OUTCOME 1: Population Health

Topic: INTERGOVERNMENTAL COMMITTEE ON DRUGS

Written Question on Notice

Senator Fierravanti-Wells asked:

Is there intended to be a website for this committee so that interested parties can follow the activities of the Committee?

Answer:

The response has been prepared in reference to the Standing Committee on Alcohol, which is a newly established committee under the Intergovernmental Committee on Drugs.

Work related to the National Drug Strategy is available on the National Drug Strategy website at www.nationaldrugstrategy.gov.au. At this point there are no plans for a dedicated Standing Committee on Alcohol website.
