Written Question on Notice

Senator Boyce asked:

With the benefit of hindsight what wouldn't the Department do again and what things would it conversely make sure it did do in any future contract template?

Answer:

Where there is a relationship between a state or territory Government and a Funding Recipient, the Department of Health and Ageing would require these parties to inform the Department of any impact of this relationship on the capacity of the parties under the Funding Agreement to meet the requirements of the Funding Agreement.
