OUTCOME 1: Population Health

Topic: INTERGOVERNMENTAL COMMITTEE ON DRUGS

Written Question on Notice

Senator Fierravanti-Wells asked:

Do any members of the working group have any other roles with the Commonwealth? Eg being a member of any other advisory committees, or working for, or advising, other agencies such as the NHMRC or the ANPHA?

Answer:

The response has been prepared in reference to the Research and Data Working Group (RDWG), which is a newly established committee under the Intergovernmental Committee on Drugs.

There are representatives from Australian National Preventive Health Agency, the Australian Bureau of Statistics and the Australian Institute of Health and Welfare on the RDWG.
