Supplementary Budget Estimates 2011-2012, 20 October 2011

Question: E11-505

OUTCOME 1: Population Health

Topic: WIND TURBINES

Written Question on Notice

Senator Madigan:

In the interests of transparency which was so sadly lacking the first time around with the NHMRC's Rapid Review with respect to both identities of authors and peer-reviewers, who are the people involved in the writing of the revised literature review?

Answer:

NHMRC is currently in the process of sourcing a relevant expert panel in evidence-based health advice to conduct and write the literature review, as well as appointing a Committee to guide the work.
