Additional Estimates February 2017
Communications Portfolio
NBN Co Limited

Question No: 195

NBN Co Limited

Hansard Ref: Written, 14/03/2017

Topic: HFC cost per premise

Senator Urquhart, Anne asked:

In response to QON 144 of Supplementary Budget Estimates October 2016 NBN Co were asked to confirm the estimated CPP for HFC deployment in the Telstra footprint. NBN Co responded with what appears to be the CPP figure for the general HFC footprint. For the sake of clarity please disaggregate CPP in accordance with the following table:

	2016 CP	2017 CP
CPP for deployment of HFC in Telstra footprint	?	?
CPP for deployment of HFC in Optus footprint	?	?
Overall CPP for HFC footprint	\$1,800	\$2,300

Answer:

The assumptions underlying the Corporate Plan 2017 for HFC did not have a materially different CPP build cost for the Optus versus Telstra HFC networks. The expected CPP for the Telstra network remains at \$2300.
