**Senator Claire Moore** asked:

Senator MOORE: Minister, are the recommendations of that council going to be made public in terms of the work they have done and the assessments and information they are providing?

Senator Fierravanti-Wells: Rather than recommendations, if I can put it that way, they have provided us with in some areas simply an analysis of where things are and where we could progress. At this stage, there has been no decision made in relation to that.

Senator MOORE: Can we put on notice, as you well know the system, to let the minister know that we would be interested in seeing any of the work that comes out of that council.

Senator Fierravanti-Wells: Certainly.

**Answer:**

The decision to provide details on this work is a matter for Government.
