**Type of Question:** Hansard Page 25, 25 February 2015

**Senator:** Peris, Nova

**Question:**

Ms Anderson, we were talking before about the \$20 million that is being paid to the Northern Territory government. Do you have a breakdown of what was achieved in the Northern Territory for that \$20 million against that milestone achievement?

**Answer:**

The milestone that triggered the \$20 million payment to the Northern Territory Government was 'Site Services Commence'. Works ordinarily required in a greenfield site for this milestone include works to commence on connections to water, sewerage, telecommunications and power services. None of these services were in place at the site selected by the Northern Territory Government.
