Hansard Page: CA 119

Senator Boyce asked:

- a) In relation to palliative care in Queensland, what projects, agencies or organisations have received or will receive money from the federal government? How much have they received?
- b) Could you give me the figures for each State and Territory please?

Answer:

a) and b)

The Australian Government has funded a wide range of projects to provide better support to people requiring palliative care and their families in their communities in every state and territory, including Queensland.

In 2011-12 funding was provided to organisations to manage significant national projects, or as one-off grants under Round 6 of the Local Palliative Care Grants Program for the purchase of equipment and/or fitting out premises.

A table listing the names of organisations and the amount funded, for each state and territory, is at Attachment A.
