Debate resumed.

Debate adjourned (Mr Porter—Leader of the House), and the resumption of the debate made an order of the day for a later hour this day.

### 24 FUTURE DROUGHT FUND BILL 2019 AND FUTURE DROUGHT FUND (CONSEQUENTIAL AMENDMENTS) BILL 2019

Mr Burke, by leave, moved—That the House:

(1) notes that:

- (a) the Government first introduced the Future Drought Fund Bill and Future Drought Fund (Consequential Amendments) Bill into the House of Representatives in November last year;
- (b) the Government failed to prioritise the bills, with the Future Drought Fund Bill being introduced but never debated in the Senate, and the Future Drought Fund (Consequential Amendments) Bill never passing the House;
- (c) the Government introduced 26 bills into the House of Representatives last sitting week but these bills were not among them;
- (d) today, the Government is seeking to both introduce and debate the amended bills on the one day;
- (e) it is usual for bills to be introduced by the Government in one sitting week and not debated until the following sitting week to allow Members the opportunity to properly consider bills before voting on them; and
- (f) the drought funding in these bills is not available to help farmers until 1 July 2020; and

(2) therefore, calls on the Government to adjourn debate on these bills immediately following the Minister's speech on the second reading to allow all Members the opportunity to properly consider these bills before debate resumes tomorrow.

## VOTES AND PROCEEDINGS

No. 6

WEDNESDAY, 24 JULY 2019

1 The House met, at 9.30 am, pursuant to adjournment. The Speaker (the Honourable A. D. H. Smith) took the Chair, made an acknowledgement of country and read Prayers.

**2 SELECTION COMMITTEE**

The Speaker presented the following document:

Report No. 1 relating to the consideration of committee and delegation business and private Members' business on Monday, 29 July 2019.

**3 PRIVILEGES AND MEMBERS' INTERESTS COMMITTEE—MEMBERSHIP**

The House was informed that the Chief Opposition Whip had nominated Ms Wells to be a member of the Committee of Privileges and Members' Interests.

Mr Tehan (Minister for Education), by leave, moved—That Ms Wells be appointed a member of the Committee of Privileges and Members' Interests.

Question—put and passed.

**4 SUSPENSION OF STANDING ORDERS MOVED**

Dr Chalmers moved—That so much of the standing orders be suspended as would prevent the Member for Rankin from moving the following motion immediately—That the House:

- (1) notes that:
  - (a) the Member for Hughes has called for the family home to be included in the pension assets test, meaning more retirees will be pushed off the pension, out of their homes or both;
  - (b) twelve members of the Government have now called for changes to the legislated increase to the superannuation guarantee;
  - (c) the Government has already short-changed pensioners by refusing to properly adjust deeming rates for years despite five interest rate cuts;
  - (d) the Government made a deal with the Greens to change the pension asset test, which meant that the pension was cut for 370,000 pensioners, with 88,000 losing their pension altogether;
  - (e) the Government tried to scrap the Energy Supplement for years, meaning 1.5 million pensioners would have had their payments cut;
  - (f) the Government has repeatedly sought to raise the pension age to 70;
  - (g) the Government tried to cut pension indexation in the 2014 Budget, which would have forced pensioners to live on \$80 a week less within ten years; and
  - (h) the Government cut \$1 billion from pensioner concessions in the 2014 Budget; and
- (2) therefore, condemns the Government for undermining the retirement incomes of millions of Australians.

*Closure of Member*

Mr Porter (Leader of the House) moved—That the Member be no longer heard.

Question—put.

Ms Collins, pursuant to notice, moved—That this House:

- (1) notes that:
  - (a) after being neglected by successive State and Federal Liberal Governments, Tasmania is now in the depths of a housing crisis;
  - (b) under the Liberals, the Tasmanian housing market is failing renters, first-home buyers and people at risk of homelessness;
  - (c) the average middle-income Tasmanian household is in rental stress, paying about 30 per cent of their income just to put a roof over their head, and 20 per cent more Tasmanians are accessing homelessness and crisis housing services than two years ago;
  - (d) sadly, behind these statistics, Tasmanians are hurting;
  - (e) the new Federal Assistant Minister for Community Housing, Homelessness and Community Services wants to put a 'positive spin' on the housing crisis, which is disgraceful and shows an arrogant contempt for ordinary Tasmanians; and
  - (f) these unacceptable comments illustrate the failure and incompetence of the Liberals in Tasmania;
- (2) calls on the Federal Government to outline a plan to address this crisis—if there is a deal with Senator Lambie, the Government should release the details; and

  - (d) participants who are transferring from an existing Commonwealth, state or territory disability program, their interim NDIS plan and funding package will reflect their existing support levels, however, if that amount is lower than \$10,000 they will also receive the \$10,000 standardised interim plan for up to six months; and

- (4) notes that to achieve these objectives, the design and implementation of a robust integrity commission should include:

  - (b) under this Government:
    - (i) more than 150,000 traineeships and apprenticeships have been lost;
    - (ii) \$3 billion has been slashed from TAFE and training; and
    - (iii) 75 per cent of businesses are struggling to find qualified Australians to fill jobs; and
- (2) further notes that:
  - (a) the Coalition's answer to the ongoing demise of the VET sector is a \$525 million skills package, yet Senate estimates confirmed that only \$54.5 million of this is new funding for the sector;
  - (b) the business community, unions and the not-for-profit sector are demanding reform and real funding—they know that a strong and growing economy depends on a skilled Australian workforce; and

- (6) acknowledges that 2019 is the bicentenary of the Baha'i Faith;
- (7) notes that the Baha'i Faith teaches core principles of inclusivity, public service and peacefulness;

- (9) understands that most, if not all, of the world's major religions have, at various times including the present, suffered persecution in some form; and

(10) holds that the importance of freedom of religion is both an individual and a collective right, protected under international and domestic law, whereby all people are free to adopt and hold a belief, as well as manifest that belief in worship, observance, practice or teaching.

Questions without notice continuing—

*Suspension of standing orders moved*

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

(1) notes:

- (a) the Prime Minister has refused to sack the Minister for Energy and Emissions Reduction despite the Minister admitting on radio he was acting for private interests instead of the public interest and despite the Minister's clear and repeated breaches of the Prime Minister's Ministerial Standards;
- (b) the Prime Minister has prevented the Member for Chisholm from providing a full statement in her own words to this House where words carry consequences and instead relied on a statement prepared by the Prime Minister's office issued outside the House;
- (c) on Friday, the Prime Minister denied using the phrase "Shanghai Sam" despite using it at least 17 times, including twice in the House; and
- (d) the Prime Minister's attempt to cover up his untruth on Friday with another untruth is just the latest in a long line of misdirection and obfuscation from this Prime Minister; and

(2) therefore, condemns this Prime Minister for repeatedly abandoning any sense of integrity whenever it is politically expedient for him to do so.

“whilst not declining to give the bill a second reading, the House:

  - (b) the bill is currently the subject of an inquiry by the Senate Legal and Constitutional Affairs Legislation Committee, which is due to report on 7 November 2019;
  - (c) while its final position on the bill will be determined following the conclusion of that inquiry, the Opposition has a longstanding opposition to mandatory sentencing; and
  - (d) among other things, the bill would introduce mandatory sentencing; and
- (2) is of the view that:
  - (a) there is no evidence to suggest that mandatory sentencing is an effective mechanism for deterring offenders or protecting the community;
  - (b) by contrast, experts – including the Commonwealth Attorney-General’s Department – have argued against the introduction of mandatory sentencing regimes, including on the basis that, where an offender is facing a mandatory minimum sentence, juries may be less likely to convict; and
  - (c) in light of the concerns raised by experts, and in the absence of any evidence that mandatory sentencing is effective, the Government should work with the Opposition on alternative approaches to sentencing that are more likely to achieve the core objectives of this bill, which are to punish child sex offenders and keep children safe from harm”.

And so it was resolved in the affirmative.

On the motion of Mr Dutton, amendment (2) was agreed to, after debate.

Mr Dutton presented reasons, which were circulated, and are as follows:

*Reasons of the House of Representatives for disagreeing to Senate amendment No. 1*

Crimes Legislation Amendment (Police Powers at Airports) Bill 2019

#### AMENDMENTS MADE BY THE SENATE

#### STATEMENT OF REASONS FOR DISAGREEMENT WITH PROPOSED AMENDMENT

Amendment (1) provides that the provisions of the bill – which are intended to keep the Australian public safe – would sunset after four years. This amendment is not supported for numerous reasons including:

- the provisions in the bill are intended to improve the safety and security of Australia's major airports and aviation network, on an ongoing basis – not just for a prescribed period.

- airports are and will continue to be high profile targets for terrorists. Over recent years, terrorist attacks on airports in Brussels, Istanbul and Paris, to cite just a few examples, highlight how real and unique the threat of terrorism is to the airport environment. Australia is not immune to the threats or impacts of terrorism, and as such the provisions in this bill are necessary to ensure that Australia's aviation network remains among the safest in the world.
- airports are also a transit point for transnational, serious and organised crime groups seeking to traffic people, illicit drugs and weapons within Australia and abroad. Around 70% of Australia's serious and organised crime threats are based offshore or have strong offshore links. Protecting Australians and safeguarding our aviation network against malicious criminal activities is of paramount importance now, and will remain of paramount importance into the future.
- the measures in this bill address complexity and inconsistencies in laws across the States and Territories and the Commonwealth. Currently, police are required to rely on a patchwork of Commonwealth, State and Territory laws to address the criminal, safety and security threats at major Australian airports. The bill will give police consistent and appropriate powers to respond to these threats.
- the threats to Australia's aviation network are not static and are not expected to disappear or diminish in four years. Accordingly, the House is resolved to ensure that police powers at airports are appropriate and responsive to the evolving threat environment.
- the bill has been considered in detail by the Parliamentary Joint Committee on Intelligence and Security, as well as the Parliamentary Joint Committee on Human Rights and the Senate Standing Committee for the Scrutiny of Bills. The views and recommendations of these committees have been incorporated into the bill. No recommendations were made by these committees that the bill should sunset after four years from the day of commencement.

Accordingly, the House of Representatives does not accept this amendment.

On the motion of Mr Dutton, the reasons were adopted.

#### 15 SUSPENSION OF STANDING ORDERS MOVED

Mr Bandt moved—That so much of the standing orders be suspended as would prevent the Member for Melbourne from moving the following motion immediately—That the House:

- (1) declares an environment and climate emergency;
- (2) recognises that:
  - (a) the recent report of the Inter-governmental Panel on Climate Change (IPCC), Special Report: Global Warming of 1.5 °C, indicates that we are facing a climate emergency, and as a result, meaningful action on climate change is urgent, at home and internationally;
  - (b) this IPCC report has found that the world is not on track to limit global warming to less than 1.5 degrees Celsius;
  - (c) at a national level, England, France, Wales, Scotland, Ireland, and Canada have all declared a climate emergency; and
  - (d) unmitigated climate change will lead to a steep increase in the severity and frequency of extreme weather events that will devastate large parts of Australia and radically impact food production, water availability, public health, infrastructure, the community and the financial system; and
- (3) notes that the Government has acknowledged urgent action is required to address climate change and calls on the Government to take urgent action consistent with avoiding catastrophic climate change, the goals of the Paris Agreement and internationally accepted science.

Debate ensued.

**12 TREASURY LAWS AMENDMENT (2019 MEASURES NO. 2) BILL 2019**

The order of the day having been read for the resumption of the debate on the question—That the bill be now read a second time—

Debate resumed by Mr Jones who moved, as an amendment—That all words after “That” be omitted with a view to substituting the following words:

“whilst not declining to give the bill a second reading, the House:

- (1) notes:
  - (a) that this Government has no plan to support the Australian economy; and
  - (b) that, in the absence of any Government plan for the economy, the IMF has today slashed Australia’s growth rate forecast to just 1.7 per cent—the lowest level in a decade—and predicts unemployment to stay stubbornly high; and
- (2) calls on the Government to immediately undertake sensible economic action by:
  - (a) bringing forward infrastructure investments, particularly in regional areas;
  - (b) bringing forward part of its stage 2 income tax package to 2019-20 to provide relief for middle income earners, as this would have provided up to \$1,350 a year to those earning above \$90,000 three years earlier than currently planned;
  - (c) reviewing and responsibly increasing the rate of Newstart, as this would help to alleviate poverty, help people get into work, and would provide an effective and much needed boost to consumption;
  - (d) implementing a version of the Opposition’s Australian Investment Guarantee to incentivise and boost business investment; and
  - (e) developing a comprehensive plan to boost wages, starting with restoring penalty rates for workers who are most likely to spend in the economy”.

Debate ensued.

- (1) notes that the:
  - (a) International Monetary Fund has slashed its growth forecast for the Australian economy for this year by almost 20 per cent;
  - (b) downgrade to Australia’s growth forecast by the International Monetary Fund is four times worse than the downgrade to advanced economies;
  - (c) Government has consistently ignored growing evidence that the Australian economy is floundering, including:
    - (i) the slowest economic growth in a decade;
    - (ii) the worst wages growth on record;
    - (iii) a record 1.9 million Australians being unemployed or underemployed;
    - (iv) a decline in GDP per capita last year, with flat growth in the last quarter;
    - (v) record levels of household debt;
    - (vi) consumer confidence at a four-year low;
    - (vii) business confidence well below average; and
    - (viii) sluggish productivity growth;
  - (d) International Monetary Fund has called on countries, including Australia, to provide fiscal support, saying “Monetary policy cannot be the only game in town and should be coupled with fiscal support where fiscal space is available”; and
  - (e) Government has no plan to address Australia’s floundering economy and continues to ignore calls from the Reserve Bank of Australia and the International Monetary Fund to provide fiscal support, including by investing in infrastructure; and

- (2) therefore, calls on the Prime Minister to be straight with the Australian people about Australia's floundering economy and develop a plan to stimulate economic growth, including by bringing forward infrastructure investment across the nation including in regional and rural Australia.

- (e) homelessness includes those in crisis accommodation, improvised dwellings, temporary accommodation, boarding houses and other insecure forms of housing;
- (f) inadequate provision of public housing is a major cause of homelessness;

- (g) public housing is a central tenant of an equitable Australia where a fair go requires access to secure accommodation;

## 7 SUSPENSION OF STANDING ORDERS MOVED

Mr Burke (Manager of Opposition Business) moved—That so much of the standing orders be suspended as would prevent the Member for Watson from moving the following motion immediately—That the House:

- (1) notes that:
  - (a) on the evening of 23 October 2019, *The Guardian* reported the Minister for Emissions Reduction had used incorrect figures from the City of Sydney Annual Report 2017-18 in a letter to the Lord Mayor of Sydney;
  - (b) the next day, the Minister told the House “The document was drawn directly from the City of Sydney’s website”;
  - (c) despite the Minister’s claim, all the evidence to date is that no such document ever existed on the website, the altered document has only ever been produced by the Minister’s office and the doctored figures have only ever been used by the Minister in his official ministerial correspondence, including:

- (i) City of Sydney metadata which shows the Annual Report on its website has not been altered since it was published on 27 November 2018;
  - (ii) public archives which show the Annual Report published on the City of Sydney website contained the correct travel figures on 27 March, 20 April, 19 June and 24 October 2019;
  - (iii) a Daily Telegraph report that “Mr Taylor’s office had sent *The Daily Telegraph* the altered document”; and
  - (iv) the draft letter the Minister’s Department submitted to the Minister’s office contained no travel figures at all; and
- (d) deliberately misleading the Parliament is both a contempt of the Parliament and a breach of the Ministerial Standards; and
- (2) therefore, calls on the Minister for Emissions Reduction to make a full and frank statement to the House before it rises tonight explaining how he has not deliberately misled the Parliament.

Question—put.

  - (d) there is a significant indirect cost of prisons, including the impact on the 77,000 children who have an incarcerated parent, adverse effects on the physical and mental wellbeing of inmates, and high rates of homelessness and joblessness among ex-prisoners;
- (2) acknowledges that:
  - (a) the Indigenous incarceration rate is now 2.5 percent, the highest level on record;
  - (b) the Indigenous incarceration rate is now over twice as high as when the 1991 Royal Commission into Aboriginal Deaths in Custody report was delivered;

- (3) notes that in:
- (a) the United States (US), a bipartisan reform coalition at the state level has led to a substantial reduction in that nation’s imprisonment rate over the past decade, with conservative groups such as Right on Crime joining with centrist reformers such as the Pew Charitable Trust’s Public Safety and Performance Project to reduce incarceration in states such as Alabama, Texas and South Carolina; and
  - (b) 2018, President Trump signed the ‘First Step Act’, which reduces the US federal prison population by expanding compassionate release and increasing credits for good behaviour; and
- (4) calls on the Government to:
- (a) work with the states and territories to adopt justice targets under the Closing the Gap framework, so that the inequality in justice outcomes can be properly highlighted and to address unacceptable levels of incarceration among First Nations peoples;
  - (b) require the Australian Institute of Criminology to project levels of incarceration (and fiscal costs) in 10 years’ time in the absence of meaningful policy reform; and
  - (c) engage states and territories in a data-driven conversation—drawing together victims’ rights groups, prosecutors, and criminal justice experts—to identify the policies that are most effective to reduce crime and imprisonment.

  - (c) the Australian tech sector could create an additional \$50 billion per year were Australia successful in catching up and matching the tech sector growth rates of our global peers;

*Suspension of standing orders moved*

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

(1) notes that:

- (a) shortly before Question Time yesterday, the NSW Police issued a statement confirming that detectives had launched Strike Force Garrad to investigate a fraudulent document used by the Minister for Emissions Reduction;

- (b) the statement by the NSW Police said “as investigations are ongoing, no further information is available”;
  - (c) despite that statement and only hours later, the Prime Minister called the NSW Police Commissioner and sought further information, later telling the Parliament they had spoken “about the instigation, the nature and the substance of their inquiries”;
  - (d) today, Malcolm Turnbull said it would have been much better had the Prime Minister’s phone call to the NSW Police Commissioner not been made because it was important the inquiry “is seen to be conducted entirely free of political influence”; and
  - (e) when Members of his Government were the subject of a police investigation, John Howard said “I told my colleagues that the Federal Police should be allowed to carry out this investigation without let or hindrance from me or anybody in the federal government”; and
- (2) therefore resolves, the Prime Minister acted inappropriately by:
- (a) calling the NSW Police Commissioner when all he had in mind was his own political interest and not the national interest; and
  - (b) thinking none of the usual rules of integrity and accountability apply to him.

## 20 UNRESOLVED QUESTIONS—FEDERATION CHAMBER—STATEMENT BY SPEAKER

The Speaker made the following statement:

Last night during the Grievance Debate and this morning during Constituency Statements, a number of closure motions were moved in the Federation Chamber under standing order 80, which were not agreed on the voices. Under standing order 188 unresolved questions from the Federation Chamber are reported to the House for resolution.

However, by the time the matters could have been dealt with by the House the relevant items of business had concluded. There are a number of precedents for not proceeding to deal with unresolved questions which have become redundant in such circumstances. I refer Members to page 786 of *House of Representatives Practice* and to the various examples provided in the footnotes of situations where divisions on unresolved questions were not proceeded with. I propose to follow the practice of my predecessors in not proceeding to divisions on these questions.

**27 SUSPENSION OF STANDING ORDERS MOVED**

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

(1) notes that:

- (a) today in Question Time, the Prime Minister told the House that in March 2013, a then detective in Victoria Police's fraud squad, Ross Mitchell, made a statement about former Prime Minister Julia Gillard;
- (b) that statement was made word for word by radio host Ben Fordham—a fact which is clear from *The Australian* newspaper article by Hedley Thomas dated 27 April 2013, which reports that statement; and

- (c) in attempting to defend a Minister who has deliberately misled the Parliament, the Prime Minister today has misled the Parliament; and
- (2) therefore, calls on the Prime Minister to do what is required by the House and his own Ministerial Standards and attend the Chamber to correct his misleading statement at 9.30 am tomorrow.

## VOTES AND PROCEEDINGS

No. 31

THURSDAY, 28 NOVEMBER 2019

1 The House met, at 9.30 am, pursuant to adjournment. The Speaker (the Honourable A. D. H. Smith) took the Chair, made an acknowledgement of country and read Prayers.

2 **APPROPRIATIONS AND ADMINISTRATION—STANDING COMMITTEE—REPORT**

The Speaker presented the following document:

Appropriations and Administration—Standing Committee—Report No. 18: Annual report 2018-2019—Report, November 2019.

In accordance with standing order 39(e) the report was made a Parliamentary Paper.

3 **SUSPENSION OF STANDING ORDERS MOVED**

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

- (1) notes that:
  - (a) in attempting to defend a Minister who has deliberately misled the Parliament, the Prime Minister misled the Parliament;
  - (b) yesterday in Question Time, the Prime Minister told the House that in March 2013, a then detective in Victoria Police's fraud squad, Ross Mitchell, made a statement about former Prime Minister Julia Gillard;
  - (c) that statement was made word for word by radio host Ben Fordham—a fact which was clear from *The Australian* newspaper article dated 27 April 2013 by Hedley Thomas which reports that statement;
  - (d) late yesterday, the Prime Minister admitted that he had misled the Parliament but despite *House of Representatives Practice* being clear that a misleading of Parliament can be corrected by either making a statement to the House or writing to the Clerk of the House, the Prime Minister instead directed that letter to the Speaker be tabled by another Minister; and
  - (e) the Prime Minister has refused repeated calls from the Leader of the Opposition to attend the House at 9.30 am today to correct the record in the form demanded by the House; and
- (2) therefore, calls on the Prime Minister to do what is required by both *House of Representatives Practice* and his own Ministerial Standards and immediately attend the Chamber to correct his misleading statement.

*Closure of Member*

Mr Porter (Leader of the House) moved—That the Member be no longer heard.

Question—put.

#### 10 FEDERAL INTEGRITY COMMISSION

Mr Wilkie, by leave, moved—That:

- (1) the House notes that:
  - (a) over a long time now the behaviour of both major parties has made it abundantly clear that Parliament cannot deal with matters of ministerial integrity, and Australia urgently needs a Federal Integrity Commission;
  - (b) Australia needs a strong and independent integrity commission that can launch its own inquiries, hold public hearings, make public findings and examine federal politicians and their staff;
  - (c) the scope of this integrity commission must extend beyond criminal offences to a range of corrupt and unethical behaviour including donation-fuelled favouritism, cronyism and the rorting of parliamentary entitlements;
  - (d) the Federal Government's proposed National Integrity Commission is half-baked and would be the weakest watchdog in the country with its investigations being held behind closed doors and the results kept secret; and
  - (e) the Australian peoples' trust in members of parliament is at an all-time low and we need to rebuild the culture of integrity in this Parliament because it is essential that the community has faith in the institutions of government;
- (2) the House further notes that, in September this year, the Senate passed a bill to establish a federal anti-corruption commission; and
- (3) the Members for Clark, Kennedy, Mayo and Melbourne therefore call on the major parties for bipartisan support for a strong, well-funded, wide ranging and independent national integrity commission without delay.

**3 ROYAL COMMISSION INTO AGED CARE QUALITY AND SAFETY INTERIM REPORT**

Ms Templeman, pursuant to notice, moved—That this House:

(1) notes:

- (a) that the Royal Commission into Aged Care Quality and Safety handed down its interim report on 31 October 2019;
- (b) the commissioners identified three areas where there is a need for urgent action—these include, to:
  - (i) provide more home care packages to reduce the waiting list for higher level care at home;
  - (ii) respond to the significant over-reliance on chemical restraint in aged care, including through the seventh community pharmacy agreement; and
  - (iii) stop the flow of younger people with disability going into aged care and expediting the process of getting those younger people who are already in aged care out;

(2) recognises:

- (a) the commissioners stated in the interim report that they did not see any reason to delay action on these three areas;
- (b) the Government's own Royal Commission report stated it is 'neglect' to not provide more home care packages;
- (c) the commissioners stated in the interim report that they have been alarmed to find that many people died while waiting for a home care package while others prematurely move into residential care;
- (d) the commissioners also stated that funding should be forthcoming from the Government to ensure the timely delivery of home care services;
- (e) more than 16,000 older Australians died waiting for their approved home care package they were assessed for in 2017-18—sadly, that was around 300 older Australians that died each week in that year waiting for care; and
- (f) more than 14,000 older Australians entered residential aged care prematurely because they couldn't get the care they were assessed and approved for in 2017-18—sadly, that was around 200 older Australians each week having no other choice but to enter residential aged care; and

(3) calls on the Government to take urgent action immediately and respond to the three areas included in the Royal Commission's interim report.

  - (a) Australia's availability of land, high quality renewable energy resources and fossil energy resources, as well as our well-established reputation for undertaking large-scale resource projects, position Australia well for becoming a key exporter in a future global hydrogen market;
  - (b) the combined direct and indirect benefits of establishing a hydrogen production and export industry in Australia under a medium demand scenario will deliver to the Australian economy \$4.2 billion and over 7,100 jobs by 2040;
  - (c) greater use of hydrogen is one way that Australia can contribute to global efforts to reduce greenhouse gas emissions and air pollution, if Australian produced hydrogen replaces traditional fossil fuel sources in end user nations; and
  - (d) the National Hydrogen Strategy is to be released by the end of 2019, providing the Government with an opportunity to signal its long term policy and commitment to this industry;
- (3) welcomes the Government's significant investment of more than \$140 million into hydrogen projects, partnering with industry to develop tangible solutions that are important for bringing down energy prices for Australian households and small businesses; and
- (4) encourages the Government to utilise the opportunity of the release of the National Hydrogen Strategy to confirm its long term commitment to the development of our hydrogen capability in order to encourage private investment in the sector, create jobs, create export capability and reduce global carbon emissions.

**3 SUSPENSION OF STANDING ORDERS MOVED**

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

- (1) notes that:
  - (a) wages growth is at record lows under this seven-year-old Government;
  - (b) the Reserve Bank has declared that “lower wage rises have become the new normal”;
  - (c) the Finance Minister has said that low wages is a “deliberate design feature” of the Government’s economic policies;
  - (d) the Parliament rejected the Government’s original bill attacking working Australians just days ago;
  - (e) the Government is continuing its attack on the very people that work to deliver wage rises for Australians;
  - (f) the Government has a tactic where it first seeks to attack the organisations that defend workers’ pay and conditions, and secondly will then directly attack the pay and conditions of workers; and
  - (g) this is another example of the Prime Minister’s arrogance and hubris; and
- (2) therefore, calls on this Prime Minister to listen to the Parliament, stop being so stubborn and abandon his anti-worker legislation.

THE PARLIAMENT OF THE COMMONWEALTH OF AUSTRALIA

## HOUSE OF REPRESENTATIVES

## VOTES AND PROCEEDINGS

No. 35

THURSDAY, 5 DECEMBER 2019

1 The House met, at 9.30 am, pursuant to adjournment. The Speaker (the Honourable A. D. H. Smith) took the Chair, made an acknowledgement of country and read Prayers.

2 **DISORDER IN FEDERATION CHAMBER—REPORT TO HOUSE—STATEMENT BY SPEAKER**

The Speaker made the following statement:

I have to report that the Deputy Speaker has informed me that yesterday the Federation Chamber was adjourned early because of disorder by Members on both sides.

I understand that following a number of closure motions moved by Members on both sides, with consequent unresolved questions, the Federation Chamber was suspended. When the meeting was resumed another closure was moved. In the Deputy Speaker's view and in my view these repeated motions were an abuse of the forms of the House and were disorderly.

Members on both sides should be aware of how this conduct reflects on the House and I trust there will be no repetition. If there is, Members may simply be denying themselves the opportunity to make the kinds of remarks so many of them would wish to make at this time of the year.

3 **SUSPENSION OF STANDING ORDERS MOVED**

Mr Bandt moved—That so much of the standing orders be suspended as would prevent the Member for Melbourne from moving the following motion immediately—That the House:

(1) notes that:

- (a) the Senate voted yesterday to support a Government bill to repeal the 'medevac' law, which was helping sick people get the medical treatment they need;
- (b) Senator Lambie has repeatedly said she placed a secret condition on her support for the bill, and then told the Senate yesterday that she had secured a deal with the Government which led to her voting for the repeal bill, saying 'So I put a proposal to the Government, and since then we have worked together really hard to advance that proposal. We've worked to an outcome I believe we both want ... As a result of that work, I'm more than satisfied that the conditions are now in place to allow medevac to be repealed';
- (c) the Leader of the Government in the Senate, Senator Cormann, told the Senate the direct opposite, emphatically claiming there was no deal with Senator Lambie, saying 'Let me make the most important point up front: there is no secret deal. Let me repeat that again: there is no secret deal';
- (d) the Government gagged debate on the bill, forcing the Senate to vote without knowing the full facts surrounding the agreement that Senator Lambie claims exists;
- (e) the media reports today that the Prime Minister wrote a letter to Senator Lambie in relation to the passage of the bill; and
- (f) this secrecy and lack of transparency from the Government fundamentally undermines trust in democracy and this Parliament; and

- (2) therefore requires the Prime Minister to attend the chamber by 12 noon today to respond to Senator Lambie's statements made in the Senate yesterday, to fully explain the details of all deals, arrangements and understandings with Senator Lambie regarding the 'medevac' repeal bill and table any associated documents or letters.

*Closure of Member*

### 30 SECURITY AND INFORMATION SYSTEMS—DOCUMENT

The Speaker moved—That the House:

- (1) note:
  - (a) the importance of ensuring that Australian Parliament House is a safe place to visit and work;
  - (b) longstanding security arrangements in Parliament House have evolved in recent years and that further changes are proposed, in particular the operation of Closed Circuit Television Systems (CCTV) and the new Electronic Access Control System (EACS);
  - (c) that these systems, like other security and information systems, are managed by the Department of Parliamentary Services, under the authority of the Presiding Officers, on behalf of the Parliament; and
  - (d) that, under the *Parliamentary Precincts Act 1988*, the powers of the Presiding Officers to manage and control the precincts apply subject to relevant orders of the Houses, which means that the administration of these security and information systems is constrained by the powers, privileges and immunities of the Houses and their members;
- (2) affirm that the collection, management and dissemination of information about Members and their staff is to be managed such that parliamentary privilege is protected absolutely;
- (3) in the absence of the House agreeing to alternative arrangements, consistent with paragraph (2), the release of CCTV and EACS material which may involve matters of privilege can only occur where the Speaker, having consulted the Clerk, then consults with the Leader of the House and the Manager of Opposition Business;
- (4) also note an EACS and CCTV Code of Practice will be reviewed regularly and it is also timely that the Memorandum of Understanding between the Australian Federal Police and the Parliament be updated; and
- (5) notwithstanding anything in this resolution, the powers, privileges and immunities of the House are maintained.

Debate resumed by Mr Jones who moved, as an amendment—That all words after “That” be omitted with a view to substituting the following words:

“whilst not declining to give the bill a second reading, the House:

- (1) notes that:
  - (a) it has been over 12 months since the Hayne Royal Commission exposed the fact that Aboriginal families have been taken advantage of by the deceptive conduct and the misleading selling of funeral insurance products in Aboriginal communities;
  - (b) the selling of these products has continued while the Government has delayed the introduction of remedial legislation;
  - (c) when passed, this bill will present a fundamental challenge to the questionable business model of the marketers of these products; and
  - (d) if the companies which have promoted those schemes fail, as many as 19,000 policy holders could lose the meagre benefit payments from those policies; and
- (2) therefore calls on the Government to work with the Opposition, and representatives of affected communities, to ensure that the policy holders and their families will be protected”.

## 20 MATTER OF PRIVILEGE—STATEMENT BY SPEAKER

The Speaker made the following statement:

On 5 December 2019 the honourable Member for Watson raised as a matter of privilege whether in statements made to the House, the honourable Member for Hume had misled the House such as to constitute contempt of the House.

The Member for Watson tabled a number of related documents and I have examined these as well as his statement to the House. I am satisfied that the Member has raised the matter at the earliest opportunity.

I note that the Member for Watson referenced the honourable Member for Hindmarsh as having referred to the Committee of Privileges and Members' Interests a separate matter about the Member for Hume's obligations in relation to the registration of Members' interests.

Deliberately misleading the House is one of the matters that can be found to be a contempt. While claims that members have deliberately misled the House have been raised as matters of privilege or contempt on a number of occasions, no Speaker has ever given precedence to allow such a matter to be referred as of right to the Committee of Privileges and Members' Interests.

To establish that contempt has been committed it would need to be shown that:

- (1) a statement had in fact been misleading;
- (2) the member knew at the time the statement was incorrect; and

(3) the misleading had been deliberate.

In relation to the question of a matter being a contempt, I note also that it must meet the test of section 4 of the *Parliamentary Privileges Act 1987* and be conduct that is intended or likely to amount to an improper interference with the free exercise by the House of its authority or functions, or with the free performance by a member of the member's duties.

There needs to be *prima facie* evidence of these aspects to establish a case for precedence to be given to a motion.

I have considered the information provided by the honourable Member for Watson. I understand that this matter is surrounded by differing views.

However, the matter of deliberately misleading the House is a very serious one and rightly there should be *prima facie* evidence that the House has been misled, and the misleading has been deliberate.

As it does not seem that a *prima facie* case has been made out in terms of the detail that Speakers have always required in relation to such allegations, it then follows that in accordance with the practice of the House, precedence as of right to a motion for this matter to be referred to the Committee of Privileges and Members' Interests cannot be given.

## 21 DISCUSSION OF MATTER OF PUBLIC IMPORTANCE—LEADERSHIP

    - (i) claim the response to the national bushfire crisis was a matter for the states and territories;
    - (ii) claim volunteer firefighters didn't need compensation because they wanted to be there;
    - (iii) statement that he didn't hold a hose when Australians were looking to him for national leadership in an unprecedented bushfire crisis; and
    - (iv) claim he had a conversation with a bushfire survivor who had lost everything when he instead forced her to shake his hand only to turn his back when she asked for help; and
  - (c) can't learn from his mistakes if he never admits them; and
- (2) therefore, calls on the Prime Minister to put the national interest ahead of his political interest.

  - (b) the Audit Office found there were 136 emails between the Prime Minister’s office and Senator McKenzie’s office over a six month period about the corrupt sports rorts scheme;
  - (c) the Audit Office also found the Prime Minister’s office emailed Senator McKenzie’s office about projects under the corrupt sports rorts scheme indicating ‘These are the ones we think should be included in the list of approved projects’;
  - (d) the Audit Office found the colour-coded spreadsheet was shared between Senator McKenzie’s office and the Prime Minister’s office on multiple occasions with multiple versions; and

#### 13 MESSAGE FROM THE SENATE

Message No. 137, 25 February 2020, from the Senate was reported informing the House that the Senate had agreed to the following resolution:

That the Senate—

(a) notes that:

- (i) all Australians deserve the best possible healthcare, especially older Australians,
- (ii) our community is ageing, with population projections for Australia suggesting that there will be 4 million people aged between 65-84 years by 2022, with the over 65 and over 85 cohorts rapidly accelerating over the next decade,
- (iii) a third of this cohort live outside of major cities in rural and regional Australia,

- (iv) as our population ages, our community will increasingly rely on appropriate aged care services for good health, support and dignity,
  - (v) Aged Care Assessment Teams (ACAT) are teams of experienced, qualified and highly trained medical, clinically and allied health professionals who are responsible for assessing the level of government-funded care that ageing Australians should receive,
  - (vi) in 2018-19, ACATs provided over 178,000 assessments,
  - (vii) ACAT teams are local, know their communities, have enormous expertise over 30 years, and their role is to independently assess what older Australians need and identify the best options,
  - (viii) ACAT teams are independent of private service providers and owe no allegiance or preference for any particular provider, and
  - (ix) the Morrison Government has announced it intends to privatise the ACAT workforce and put out a tender for these vital services; and
- (b) rejects the Morrison Government for its plans to privatise ACAT, which would threaten the quality and independence of services provided to ageing Australians, and jeopardise the jobs and independence of Australian healthcare professionals.

The Senate requests the concurrence of the House in this resolution.

Mrs Marino (Assistant Minister for Regional Development and Territories) moved—That consideration of the message be made an order of the day for the next sitting.

14 **SUSPENSION OF STANDING ORDERS MOVED**

Mr Burke (Manager of Opposition Business) moved—That so much of the standing orders be suspended as would prevent the Manager of Opposition Business from moving the following motion immediately—That the House:

(1) notes:

- (a) the Government is privatising the Aged Care Assessment Teams, the only part of the aged care system that is working well, before the Aged Care Royal Commission has even finished its work;
- (b) the Minister representing the Minister for Aged Care won't even own up to these plans;
- (c) this Government routinely prevents debate on issues of vital importance to this nation, including today's message from the Senate;
- (d) the extent to which this Government is silencing debate in the House of Representatives is without precedent in the history of Federation; and
- (e) this Government has not granted leave for a single urgent Opposition motion in this term of Parliament, has routinely shut down suspension of standing order motions, and even passed legislation where not a single person spoke other than the Minister; and

(2) therefore, asserts:

- (a) this should be a chamber where elected representatives come together to debate; and
- (b) this Government's practice of constantly silencing voices other than its own has no place in democracy.

#### 15 STATUTE UPDATE (REGULATIONS REFERENCES) BILL 2020

The order of the day having been read for the resumption of the debate on the question—That the bill be now read a second time—

Debate resumed by Mr Dreyfus who moved, as an amendment—That all words after “That” be omitted with a view to substituting the following words:

“whilst not declining to give the bill a second reading, the House:

- (1) notes the Government’s increasing use of regulations to implement its policies, which has the effect of bypassing the parliamentary scrutiny that is fundamental to the legislative process;
- (2) expresses concern that seeking to govern by regulation undermines the long-standing conventions of transparency and accountability which are an integral part of our democracy; and
- (3) calls on the Government to return to the principles of transparency and accountability that have until recent years defined Australia as a democratic nation governed under the rule of law”.

Debate ensued.

## VOTES AND PROCEEDINGS

No. 46

THURSDAY, 27 FEBRUARY 2020

1 The House met, at 9.30 am, pursuant to adjournment. The Speaker (the Honourable A. D. H. Smith) took the Chair, made an acknowledgement of country and read Prayers.

2 **SUSPENSION OF STANDING ORDERS MOVED**

Ms C. F. King moved—That so much of the standing orders be suspended as would prevent the Member for Ballarat from moving the following motion immediately—That the House:

- (1) notes the Prime Minister:
  - (a) has taken his rorts to the streets, allocating more than 83 percent of the \$3 billion Urban Congestion Fund to Liberal seats and marginal seats targeted by the Liberal Party;
  - (b) allocated funding to every Liberal seat that was marginal or under threat, as well as several marginal regional electorates held or targeted by the Liberal Party;
  - (c) did not allocate a cent to address congestion in 38 urban and regional city seats held by non-Government Members;
  - (d) incorrectly claimed the projects were election commitments, when the Urban Congestion Fund was established in the 2018 Budget;
  - (e) did not release any guidelines, did not formally call for expressions of interest, did not spend a cent from the Urban Congestion Fund in 2018-19, but did spend \$17 million of government resources on pre-election advertisements telling us how good it was; and
  - (f) repeatedly sought to downplay and dismiss the serious allegation that his government continually spends taxpayer dollars for private political gain; and
- (2) therefore calls on the Prime Minister to:
  - (a) correct his incorrect statement that Urban Congestion Fund projects are election commitments; and
  - (b) explain why his Government used taxpayer money as though it was its own personal marketing fund.

*Closure of Member*

Mr D. J. Chester (Minister for Veterans' Affairs) moved—That the Member be no longer heard.

Question—put.

*Suspension of standing orders moved*

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

- (1) notes:
  - (a) Sport Australia has told the Parliament today that it provided a brief to Senator McKenzie on 3 April 2019 recommending 245 sports projects be approved;
  - (b) Senator McKenzie wrote to the Prime Minister on 10 April, the day before he called the election, attaching a spreadsheet with projects she intended to approve by electorate, including party details;
  - (c) on 11 April, the day the Prime Minister called the election, Senator McKenzie provided a brief to Sport Australia dated 4 April approving 228 projects for funding;
  - (d) 73 per cent of these projects approved by Senator McKenzie were not recommended by Sport Australia;
  - (e) Sport Australia received the approved sports projects list from Senator McKenzie after the election had been called and after caretaker conventions had commenced;
  - (f) the Government approved a \$50,000 grant to the Sans Souci Football Club in the Prime Minister's own electorate despite the fact the project had already been built, had already been officially opened and was therefore ineligible for funding; and
  - (g) the Prime Minister is the master chef of cooking the books;
- (2) declares the Prime Minister has repeatedly misled the Parliament and he should have the integrity to correct the record as required by House practice; and
- (3) calls on the Prime Minister to provide a full and frank account as to why he has used taxpayer money to advance his own Government's partisan political interests.

Question—put and passed.

**9 DISORDER IN FEDERATION CHAMBER—REPORT TO HOUSE—STATEMENT BY SPEAKER**

The Speaker made the following statement:

I have to report that the Deputy Speaker has informed me that last Thursday, 27 February, the Federation Chamber was adjourned early because of continuing disorder. I understand that following closure motions moved by Members from both the Government and the Opposition, and consequent unresolved questions, the Federation Chamber was suspended. The Chair warned Members of the consequences if the disorder continued after the suspension. When the meeting was resumed another closure was moved and the Chair adjourned the Federation Chamber pursuant to standing orders.

I confirm that in my view and in the Deputy Speaker’s view, these repeated motions were an abuse of the forms of the House and were disorderly. On Thursday Members deprived themselves of opportunities to make constituency statements, to speak on the disaster risk reduction report and on the adjournment. More than that, this conduct reflects very poorly on the House. The Federation Chamber is very innovative and it does rely on consent of all Members if it is going to operate effectively.

The order of the day having been read for the resumption of the debate on the question—That the bill be now read a second time—*And on the amendment moved thereto by Ms M. M. H. King, viz.*—That all words after “That” be omitted with a view to substituting the following words:

“whilst not declining to give the bill a second reading, the House notes that:

- (1) after six years in office the economy is floundering on the Government’s watch;
- (2) Australians are struggling with stagnant wages, with wage growth stalling further;
- (3) net debt has more than doubled under this Government;
- (4) the Government does not have a plan to boost wages or growth in the economy; and
- (5) it is because of the Government’s failures that Australia meets the challenges and uncertainties of the bushfires and coronavirus from a position of weakness, not strength”—

Debate resumed.

Mr Stevens, by leave, again addressed the House.

Debate continued.

It being 1.30 pm, the debate was interrupted in accordance with standing order 43 and the resumption of the debate made an order of the day for a later hour this day.

- (3) net debt has more than doubled under this Government;
- (4) the Government does not have a plan to boost wages or growth in the economy; and
- (5) it is because of the Government's failures that Australia meets the challenges and uncertainties of the bushfires and coronavirus from a position of weakness, not strength”—

Questions without notice continuing—

*Member directed to leave*

At 2.37 pm the Member for Gellibrand (Mr Watts) was directed, under standing order 94, to leave the Chamber for one hour for interjecting and he accordingly left the Chamber.

Questions without notice continuing—

*Suspension of standing orders moved*

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

- (1) notes that:
  - (a) at 12.21 pm on 10 April 2019, Senator McKenzie’s office sent a letter from Senator McKenzie to the Prime Minister attaching a list of sports rorts projects she intended to approve;
  - (b) at 8.30 am on 11 April 2019, the election was called and caretaker conventions commenced;
  - (c) at 8.46 am on 11 April, Senator McKenzie’s office emailed the approval brief dated 4 April 2019 to Sport Australia with a list of approved projects attached;
  - (d) according to the Audit Office, between the 12.21 pm email to the Prime Minister’s office on 10 April and the 8.46 am email to Sport Australia on 11 April, one project had been removed and one project had been added “at the request of the Prime Minister’s office”;
  - (e) at 12.35 pm on 11 April, Senator McKenzie’s office sent a different list of projects to the Prime Minister’s office, with one project removed and nine new projects added;
  - (f) at 12.43 pm on 11 April, Senator McKenzie’s office sent the approval brief dated 4 April to Sport Australia with the final revised list of approved projects attached;
  - (g) the Audit Office found there were emails between the Prime Minister’s office and Senator McKenzie’s office on 10 and 11 April “sorting out what the final list of approved projects would look like”;
  - (h) the Audit Office confirmed that although Senator McKenzie’s approval brief was dated 4 April, the list of approved projects attached to the brief kept changing up until 12.43 pm on 11 April; and
  - (i) the Prime Minister has repeatedly claimed his office simply passed on information about sports grants and claimed the projects were approved on 4 April, but this new evidence proves beyond doubt the:
    - (i) Prime Minister was up to his neck in decisions on the corrupt sports rorts scheme;
    - (ii) approval brief dated 4 April 2019 kept changing up until 12.43 pm on 11 April; and
    - (iii) final list of approved projects wasn’t sent to Sport Australia until four hours after the election was called and caretaker conventions commenced; and
- (2) therefore, finds this Prime Minister has repeatedly and deliberately misled the Parliament and the Australian people about the corrupt sports rorts scheme.

*Closure of Member*

Mr Porter (Leader of the House) moved—That the Member be no longer heard.

Question—put.

## 8 QUESTIONS

Questions without notice being asked—

*Member directed to leave*

At 2.46 pm the Member for Moreton (Mr Perrett) was directed, under standing order 94, to leave the Chamber for one hour for interjecting and he accordingly left the Chamber.

Questions without notice continuing—

*Document*

Mr Morrison (Prime Minister) presented the following document:

Share and stand up for our troops—Photo authorised by G Wright, Australian Labor Party.

Questions without notice continuing—

*Suspension of standing orders moved*

Mr Albanese (Leader of the Opposition) moved—That so much of the standing orders be suspended as would prevent the Leader of the Opposition from moving the following motion immediately—That the House:

(1) notes that:

- (a) the Prime Minister promised \$2 billion of immediate support for bushfire affected communities but months later he's spent just 10 per cent;
- (b) the Prime Minister had an advertisement ready on the day he announced his bushfire response but bushfire affected communities are still waiting for support;

- (c) the Prime Minister promised to “rephrase and revise” his bushfire efforts but bushfire affected communities are still waiting;
  - (d) the Prime Minister has sought to blame the states for months for his failed response to the bushfires instead of fixing it;
  - (e) the Prime Minister ran an advertising campaign for the Urban Congestion Fund a year ago but still hasn’t spent any money from this fund reducing urban congestion;
  - (f) in Question Time, the Prime Minister has repeatedly refused to provide the same straight answer the Chief of the Defence gave to the same question; and
  - (g) the Prime Minister has refused to give straight answers about his role in the sports rorts scandal despite the Australian National Audit Office finding his office was directly involved even on the day the election was called;
- (2) therefore, condemns this Prime Minister for always putting marketing ahead of acting in the national interest and failing to provide straight answers to simple questions; and
- (3) further notes, that today in question time the Prime Minister engaged in deceptive conduct by attempting to criticise the Leader of the Opposition by tabling a document without revealing it was authorised by George Wright, the ALP National Secretary twice removed and said breaking news about Tony Abbott, the Liberal Prime Minister twice removed.

*Closure of Member*

No. 51

MONDAY, 23 MARCH 2020

**2 PROCEEDINGS FOR THE SITTING—STATEMENT BY SPEAKER**

The Speaker made the following statement:

I wish to draw the attention of Honourable Members to special arrangements for the operation of the Chamber during sittings this week to take account of precautions against the COVID-19 pandemic.

The most obvious is the changed seating arrangements which you will have already noticed. The increased spacing in the Chamber seating means that Members may not all be able to sit at their usual seats. Please sit only in the seat or at the space now allocated to you with your name. The seat allocations have been arranged to be sufficiently far apart to meet social distancing requirements. You will also note additional seats placed outside the benches. These seats are reserved for Members and are considered to be within the area of Member's seats for the purposes of any divisions that may be called. A Member sitting on one of these seats will be counted in a division.

Ministers and Shadow Ministers on the front benches may come to the despatch boxes to speak. Other Ministers and Shadow Ministers in the rows behind the front benches are asked to remain at their allocated temporary seats to speak.

During divisions the tellers will operate from the Hansard Table, which will not be otherwise occupied, in order to maintain appropriate spacing.

There will also be reduced services from the attendants. Water will not be provided by attendants, but is available in bottles located at the rear of the Chamber. Members can obtain their own water and are requested to dispose of the empty bottles in one of the bins. Members will also be allowed to bring their own water into the Chamber. The attendants will only take documents to and from members of the front benches in order to minimise closer contact and the handling of papers. There are bottles of hand sanitiser at a number of locations within and around the Chamber.

You will also note that several of the doors to the Chamber are open. This is to reduce the need for Members to touch the door handles. The doors, however, will be closed during any divisions. The handles will also be regularly cleaned during the day.

I am very conscious of the need to limit the total number of people in the Chamber at any one time. For this reason, occupants of the advisers' boxes will be required to leave during divisions. When divisions are called the attendants will hold the doors open, but will then remain outside the Chamber when the doors are locked.

The Press Gallery will be restricted to a maximum of only four registered media photographers plus Auspic at any one time, with only one registered photographer allowed to remain during divisions. The Press Gallery will be closed to all other media representatives. However, the media may use the second floor enclosed galleries at any time.

I thank Members for their cooperation and forbearance during this difficult and extraordinary time.

**3 SUSPENSION OF STANDING ORDERS—CONSIDERATION OF BILLS**

(20) when the sitting resumes any further business relating to the bills or other business agreed by a Minister and the Manager of Opposition Business to ensue and the Speaker then to adjourn the House until a later date and hour to be fixed by the Speaker; and

(21) any variation to this arrangement to be made only by a motion moved by a Minister with leave granted by the Manager of Opposition Business.

Debate ensued.

Question—put and passed, with the concurrence of an absolute majority.

“whilst not declining to give these bills a second reading, the House:

- (1) notes that this legislation gives the Treasurer extraordinary powers to include those not currently eligible for the Jobkeeper payment; and

I am pleased to advise the House that, along with a number of other agencies, the Department of Parliamentary Services has worked with Services Australia to redeploy 55 of its available employees to the national effort of, among other things, processing the many thousands of Jobseeker claims.

Having received full training by Services Australia at its Tuggeranong office, DPS staff are currently processing around 200 claims per day. A number of Hansard staff have also been seconded to the Department of Health to assist with the accurate and timely whole of government messaging regarding COVID-19.

I am also pleased to advise that DPS has worked collaboratively with Services Australia to establish the first Satellite Processing Centre here, at Australian Parliament House.

Currently, 32 DPS staff are now working from the Enid Lyons Alcove and the Sir Richard Baker Room and the remaining staff still working from the Tuggeranong office will return to work in the new Satellite Centre within the next week.

This Centre here in APH provides the flexibility to process Jobseeker claims and to then suspend this work if DPS staff are needed to return to their duties in support of the work of the Parliament.

- (b) the Opposition made a number of constructive suggestions to improve the bill prior to its introduction into the Parliament and the Attorney-General considered, in good faith, all of those suggestions;
- (c) to be a valuable public health tool, the Prime Minister has said that at least 40 per cent of the Australian population—or 10 million Australians—would have to download the Government’s COVIDSafe contact tracing app;
- (d) to date, approximately 5.5 million Australians have downloaded the COVIDSafe app; and
- (e) the passage of this bill, which incorporates a number of suggestions made by the Opposition, is likely to encourage more Australians to download the COVIDSafe contact tracing app; and

(2) is of the view that, in order to reach the Prime Minister’s 40 per cent target, there are other things the Government can and should be doing to build public confidence in the COVIDSafe app, including:

- (a) explain to the Australian people why the Government preferred to trust overseas multinational Amazon Web Services over a range of Australian certified cloud service providers when it came to awarding the COVIDSafe data storage contract;

- (b) take concrete steps to reassure and guarantee to the Australian public that none of the COVIDSafe app data stored by an overseas multinational cloud service provider can be accessed by foreign nationals, including Amazon employees and contractors and overseas law enforcement and intelligence services;
- (c) provide additional funding to the Office of the Australian Information Commissioner, and appoint a standalone Privacy Commissioner, to ensure that the Commissioner is able to properly perform the important oversight functions provided for in this bill;
- (d) urgently address the security and technical concerns that have been raised about the COVIDSafe app by technology experts and members of the public; and

#### 34 REFERRAL OF MATTER TO THE PARLIAMENTARY JOINT COMMITTEE ON CORPORATIONS AND FINANCIAL SERVICES

Mr Porter (Leader of the House), pursuant to notice, moved—That the following matter be referred to the Parliamentary Joint Committee on Corporations and Financial Services for inquiry and report by 7 December 2020:

Whether the present level of regulation applying to Australia's growing class action industry is impacting fair and equitable outcomes for plaintiffs, with particular reference to the following:

- (1) what evidence is available regarding the quantum of fees, costs and commissions earned by litigation funders and the treatment of that income;
- (2) the impact of litigation funding on the damages and other compensation received by class members in class actions funded by litigation funders;
- (3) the potential impact of proposals to allow contingency fees and whether this could lead to less financially viable outcomes for plaintiffs;
- (4) the financial and organisational relationship between litigation funders and lawyers acting for plaintiffs in funded litigation and whether these relationships have the capacity to impact on plaintiff lawyers' duties to their clients;
- (5) the Australian financial services regulatory regime and its application to litigation funding;
- (6) the regulation and oversight of the litigation funding industry and litigation funding agreements;
- (7) the application of common fund orders and similar arrangements in class actions;
- (8) factors driving the increasing prevalence of class action proceedings in Australia;

- (9) what evidence is becoming available with respect to the present and potential future impact of class actions on the Australian economy;
- (10) the effect of unilateral legislative and regulatory changes to class action procedure and litigation funding;
- (11) the consequences of allowing Australian lawyers to enter into contingency fee agreements or a court to make a costs order based on the percentage of any judgment or settlement;
- (12) the potential impact of Australia's current class action industry on vulnerable Australian business already suffering the impacts of the COVID-19 pandemic;
- (13) evidence of any other developments in Australia's rapidly evolving class action industry since the Australian Law Reform Commission's inquiry into class action proceedings and third-party litigation funders; and
- (14) any matters related to these terms of reference.

Debate ensued.

Mr Jones moved, as an amendment—That all words after “7 December 2020” be omitted with a view to substituting the following words:
