National e-Health Transition Authority (NeHTA)

Budget Estimates 2012-13

Question: 34

OUTCOME 10.2: e-Health

Topic: eHealth Software

Senator Boyce asked:

When do you believe that the GP Practice Management software, that was not part of the Wave 1 sites, will be ready and fit for purpose?

Answer:

Upgraded GP desktop software is being used in every eHealth site (i.e both Wave 1 and Wave 2). This software is regularly released by vendors as new functions are built, tested and pass both NEHTA's conformance tests and each vendor's quality assurance processes.
