

**Senate Standing Committee on Environment and Communications**  
**Answers to Senate Estimates Questions on Notice**  
**Additional Estimates February 2017**  
**Communications Portfolio**  
**NBN Co Limited**

**Question No: 183**

**NBN Co Limited**

**Hansard Ref: Written, 14/03/2017**

**Topic: Distribution of FTTH premises across states**

**Senator Urquhart asked:**

Please complete the following table

<b>Footprint</b>	<b>FTTH premises in 2016 Corporate Plan</b>	<b>FTTH premises as of 1 March 2017</b>
NSW		
QLD		
VIC		
WA		
SA		
ACT		
NT		
Total		

**Answer:**

nbn has not done this calculation and does not have this breakdown or comparison readily available. To go back to the original data sets and calculate volumes for each technology and jurisdiction would be an unreasonable diversion of resources.

Actual premises volumes can be sourced from the publicly available weekly progress report available on the nbn website (<http://www.nbnco.com.au/corporate-information/about-nbn-co/corporate-plan/weekly-progress-report.html>). Information at a national level will be updated in the Corporate Plan 2018.
