**Notes:**

<sup>1</sup> **Residential care** includes flexible residential care places in the: Multi-Purpose Service (MPS) Programme, Aged Care Innovative Pool Programme and the National Aboriginal and Torres Strait Islander Flexible Aged Care Programme which are notionally allocated as high care and low care residential care places.

<sup>2</sup> **Home care** (High care) includes Home care Level 3 and Level 4 places only. Home care (Low care) includes Home care Level 1 and Level 2 places and the flexible Home care places in the: Multi-Purpose Service (MPS) Programme, Aged Care Innovative Pool Programme and the National Aboriginal and Torres Strait Islander Flexible Aged Care Programme.

**Note:** The ratios in the above table were calculated using revised population projections for June 2014 which are based on the 2011 ABS Census of Population and Housing. These population projections are customised projections prepared for the Department of Social Services (DSS) by the ABS, according to the assumptions agreed to by DSS. Due to rounding, individual ratios may not sum to the totals. For example, if you add the residential 'high care' and 'low care' ratios you may get a slightly different figure to the one shown for the 'Total residential'.
