Topic: National Industry Development Framework for Community Housing

Hansard Page: Written

Senator Payne asked:

How are the funding and capacity building requirements for each jurisdiction under the NIDF being decided?

Answer:

Funding and capacity building assessments and actions are the responsibility of State and Territory Governments under the National Industry Development Framework for Community Housing (NIDF). The position of the Housing and Homelessness Ministers Advisory Committee and Housing Ministers is that the capacity and maturity of the community housing varies between jurisdictions and as such capacity building requirements need to be assessed and implemented at the jurisdictional level.
