

Senate Community Affairs Committee

ANSWERS TO ESTIMATES QUESTIONS ON NOTICE

HEALTH PORTFOLIO

Budget Estimates 2014-2015, 2/3 June 2014

Ref No: SQ14-001000

OUTCOME: 1. Population health

Topic: AIHW Funding Information

Type of Question: Hansard Page 74, 3 June 2014

Senator: McLucas, Jan

Question:

I want to help the committee understand that ... there is a proportion of work that you do outside of the Department of Health federally. Could you provide to the committee, without going to great detail, an analysis of the 70 per cent proportion—you have given us a 30 per cent-70 per cent split—of your funding that is coming from the various funding entities?

Answer:

Table: AIHW income by source, 2013–14

	Proportion (%)
Appropriation received from the Australian Government	30.0
Income received for project work undertaken for external agencies	
Australian Government	49.7
Australian, state and territory governments	4.5
State and territory governments	10.5
Other sources	3.5
<i>Sub-total</i>	68.3
Interest and other income	1.7
Total	100.0

Note: Figures for Australian Government departments and agencies exclude income received in the context of multi-party ministerial advisory council-sponsored arrangements to fund project work. This excluded income appears in the figures for Australian, state and territory governments.
