leading to a hollowing out of the public service; and
  - (c) evidence to the Australian Public Service (APS) Review indicates that contractors cost 40 per cent more than permanent APS employees;

- (2) notes that:
- (a) the Australian National Audit Office Information Report No. 19 of 2017-18, *Australian Government Procurement Contract Reporting*, indicates that in 2016-17:
    - (i) Government spending on consultants was close to \$700 million, up from around \$380 million in 2013; and
    - (ii) “the big four” had 1,617 consultancy contracts worth \$502.1 million since 2012-13;
  - (b) more than \$400 million has been spent on privatising Department of Human Services call centres, including a \$135 million contract for Stellar Asia Pacific, \$132 million to Concentrix Services, \$120 million to Datacom Connect and \$36 million to Serco Citizen Services;
  - (c) the National Disability Insurance Agency:
    - (i) recorded a 600 per cent increase in consultants and contractors over two years—from \$70 million in 2016 to \$430 million in 2018; and
    - (ii) has previously stated its staffing levels would be 10,595 staff in 2018-19—this is now capped at 3,230 in the 2019-20 budget with core functions such as local area coordinators outsourced; and
  - (d) the Government’s billion dollar plan to privatise Australia’s visa system will lead to increased visa costs, data and national security risks and job losses; and
- (3) calls on the Government to:
- (a) abolish the arbitrary and damaging ASL policy;
  - (b) ensure that workers doing the same job get the same pay to stop the use of labour hire from undermining the pay and conditions of existing workers; and
  - (c) end the secrecy on government spending on contractors, consultants and labour hire firms.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

## 11 AUSTRALIA AND THE UNITED STATES OF AMERICA

The order of the day having been read for the resumption of the debate on the motion of Mrs McIntosh (*see item No. 12, Votes and Proceedings*)—

## 12 HEART FAILURE

Mr Alexander, pursuant to notice, moved—That this House:

- (1) notes that between 1 and 2 per cent of the Australian population suffers from heart failure, with this proportion higher in Indigenous communities;
- (2) acknowledges with concern the rising cost of care for the growing number of Australians with heart failure, including the duration and frequency of hospitalisation, medical management and health complications;
- (3) further notes that research from the Australian Institute of Health and Welfare states that over 60,000 heart failure hospital admissions, amounting to over 400,000 bed days and a cost to the healthcare system of \$3.9 billion are potentially preventable;
- (4) welcomes the arrival of proven technologies, including transcatheter mitral valve repair, which have demonstrated transformative improvements in addressing underlying causes of heart failure including functional and degenerative mitral regurgitation;
- (5) commends the support given by clinicians, advocates, carers and families of Australians suffering from heart failure;
- (6) welcomes with appreciation the announcement of the Government’s commitment of \$220 million over 10 years for the Cardiovascular Mission under the Medical Research Fund;
- (7) acknowledges the Government’s commitment to address all forms of heart disease under the National Action Plan for Heart and Stroke;

- (8) notes the current consideration by the Medical Services Advisory Committee of transcatheter mitral valve repair; and
- (9) calls on the Government to ensure all Australians have early access to proven procedures and technologies, such as transcatheter mitral valve repair, where indicated, to address the rising healthcare burden and premature mortality represented by heart failure.

Debate ensued.

The time allotted for private Members' business having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

**CATHERINE CORNISH**  
Clerk of the Federation Chamber

2019-2020

THE PARLIAMENT OF THE COMMONWEALTH OF AUSTRALIA

HOUSE OF REPRESENTATIVES

## VOTES AND PROCEEDINGS

No. 60

TUESDAY, 16 JUNE 2020

1 The House met, at 12 noon, pursuant to adjournment. The Speaker (the Honourable A. D. H. Smith) took the Chair, made an acknowledgement of country and read Prayers.

2 **MESSAGE FROM THE SENATE—CRIMES LEGISLATION AMENDMENT (SEXUAL CRIMES AGAINST CHILDREN AND COMMUNITY PROTECTION MEASURES) BILL 2019**

Message No. 190, 15 June 2020, from the Senate was reported returning the Crimes Legislation Amendment (Sexual Crimes Against Children and Community Protection Measures) Bill 2019 with amendments.

Ordered—That the amendments be considered immediately.

On the motion of Mr Porter (Leader of the House), amendments (1) and (3) were agreed to, after debate.

Mr Porter moved—That amendment (2) be disagreed to.

Debate ensued.

Question—put.

The House divided and only Mr Bandt and Mr Wilkie voting “No”, the Speaker (Mr A. D. H. Smith) declared the question resolved in the affirmative.

Mr Porter presented reasons, which were circulated, and are as follows:

*Reasons of the House of Representatives for disagreeing to the amendment of the Senate*

The House does not agree to Amendment 2. This amendment would remove Schedule 6 of the Bill which provides for mandatory minimum sentences for child sex offences that attract the highest penalties, and to recidivist child sex offenders who have previously been convicted of a child sex offence. Current sentencing practices for Commonwealth child sex offences are resulting in manifestly inadequate sentences that do not sufficiently recognise the harm suffered by victims or provide for adequate rehabilitation time in custody. The mandatory minimum provisions provided for in Schedule 6 are necessary to achieve the Bills intent of ensuring sentencing for child sex offences are in line with community expectations.

On the motion of Mr Porter, the reasons were adopted.

3 **MESSAGE FROM THE SENATE**

Message No. 189, 15 June 2020, from the Senate was reported informing the House that the Senate had agreed to the following resolution:

That the Senate—

(a) notes that:

- (i) the Senate passed the Australian Greens’ National Integrity Commission Bill 2018 (No. 2) on 9 September 2019 to establish a federal corruption watchdog with broad remit to investigate allegations of corruption and misconduct, and to ensure strong, independent oversight of the actions of parliamentarians;
- (ii) the National Integrity Commission Bill 2018 (No. 2) was sent to the House of Representatives for debate on 10 September 2019, but has yet to be debated;
- (iii) on 10 February 2020, the Senate resolved to call on the House to vote on the National Integrity Commission Bill 2018 (No. 2);

- (iv) the Government ignored this call and has prevented all attempts to debate and vote on the National Integrity Commission Bill 2018 (No. 2) in the House;
  - (v) public consultation on the Commonwealth Integrity Commission model proposed by the Government ended nearly eighteen months ago, but the Government has yet to introduce legislation to establish an integrity commission;
  - (vi) in May 2020, the Attorney-General said that legislation to establish a Commonwealth Integrity Commission would be further delayed due to the COVID-19 pandemic, despite an exposure draft being “ready for release”; and
  - (vii) polls consistently show that the majority of Australians support the establishment of a strong national integrity body; and
- (b) calls on the Federal Government to bring on the National Integrity Commission Bill 2018 (No. 2) in the House for a vote in the June 2020 sittings.

The Senate requests the concurrence of the House in this resolution.

Mr Porter (Leader of the House) moved—That the message be considered at the next sitting.

Debate ensuing—

The order of the day having been read for the resumption of the debate on the question—That the bill be now read a second time—*And on the amendment moved thereto by Ms Kearney, viz.*—That all words after “That” be omitted with a view to substituting the following words:

“whilst not declining to give the bill a second reading, the House notes that:

- (1) the Government has damaged Australia’s world-class vocational training system by:
  - (a) cutting funding for vocational education and TAFE by over \$3 billion;
  - (b) presiding over simultaneous crises of skills shortages and youth unemployment; and
  - (c) failing to tackle falling completion rates, with more people dropping out of vocational training courses than finishing them; and
- (2) this bill fails to deliver the reform needed to fix problems in the vocational training sector”—

Debate resumed.

It being 1.30 pm, the debate was interrupted in accordance with standing order 43 and the resumption of the debate made an order of the day for a later hour this day.

**8 SUSPENSION OF STANDING ORDERS MOVED**

Mr Wilkie moved—That so much of the standing orders be suspended as would prevent the Member for Clark from moving the following motion immediately—That the House:

- (1) notes that:
  - (a) the Federal Court has today ruled in favour of allowing the livestock carrier *Al Kuwait* to depart Fremantle for Kuwait with 56,000 live sheep;
  - (b) the live animal export industry is systemically cruel, costs Australian jobs and lacks widespread public support;
  - (c) live sheep exports to the Middle East at this particular time of the year, into the scorching heat and humidity of the Middle East summer, has been shown repeatedly to be even more cruel; and
  - (d) the Government's claim to have made the trade less cruel is a sham as evidenced by the exemption for the *Al Kuwait* and previous exemptions for the *Al Shuwaikh* in December 2019 and the *Maysora* in March 2020; and
- (2) calls on the Government to:
  - (a) immediately prevent the *Al Kuwait* from departing Australia with its cargo of live sheep;
  - (b) commit to no more exemptions under the current regulatory framework;
  - (c) develop a plan to completely shut down the live animal export industry; and
  - (d) remove responsibility for animal welfare from Ministers and the Department of Agriculture, Water and the Environment, and instead establish an Independent Office of Animal Welfare with the power to investigate allegations of animal cruelty and to punish people and organisations that mistreat animals.

“whilst not declining to give the bill a second reading, the House:

- (1) notes the alarming decline in regional media;
- (2) acknowledges that regional commercial television broadcasters’ difficulties in meeting content requirements can be taken as an early warning sign of market failure;
- (3) notes the Australian Competition and Consumer Commission has found that:
  - (a) between 2008 and 2018, the closure of 106 local and regional newspaper titles across Australia has left 21 local government areas previously covered by these titles without coverage from a single local newspaper (in either print or online formats); and
  - (b) the public broadcasters, the ABC and SBS, are not currently resourced to fully compensate for the decline in local reporting previously produced by traditional commercial publishers;
- (4) further notes the Public Interest Journalism Initiative’s Australian Newsroom Mapping Project found that the number of contractions in Australia’s public interest news landscape has grown to over 200 since January 2019; and
- (5) is of the view that this third-term Government has failed regional media by failing to reform the legislative framework and failing to deliver effective direct and indirect support to industry in a timely manner”.

Mrs Marino presented reasons, which were circulated, and are as follows:

*Reasons of the House of Representatives for disagreeing to the amendments of the Senate*

The issue raised by this amendment is the subject of a recommendation in the Senate Economics Committee's corporate tax avoidance report, Part I: You cannot tax what you cannot see. The House will not pre-empt the Government's response to this recommendation as part of its response to the Senate Economics Committee's corporate tax avoidance reports. The House does not support this last minute amendment to an unrelated bill prior to the Government's response to the relevant Senate Committee's report being considered.

In addition, exempt proprietary companies to which the amendment relates are still required to prepare financial reports and have them audited according to accounting and audit standards where required by law, as is appropriate.

Accordingly, the House of Representatives does not accept this amendment.

Mrs Marino moved—That the reasons be adopted.

**21 ELECTRONIC ACCESS CONTROL SYSTEM CODE OF PRACTICE—STATEMENT BY SPEAKER**

The Speaker made the following statement:

As Members would be aware, the Electronic Access Control System (EACS) is the computer-based security card system that has replaced the old physical locking infrastructure throughout Parliament House.

The system is designed to control access to Parliament House. Specifically, it allows authorised pass holders entry into secure areas by using a security pass authenticated by access control readers. EACS has been designed to facilitate remote lockdown capabilities in the event of a major incident or emergency and has been progressively installed throughout the House of Representatives wing over the past two years.

In contrast, for various reasons, the system is not fully installed or operational in the Senate wing. However, after extended negotiations, I can now advise the House that agreement has been reached on a Code of Practice. The EACS Code of Practice provides the framework for the management of EACS data over which there may be claims of privilege. It applies to all parliamentary department employees and contractors, Australian Federal Police and building occupants who manage, operate or use the EACS including the viewing, storing, accessing, releasing or disposing of data.

I wish to thank all the members of the House Standing Committee on Appropriations and Administration for sensible consideration of the development of the Code, particularly the Chief Government and Chief Opposition Whips. Should honourable members have any questions or concerns about the operation of the EACS they should contact the Serjeant’s office or my office at any time.

**2 AGREEMENT FOR MEMBERS TO CONTRIBUTE REMOTELY TO PARLIAMENTARY PROCEEDINGS—DOCUMENT**

Mr Porter (Leader of the House) presented the following agreement for Members to contribute remotely to parliamentary proceedings:

HOUSE OF REPRESENTATIVES  
AGREEMENT FOR MEMBERS TO CONTRIBUTE  
REMOTELY TO PARLIAMENTARY PROCEEDINGS

This agreement is made pursuant to the resolution adopted by the House of Representatives on 23 March 2020, entitled ‘Special provisions for human biosecurity emergency period’, for the upcoming sittings of the House of Representatives from Monday, 24 August 2020 to Thursday, 3 September 2020.

- (1) Members not physically present in the House may participate in proceedings, as provided by this agreement, if:
  - (a) they participate via the official parliamentary video facility only; and
  - (b) the Speaker is satisfied the Member is unable to physically attend Parliament due to reasons related to the COVID-19 pandemic.
- (2) Reasons to be provided to allow the Speaker to make a decision in accordance with 1(b) above should be provided by the Leader of the House to the Speaker for a Government Member, the Manager of Opposition Business to the Speaker for an Opposition Member and directly to the Speaker for a non-aligned Member. The reasons should address the personal circumstances related to the COVID-19 pandemic that have made it essentially impossible, unreasonably impracticable, or would give rise to an unreasonable risk for the Member to physically attend Parliament.
- (3) The standing orders apply except as affected by this agreement.
- (4) Members participating in proceedings by this agreement must use the official parliamentary video facility and be present at either an Electorate Office or a Commonwealth Parliament Office.
- (5) Members present by the official parliamentary video facility may speak only after being recognised by the Chair:
  - (a) in contribution to debate; or
  - (b) to ask or answer a question at Question Time.
- (6) Members present by the official parliamentary video facility may not:
  - (a) vote or be counted for quorum;
  - (b) move or second any motion;
  - (c) move or second any amendment to a motion or bill;
  - (d) propose or support a proposal to discuss a matter of public importance;
  - (e) call for a division; or
  - (f) call for a quorum to be counted.

- (7) Notice is to be provided to the Chair, 15 minutes prior to:
- (a) a Member, participating in proceedings by the official parliamentary video facility, seeking to contribute to debate;
  - (b) a Member, participating in proceedings by the official parliamentary video facility, seeking to ask a question in Question Time; and
  - (c) Question Time, by the Leader of the House, indicating whether any Minister will be present during Question Time by the official parliamentary video facility and is therefore available to answer questions.
- (8) At the conclusion of a question made through the official parliamentary video facility, the questioner participating in accordance with paragraph 7(b) above shall remain available to seek the call if that member wishes to raise a point of order during the answer.
- (9) Contributions to proceedings made by Members present by the official parliamentary video facility will be recorded in Hansard.

Hon Christian Porter MP  
 Leader of the House  
 20 August 2020

Hon Tony Burke MP  
 Manager of Opposition Business

### 3 SITTING ARRANGEMENTS—STATEMENT BY SPEAKER

The Speaker made the following statement:

Over the course of this year the House has been adapting to the changing circumstances, as have all Australians, as a result of COVID-19. No doubt we will continue to adapt but for now I wish to inform the House about arrangements for this sitting fortnight. In particular, I want to outline how the House will enable some Members to participate in proceedings remotely.

On 23 March the House resolved to make special provisions for this human biosecurity emergency period. I wish to thank the Leader of the House and Manager of Opposition Business, the Whips, and Members on both sides for the cooperative approach during consultations about how to enable the House to continue its work during this extraordinary period. The Leader of the House has presented a copy of the agreement that provides for Members to be able to contribute remotely to proceedings of the House.

I also wish to thank all of the staff of the House of Representatives and the Department of Parliamentary Services who have worked tirelessly to ensure the House can enable some members remote participation.

The resolution of 23 March also provided for the manner in which Members may be ‘present’ for proceedings, to be determined by me as Speaker. For this sitting period my determination is that the normal requirements of House standing orders and practice for quorums and divisions remain in place.

However, in addition to the usual opportunities for Members to contribute to proceedings in the Chamber, Members who are unable to attend due to COVID-19-related reasons may seek and be given the call to speak via the official parliamentary video facility during certain proceedings. Members who provided satisfactory reasons and notified their wish to participate remotely will have received technical information about access.

In terms of procedural requirements I confirm that House standing orders and practices will apply to Members who participate through the official video facility, to the extent possible, except as affected by my determinations and the agreement of the Leader of the House and Manager of Opposition Business. That means Members participating remotely must participate with the same degree of formality as is required in the Chamber and that includes regard for the authority of the Chair. Any Member participating remotely who does not comply with House rules and directions from the Chair may have their remote access suspended or terminated. Members may speak when given the call by the Chair—as usual—and they will be bound by the usual speech time limits. If there are technical difficulties, Chairs will offer a degree of flexibility but if it is clear that a Member is not able to speak when called, the Chair will call the next Member and will return to the Member, if possible, when access is restored.

The House's formal record, the Votes and Proceedings, will record attendance as usual, at the end of each sitting, and also identify which Members did not attend physically but who participated in proceedings by the official video facility.

I also wish to refer to the matter of parliamentary privilege. As Members would be aware, the Parliamentary Privileges Act makes clear that participation in 'proceedings in parliament' is protected absolutely by parliamentary privilege. Members would also know that for 20 years the standing orders of the House have empowered parliamentary committees to conduct proceedings using audio visual, or audio only, links with members of the committee not present in one place, while retaining the protection of parliamentary privilege. Following this well-established precedent, it is my understanding that Members who are participating remotely in Chamber proceedings—that is speaking when given the call and otherwise complying with standing orders—would be considered to be participating in proceedings in parliament and therefore protected by parliamentary privilege in the same way as Members participating in the Chamber in person.

I and the President of the Senate issued detailed statements last week that convey very clearly the medical advice we have been provided for members and building occupants. The advice stipulates a number of measures and strongly encouraging others, such as the wearing of masks in corridors and common areas. I will also reiterate: the strong advice is that MPs and travelling staff should remain in Canberra over the coming weekend to avoid unnecessary travel.

Finally, Members would recognise that this is an unprecedented period in the life of the House, and we are all working together to enable the House to meet and conduct its essential business on behalf of the Australian people. I ask all Members to treat each other with courtesy and respect and be mindful of the flexibility that the trial of new arrangements may require. We need to remember that the work of the House is scrutinised closely by Australians who are entitled to expect the highest standards of their representatives.

I thank the House.

#### 4 OFFICIAL VIDEO FACILITY FOR MEMBERS

Mr Porter (Leader of the House), by leave, moved—That:

- (1) the House authorises the use of an official video facility in order for a Member not physically present in the Chamber to participate in such proceedings of the House as it prescribes;
- (2) a Member who participates through the official facility will be identified in the Members' attendance record in the Votes and Proceedings; and
- (3) to the extent possible, the contribution of a Member who participates through the official facility will be recorded, published and broadcast in accordance with the usual processes and rules, as if the contribution had been made by a Member attending in the Chamber of the House.

1 The Federation Chamber met at 10.30 am.

**2 MEMBERS' CONSTITUENCY STATEMENTS**

Members' constituency statements were made.

**3 RENEWABLE ENERGY**

Dr Haines, pursuant to notice, moved—That this House:

- (1) recognises that:
  - (a) in the 19th century it was regional Australia that led the transition from gas to electricity and that in the 21st century it is again regional Australia that is leading Australia's transition to renewable energy; and
  - (b) according to the Australian Energy Market Operator's Integrated System Plan, around 15 gigawatts of coal-fired power will retire over the next 20 years;
- (2) recalls the analysis from the leaked report of the National COVID-19 Coordination Commission Manufacturing Taskforce indicated that renewables plus storage are the lowest cost form of new electricity generation, and therefore a lowest-cost energy transition will be based on significant investment in renewables;
- (3) welcomes the recent comments from the International Energy Agency that 'governments have the opportunity to accelerate renewables deployment by making investment in renewables a key part of stimulus packages designed to reinvigorate their economies. This offers the prospect of harnessing the structural benefits that increasingly affordable renewables can bring, including opportunities for creating jobs and economic development, while reducing emissions and fostering innovation';
- (4) notes analysis by the Commonwealth Scientific and Industrial Research Organisation that projects that up to \$1,000 billion will be spent on Australia's electricity system until 2050 and that local communities should benefit from this investment boom;
- (5) acknowledges that 'community energy', which is where a renewable energy project is developed by, owned by or delivers benefit to local communities, offers a compelling model for capturing the immense benefits of renewable energy, including jobs and investment, for local communities in regional Australia;
- (6) further welcomes the findings of Sustainability Victoria into the Victorian Community Power Hub pilot program which found that Government investment into community energy of \$1.16 million created 15 projects delivering economic benefits worth \$25.6 million; and
- (7) calls on the Government to support the development of community-owned renewable energy projects across regional Australia through:
  - (a) direct financial support for regional communities in the form of grants and concessional loans;
  - (b) technical support for local communities to develop renewable energy projects based on the Community Power Hub model successfully deployed in Victoria; and

- (c) a dedicated national community energy agency to enable capacity-building across the regional community energy network and to administer financial and technical support over the medium-term.

- (3) Australia is the 16th largest economy in the world, but because of universal superannuation has a pool of savings owned by Australian workers worth \$2.8 trillion, which is the fourth largest pool of retirement savings in the world;
- (4) before universal superannuation, 68 per cent of Australians and 85 per cent of all women had no retirement savings;
- (5) the average superannuation balance at retirement is now approximately \$160,000 for women and \$280,000 for men;
- (6) under current policy settings, the median balance on retirement for full-time workers will be \$310,819 for women and \$628,634 for men;
- (7) over the past decade the average rate of return has been between 6 and 8 per cent—last year it grew by 9.2 per cent and Australia was among only a handful of countries that saw pension fund growth; and
- (8) superannuation is critical to Australia's economic growth and resilience and must be strengthened so it can play a pivotal role in Australia's economic recovery from COVID-19.

**2 SUSPENSION OF STANDING ORDERS MOVED**

Mr Bowen moved—That so much of the standing orders be suspended as would prevent the Member for McMahon from moving the following motion immediately—That the House:

- (1) notes that:
  - (a) on 25 August 2020, the Member for Hughes gave a speech in the Federation Chamber supporting the use of hydroxychloroquine to treat COVID-19;
  - (b) in his speech, the Member said that “media bias”, “groupthink” and the “complete abandonment of reason” were driving a “war” on hydroxychloroquine and “the big hand of government ... interfer[ing] in a doctor-patient relationship”, and cited a number of medical commentators including:
    - (i) Professor Christian Perronne, who is being investigated by the French College of Physicians for his comments on hydroxychloroquine;
    - (ii) Dr Harvey Risch, who was rebuked by 25 Yale University colleagues for promoting “conspiracy theories, purported hoaxes, and the views of zealots”; and
    - (iii) Dr Kulvinder Gill, who was criticised by other Canadian doctors for misleading tweets on hydroxychloroquine;
  - (c) in Australia, potential therapies are assessed for safety and efficacy by the independent Therapeutic Goods Administration, and the TGA “strongly discourages the use of hydroxychloroquine to treat COVID-19 ... or prevent COVID-19”; and
  - (d) the National COVID-19 Clinical Evidence Taskforce, comprised of 29 peak health bodies, has also advised that “hydroxychloroquine is potentially harmful and no more effective than standard care”; and
- (2) affirms that it is the responsibility of all public officeholders to acknowledge and support the independence and expertise of the TGA and counter misinformation and conspiracy theories.

- (3) further notes the damning findings from the Auditor-General, including that:
  - (a) there has been a 510 per cent increase in the average delays for approval decisions since the Liberals and Nationals were elected (between 2014-15 and 2018-19);

1 The Federation Chamber met at 10.30 am.

**2 MEMBERS' CONSTITUENCY STATEMENTS**

Members' constituency statements were made.

**3 PARTNER AND SPOUSE VISA APPLICATIONS**

Mr Hill, pursuant to notice, moved—That this House:

- (1) reaffirms that:
  - (a) Australians love who they love, and the community must have confidence that the partner and spouse visa provisions in the *Migration Act 1958* (the Act) are administered lawfully, fairly, impartially and with integrity;
  - (b) while the Minister generally has the power to limit the number of visas in particular classes and subclasses by using the program management provisions in s86 of the Act, s87, of the Act explicitly prevents the 'capping' of visas to people who apply for a visa on the grounds that they are the spouse or de facto partner of an Australian citizen or permanent resident;
  - (c) the Parliament has voted twice to reject legislative amendments to give the Minister a power to cap these visa classes, preferring the processing of spouse visa applications to occur on a demand-driven basis; and
  - (d) inexplicable and unconscionable delays by the Department of Home Affairs in processing thousands of partner visa applications continues to result in significant harm to, and consequences for, Australian citizens and permanent residents;
- (2) condemns the Government for:
  - (a) using the administrative tool of migration program planning levels to unlawfully override the legislated program management tools in s86 and s87, thus effectively 'capping' partner visas against the intent of s87 of the Act;
  - (b) refusing to release advice on the legality of their actions to restrict partner visa grants;
  - (c) presiding over an extraordinary blow out to 91,717 as at 31 March 2020 in the number of partner visa applications on hand, an increase of almost 30 per cent in under three years;
  - (d) unacceptably high and deteriorating processing times for partner visa applications, with the Department's website indicating that:
    - (i) subclass 300—75 per cent of applications are processed within 16 months and 90 per cent of applications are processed within 29 months;
    - (ii) subclass 309—75 per cent of applications are processed within 15 months and 90 per cent of applications are processed within 20 months;
    - (iii) subclass 100—75 per cent of applications are processed within 20 months and 90 per cent of applications are processed within 24 months;
    - (iv) subclass 820—75 per cent of applications are processed within 20 months and 90 per cent of applications are processed within 25 months; and

- (v) subclass 801—75 per cent of applications are processed within 13 months and 90 per cent of applications are processed within 25 months;
  - (e) cutting the number of partner visas granted by 8,000 per annum which will mean the backlog and processing times continue to grow;
  - (f) allowing a blowout in the backlog of cases to 5,556 cases at the Administrative Appeals Tribunal (AAT) as at 31 July 2020 with:
    - (i) an average processing time for partner cases of 726 calendar days; and
    - (ii) a partner visa set aside rate at the AAT of around 60 per cent;
  - (g) failing to address the perverse consequences of COVID-19 related border restrictions for partner visa applicants including:
    - (i) refusing to let numerous partner and prospective marriage visa holders enter Australia before their visas expire, or at least to extend their visa expiry date or refund their money; and
    - (ii) refusing to let people who are currently in Australia on a temporary visa and who are granted an offshore partner visa to activate that visa without having to fly overseas; and
  - (h) attempting to silence Australians who speak up publicly about the delays in processing and growing problems in the partner visa program; and
- (3) calls on the Government to:
- (a) acknowledge the devastating human impact of delays and uncertainty on affected couples whose lives are in limbo, whose mental health is suffering, and whose relationships are being destroyed through separation from their partner for many years;
  - (b) apologise for the unacceptable delays in processing partner visa applications and take immediate action to process the backlog noting the Government has collected massive levels of visa application revenue that should be used to process applications in a timely way;
  - (c) urgently address the perverse consequences of COVID-19 related border restrictions on partner visas; and
  - (d) publicly commit to affected people and the wider community that partner visa processing will in future be administered lawfully, fairly, impartially and expeditiously.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

  - (a) Australians generate about 67 million tonnes of waste each year, of which 37 million tonnes are recycled;
  - (b) only 12 per cent of the 103 kilograms of plastic waste generated per person in Australia each year is recycled, mostly overseas;
  - (c) for every 10,000 tonnes of waste recycled, more than nine jobs are created; and
  - (d) waste related activities add \$6.9 billion to the economy annually;
- (3) welcomes the Government's recent \$20 million commitment for innovative projects under round 8 of the Cooperative Research Centres Program grants to grow our domestic plastics recycling industry; and

- (1) notes:
  - (a) in April 2019 the Joint Standing Committee on the National Capital and External Territories tabled a report on its inquiry into Canberra's national institutions, titled *Telling Australia's Story—and why it is important*;
  - (b) the report made 20 recommendations and was informed by some 83 submissions and several public hearings with witnesses from every major cultural institution;
  - (c) the report's conclusions and recommendations were supported across the political spectrum;
  - (d) unfortunately, 16 months on from the tabling of the report the Government is yet to respond to its recommendations;

- (e) Government inaction on these recommendations is having a detrimental effect on the operation of these national treasures, including but not limited to the:
  - (i) National Gallery, which is expected to lose about 10 per cent of their workforce;
  - (ii) National Library, which has modified its collecting strategy to remove Japan, Korea, Thailand, Laos, Cambodia and Myanmar from its list of priority countries from its Asia Collection; and
  - (iii) National Archives, which is preparing to lose large sections of its 117,000 hours of magnetic tape archives unless additional resources for digitisation are provided; and
- (f) these challenges outlined in the report are being further amplified by current COVID-19 restrictions;

HOUSE OF REPRESENTATIVES

## VOTES AND PROCEEDINGS

No. 69

WEDNESDAY, 2 SEPTEMBER 2020

1 The House met, at 9.30 am, pursuant to adjournment. The Speaker (the Honourable A. D. H. Smith) took the Chair, made an acknowledgement of country and read Prayers.

## 2 SUSPENSION OF STANDING ORDERS MOVED

Mr Bowen moved—That so much of the standing orders be suspended as would prevent the Member for McMahon from moving the following motion immediately—That the House:

(1) notes:

- (a) two weeks ago today, the Prime Minister and Minister for Health claimed to have signed a COVID-19 vaccine supply deal with AstraZeneca;
  - (b) when the Minister for Health quoted AstraZeneca in the House on 1 September 2020, he omitted the company's clarification that it had only signed a "letter of intent", and that "there are still many details to be confirmed"; and
  - (c) in contrast to Australia's one letter of intent, at least 17 countries have signed at least 49 supply agreements, covering at least six billion doses of potential COVID-19 vaccines; and
- (2) therefore, calls on the Minister for Health to lay on the table by no later than 9.30 am on Thursday, 3 September 2020, the so-called 'deal' with AstraZeneca referred to by the Minister for Health, and to explain to the House whether a single dose of any potential COVID-19 vaccine has been secured for Australia.

The order of the day having been read for the resumption of the debate on the question—That the bill be now read a second time—

Debate resumed.

Mr Conroy moved, as an amendment—That all words after “That” be omitted with a view to substituting the following words:

“whilst not declining to give the bill a second reading, the House:

- (1) welcomes the move by the Government to fix the significant problems with two of the existing terrorism-related citizenship loss provisions in the *Australian Citizenship Act 2007*, sections 33AA and 35;
- (2) recognises that sections 33AA and 35 of the *Australian Citizenship Act 2007* operate in an uncontrolled and uncertain manner, which may lead to unintended or unforeseen adverse security outcomes;
- (3) further recognises that the bill would replace sections 33AA and 35 with a ministerial decision-making model of citizenship-cessation, which will allow the potential for adverse security outcomes to be better managed; and
- (4) calls on the Government to:
  - (a) ensure that the bill is on the strongest possible constitutional footing;
  - (b) also ensure that the powers in the bill are used judiciously and in the best interests of Australia and Australians; and
  - (c) implement the recommendations of Labor members of the Parliamentary Joint Committee on Intelligence and Security”.

  - (b) the public broadcasters, the ABC and SBS, are not currently resourced to fully compensate for the decline in local reporting previously produced by traditional commercial publishers;
- (4) further notes the Public Interest Journalism Initiative’s Australian Newsroom Mapping Project found that the number of contractions in Australia’s public interest news landscape has grown to over 200 since January 2019; and

*Suspension of standing orders moved*

Mr Burke (Manager of Opposition Business) moved—That so much of the standing orders be suspended as would prevent the Manager of Opposition Business from moving the following motion immediately—That the House:

- (1) allow debate on the Environment Protection and Biodiversity Conservation Amendment (Streamlining Environmental Approvals) Bill 2020 before the House to continue until every Member wishing to speak on the second reading has done so; and
- (2) notes this will allow Members to explain:
  - (a) the Government's attempt to rehash a failed Abbott-era environmental bill; and
  - (b) that the bill is inconsistent with the interim report of the Samuel Review commissioned by the Government.

**FEDERATION CHAMBER**

**MINUTES OF PROCEEDINGS**

MONDAY, 9 NOVEMBER 2020

---

*(Order of business for this sitting—see item No. 10, Votes and Proceedings, 26 October 2020.)*

1 The Federation Chamber met at 10.30 am.

**2 REMOTE CONTRIBUTIONS IN THE FEDERATION CHAMBER—STATEMENT BY DEPUTY SPEAKER**

Mr R. G. Mitchell (Deputy Speaker) made the following statement:

Members will be aware that part of the Agreement for Members to Contribute Remotely to Parliamentary Proceedings that was presented to the House on 6 October allowed for the official parliamentary video facility to be made available in the Federation Chamber—at the discretion of the Speaker. I can inform Members that the Speaker has agreed, beginning today, to extend participation via video link for some aspects of the business of the Federation Chamber. These are contributions to:

- 90 second statements;
- private Members' business;
- 3 minute constituency statements; and
- adjournment debate on Thursdays.

These are speaking opportunities only, not opportunities to move or second a motion or an amendment, or to count for quorum purposes, for example. All of the relevant provisions of the Agreement for Members apply to Members who participate in Federation Chamber meetings via video link, including the need to provide 15 minutes' notice to the Chair.

I remind Members that, as the Speaker has stated previously, House standing orders and practices apply to participation via video link. This extends to the degree of formality required as if the Member were present in the Chamber or Federation Chamber, and to regard for the authority of the Chair. I also ask Members participating remotely to follow the technical advice which has been provided to them to ensure they have the best possible video connection for their contributions to proceedings.

**3 MEMBERS' CONSTITUENCY STATEMENTS**

Members' constituency statements were made.

**4 ELECTRONIC CIGARETTES AND PERSONAL VAPORISERS**

Dr Frelander, pursuant to notice, moved—That this House:

- (1) acknowledges that the House of Representatives Standing Committee on Health, Aged Care and Sport held an extensive inquiry into the use and marketing of electronic cigarettes and personal vaporisers in Australia, throughout the 45th Parliament;
- (2) notes that the inquiry did not find, nor recommend, that e-cigarettes and personal vaporisers be considered to be 'health products', nor that they reduced harm to users;
- (3) further notes that e-cigarettes and personal vaporisers:
  - (a) are not universally considered to be an effective tool in helping smokers to quit smoking or reduce consumption of nicotine products;

- (b) may be considered to be a ‘gateway’ into the consumption of nicotine, tobacco and nicotine products; and
- (c) involve the use of flagrant advertising and enticing flavours, which allure consumers to consume their substance;
- (4) notes that the Senate is considering holding another superfluous inquiry into the use of such products, despite the House having held an extensive inquiry in the previous parliament;
- (5) condemns any attempt from vested interests to promote the use of e-cigarettes and personal vaporisers within this parliament; and
- (6) concurs with the House of Representatives Standing Committee on Health, Aged Care and Sport in its findings, namely that independent experts at the Department of Health, the National Health and Medical Research Council and the Therapeutic Goods Administration are well-placed to review the use and regulation of electronic cigarettes and personal vaporisers.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

## 5 MANUFACTURING BUSINESSES

Mrs McIntosh, pursuant to notice, moved—That this House:

- (1) acknowledges the role that Australian manufacturing businesses continue to play in ensuring our nation has vital supplies, including food and personal protective equipment, especially during the pandemic when global supply chains were disrupted;
- (2) recognises that a vibrant manufacturing sector is important for our economic security; and
- (3) congratulates Australian manufacturing businesses on their ongoing efforts to adapt to the current circumstances, keep people in jobs, support local supply chains and contribute to our national economic recovery.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

## 6 TASMANIAN HEALTH SYSTEM

Mr Wilkie, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) the Tasmanian public health system is fundamentally broken and that is directly resulting in prolonged illnesses and avoidable deaths;
  - (b) this dire situation is despite the Tasmanian health system receiving more funding from the Commonwealth Government than the national average;
  - (c) independent Tasmanian public policy analyst Martyn Goddard estimates that, since the Tasmanian Government came to power in 2014, health and hospitals have been short-changed by \$2 billion of GST money being diverted from Tasmania’s public health system;
  - (d) Tasmanian hospitals are the worst-performing in the country, despite heroic efforts from staff;
  - (e) the latest state government figures show that 11,342 people are waiting for elective surgery—the most urgent category one patients, who should be treated in 30 days, have to wait an average of 130 days for their procedure;
  - (f) mental health services are another significant area of chronic under-investment, resulting in poorly treated and untreated illnesses causing great suffering and sometimes suicides; and
  - (g) there is precedence for the Commonwealth Government to intervene in the Tasmanian health system, for instance the take-over and hand-back of the Mersey Hospital; and
- (2) calls on the Commonwealth Government to refer Tasmania’s failing health system to the Productivity Commission to:
  - (a) conduct a public inquiry to identify the root causes of Tasmania’s failing health system; and

- (b) formulate a solution to fix the systemic and cultural problems within the Tasmanian health system.

Debate ensued.

The time allotted for private Members' business having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

And so it was resolved in the affirmative.

Mr Tehan presented reasons, which were circulated, and are as follows:

*Reasons of the House of Representatives for disagreeing to the amendments of the Senate*

The amendments are unnecessary as the hiring credit is not available to an employer who does not increase their headcount and payroll. The Rules will ensure the integrity of the JobMaker scheme by requiring entities to maintain sufficient records to substantiate their claim and prohibit both employers and employees from entering into arrangements for the sole or dominant purpose of obtaining the JobMaker Hiring Credit payment. All of the existing rights and safeguards in the Fair Work Act for employees will continue to apply, including protection from unfair dismissal and the full range of general protections.

As it has done with the Jobkeeper Payment, the Government will release aggregated program information as appropriate.

Accordingly, the House of Representatives does not accept these amendments.

On the motion of Mr Tehan, the reasons were adopted.

### *Suspension of standing orders moved*

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

- (1) notes that:
  - (a) as Minister for Social Services, the Prime Minister was personally responsible for the design of the illegal robodebt scheme;
  - (b) as Treasurer, the Prime Minister continued his illegal robodebt scheme, announcing it would save the budget \$2 billion;
  - (c) after deposing Malcolm Turnbull, the Prime Minister continued his robodebt scheme for years despite knowing it was illegal;
  - (d) the Prime Minister announced his robodebt scheme would save the budget \$2 billion but it has in fact cost taxpayers at least \$1.2 billion;
  - (e) the Prime Minister's illegal robodebt scheme harmed thousands of Australians and led to the suicide and self-harm of vulnerable people; and
  - (f) no one in this eight-year-old Liberal-National Government is willing to take responsibility for the Prime Minister's illegal robodebt scheme; and
- (2) therefore, condemns the Prime Minister for designing and maintaining the illegal robodebt scheme which led to the suicide and self-harm of vulnerable people.

**FEDERATION CHAMBER**

**MINUTES OF PROCEEDINGS**

MONDAY, 30 NOVEMBER 2020

---

---

1 The Federation Chamber met at 10.30 am.

**2 MEMBERS' CONSTITUENCY STATEMENTS**

Members' constituency statements were made.

**3 AUSTRALIAN NATIONAL AUDIT OFFICE**

Mr Hill, pursuant to notice, moved—That this House:

- (1) notes:
  - (a) the importance of the Auditor-General, who is responsible for auditing Commonwealth entities and reporting to the Parliament, providing crucial accountability and transparency regarding Government administration, and scrutiny of the expenditure of public monies;
  - (b) that as an independent officer of the Parliament with responsibilities under the *Auditor-General Act 1997*, the Auditor-General reports not to a minister, but directly to the Parliament via the Joint Committee of Public Accounts and Audit;
  - (c) that unlike similar entities such as the Parliamentary Budget Office, the Australian National Audit Office (ANAO) sits within the Prime Minister and Cabinet portfolio, and the Prime Minister is responsible for administering the legislation and presenting budget bids for the ANAO, which is also subject to directions from the Minister for Finance as an entity under the *Public Governance, Performance and Accountability Act 2013*; and
  - (d) the potential conflicts inherent in these arrangements, given the Auditor-General exists to scrutinise the performance and actions of the executive;
- (2) declares that independent scrutiny of Government spending to get maximum value for every taxpayer dollar is more important now than ever, given:
  - (a) the Government is racking up one trillion dollars in debt;
  - (b) Australia's budget deficit is now at a record high; and
  - (c) Government spending has blown out to the highest percentage of gross domestic product since 1970, the earliest year that records are available in the budget papers;
- (3) further notes that:
  - (a) the ANAO's budget has been in structural deficit for years because of this Government's cuts, recording unsustainable operating losses of \$3.1 million in 2018-19 and \$4.8 million in 2019-20;
  - (b) the Auditor-General wrote to the Prime Minister prior to the 2020-21 Budget requesting \$6.3 million in new funding so he could continue to undertake his role related to the accumulated budget pressures and COVID-19 cost pressures; and
  - (c) without new funding the Auditor-General is forced to reduce his program of performance audits which is projected to fall rapidly below the longstanding target of 48 performance audits per annum to around 38 per annum;

- (4) condemns the Government for its ongoing efforts to hide rorts, waste and corruption from scrutiny and avoid accountability by:
  - (a) taking revenge on the Auditor-General and making further cuts to the ANAO's budget and staffing, with a \$1.28 million cut to revenue, a reduction in resources of \$14 million in 2020-21 and a reduction in the average staffing level allocation; and
  - (b) failing for years to introduce a National Integrity Commission; and
- (5) calls on the Government to:
  - (a) immediately reverse its cuts to the ANAO's budget and provide the Auditor-General with the funds he has requested, by having the Minister for Finance provide an immediate advance, and making a commitment to boost funding over the forward estimates in the mid-year economic and fiscal outlook;
  - (b) apologise for the Prime Minister's failure to protect and support the independent Auditor-General, as the Prime Minister has proven that he cannot be trusted to protect the integrity of the office;
  - (c) consider introducing legislation to remove the ANAO from the Prime Minister and Cabinet portfolio and establish the ANAO as a parliamentary department, cementing the Auditor-General as a truly independent officer of the Parliament; and
  - (d) stop stalling and introduce legislation to establish a National Integrity Commission.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

#### 4 COVID-19 VACCINE

Mr Simmonds, pursuant to notice, moved—That this House:

- (1) notes:
  - (a) the developments worldwide on vaccines for COVID-19; and
  - (b) that the Government has announced a \$1.7 billion agreement for two of the most promising COVID-19 vaccines, namely the University of Oxford/AstraZeneca vaccine and the University of Queensland/CSL vaccine;
- (2) acknowledges that under the agreement, the Commonwealth has secured 84.8 million doses which will be almost entirely manufactured in Australia; and
- (3) recognises that the Government is contributing significantly to COVID-19 vaccine, treatment, research and development work in Australia and around the world with an investment of \$362 million.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

#### 5 NATIONAL WATER SAFETY DAY

Mr Thistlethwaite, pursuant to notice, moved—That this House:

- (1) notes:
  - (a) that 1 December 2020 is National Water Safety Day where we highlight the importance of staying safe and acting responsibly around water;
  - (b) that from 1 July 2019 to 30 June 2020 some 248 people lost their lives to drowning across Australia;
  - (c) that Royal Lifesaving estimates in its annual drowning report that an additional 504 people experienced a non-fatal drowning incident;
  - (d) the drowning report indicates the total number of drowning deaths over the past year decreased by 8 per cent on the previous year;
  - (e) people aged 25 to 34 years accounted for 17 per cent of the total number of drowning deaths, the most of any age group; and
  - (f) despite still being the leading location for drowning, deaths in rivers and creeks decreased by 32 per cent, compared with the 10-year average;

- (2) acknowledges:
- (a) drowning and accidents in the water can be avoided if people act responsibly and follow the basic water safety rules:
    - (i) always swim between the red and yellow flags at the beach and obey the instructions of lifesavers;
    - (ii) alcohol and swimming or boating don't mix;
    - (iii) don't swim at unpatrolled beaches;
    - (iv) don't swim alone; and
    - (v) never take your eye off children around water; and
  - (b) that too many avoidable drownings occur when rock fishing and rock fishers should:
    - (i) stay alert to the weather conditions;
    - (ii) learn how to swim;
    - (iii) choose the safest possible location;
    - (iv) wear the right gear;
    - (v) never fish alone; and
    - (vi) always wear a lifejacket; and
- (3) encourages:
- (a) all Australians to learn how to swim from a qualified instructor before they enter the water on their own; and
  - (b) people who use our waterways regularly to take the opportunity to learn rescue techniques and resuscitation from organisations like Surf Life Saving Australia by joining your local surf club.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

- (1) notes that:
- (a) NAIDOC Week celebrations will be held across Australia from 8 to 15 November 2020 to celebrate the history, culture and achievements of Aboriginal and Torres Strait Islander peoples;
  - (b) NAIDOC Week is celebrated not only in Indigenous communities, but by Australians from all walks of life—the week is a great opportunity to participate in a range of activities and to support your local Aboriginal and Torres Strait Islander community; and
  - (c) the Government is supporting NAIDOC Week through a local grants round, with \$1.4 million available to support local communities to host events and other activities during the week; and
- (2) commends the work of the Indigenous organisations in postponing NAIDOC Week events and organising COVID-safe functions.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

## 7 REFUGEE RESETTLEMENT

Mr Giles, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) it has been seven years since New Zealand offered hope to those refugees in Papua New Guinea and Nauru to resettle them in New Zealand; and
  - (b) more than 65,000 Australians have signed a petition organised by Amnesty International Australia with Craig Foster and Sonny Bill Williams urging the Government to accept the New Zealand Government's generous offer to resettle those refugees; and
- (2) calls on the Government to accept the New Zealand offer to resettle refugees.

## 9 KOALA POPULATIONS

Ms T. M. Butler, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) the koala is an iconic Australian species;
  - (b) the Queensland, New South Wales and Australian Capital Territory koala populations have been listed as vulnerable under national environment law;
  - (c) vast numbers of koalas were killed in last summer's national bushfire crisis, including an estimated third of the New South Wales population;
  - (d) in the wake of the fires the koala is being considered for up-listing (an increased threatened listing status);
  - (e) habitat loss is among the most significant threats to koalas;
  - (f) the Government is years overdue in making a Threatened Species Recovery Plan for the koala, which was initially due by 2015; and
  - (g) the National Koala Conservation Strategy ran until 2014 and has yet to be replaced by this Government; and
- (2) therefore calls on the Government to prevent further habitat loss through yet-to-commence development in areas in which the koala is listed as vulnerable, pending the completion of the formal assessment for up listing, the making of a Threatened Species Recovery Plan, and the making of a new National Koala Conservation Strategy.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

**10 SCOUTING AND GUIDING MOVEMENT**

  - (b) that the world scouting movement was founded by Lord Baden-Powell in 1907;
- (2) recognises that scouting is one of the most popular programs worldwide for personal development with over 500 million people going through the scouts and guides;
- (3) further notes that in 2007 the scouting movement celebrated its 100th anniversary since its founding; and
- (4) congratulates Scouts Australia, Girl Guides Australia and the World Organization of the Scout Movement for continuing to provide an outlet for children to channel their desire for adventure, education and fun, and for providing ongoing assistance around our communities.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

**11 AUSTRALIAN FEDERAL INTEGRITY COMMISSION BILL**

Dr Haines, pursuant to notice, moved—That this House:

- (1) agrees that effective politics requires constructive debate and consensus building on policy challenges and roadblocks that, if left unresolved, undermine the national interest;
- (2) commends the Menzies-Calwell club for facilitating consensus-driven, cross-parliamentary policy discussions that do not regress into ineffectual, politically polarised rhetoric;
- (3) reaffirms that establishing a robust Federal Integrity Commission during this parliament well before the next election is essential to arresting the declining public trust in institutions and restoring Australians' faith in the democratic system;
- (4) notes that, according to the Beechworth Principles and the motion agreed to by the Senate on 9 November 2020, a Federal Integrity Commission must have:
  - (a) broad jurisdiction to investigate corrupt conduct within the public sector;
  - (b) common rules for all public officials;
  - (c) strong investigative powers and procedural fairness safeguards;
  - (d) an ability to hold public hearings when in the public interest;
  - (e) direct avenues for public referrals and an ability to commence investigations independently based on those referrals;
  - (f) strong whistleblower protections;
  - (g) adequate and secure funding to be able to fulfil its purpose; and
  - (h) oversight by a multi-party parliamentary committee, including of the appointment of commissioners, and an independent parliamentary inspector to ensure accountability to the people; and
- (5) encourages Members of Parliament to debate the Australian Federal Integrity Commission Bill 2020 and the Commonwealth Parliamentary Standards Bill 2020 as a robust consensus package that all parliamentarians can engage with, in good faith, as a non-aligned private member's bill that answers the strong call from the Australian public for a robust federal integrity commission.

**12 COVID-19 AND VICTORIA**

Dr Webster, pursuant to notice, moved—That this House:

- (1) recognises that metropolitan and regional Victorians continue to face significant limitations to their freedoms due to COVID-19 restrictions;
- (2) acknowledges that:
  - (a) the epidemiological data in Victoria is now at a point where many health experts consider it safe to reopen in a COVID-safe manner; and
  - (b) the initial lockdowns in response to the COVID-19 pandemic were intended to build capacity in the health system, and the Victorian health system has done this;
- (3) commiserates with business owners that have been forced to shut their doors;
- (4) notes that many businesses will not survive continued lockdowns;
- (5) calls on the Victorian Government to give Victorians their freedom back;
- (6) further recognises the undue pain and distress facing regional communities around the nation due to ongoing state border restrictions;
- (7) further acknowledges that:
  - (a) border communities are unique in their interdependency; and
  - (b) regional and border communities are experiencing some of the most severe disruptions in the country, with impacts on healthcare, education, access to supplies, and the agriculture workforce;
- (8) further notes that seven out of eight states, through the National Cabinet, have agreed to seek a sustainable model for border restrictions by December 2020;
- (9) further calls on state governments to open their borders to allow for the free movement of Australians; and
- (10) acknowledges that the continued lockdowns and border restrictions will continue to cause significant mental health, wellbeing, and economic issues, particularly in Victoria, but also in other affected parts of the nation.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

**13 EXPULSION OF HUGH MAHON FROM THE HOUSE**

Mr Perrett, pursuant to notice, moved—That this House:

- (1) recognises that:
  - (a) prior to the passage of the *Parliamentary Privileges Act 1987* the houses of the Australian Parliament had the power to expel a senator, or member of the House of Representatives;
  - (b) the expulsion of a member of this House is the most drastic of sanctions;
  - (c) on 11 November 1920, the Honourable Member for Kalgoorlie, Hugh Mahon, was expelled from this House; and
  - (d) the Honourable Member for Kalgoorlie is the only member to have ever been expelled from this House;
- (2) acknowledges that the Honourable Member for Kalgoorlie, Hugh Mahon, was expelled:
  - (a) by a motion brought on hastily and with limited time for debate;
  - (b) by a vote of the House on party lines; and
  - (c) without the due process and procedural fairness that such an important issue deserves; and
- (3) further recognises that:
  - (a) it was unjust on the limited evidence for the institution to which Hugh Mahon had been democratically elected to reverse the decision of his constituents;
  - (b) the expulsion of the Honourable Member for Kalgoorlie, Hugh Mahon, was therefore a misuse of the power then invested in the House; and
  - (c) for a century the Mahon family has endured this injustice and it is time that the Parliament revisit the matter of the Honourable Member for Kalgoorlie, Hugh Mahon's, expulsion.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

**2 MEMBERS' CONSTITUENCY STATEMENTS**

Members' constituency statements were made.

**3 CHILD CARE SUBSIDY SYSTEM**

Ms Templeman, pursuant to notice, moved—That this House:

- (1) notes that under the Government's child care subsidy system:
  - (a) fees and out of pocket costs are out of control, with the Department of Education predicting that fees will increase by 5.3 per cent in 2020-21;
  - (b) fees have increased by more than 35 per cent since the election of the Government in 2013;
  - (c) Australian families contribute 37 per cent of early education and child care costs, compared to the OECD average of 18 per cent;
  - (d) there is an annual subsidy cap which is a significant barrier to work for many families; and
  - (e) secondary income earners earn very little take home pay if they go back to work full time;
- (2) further notes that recent reports by the Grattan Institute, KPMG, and PwC have found that increased investment in early education and child care would boost Australia's gross domestic product by between \$4 billion and \$11 billion through increased workforce participation; and
- (3) calls on the Government to fix its broken child care subsidy system that has failed to keep a lid on costs and has failed to support working parents, particularly women, to work full time or increase their hours.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

**4 RETURNED AND SERVICES LEAGUE OF AUSTRALIA**

Mr Connelly, pursuant to notice, moved—That this House:

- (2) recognises there are RSL branches and sub-branches in every state and territory, and most local communities have a RSL club;
- (3) further notes the motto of the RSL is 'The Price of Liberty is Eternal Vigilance';
- (4) acknowledges that RSL clubs help veterans and communities right around Australia in many and varied ways; and
- (5) congratulates the many hard-working volunteers and community-minded citizens who help make the RSL the success that it is.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

## 5 CHARITIES AND NOT-FOR-PROFIT ORGANISATIONS

Dr Leigh, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) charities are the most trusted sector in Australian public life;
  - (b) charities employ over one million Australians and contribute nearly one-tenth of Australia's national income;
  - (c) charities are the first line of support for the most vulnerable in our communities during times of economic and social upheaval;
  - (d) meeting the requirements of Australia's seven different fundraising regimes is wasting the time and energy of Australian charities and not-for-profit organisations; and
  - (e) the Government's failure to act on fundraising reform is costing Australian charities over \$1 million every month;
- (2) recognises that:
  - (a) for several years, the charity and not-for-profit sector has been calling for reform of Australia's fundraising laws;
  - (b) Treasury's 5 year review of the Australian Charities and Not-for-profits Commission, delivered on 31 May 2018, identified fundraising law as the major reporting burden on charities and recommended that fundraising law be harmonised across the country;
  - (c) on 14 February 2019, the Senate Select Committee on Charity Fundraising in the 21st Century called on parliament to harmonise fundraising law within two years;
  - (d) that inquiry, chaired by Labor Senator Catryna Bilyk, delivered a unanimous report, with its recommendations being supported by Greens Senator Rachel Siewert, Liberal Senators Eric Abetz and Amanda Stoker, former Labor Senator David Smith, and former United Australia Party Senator Brian Burston;
  - (e) throughout 2020, the National COVID-19 Coordination Commission's Not for Profit Working Group, the Royal Commission into National Natural Disaster Arrangements, and the Charities Crisis Cabinet have all identified harmonisation of fundraising laws as a key initiative in helping Australian charities provide strong support for our communities; and
  - (f) failure to deliver fundraising reform has significant costs to the charity and not-for-profit sector, with the Senate Select Committee on Charity Fundraising in the 21st Century report estimating that the annual cost to charities and their donors is around \$15 million; and
- (3) calls on the Government to:
  - (a) apologise to Australian charities for failing to meet the two-year timeframe set out in the Senate Select Committee on Charity Fundraising in the 21st Century report;
  - (b) now commit to support Australian charities and the communities they serve by ending unnecessary waste of their precious resources;
  - (c) support the generous Australian donors who donate money to our charities, by ensuring their donations are not needlessly eroded by redundant administrative and regulatory costs; and
  - (d) confirm a timeline for the commencement of a consistent national model for regulating not-for-profit and charitable fundraising activities.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

**6 HUMANITARIAN ASSISTANCE TO BANGLADESH AND MYANMAR**

Ms Bell, pursuant to notice, moved—That this House notes that:

- (1) 25 August 2020 marked three years since over 700,000 Rohingya, including more than 400,000 children, fled from targeted violence in Myanmar's Rakhine State, to Bangladesh;
- (2) the camps in Bangladesh now host over 850,000 refugees in crowded conditions which is also impacting the lives of over 400,000 local Bangladeshis;
- (3) an estimated 600,000 Rohingya remain in Rakhine State;
- (4) since 2017, the Australian Government has provided over \$260 million in lifesaving humanitarian assistance for displaced and conflict-affected communities in Bangladesh and Myanmar, working through UN agencies, international and national NGOs such as BRAC, Save the Children, CARE, World Vision, Plan International and Oxfam and their local partners to deliver food, shelter, water and sanitation, health and education services, and targeted support for women and girls to help combat risks including gender-based violence and trafficking;
- (5) annual monsoons and cyclones have brought additional risks, and the COVID-19 virus has now arrived, with 88 confirmed cases to date in the Cox's Bazar camps and over 80 active cases in Rakhine State; and
- (6) Australia remains committed to supporting Myanmar to create conditions on the ground conducive to voluntary, safe, dignified and sustainable returns for all displaced peoples.

**8 BUY NOW PAY LATER INDUSTRY**

Ms Sharkie, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) in November 2020, the Australian Securities and Investments Commission (ASIC) released a report entitled, *Buy now pay later: an industry update*, which set out the key observations about the Buy Now Pay Later (BNPL) industry, the experiences of consumers and recent regulatory developments;
  - (b) the report found that:
    - (i) more than 1 in 5 BNPL consumers surveyed missed a payment in the past 12 months, resulting in over \$43 million in late fees for the 2018-19 financial year;
    - (ii) most BNPL consumers who had missed a payment had used multiple BNPL providers in the past six months;
    - (iii) nearly 40 per cent of BNPL consumers surveyed who had missed a payment in the past 12 months also had a payday loan or similar; and
    - (iv) 20 per cent of all BNPL consumers surveyed said they had cut back, or went without, essentials, like meals, to make their payments;
  - (c) BNPL providers have stated no more than 1 per cent of their consumers have been in financial hardship during COVID-19, and that this is inconsistent with the observations contained in the ASIC report for the 2018-19 financial year; and
  - (d) BNPL providers are not regulated by the *National Consumer Credit Protection Act 2009* and are therefore not bound by responsible lending obligations; and
- (2) calls on the Government to:
  - (a) respond to the report of the Senate Standing Committee on Economics entitled *Credit and Financial Services Targeted at Australians at Risk of Financial Hardship* tabled in the Parliament in February 2019 as a matter of urgency;
  - (b) introduce a bill that would amend the *National Consumer Credit Protection Act 2009* to enact the recommendations of the Government's Review of Small Amount Credit Contract Laws;
  - (c) extend the *National Consumer Credit Protection Act 2009* to BNPL providers; and
  - (d) ensure no changes are made to the *National Consumer Credit Protection Act 2009* that would undermine or weaken responsible lending obligations as per the recommendations of Commissioner Kenneth Hayne.

## 9 HOME OWNERSHIP AND SUPERANNUATION

Mr T. R. Wilson, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) the benefits of home ownership are enjoyed during the working life of Australians, and in retirement;
  - (b) home ownership is more critical for a secure retirement than a large superannuation balance, as income can be supplemented by the pension;
  - (c) there is a disturbing rise of Australians who are entering retirement in poverty because of a lack of home ownership, particularly amongst separated and divorced women;
  - (d) currently Australians are forced to save for superannuation first and a home second;
  - (e) young Australians are struggling to save enough for a home deposit because their savings are locked away in superannuation;
  - (f) Australians only benefit from superannuation for about 20 years; and
  - (g) Australians draw the benefits of home ownership for around 50 years—both while working and in retirement; and
- (2) recognises and acknowledges that:
  - (a) the order should be reversed: home first, super second;
  - (b) if young Australians could use their superannuation with other savings for a home deposit, they could buy a home both earlier and more cheaply; and
  - (c) by owning a home, young Australians will have a better life and a better retirement.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

## 10 AUSTRALIA'S RELATIONSHIP WITH THE PHILIPPINES

Mr J. H. Wilson, pursuant to notice, moved—That this House:

- (1) affirms the longstanding, important, and respectful relationship between Australia and the Philippines, and supports the ongoing cooperation between our countries in key areas like regional development, maritime security, and disaster risk and reduction management;
- (2) expresses its opposition to the recently intensified repression directed at human rights and labour rights defenders in the Philippines, evident by the:
  - (a) International Trade Union Confederation listing the Philippines in the top ten worst countries for workers' rights as a result of the extrajudicial killings of forty-six union members and officials in the last three years;
  - (b) deteriorating human rights environment and the rise in unlawful killings by state agencies which means that workers, civil servants, trade union organisations, and labour activists fear for their safety;
  - (c) nearly three-year extension of martial law in Mindanao, after it was initially approved for sixty days, and which only ended in December 2019; and
  - (d) UN Human Rights Council's adoption of resolution 41/2 expressing concern over human rights violations and requesting the UN High Commissioner for Human Rights to prepare a comprehensive report on the human rights situation in the Philippines that was due in June 2020;

- (3) supports recommendations put forward by the International Labour Organization's (ILO) Conference Committee on the Application of Standards to:
  - (a) oppose any language that creates a negative stigmatisation of those defending the rights of workers and human rights; and
  - (b) oppose any military intervention in industrial disputes, as such interventions in trade union affairs can only occur with approval of the Government, which constitutes a grave violation of human rights and the principles of freedom of association; and
- (4) calls on the Government to support the upholding of labour and human rights, in line with international standards, by endorsing:
  - (a) the ILO's resolution to send a high-level tripartite mission to the Philippines to conduct an open, transparent, and robust investigation of the human rights situation; and
  - (b) any auditing process of Australian security engagements in the Philippines, such as the Enhanced Defence Cooperation Program, as a way of ensuring we are not indirectly supporting human rights violations in the Philippines.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

#### 11 MARITIME UNION OF AUSTRALIA

Mr Falinski, pursuant to notice, moved—That this House:

- (1) condemns:
  - (a) lawless activity on workplaces in Australia;
  - (b) the use of vessel bans, overtime bans, acting up bans, shift bans, and stop work meetings by the Maritime Union of Australia (MUA) that has created chaos on Australian wharves;
  - (c) the use of industrial action in support of pay increases of over 30 per cent for people earning over \$300,000 while damaging the capacity of so many other businesses to pay workers on much lower salaries and create jobs; and
  - (d) industrial action that threatens supply of critical medical supplies in the middle of a pandemic;
- (2) notes that:
  - (a) many industry sectors including agriculture and road transport have reported supply chain problems which are linked to the MUA's actions;
  - (b) it is estimated that \$165.6 million of imports and \$66.9 million of exports per day were disrupted; and
  - (c) vital medical supplies are being disrupted, at a time when they are needed the most;
- (3) further notes that this industrial action is:
  - (a) not in support of any safety or other related issue but rather pay increases for many people who are earning over \$300,000 a year;
  - (b) supported by many other associated entities of the labour movement such as the Australian Labor Party, industry super owned proxy adviser Australian Council of Superannuation Investors, industry super owned media companies such as *The New Daily*, class action law firms, and others; and
  - (c) consistent with previous actions that have hurt our national interests such as during World War I, World War II, the Vietnam War and other times; and
- (4) notes the failure of the interest based bargaining that has handed over management control to the MUA and still resulted in out of control industrial action and disempowered workplaces, and threatens the Australian dream.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

**12 URBAN INFRASTRUCTURE PROJECTS**

Mr Leeser, pursuant to notice, moved—That this House:

  - (b) significant role the Government has played in partnering with state governments and private enterprise to ensure these essential projects are carried forward;
- (2) acknowledges the positive impact these projects have had on the Australian economy through boosting productivity and creating jobs;
- (3) commends the Government for its ongoing commitment to reducing traffic congestion and improving road safety through a record \$110 billion transport infrastructure program, boosting the economy, creating jobs and getting Australians home sooner and safer; and
- (4) congratulates the Government on the recent completion of numerous major infrastructure projects, including NorthConnex, which is enabling drivers to travel between Newcastle and Melbourne without stopping at a single traffic light, boosting productivity as well as improving traffic flow and pedestrian safety on Pennant Hills Road.

Debate ensued.

The time allotted for private Members' business having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

**13 ADJOURNMENT**

  - (e) it's not just businesses who've had a difficult year, workers have too;
  - (f) nurses, supermarket workers, cleaners, childcare workers, teachers, truck drivers, aged care workers and all the frontline workers in Australia who have kept the nation running during this pandemic are being given a Christmas gift of a pay cut by the Prime Minister; and

Ordered—That the amendment be considered immediately.

On the motion of Mr Porter (Leader of the House), the amendment was disagreed to, after debate.

Mr Porter presented reasons, which were circulated, and are as follows:

*Reasons of the House of Representatives for disagreeing to the amendment of the Senate*

The amendment proposed would keep supplementary provisions in place indefinitely rather than being managed through primary legislation.

This power-making provision was initially put in place due to the unprecedented circumstances being faced by the COVID-19 pandemic and the uncertainty around the ability of the Parliament to meet.

Circumstances have now changed, and as Parliament can now meet, it is appropriate that we seek to legislate any further temporary measures through the Parliament in the usual manner.

It is important to respect the Parliament and deal in primary legislation rather than regulation.

Accordingly, the House of Representatives does not accept this amendment.

On the motion of Mr Porter, the reasons were adopted.

**31 ADJOURNMENT**

Mr Porter (Leader of the House) moved—That the House do now adjourn.

Question—put and passed.

## 8 SOCIAL MEDIA PLATFORMS

Dr Webster, pursuant to notice, moved—That this House:

- (1) is alarmed by the undue pain and distress experienced by Australians who are defamed, bullied or otherwise harassed on social media platforms;
- (2) notes that:
  - (a) global technology companies which provide social media platforms inadequately monitor platforms for defamation, bullying or harassment of individuals; and
  - (b) global technology companies are slow to respond when complaints are made, increasing the damage to individuals;
- (3) recognises that social media is a global sphere of communication in which vulnerable citizens can be unfairly targeted by individuals, with little consequence to the platform that hosts damaging content;
- (4) expresses concern that current regulations do not adequately address global technology companies which control social media platforms; and
- (5) calls on the Government to develop:
  - (a) a public regulatory framework within which decisions about removing content are made by social media platforms, to ensure community expectations around safety and free speech on social media platforms can be met; and
  - (b) legislation which holds social media platforms to account as publishers of the content hosted on their sites, impressing the legal responsibilities that designation entails on those platforms.

## 9 CLOSING THE GAP

Mr Albanese (Leader of the Opposition), pursuant to notice, moved—That this House:

(1) notes:

- (a) the Minister for Home Affairs arbitrarily rejected merit-based recommendations made by his Department for the distribution of Safer Communities Fund grants;
- (b) the Minister for Home Affairs cut funding to a number of projects recommended by his Department in order to fund projects in marginal and Government-held electorates;
- (c) the Minister for Home Affairs announced funding for two projects during the Braddon by-election before grant guidelines were written, spent more than \$36,000 on Royal Australian Air Force jet flights for associated travel, and went ahead and funded those projects even though his own Department advised him that they were “unsuitable and ineligible” for funding;
- (d) the Minister for Home Affairs also fast-tracked an \$880,000 grant to the National Retail Association one week after a \$1,500 donation was made to the Liberal National Party to support the Minister's election campaign;
- (e) this Government has a proven history of rorting taxpayer-funded grant schemes for its own political benefit, including sports rorts; and
- (f) the Minister for Home Affairs has prioritised his political fortunes over his responsibility to keep Australian communities safe; and

No. 97

**FEDERATION CHAMBER**

**MINUTES OF PROCEEDINGS**

MONDAY, 15 FEBRUARY 2021

---

---

1 The Federation Chamber met at 10.30 am.

**2 MEMBERS' CONSTITUENCY STATEMENTS**

Members' constituency statements were made.

**3 TOURISM INDUSTRY**

Mr Georganas, pursuant to notice, moved—That this House:

- (1) acknowledges the dire financial situation facing travel agents and the tourism industry in general as a result of Australia's current health and economic crisis;
- (2) notes that:
  - (a) travel agents play a significant role in our tourism industry, sustaining businesses and employing thousands of people across Australia;
  - (b) tourism was one of the first industries to be hit and will likely be one of the last to recover;
  - (c) for many of our approximately 40,000 travel agents, the cost of staying open in order to reimburse customers who were forced to cancel holidays is contributing to significant losses; and
  - (d) with international travel restrictions likely to remain in place for the foreseeable future, travel agents need urgent assistance; and
- (3) calls on the Government to:
  - (a) develop a comprehensive industry-specific support package for the tourism industry, which acknowledges the important contribution this sector makes to the economy; and
  - (b) provide an urgent lifeline for travel agents on the brink of collapse, instead of the inadequate loss carry-back scheme, for which the vast majority of travel agents appear to be ineligible.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

**4 AUSTRALIAN CENTRE TO COUNTER CHILD EXPLOITATION**

Mr Simmonds, pursuant to notice, moved—That this House:

- (1) recognises that the Government has established the Australian Centre to Counter Child Exploitation (ACCCE) as the frontline defence in the Government's fight to protect children from predators online, in Australia and across the world;
- (2) acknowledges that:
  - (a) ACCCE brings together the specialist expertise and skills from government agencies, law enforcement and advocacy groups, in a central hub, to investigate cases of child exploitation and to implement prevention strategies;

- (b) in the period 1 July 2019 to 30 June 2020, the ACCCE received more than 21,000 incoming reports of child exploitation, compared with 14,000 in 2018-2019, from this, 134 children were removed from harm; and
- (c) recent operations by the ACCCE removed 16 children in Australia from harm and arrested 44 offenders with 350 charges collectively;
- (3) welcomes the Government's significant investment in establishing the ACCCE, with \$68.6 million committed over four years to further the crucial work they do to protect children;
- (4) notes the recent opening of the new purpose-built facility and thanks all the Australian Federal Police and state police officers for their selfless work in tracking and apprehending predators; and
- (5) commits to the ongoing safety of all Australian children, both online and in our communities, by continuing the Government's recent investment in anti-exploitation measures.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

## 5 COVID-19 AND THE ECONOMY

Ms Murphy, pursuant to notice, moved—That this House:

- (1) notes that in July 2020, the UN Sustainable Development Goals index ranked Australia third globally for our management of the COVID-19 crisis, but 37th for our long-term direction;
- (2) acknowledges that prior to 2020, Australia experienced 28 years of economic growth, where annual GDP growth peaked at 5 per cent and troughed at 2 per cent—but notwithstanding that GDP growth, inequality has increased, wages have stagnated, more people on low and precarious incomes are being left behind and the natural environment is in a fragile state;
- (3) recognises that COVID-19 has illustrated that it's impossible to separate the wellbeing of our people from the health of our economy, society and environment; and
- (4) calls on the Government to consider developing a national account of wellbeing in order to judge the success of recovery from the global pandemic, not just by how swiftly the economy rebounds, but also by whether our country is meeting measures of what Australians value as contributing to a 'good society'.

Debate ensued.

**8 JOBKEEPER PROGRAM**

Dr Leigh, pursuant to notice, moved—That this House:

- (1) notes that the Jobkeeper program is the most expensive one-off program ever implemented by an Australian Government, estimated to cost around \$100 billion—it has been effective in supporting jobs, but the unprecedented spending requires close scrutiny;
- (2) acknowledges that millions of Australians were excluded from Jobkeeper, including short-term casuals, arts sector workers, and the entire university sector;
- (3) recognises that:
  - (a) the Jobkeeper program is scheduled to be terminated at the end of March 2021, despite severe problems in many sectors and regions across Australia, and the warnings from economists that support should not be withdrawn prematurely;
  - (b) while many were left out of Jobkeeper, the program provided support to firms that:
    - (i) recorded record profits in 2020; and
    - (ii) paid executive bonuses; and
  - (c) the practice of paying executive bonuses by firms receiving Jobkeeper has been criticised by the Australian Taxation Office, the Business Council of Australia, former Liberal Premier of Victoria Jeff Kennett and the Australian Labor Party, but not the Government; and
- (4) calls on the Treasurer to make a statement to the Parliament no later than 25 February 2021 revealing how much Jobkeeper support was paid to firms that:
  - (a) saw their profits increase from 2019 to 2020; and
  - (b) paid executive bonuses.

**3 PERTH FREIGHT LINK PROJECT**

Mr J. H. Wilson, pursuant to notice, moved—That this House:

(1) notes that:

- (a) the Perth Freight Link, announced by then Treasurer the Hon Joe Hockey in 2014, was comprehensively rejected by the people of Western Australia at the state election in March 2017, when it was the most prominent point of difference in terms of transport infrastructure policy between Liberal and Labor;
- (b) in addition to a lack of any credible evidence to suggest it would improve road connectivity, the project, which included the road reserves for Roe Highway Stage 8 and 9, did not actually reach the port of Fremantle, had no detailed planning or cost benefit analysis, was to be operated as a private toll road, and was designed to facilitate the privatisation of Fremantle Port;
- (c) encouraged by federal Liberals, the Western Australian Government of the then Premier Barnett, ignored the advice of Main Roads Western Australia and in the shadow of an election wasted \$20 million of taxpayers' funds in the pointless and bloody-minded smashing down of more than 100 hectares of fragile habitat, including hundred-year-old heritage trees, in the Beeliar Wetlands;
- (d) after the election, at the behest of the current Western Australian Government of Premier McGowan, \$1.2 billion in federal funding that had been put aside for the so-called Perth Freight Link was redirected to a number of sensible and well-designed road, rail and public transport projects in the south-metro region, including the widening of the Kwinana Freeway and other freeway works, the new Armadale Road-North Lake Road bridge, the High Street Upgrade, and the Thomlie-Cockburn Metronet rail link; and
- (e) the Commonwealth Government has since 2017, allocated a further \$1.2 billion to fund what it describes as Roe 8/9, a project that no longer exists, while denying the people of Western Australia the much-needed funds to deliver properly planned transport infrastructure; and

(2) calls on the Government to:

- (a) respect the wishes of the Western Australian public and the mandate of the Western Australian Government as clearly expressed at the election in March 2017;
- (b) stop holding the people of Western Australia to ransom for a dead and discredited project; and
- (c) work with the McGowan Labor Government if re-elected on 13 March 2021 to support jobs, business activity, transport infrastructure, and economic recovery as Western Australia seeks to emerge from the pandemic.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

#### 4 POLIO

Dr Allen, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) the Global Polio Eradication Initiative (GPEI) leads the world’s efforts to end polio, bringing together Rotary International, the World Health Organization, the United Nations Children’s Emergency Fund (UNICEF) and many others including in the private sector with a common objective to eradicate polio once and for all;
  - (b) when GPEI commenced, more than 350,000 cases of polio paralysed and killed children in 125 countries annually;
  - (c) in 2020, polio was 99 per cent eradicated and wild polio remains in only two countries, Pakistan and Afghanistan, with the entire African continent certified as polio-free on 25 August 2020;
  - (d) since the onset of COVID-19, the GPEI’s extensive resources and infrastructure used to fight polio has been adapted to ensure that COVID-19 does not spread out of control in the developing world;
  - (e) the work of the Australian Polio Advocacy and Communications Team provides important support for eradication efforts by bringing together Australian advocates including Rotary International Australia, UNICEF Australia, Global Citizen and RESULTS Australia; and
  - (f) polio eradication efforts have slowed, and the progress made so far is now at risk; and
- (2) acknowledges that:
  - (a) investment in completing polio eradication will benefit future generations of children who will be free of this devastating disease, and other health programs and initiatives will benefit from the knowledge and experience gained through polio eradication;
  - (b) efforts to eradicate polio have been extremely successful and demonstrate the effectiveness of widely available vaccination programs;
  - (c) the GPEI’s COVID-19 response has been instrumental in ensuring that COVID-19 does not spread out of control in much of the developing world, including in the Pacific;
  - (d) Australia is a long-term champion of polio eradication along with many other Commonwealth nations including the United Kingdom and Canada; and
  - (e) the current parliaments of Australia and other countries have the opportunity to be recognised as the elected representatives who ensured that polio was completely eradicated.

- (2) notes that:
  - (a) travel agents play a significant role in our tourism industry, sustaining businesses and employing thousands of people across Australia;
  - (b) tourism was one of the first industries to be hit and will likely be one of the last to recover;
  - (c) for many of our approximately 40,000 travel agents, the cost of staying open in order to reimburse customers who were forced to cancel holidays is contributing to significant losses; and
  - (d) with international travel restrictions likely to remain in place for the foreseeable future, travel agents need urgent assistance; and
- (3) calls on the Government to:

- (a) develop a comprehensive industry-specific support package for the tourism industry, which acknowledges the important contribution this sector makes to the economy; and

- (3) places on record its support for Income Management for Youth Allowance (Other) recipients who fail to adhere to activity requirements or face court for drug and related offences, and supports earmarked and fully funded rehabilitation for anyone who fails a drug test;
- (4) further supports deferral of payments where drug tests are refused, to ensure service providers are engaged; and

  - (b) immediately and securely transfer all externally stored government data to Australian owned data centres;
- (2) acknowledges that:
  - (a) the recent contract extension between the Department of Defence and the Chinese-owned data centre, Global Switch, threatens our national security; and
  - (b) this continued relationship was formed without due process or public tender;
- (3) condemns the Government and the Department of Defence for seemingly placing cost savings above national security; and

- (b) despite a clear call from Ms Higgins for an independent investigation into how her reported sexual assault was handled by the Morrison Government, the Prime Minister has announced a review by his former Chief of Staff and refuses to guarantee it will be made public;
- (c) the Prime Minister knew about the inappropriate behaviours of a staff member employed by the Member for Hughes but did nothing and now seeks to cover up his knowledge and failure to act; and
- (d) whether it is sports rorts, community safety rorts, grassgate, watergate, forged documents, and matters as grave as bushfires, the pandemic and reported sexual harassment and assault, the Prime Minister always thinks about politics and never accepts responsibility; and

**MONDAY, 15 MARCH 2021**

---

1 The Federation Chamber met at 10.30 am.

**2 MEMBERS' CONSTITUENCY STATEMENTS**

Members' constituency statements were made.

**3 VIDEO GAME INDUSTRY**

Mr Watts, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) video games are a large and growing market—Australians spent \$3.6 billion on games in 2019, more than double the amount they spent in 2012;
  - (b) video gaming is a mainstream activity—two thirds of Australians play video games with an average age of 37; and
  - (c) globally, the video game industry generates more than double the revenue of the music and film industries combined; and
- (2) recognises that:
  - (a) Australia is home to a talented community of game developers and publishers, but proportionately the Australian industry is much smaller than its peers in New Zealand, Canada and the United Kingdom;
  - (b) video game development provides remote working opportunities and jobs for the regions—in the UK, 55 per cent of video game industry employment is outside of London and the south-east;
  - (c) the video game industry provides a variety of jobs—in Australia, 34 per cent are software programmers, 19 per cent are artists and 11 per cent are business or marketing professionals;
  - (d) the skills developed in our domestic video game industry are transferrable into roles in adjacent innovative and growth industries like cyber security, software engineering and data analytics; and
  - (e) video games could help drive the post-COVID economic recovery in Australia, creating jobs and expanding a significant export market.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

**4 TUBERCULOSIS**

Mr Entsch, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) 24 March 2021 is World Tuberculosis (TB) Day, a day to commemorate precious lives lost and recognise the serious impacts COVID-19 is having on TB services globally;

- (b) TB remains one of the world's deadliest airborne infectious diseases, killing more than 4,000 people every day, among them 700 children, and close to 15 million people in the last decade;
  - (c) COVID-19 is exacerbating inequalities, making it difficult to reach people with life-saving TB prevention and treatment;
  - (d) five to eight years of global progress in the fight against TB is likely to be lost due to disruption of services resulting from COVID-19—1.4 million more people are likely to die from TB in the next five years if urgent action is not taken;
  - (e) Australia committed to the targets agreed in the Political Declaration of the United Nations High Level Meeting (UNHLM) on TB in 2018; and
  - (f) the UN Secretary-General's 2020 report found that progress in meeting the UNHLM targets on TB is far too slow to meet the 2022 deadline;
- (2) acknowledges that the:
- (a) Government's series of announcements of \$1.1 billion to support global and regional COVID-19 response and recovery will save millions of lives;
  - (b) Government pledge of \$242 million to the Global Fund to Fight AIDS, Tuberculosis and Malaria (Global Fund) will save millions of lives;
  - (c) investment of \$13.3 million from the Government in 2019 will support antimicrobial resistance and drug-resistant TB research in Pacific island countries;
  - (d) Government's investment in TB research and development has resulted in the development of a new, six month, all-oral TB drug therapy thereby reducing the previous 18-month long treatment for drug resistant TB that consisted of multiple injections and thousands of pills; and
  - (e) Government's investments in multilateral agencies such as the Global Fund has supported countries' responses to the COVID-19 crisis; and
- (3) calls on the Government to increase:
- (a) our TB investment in the Asia-Pacific region to sustain routine TB services and safeguard the progress made so far; and
  - (b) investment in TB research and development to meet the commitments made by Australia at the 2018 UNHLM on TB.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

## 5 ECONOMIC AND SOCIAL MEASURES

Mr Hill, pursuant to notice, moved—That this House:

- (1) recognises that after over seven years of this Government, Australia is falling behind the rest of the world on numerous key measures of economic and social success;
- (2) notes that, in relation to:
  - (a) the economy, even before the COVID-19 pandemic the Government had badly mismanaged the economy with reputable data and global rankings showing that:
    - (i) real wages in Australia were 0.7 per cent lower in 2019 compared to 2013, with Australia ranked third last out of 35 OECD countries to wage growth;
    - (ii) over eight years of the current Government, Australia's productivity rate has been steadily declining, from 2013 when Australia ranked tenth among 34 OECD nations, to 2018 when Australia ranked fifth last;
    - (iii) Australian household debt as a share of GDP sits at 119.4 per cent of GDP, the second highest rate out of 41 countries assessed;
    - (iv) Australia is now the third most unaffordable housing market within the OECD; and
    - (v) Australia is lagging behind in the jobs recovery from this recession;

- (b) education outcomes:
  - (i) Australian children’s educational outcomes have slipped in both national and international terms, with Australia slipping in science and mathematics outcomes; and
  - (ii) OECD data confirms Australia has high tertiary tuition costs by global standards with the average annual borrowing by Australian students in tertiary programs rising by 36.7 per cent in just four years;
- (c) environmental outcomes:
  - (i) Australia’s rate of greenhouse gas emissions per capita has been the highest in the world;
  - (ii) Australia ranks second worst globally for government climate policy;
  - (iii) by 2018 Australia ranked 18 out of 25 of the world’s top energy-consuming countries with sharp declines from 2014 and 2016; and
  - (iv) Australia has the second highest level of biodiversity deterioration in the world; and
- (d) numerous other measures, Australia is falling behind and ranks poorly, for instance:
  - (i) First Nations Australians have the lowest life expectancy amongst First Nations people globally;
  - (ii) Australia now ranks only 8 out of 11 high-income countries for healthcare affordability;
  - (iii) Australia now ranks sixth worst in the OECD for obesity rates;
  - (iv) Australia’s global ranking for the proportion of women in the lower house of the national parliament fell from a high of thirty-second place in 2010 to forty-eighth place in 2019, noting that only 23 per cent of the entire coalition Government party room are women;
  - (v) Australia is ranked sixty-first globally for fixed broadband speeds;
  - (vi) investment in research and development in Australia has fallen significantly as a percentage of GDP under the current Government; and
  - (vii) Australia has become more corrupt under this Prime Minister, slipping to eleventh place on the Corruption Perception Index;
- (3) acknowledges that with a possible federal election this year, Australians have a right to question:
  - (a) how well they are doing under this visionless Government; and
  - (b) whose side the Government is on; and
- (4) condemns the Government for spending \$1 billion of taxpayer funds on government advertising, racking up over one trillion dollars’ worth of debt with nothing to show for it and wasting the economic recovery.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

## 6 GAS SECTOR

Mr Ramsey, pursuant to notice, moved—That this House:

- (1) acknowledges that gas:

  - (b) is a crucial input in our manufacturing sector, which employs over 850,000 Australians; and
  - (c) provides the firmed electricity generation needed to balance Australia’s record levels of renewable investment; and
- (2) calls on all Members of the House to support the Australian gas sector and the important role it plays in creating jobs, providing affordable energy and reducing emissions.

  - (c) the Australian Federation of Travel Agents, the peak body representing the nation's travel industry, has highlighted multiple flaws in the Government's \$128 million support package for embattled travel agents, which has provoked confusion and uncertainty; and
  - (d) travel agents say they'll be forced to close because the Government's support package is so poorly designed it won't help them;
- (2) acknowledges that Jobkeeper has been a lifeline for travel agents, and has allowed them to keep their doors open to continue to assist their clients with refund recoveries and those seeking to return home; and
- (3) urges the Government to:
  - (a) listen to the travel sector and respond to their calls for more targeted support to help them survive the detrimental impacts of COVID-19; and

  - (a) the Universities Foreign Interference Taskforce produced the *Guidelines to Counter Foreign Interference in the Australian University Sector* to ensure due diligence and to have conflict of interest polices in place to identify and mitigate risks of any foreign affiliations; and
  - (b) there are examples of intimidation, threats and coercion towards researchers and their families; and
- (4) further notes that the Government has invested \$145 million to combat foreign interference, including \$1.6 million to strengthen cybersecurity in universities.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

**10 DISTILLERIES**

Mr Wilkie, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) there are 300 locally owned distilleries spread across 84 federal electoral divisions, which directly support over 5,000 Australian jobs, with a further 15,000 jobs created through the supply chain including across primary producers, hospitality and tourism sectors;
  - (b) more than 65 per cent of Australian distillers are in regional and rural areas which bring economic benefits through farm production, manufacturing, regional tourism and hospitality;
  - (c) Australia has the third highest spirit tax in the world, with spirits taxed up to three times more than wine, cider and beer, disproportionately impacting craft and boutique distilleries;
  - (d) it makes no sense to tax grain-based spirits, like gin, vodka and whisky, up to \$6 per litre more than grape-based spirits like brandy; and
  - (e) given the effects of the COVID-19 pandemic on the industry, it makes practical sense to support our local craft distillers; and

- (2) calls on the Government to:
- (a) cut the spirits excise rate to the brandy rate;
  - (b) freeze spirits and brandy CPI indexation for three years; and
  - (c) provide much needed relief to local craft distillers by increasing the current excise refund scheme limit from \$100,000 to \$350,000 for two years, bringing it into line with the rebate offered to small wine producers under the wine equalisation tax.

Debate ensued.

The time allotted for the debate having expired, the debate was interrupted, and the resumption of the debate made an order of the day for the next sitting.

#### 11 EMISSIONS TARGETS

Mr T. R. Wilson, pursuant to notice, moved—That this House:

- (1) acknowledges that the Government is taking real and practical action to reduce emissions while protecting our economy, jobs and investment; and
- (2) welcomes that the Government's plan is driven by technology not taxes, and the plan is working, for instance:
  - (a) we beat the 2020 target by 459 million tonnes;
  - (b) updated forecasts show Australia is on track to meet and beat its 2030 Paris target; and
  - (c) over the past two years, our position against our 2030 target has improved by 639 million tonnes—equivalent to taking all of Australia's 14.7 million cars off the road for 15 years.

Debate ensued.

Debate adjourned and the resumption of the debate made an order of the day for the next sitting.

#### 12 ADJOURNMENT

On the motion of Mr Falinski, the Federation Chamber adjourned at 7.25 pm, until 4 pm tomorrow.

## 8 STATEMENT BY SPEAKER

The Speaker made the following statement:

As Members are aware, freedom of speech is a powerful privilege which enables the operation of the Parliament, and attaches to all parliamentary proceedings.

With this privilege comes the responsibility of us all to choose our words carefully, with due regard to potential consequences. This is especially so in relation to remarks about a specific criminal complaint made to police.

Conventions of the House guide us in exercising this responsibility—one of those conventions is the sub judice convention. House of Representatives Practice contains a very useful and clear statement in relation to the sub judice convention and I am going to read that—

“In exercising a discretion in applying the sub judice convention the Speaker makes decisions which involve the inherent right of the House to inquire into and debate matters of public importance while at the same time ensuring that the House does not set itself up as an alternative forum to the courts or permit proceedings of the House to interfere with the course of justice.”

Some aspects make the current situation distinctive.

To my knowledge, it is unprecedented that a criminal complaint of sexual assault occurring in the parliamentary precincts has been made. Further, it is not common that there would be such widespread knowledge of any police complaint at this initial stage. The fact that we are in a situation that is so distinctive does not, though, relieve us of our responsibilities.

In addition to this, the President of the Senate and I have consulted with the Commissioner of the Australian Federal Police and the Chief Police Officer of the ACT in the last few days about this ongoing matter. ACT Policing, through the ACT Chief Police Officer Neil Gaughan, and ACT Deputy Chief Police Officer Michael Chew, advised that its inquiry is ongoing in relation to the matter and further commentary in relation to the investigation may be prejudicial to the criminal investigation. This includes any reference to ‘facts in issue’ to the investigation, as everything is currently material to any prosecution that may be commenced.

I would therefore remind all Members to exercise the rights they have responsibly or risk complicating or compromising an important police investigation.

- (2) notes that, in relation to:
  - (a) the economy, even before the COVID-19 pandemic the Government had badly mismanaged the economy with reputable data and global rankings showing that:
    - (i) real wages in Australia were 0.7 per cent lower in 2019 compared to 2013, with Australia ranked third last out of 35 OECD countries to wage growth;
    - (ii) over eight years of the current Government, Australia's productivity rate has been steadily declining, from 2013 when Australia ranked tenth among 34 OECD nations, to 2018 when Australia ranked fifth last;
    - (iii) Australian household debt as a share of GDP sits at 119.4 per cent of GDP, the second highest rate out of 41 countries assessed;
    - (iv) Australia is now the third most unaffordable housing market within the OECD; and
    - (v) Australia is lagging behind in the jobs recovery from this recession;
  - (b) education outcomes:
    - (i) Australian children's educational outcomes have slipped in both national and international terms, with Australia slipping in science and mathematics outcomes; and
    - (ii) OECD data confirms Australia has high tertiary tuition costs by global standards with the average annual borrowing by Australian students in tertiary programs rising by 36.7 per cent in just four years;
  - (c) environmental outcomes:
    - (i) Australia's rate of greenhouse gas emissions per capita has been the highest in the world;
    - (ii) Australia ranks second worst globally for government climate policy;
    - (iii) by 2018 Australia ranked 18 out of 25 of the world's top energy-consuming countries with sharp declines from 2014 and 2016; and
    - (iv) Australia has the second highest level of biodiversity deterioration in the world; and
  - (d) numerous other measures, Australia is falling behind and ranks poorly, for instance:
    - (i) First Nations Australians have the lowest life expectancy amongst First Nations people globally;
    - (ii) Australia now ranks only 8 out of 11 high-income countries for healthcare affordability;
    - (iii) Australia now ranks sixth worst in the OECD for obesity rates;
    - (iv) Australia's global ranking for the proportion of women in the lower house of the national parliament fell from a high of thirty-second place in 2010 to forty-eighth place in 2019, noting that only 23 per cent of the entire coalition Government party room are women;
    - (v) Australia is ranked sixty-first globally for fixed broadband speeds;
    - (vi) investment in research and development in Australia has fallen significantly as a percentage of GDP under the current Government; and
    - (vii) Australia has become more corrupt under this Prime Minister, slipping to eleventh place on the Corruption Perception Index;
- (3) acknowledges that with a possible federal election this year, Australians have a right to question:
  - (a) how well they are doing under this visionless Government; and
  - (b) whose side the Government is on; and

- (4) condemns the Government for spending \$1 billion of taxpayer funds on government advertising, racking up over one trillion dollars' worth of debt with nothing to show for it and wasting the economic recovery—

- (a) \$14.8 million to tackle the marine impacts of ghost nets and plastic litter;
