Senator Smith asked:

Has there been a reduction in business flights? What are the estimated savings for each year over the forward estimates?

Answer:

The Department's expenditure on business flights for the period 1 July 2012 to 31 May 2013 is significantly lower than the comparable period in 2011-12.

We anticipate savings will persist into the forward years.

Information on business class flights has been provided in Question 364.
