1 Some applications are requests for the review of more than one decision.
 2 Data for Q3 of 2011-12 is currently available only up to 23 March 2012 due to implementation of a new computer system at the SSAT.
 3 This is the percentage of all decisions of the one payment type. For example, the percentage of 30.9% for age pension in 2010-11 is 30.9% of all decisions in respect of age pension (not 30.9% of all applications in respect of age pension).
 4 A decision by the SSAT to set aside or vary a decision under review does not necessarily mean that the applicant was successful on the review. The decision of the SSAT is less favourable to an applicant in some cases.

1 Some applications are requests for the review of more than one decision.

2 Data for Q3 of 2011-12 is currently available only up to 23 March 2012 due to implementation of a new computer system at the SSAT.

3 This is the percentage of all decisions of the one payment type. For example, the percentage of 30.9% for age pension in 2010-11 is 30.9% of all decisions in respect of age pension (not 30.9% of all applications in respect of age pension).

4 A decision by the SSAT to set aside or vary a decision under review does not necessarily mean that the applicant was successful on the review. The decision of the SSAT is less favourable to an applicant in some cases.
