6	NEHTA (e-Health/ Outcome 10.2)	BOYCE, Sue	LP	Health Identifier (HI) System	Previously I have asked for the risk assessment done for the individual health identifier system. In response I was supplied with an 'answer' that dealt with the risk assessment of the 'HI' system which is not the same thing and not what I asked for. To make it plain I make the following request; Can you supply me with the risk assessment of the individual health identifier (HI) system? Can you also supply me with the risk assessments done by NEHTA or its delegates, in regard to the Health Identifier?	Written			
7	NEHTA (e-Health/ Outcome 10.2)	BOYCE, Sue	LP	Study Tour	In regard to the answer to previous QON E11-220 from February estimates: How is this study tour on "translational medicine" of direct bearing on the NEHTA work program and what direct benefits were to be achieved firstly, and have been achieved secondly from the US study tour?	Written			
8	NEHTA (e-Health/ Outcome 10.2)	BOYCE, Sue	LP	Study Tour	Have any "trip reports" been filed by the resources participating on the study tour and if so, when may they be published as an outcome for the substantial \$36K investment for 3-days of meetings?	Written			
9	NEHTA (e-Health/ Outcome 10.2)	BOYCE, Sue	LP	Study Tour	Why haven't the principles of 'shared learning's' as enunciated by Peter Fleming and NEHTA executives about "shared learning's" been applied to this and other taxpayer funded overseas travel	Written

14	NEHTA (e-Health/ Outcome 10.2)	BOYCE, Sue	LP	Consumers	What evidence and information does NEHTA possess to substantiate their claim that they have been engaging consistently with consumers on E-Health issues?	Written			
15	NEHTA (e-Health/ Outcome 10.2)	BOYCE, Sue	LP	Consumers	Could you provide the exact numbers of every 'consumer' Nehta has allegedly engaged with in the last 2 years?	Written			
16	NEHTA (e-Health/ Outcome 10.2)	BOYCE, Sue	LP	PCEHR	Does NEHTA believe the DRAFT PCEHR 'Concept of Operation' to be "fit for purpose" in conducting a public engagement and consultation process?	Written			
17	NEHTA (e-Health/ Outcome 10.2)	BOYCE, Sue	LP	PCEHR	When Nehta was recently asked; "How can we be confident that the information in a PCEHR is correct and accurate at the time? The organisations response was less than reassuring saying in part, and I quote, "This is a challenging issue...this is largely dependent on the quality of information provided by healthcare organisations. Experience with shared records in Australia and globally indicate that the quality may be not be high initially..." Doesn't this answer suggest that haven't yet got the answer and that the whole PCEHR idea is just a very early work in progress?	Written			
18	NEHTA (e-Health/ Outcome 10.2)	BOYCE, Sue	LP	Legal Action	In a series of previous Questions on Notice from the estimates of February, 2011, I have sort details of legal action NEHTA has instigated against a former employee, Peter West. I had specifically asked for (a) a detailed breakdown of all costs NEHTA has incurred by taking this action and (b) all the reasons why NEHTA decided to take this action. NEHTA responded by claiming 'legal professional privilege' and declined to supply the information sought. Senior legal advice is unanimous that NEHTA's claim of privilege is utterly incorrect and represents a completely false interpretation of privilege in these circumstances and cannot therefore be so claimed, accordingly I repeat my request for detailed answers to both questions listed above as (a) and (b)?
