Answers to Senate Estimates Questions on Notice
Additional Estimates February 2017
Communications Portfolio
NBN Co Limited

Question No: 180

NBN Co Limited

Hansard Ref: Written, 14/03/2017

Topic: Distribution of FTTN/B premises across states

Senator Urquhart, Anne asked:

Please complete the following table

Footprint	FTTN/B premises in 2016 Corporate Plan	FTTN/B premises in 2017 Corporate Plan
NSW		
QLD		
VIC		
WA		
SA		
ACT		
NT		
Total	4.5 million	6.1 million

Answer:

nbn has not done this calculation and does not have this breakdown or comparison readily available. To go back to the original data sets and calculate volumes for each technology and jurisdiction would be an unreasonable diversion of resources.

Actual premises volumes can be sourced from the publicly available weekly progress report available on the nbn website (<http://www.nbnco.com.au/corporate-information/about-nbn-co/corporate-plan/weekly-progress-report.html>). Information at a national level will be updated in the Corporate Plan 2018.
