As at 31 May 2015, the department has completed 3,270 Medicare audit, review and compliance cases.

Recommendation 2 has been partially implemented.

As noted in the department's response to the JCPAA (March 2015), the department has drafted an Outcomes Reporting framework which includes the Health Compliance Evaluation Strategy, aimed at assessing the performance and outcomes of the compliance program (including assessment of behavioural change). The framework is expected to be finalised by the end of August 2015.
