

## **Committee Terms of Reference**

The Preventive Health Research Committee will provide advice to ANPHA on:

- the National Preventive Health Research Strategy;
- the development and implementation of the Preventive Health Research Grants Program, including on the dissemination of results to enable translation of research outcomes into policy;
- the prioritisation of policy questions upon which research and evaluations could be targeted;
- monitoring and surveillance relevant to preventive health research;
- avenues for facilitating knowledge sharing and collaborations and partnerships that would strengthen research on prioritised policy questions; and
- any other advice on preventive health research and evaluation requested by the CEO of ANPHA.
