**Outcome Number: 2.4 Support for Child Care System      Question No: SQ15-000118**

**Topic: Child Care**

**Hansard page:**

**Senator Lines, Sue asked:**

How many services are receiving funding under the National Occasional Care Program? Can the Department provide a list of services? Which services have received increased funding as a result of the Government's decision to expand the program?

**Answer:**

The National Occasional Care Programme is a National Partnership. The allocation of places to services is a matter for participating state and territory governments to determine.
