HEALTH AND AGEING PORTFOLIO

Budget Estimates 2013-14, 5/6 & 7 June 2013

Question: E13-202

OUTCOME: 13 – Acute Care

Topic: National Partnership for Adult Public Dental Services

Type of Question: Hansard Page 38, 5 June 2013

Senator: Furner

Question:

Under the second national partnership agreement, we estimate that about 1.4 million people should be able to be treated, with the same average complexity as the ones that are being treated at the moment. Can you identify the breakdown per state on that?

Answer:

The expected breakdown of people seen by the states and territories for treatment under the National Partnership for Adult Public Dental Services is provided below. This table is subject to change following future negotiations with the states and territories. The evaluation and outcome of the current National Partnership on Treating More Public Dental Patients may also alter the figures below.

	NSW	VIC	QLD	WA	SA	TAS	ACT	NT	Total
Total	458,721	352,802	285,609	151,008	104,020	32,481	23,439	14,623	1,422,702
