Question No: 139

NBN Co Limited

Hansard Ref: Page 123, 28/02/2017

Topic: Fibre distribution point

Senator Chisholm, Anthony asked:

Senator CHISHOLM: [inaudible] of the fibre to the distribution point, and I can get a sense of Mr Morrow's excitement. I have a couple more to finish off on that. In terms of what they are using for the fibre distribution point, is it VDSL2?

Mr Morrow: It is—today. The initial application will be.

Senator CHISHOLM: Is that using a 17a or a 30a profile?

Mr Morrow: We will have to take that on notice. I will ask the team whether they know. We will see if the team knows.

Answer:

Mr Rue answered this question during the hearing on 28 February. Please refer to page 131 of Hansard.
